Privacy Notice

We are committed to protecting and respecting your privacy and will use your personal data only after obtaining your consent to the collection and processing of your personal data on the terms specified below.

Please read this Notice carefully before you use Art Toon ("App/services"). By downloading or using App, you agree to this Notice which explains when, where, how and why we collect personal data about you, how we use the data, the conditions under which we may disclose it to others, your rights in respect of your personal data, as well as how we keep it secure. If you do not feel comfortable with any part of this Notice, you must not download, use or access our App.

Updates to this Notice

We reserve the right to update this Notice from time to time. If we make a material change to this Notice, we will strive to notify you by displaying a notice on our Services. By continuing to use the App after the changes become effective, you are agreeing to be bound by the revised Notice.

Data collected from you

The categories of personal data we collect depend on how you interact with us, our Services and the requirements of applicable law. We collect data that you provide to us, information we obtain automatically when you use our Services, and data from other sources such as third-party services and organizations.

If you refuse to provide any personal data, you will not be able to use the main functions of the application, such as Face-Swapping function.

1. Face Data Policy

(a) Face data we collect. We analyze your photos and find out the feature points (like eyes, nose, mouth points) of the face in photo for face processing purpose. We do not collect face data. After the analyzing process ends all data will be deleted, no data will be saved.

(b) The purpose of collecting face data. In order to provide Face-Swapping function, the app needs to find out the feature points (like eyes, nose, mouth points). The process of using the Face-Swapping function: (1) You transfer photos to our server.
(2) The server analyzes your photo and returns the result of facial data processing.
(3) The application automatically synthesizes the facial data processing results and materials into the final effect. (4) The final composite photo will be temporarily stored in encrypted storage and permanently deleted after a certain period of time.
After the synthesis process is completed, your photos will be automatically deleted immediately.

(c) Your face data will not be shared with any third parties. The photos you uploaded will be deleted after the analyzing process ends.

2. Data you provide to us.

(a) Profile data (such as profile photo). We may collect the photos, that you upload from your device while using our App. You won't be able to upload content from your camera roll unless we can access your device's camera. These data help us to provide you "change face" function in the App.

(b) Interactive Features. We and others who use our Services may collect personal information that you submit or make available through our interactive features (e.g., the content that you share and social media pages). Any information you provide on the public sections of these features will be considered "public" unless otherwise required by applicable law, and is not subject to the privacy protections referenced herein.

(c) Purchases. We may collect personal information and details associated with your purchases, including payment information. In some cases, you may need to provide us with additional information to verify your identity before completing a

transaction. Any payments made via our Services are processed by third-party payment processors. We do not directly collect or store any payment card information entered through our Services, but we may receive information associated with your payment card information (e.g., your billing details).

(d) Contact information. We may collect personal data, such as email address and phone number when you request information about our Services, register to receive our newsletter or marketing, request customer or technical support, or otherwise communicate with us.

2. Data we collect automatically.

(a) Data about your device. When you use our App, we may collect data about your device, such as device name and operating system, browser type, language, brand, version, model, device ID, advertising ID, MAC address, IMEI, UDID,;

(b) Usage data. When you use our App, we may collect data about your activity within our Services, for example, which pages you have viewed and for how long. We also may collect IP-addresses, the source of the traffic, information regarding the device and operation system, information about your wireless and mobile network connections, unique device identifiers, browser type, language, battery level, and time zone. These data help us to analyze your needs and interests, evaluate effectiveness of our campaigns and improve our App.

(c) Read, modify or delete the contents of your SD card as your instructions. We use this permission so that you can save new pictures to your SD card.

We may collect certain information automatically when you use our Services, such as your Internet protocol (IP) address, user settings, MAC address, cookie identifiers, mobile carrier, mobile advertising and other unique identifiers, browser or device information, location information (including approximate location derived from IP address), Internet service provider, and metadata about the content you provide which can provide details such as the location of where a picture was taken. We may also automatically collect information regarding your use of our Services, such as pages that you visit before, during and after using our Services, information about the links you click, the types of content you interact with, the frequency and duration of your activities, your history of using the app history, and other information about how you use our Services.

3. Tracking Technologies & Cookies.

In order to provide more convenient services, improve the quality of App experience or customize advertisements, we may use Cookies or other technologies (collectively referred to as "Cookies") to store and track information when you visit the App, such as device type, network connection type , the date and time of your visit, etc., please visit AboutCookies.org for more information about cookies.
