Table of contents

Introduction

1. This document provides a definition of the complete set of tables and fields available in the downloadable database produced from the Learning Aim Reference Service (LARS).

2. To allow structural changes to the LARS database within an academic year, the downloads will be identified by a version number. This document describes version '005' which will apply from 1 August 2017. The current version will still be produced until the end of the 2016 to 2017 collection year in October 2017.

3. The latest download for each version is available for download from the [LARS Download](#) page.

4. This document identifies two categories of tables.

    *   Core tables - these hold the main ('base') details relating to learning aims, apprenticeship frameworks, apprenticeship standards, validity rules (for when the record is available for funding) and funding rates.

    *   Reference tables - these hold details of the reference data used within the core tables.

Changes from the 2016 to 2017 version

5. This section outlines the changes that have been made from the 2016 to 2017 funding year structure.

Renamed tables in version 005's structure

6. We have not renamed any tables for version 005.

Deleted tables

7. The tables we have deleted for the version 005 are:

Table name	Description of changes

LARS_SupersedingFrameworks	This table was developed for showing which framework has replaced an older framework - this has not been maintained. The structure is not suitable to indicate Standard replacement of SASE frameworks and it is therefore being deleted.
LARS_UnitQualificationRelationship	This table was not populated so it is being deleted.

Existing tables amended in version 005's structure

8.   The tables we have amended for version 005 are:
