LARS Table and Field Definitions for 2014/15

Table Of Contents

Introduction

This document is intended for use by software suppliers and providers that write their own software, and will give notification of the full set of tables and fields that will be available in the download data for 2014/15 produced from the Learning Aim Reference Service (LARS).

This document has been constructed to define what information will be available via a download for the academic year 2014/2015. The document will identify the following:

- CORE TABLES
  These tables will hold the base details relating to Learning Aims, Frameworks, Validity and Funding Rates.
- REFERENCE TABLES
  These tables will hold details of all the Reference or Look Up data used within the CORE tables.

SUMMARY OF CHANGES BETWEEN DOCUMENT VERSIONS

Publication Control

VERSION	PUBLICATION DATE	CHANGES
1.0	22nd May 2014	Initial version of the download document.
1.1	27th May 2014	LARS_DataGeneration Note added re Modified On / By fields.
		LARS_LearningDeliveryCategory Note added re its current non-populated status.
		LARS_Category_Lookup Description added for field "Target". Created On / By and Modified On / By fields removed to match standard Reference Table structure.
1.2	2nd June 2014	Data Service logo replaced by SFA logo
1.3	23rd June 2014	Field "Section96OtherProvision" added to the LARS_AnnualValue table.
		FrameworkComponentClassCode reference table added
		Duplicate table LARS_SourceURLLinkType_Lookup removed

LARS 2014/2015 TABLE And FIELD Definition - CORE

A number of fields appear on EVERY CORE TABLE, except LARS_DataGeneration which only has "creation details", in the download and these fields have been removed from the table definitions as shown in this document. These fields are:

Field Name	Data Type	Description
Created On	Date/Time	The date and time the record was created.
Created By	Text	The user (or process) which created the record.
Modified On	Date/Time	The date and time the record was last updated.
Modified By	Text	The user (or process) which last updated the record.

LARS_AnnualValue

This table shows, for a Learning Aim, that detail which may be considered to be subject to change over time controlled by the Effective From / To Dates.

Field Name	Data Type	Description
LearnAimRef	Text	Learning Aim Reference
EffectiveFrom	Date	Contents of record applicable from this date.
EffectiveTo	Date	Contents of record applicable to this date.
BasicSkills	Int	Indicates that the learning aim is considered a basic skill relating to achievements in literacy, numeracy and language and counts towards Basic Skills national targets.
BasicSkillsBroadType	Int	A broad categorisation identifying the type of basic skill
BasicSkillsType	Int	A sub-category identifying the type of basic skill (eg Adult literacy, ESOL)
BasicSkillsParticipation	Int	Identifies whether the aim counts towards basic skills participation targets
FullLevel2EntitlementCategory	Int	A code to indicate the category or 'family' to which the learning aim belongs for the purpose of assessing how far the aim contributes to a Full level 2
FullLevel2Percent	Decimal	The percentage of a Full Level 2 to which a learning aim contributes
FullLevel3EntitlementCategory	Int	A code to indicate the category or 'family' to which the learning aim belongs for the purpose of assessing how far the aim contributes to a Full level 3
FullLevel3Percent	Decimal	The percentage of a Full Level 3 to which a learning aim contributes
MI_FullLevel2	Int	The aim contributes to Full Level 2 for MI purposes.
MI_FullLevel2Percent	Decimal	The aim's Full Level 2 percentage contribution for MI purposes.
MI_FullLevel3	Int	The aim contributes to Full Level 3 for MI purposes.
MI_FullLevel3Percent	Decimal	The aim's Full Level 3 percentage contribution for MI purposes.
Section96Valid16to18	Int	Records whether the learning aim is valid for 16 - 18 age group in accordance with section 96 funding status
Section96Valid18plus	Int	Records whether the learning aim is valid for 18 plus age group in accordance with section 96 funding status.

Field Name	Data Type	Description
Section96ApprovalStatus	Int	The Section 96 Approval status of the learning aim
Section96ApprovalStartDate	Date	The start date of Section 96 approval for the learning aim.
Section96ReviewDate	Date	The date at with the approval under Section 96 will be reviewed.
Section96Valid19plus	Int	Records whether the learning aim is valid for 18 plus age group in accordance with section 96 funding status.
Section96ValidPre16	Int	Records whether the learning aim is valid for pre 16 age group in accordance with section 96 funding status
Section96OtherProvision	Int	MI analysis of approved S96 qualifications
SfaApprovalStatus	Int	Shows the status of this aim in the Skills Funding Agency Approval process
UKCESSector	Int	From UKCES. Identifies a sector (e.g. Healthcare) to which the learning aim belongs.
UKCESSubSector	Text	From UKCES. Identifies a list of subsectors to which the learning aim belongs.

LARS_DataGeneration

This table defines when the database was generated for use. Please note that as this record is generated when a download is created it has no concept of allowing amendment to its content so does no contain Modified On / By data fields.

Field Name	Data Type	Description
DataGeneratedOn	DateTime	Date and Time that this particular extracted dataset was generated.
Description	Text	The description of the LARS version
Comment	Text	If present may contain comments re the production of the dataset.

LARS_Framework

This table shows the details for a particular Framework held within the system.
A record in this table is uniquely identified by a combination of:
- FworkCode
- ProgType
- PwayCode

Field Name	Data Type	Description
FworkCode	Int	Identify the framework within that family.
ProgType	Int	Code to identify which family this framework belongs to.
PwayCode	Int	Apprenticeship Pathway within the Apprenticeship
PathwayName	Text	Apprenticeship Pathway description
EffectiveFrom	Date	Effective from date for this record
EffectiveTo	Date	Effective to date for this record (or Null if no date has been set yet).

Field Name	Data Type	Description
SectorSubjectAreaTier1	Decimal	The broad (Tier 1) classification of the subject of the Framework within the QCA Sector Subject Area classification system.
SectorSubjectAreaTier2	Decimal	The broad (Tier 2) classification of the subject of the Framework within the QCA Sector Subject Area classification system.
DataSource	Text	Code to identify the Data Source of the Framework.
NASTitle	Text	Title as set by NAS for the Framework
ImplementDate	Date	Date on which the framework was implemented.
IssuingAuthorityTitle	Text	Title as set by the Issuing Authority for the Framework
IssuingAuthority	Text	Code to identify the Issuing Authority of the Framework.
DataReceivedDate	Date	Date on which the Framework was received for processing.
MI_FullLevel2	Int	The aim contributes to Full Level 2 for MI purposes.
MI_FullLevel2Percent	Decimal	The aim's Full Level 2 percentage contribution for MI purposes.
MI_FullLevel3	Int	The aim contributes to Full Level 3 for MI purposes.
MI_FullLevel3Percent	Decimal	The aim's Full Level 3 percentage contribution for MI purposes.
CurrentVersion	Text	Version of the Framework as supplied by the Issuing Authority

LARS_FrameworkAims

This table shows the Learning Aims that are associated with a particular Framework.
A record in this table is uniquely identified by a combination of:
- FworkCode
- ProgType
- PwayCode
- LearnAimRef

Field Name	Data Type	Description
FworkCode	Int	Identify the framework within that family.
ProgType	Int	Code to identify which family this framework belongs to.
PwayCode	Int	Apprenticeship Pathway within the Apprenticeship
LearnAimRef	Text	Learning Aim Reference
EffectiveFrom	Date	Effective from date for this record
EffectiveTo	Date	Effective to date for this record (or Null if no date has been set yet).
FrameworkComponentType	Int	What type of component within a framework is this aim? eg. Technical Certificate.

LARS_FrameworkCmnComp

This table defines the allowed Common Components that can be utilised within a Framework.
A record in this table is uniquely identified by a combination of:

- FworkCode
- ProgType
- PwayCode
- CommonComponent

Field Name	Data Type	Description
FworkCode	Int	Identify the framework within that family.
ProgType	Int	Code to identify which family this framework belongs to.
PwayCode	Int	Apprenticeship Pathway within the Apprenticeship
CommonComponent	Int	Identifies the type of Common Component (eg: Functional Skill)
EffectiveFrom	Date	Effective from date for this record
EffectiveTo	Date	Effective to date for this record (or Null if no date has been set yet).
MinLevel	Text	Minimum level applicable to the Common Component within this Framework.

LARS_Funding

This table shows the Funding Rates associated with a particular Funding Category for a particular Learning Aim.

Field Name	Data Type	Description
LearnAimRef	Text	Learning Aim Reference
FundingCategory	Text	Identifies the Funding Category that this aim relates to.
EffectiveFrom	Date	The date from which this funding detail relates.
EffectiveTo	Date	The date to which this funding detail relates.
RateWeighted	Decimal	The aim's Weighted Funding Rate.
RateUnWeighted	Decimal	The aim's Unweighted Funding Rate
WeightingFactor	Text	The aim's Funding Rate Weighting Factor

LARS_LearningDelivery

This table shows data relating to a Learning Aim held within the system.
Please note that the old LAD/LARA FLAGS have been replaced by individually named fields
on the table.

Field Name	Data Type	Description
LearnAimRef	Text	Learning Aim Reference
EffectiveFrom	Date	Date the Learning Aim is effective from.
EffectiveTo	Date	Date the Learning Aim is effective to.
LearnAimRefTitle	Text	The full title associated with the learning aim.
LearnAimRefType	Text	The learning Aim type associated with the Learning Aim

Field Name	Data Type	Description
NotionalNVQLevel	Text	A level on the NVQ scale for all learning aims. Enables learning aims to be analysed against the NVQ scale. Levels 4 and 5 continue to reflect their original (ie pre 0405) values.
NotionalNVQLevelv2	Text	A level on the NVQ scale for all learning aims. Enables learning aims to be analysed against the NVQ scale. Notional Levels revised 2004 (v2) to expand levels 4 and 5 to levels 4 – 8.
AwardOrgAimRef	Text	The Learning Aim's Awarding Organisation aim reference.
CertificationEndDate	Date	The date on which the Learning Aim ceased or will cease to be certificated.
OperationalStartDate	Date	Operational Start Date field from Ofqual (or other sources if relevant)
OperationalEndDate	Date	Operational End Date field from Ofqual (or other sources if relevant)
EnglandFEHEStatus	Text	A code used to indicate whether the learning aim is appropriate to Further Education or Higher Education.
CreditBasedFwkType	Int	Code to represent the Credit Based Framework type associated with this learning aim.
QltyAssAgencyType	Int	Code to indicate the QAA Type for this learning aim.
OfqualGlhMin	Int	Minimal GLH value as defined by OFQUAL for this Learning Aim.
OfqualGlhMax	Int	Maximum GLH value as defined by OFQUAL for this Learning Aim.
DiplomaLinesOfLearning	Text	Diploma Line of Learning (for Diplomas and Principal Learning qualifications)
FrameworkCommonComponent	Int	Identifies the type of Common Component (eg: Functional Skill) for use within a Framework. NB – the actual lookup table for this field is "CommonComponent_Lookup"
LTRCPWithProviderUpliftFactor	Int	Aim is specific to LTRC provision (and has a provider factor uplift applied).
EntrySubLevel	Text	Where known, hold the sub-entry levels of an Entry Level aim. This can be a combination (eg. "Entry 2 + Entry 3") as well as single values.
SuccessRateMapCode	Text	A code used to group learning aims together in a hierarchy for the purpose of analysis / benchmarking
AccreditedNotDfESApproved	Int	Accredited, not currently approved under Section 96. Was FLAG10
AccreditedMayPossDfESApproved	Int	Aim is one which is accredited but will not be approved under Section 96. Was FLAG13

Field Name	Data Type	Description
JointInvestmentProgrammeOnly	Int	This provision is NOT defined as normal TTG and can ONLY be used within the Joint Investment Programme. Was FLAG16
OLASSOnly	Int	This aim is only funded for adults within OLASS, Offer for the Unemployed and Apprenticeships (where part of the SASE framework specification). Was FLAG17
UnemployedOnly	Int	JSA, ESA (WRAG) and those unemployed learners in receipt of Universal Credit mandated to provision. Was FLAG18
IndependentLivingSkills	Int	Identifies if the Aim is an Independent Living Skills course.
AdditionalOrSpecialistLearning	Int	The Aim is Additional or Specialist learning within one or more 14-19 diplomas
EngPrscID	Int	A code used to identify higher education learning aims that are prescribed, as defined by the Education (Prescribed Courses of Higher Education) (Wales) (Amendment) Regulations 1998.
Vocational	Int	The learning Aim is a Vocational qualification.
AwardOrgCode	Text	A code used to identify the Awarding Organisation associated with the Learning Aim.
UnitType	Text	The Learning Aim's UNIT type.
LearningDeliveryGenre	Text	The genre the learning delivery belongs to (Prescribed HE, Generic Class Code, QAA Regulated Qualification, OfQual Regulated Qualification, OfQual Regulated Unit).
ApprovedEmployerSchemeFramework	Int	The Learning Aim is for use only on the designated Approved Employer Scheme Was FLAG12
FrameworkComponentClassCode	Int	The Learning Aim is a framework completion class code. Was FLAG11
OfQualOfferedEngland	Int	Offered in England Flag as defined by OFQUAL for this Learning Aim.
OfqualPurpose	Text	The Learning Aims' Purpose as defined by OFQUAL.
OfqualSubPurpose	Text	The Learning Aims' Sub-Purpose(s) as defined by OFQUAL.
RgltnStartDate	Date	The Learning Aim's Regulated start date as appropriate.
SourceQualType	Text	The learning Aim's source qualification type.
SourceSystemRef	Text	Identifier for the learning aim that was provided by the data source (e.g. the Ofqual reference or QAA reference).
SourceURLRef	Text	The source system's URL for this Learning Aim.
SourceURLLinkType	Int	The Learning Aim's source URL type.
OccupationalIndicator	Int	The Learning Aim is an Occupational

Field Name	Data Type	Description
		Learning Aim.
AccessHEIndicator	Int	The Learning Aim is an Access to HE aim.
KeySkillsIndicator	Int	The Learning Aim is a Key Skills aim.
FunctionalSkillsIndicator	Int	The Learning Aim is a Functional Skills aim.
GCEIndicator	Int	The Learning Aim is a GCE aim.
GCSEIndiactor	Int	The Learning Aim is a GCSE aim.
ASLevelIndicator	Int	The Learning Aim is an AS Level aim.
A2LevelIndicator	Int	The Learning Aim is an A2 Level aim.
ALevelIndicator	Int	The Learning Aim is an A Level aim.
QCFIndicator	Int	The Learning Aim is a Qualifications and Credit Framework (QCF) aim.
QCFDiplomaIndicator	Int	The Learning Aim is a QCF Diploma aim.
QCFCertificateIndicator	Int	The Learning Aim is a QCF Certificate aim.
EFAEnglishGCSE	Int	The Learning Aim is an EFA approved English GCSE aim.
EFAMathsIndicator	Int	The Learning Aim is an EFA approved Maths GCSE aim.
SFAFundedIndicator	Int	The Learning Aim is, or will be, funded by the SFA.
DanceandDramaIndicator	Int	The Learning Aim is a Dance / Drama aim.
AvailabilityStatus	Int	Indicated the Learning Aim's availability for further processing.
Notes	Text	Public Notes / Comments to indicate any relevant information relating to the Learning Aim.
LearnDirectClassSystemCode1	Text	Code to represent the subject areas for the Learning Aim using the learning Directory Classification System (LDCS).
LearnDirectClassSystemCode2	Text	Code to represent the subject areas for the Learning Aim using the learning Directory Classification System (LDCS).
LearnDirectClassSystemCode3	Text	Code to represent the subject areas for the Learning Aim using the learning Directory Classification System (LDCS).
RegulatedCreditValue	Int	The Learning Aim's credit value within a regulated credit framework.
SectorSubjectAreaTier1	Decimal	The broad (Tier 1) classification of a learning Aim within the QCA Sector Subject Area classification system.
SectorSubjectAreaTier2	Decimal	The more detailed (Tier 2) classification of a learning Aim within the QCA Sector Subject Area classification SYSTEM.
MI_NotionalNVQLevel	Int	A level on the NVQ scale for all learning aims. Enables learning aims to be analysed against the NVQ scale. Levels 4 and 5 continue to reflect their original (ie pre 0405) values.
MI_NotionalNVQLevelv2	Int	A level on the NVQ scale for all learning aims. Enables learning aims to be analysed against the NVQ scale. Notional Levels revised 2004 (v2) to expand levels 4 and 5 to levels 4 – 8 for MI

Field Name	Data Type	Description
		purposes.

LARS_LearningDeliveryCategory

This table allows various analysis categories to be associated with individual Learning Aims.
Please note that this table is not being populated at present and is for future use.

Field Name	Data Type	Description
LearnAimRef	Text	Learning Aim Reference
CategoryRef	Int	Code to represent the categorisation of the Learning Aim.
EffectiveFrom	Date	Date from which the categorisation is effective.
Effective To	Date	Date to which the categorisation is effective.

LARS_SupersedingAims

This table records whether a learning aim is superseded or preceded by one or more learning aims.

Field Name	Data Type	Description
OldlearnAimRef	Text	Learning Aim Reference for the aim being superseded.
NewLearnAimRef	Text	Learning Aim Reference for the aim that is the superseding aim.

LARS_SupersedingFrameworks

This table records whether a framework is superseded or preceded by one or more frameworks.
A record in this table is uniquely identified by a combination of:
- OldFworkCode
- OldprogCode
- OldPwayCode
- NewFworkCode
- NewProgType
- NewPwayCode

Field Name	Data Type	Description
OldFworkCode	Int	Framework code of a superseded Framework.
OldProgType	Int	Framework type code of a superseded Framework.
OldPwayCode	Int	Apprenticeship Pathway code of a superseded Framework.
NewFworkCode	Int	Framework code of the superseding framework.
NewProgType	Int	Framework type code of the superseding framework.
NewPwayCode	Int	Apprenticeship Pathway code of the superseding Framework.

LARS_UnitQualificationRelationship

This table shows when which UNITS are related to which Learning Aims.

Field Name	Data Type	Description
UnitLearnAimRef	Text	The Learning Aim Reference of the UNIT
QualificationLearnAimRef	Text	The Learning Aim reference of the associated Qualification.
EffectiveFrom	Date	The date from which the relationship is effective.
EffectiveTo	Date	The date to which this relationship is effective.

LARS_Validity

This table shows when a Learning Aim can be offered for a particular Validity Category.

Field Name	Data Type	Description
LearnAimRef	Text	Learning Aim Reference
ValidityCategory	Text	Identifies the Validity Category that this aim relates to.
StartDate	Date	Identifies when this aim is first valid for the particular Validity Category.
EndDate	Date	Identifies when this aim is no longer valid for the particular Validity Category.
LastNewStartDate	Date	No new starts are permitted after this date for this aim on this category.

LARS_Version

This table identifies the version of the database being used.

Field Name	Data Type	Description
Number	Int	Version Number of the published database.
MainDataSchemaName	Text	The name of the schema applicable to the core data.
RefDataSchemaName	Text	The name of the schema applicable to the reference data.
ActivationDate	Date	The date this version became active.
ExpiryDate	Date	The date this version becomes inactive.
Description	Text	A description of the version.
Comment	Text	Comments relating to this particular version.

LARS 2014/2015 TABLE And FIELD Definition - REFERENCE

The structure of the REFERENCE tables contained in the download database is of a common format which is detailed below.
If any REFERENCE table does not follow this structure it will be defined in detail.

All reference tables have a naming convention of "LARS_ReferenceTable_Lookup" where "ReferenceTable" is the name of the particular reference / lookup field. Each table contains the following fields with "ReferenceTable" replaced by the relevant field name.

Field Name	Data Type	Description
ReferenceTable	Int	ReferenceTable code.
ReferenceTableDesc	Text	Description of the ReferenceTable code.
ReferenceTableDesc2	Text	Short description for the ReferenceTable code.
EffectiveFrom	Date	Identifies the date from which the particular reference / lookup code is valid.
EffectiveTo	Date	Identifies the date to which the particular reference / lookup code is valid.

LARS_A2LevelIndicator_Lookup

This table defines the allowed A2levelIndicator codes for use within LARS.

LARS_AcademicYear_Lookup

This table defines the allowed Academic Year codes for use within LARS.

Field Name	Data Type	Description
AcademicYear	Int	Academic Year code
AcademicYearDesc	Text	Description of the Academic Year code.
AcademicYearDesc2	Text	Short description of the Academic Year code.
StartDate	Date	Start Date for the Academic Year.
EndDate	Date	EndDate for the Academic Year.
EffectiveFrom	Date	Identifies the date from which the particular Academic Year code is valid.
EffectiveTo	Date	Identifies the date to which the particular Academic Year code is valid.

LARS_AccessHEIndicator_Lookup

This table defines the allowed AccessHEIndicator codes for use within LARS.

LARS_AccreditedNotDfEApproved_Lookup

This table defines the allowed AccreditedNotDfEApproved codes for use within LARS.

LARS_AccreditedMayPossDfEApproved_Lookup

This table defines the allowed AccreditedMayPossDfEApproved codes for use within LARS.

LARS_AdditionalorSpecialistLearning_Lookup

This table defines the allowed AdditionalorSpecialistLearning codes for use within LARS.

LARS_ALevelIndicator_Lookup

This table defines the allowed ALevelIndicator codes for use within LARS.

LARS_ApprovedEmployerSchemeFramework_Lookup

This table defines the allowed ApprovedEmployerSchemeFramework codes for use within LARS.

LARS_ASLevelIndicator_Lookup

This table defines the allowed ASLevelIndicator codes for use within LARS.

LARS_AwardOrgCode_Lookup

This table defines the allowed Awarding Organisation codes for use within LARS.

Field Name	Data Type	Description
AwardOrgCode	Text	Awarding Organisation code
AwardOrgUKPRN	Int	Awarding Organisation UKPRN value
AwardOrgName	Text	Awarding Organisation Name
AwardOrgShortName	Text	Short name for the Awarding Organisation
AswardOrgAcronym	Text	The acronym used for the Awarding Organisation
AwardOrgNonExtant	Text	Y indicates that the Awarding Organisation is no longer in operation.
AwardOrgNotes	Text	Comments / Details relating to the Awarding Organisation such as mergers, name changes.
EffectiveFrom	Date	Identifies the date from which the particular Awarding Organisation code is valid.
EffectiveTo	Date	Identifies the date to which the particular Awarding Organisation code is valid.

LARS_BasicSkills_Lookup

This table defines the allowed Basic Skills codes for use within LARS.

LARS_BasicSkillsBroadType_Lookup

This table defines the allowed Basic Skills Broad Type codes for use within LARS.

LARS_BasicSkillsParticipation_Lookup

This table defines the allowed Basic Skills participation codes for use within LARS.

LARS_BasicSkillsType_Lookup

This table defines the allowed Basic Skills Type codes for use within LARS.

LARS_Category_Lookup

This table defines the allowed Category codes for use within LARS.
Please note that this table is at present empty and is planned for future use.

Field Name	Data Type	Description
CategoryRef	Int	Category Reference code
CategoryName	Text	Name of the Category Reference
Target	Text	Identifies the actual usage of the Category.
EffectiveFrom	Date	Identifies the date from which the Category code is valid.
EffectiveTo	date	Identifies the date to which the Category code is valid.

LARS_CommonComponent_Lookup

This table defines the allowed Common Component codes for use within LARS.

LARS_CreditBasedFwkType_Lookup

This table defines the allowed Credit Based Framework Type codes for use within LARS.

LARS_DanceandDramaIndicator_Lookup

This table defines the allowed Dance and Drama Indicator codes for use within LARS.

LARS_DataSource_Lookup

This table defines the allowed Data Source codes for use within LARS.
N.B. The field type for the Data Source code is Text and not Int.

LARS_DiplomaLinesOfLearning_Lookup

This table defines the allowed Diploma Lines of Learning codes for use within LARS.
N.B. The field type for the Diploma Lines Of Learning code is Text and not Int.

LARS_EnglandFEHEStatus_Lookup

This table defines the allowed England FE/HE Status codes for use within LARS.
N.B. The field type for the England FE/HE Status code is Text and not Int.

LARS_EngPrscID_Lookup

This table defines the allowed England prescribed ID codes for use within LARS.

LARS_EntrySubLevel_Lookup

This table defines the allowed Entry Sub Level codes for use within LARS.
N.B. The field type for the Entry Sub Level code is Text and not Int.

LARS_FrameworkComponentClassCode_Lookup

This table defines the allowed Framework Component Class codes for use within LARS.

LARS_FrameworkComponentType_Lookup

This table defines the allowed Framework Component Type codes for use within LARS.

LARS_FullLevel2EntitlementCategory_Lookup

This table defines the allowed Full Level 2 Entitlement Category codes for use within LARS.

LARS_FullLevel3EntitlementCategory_Lookup

This table defines the allowed Full Level 3 Entitlement Category codes for use within LARS.

LARS_FunctionalSkillsIndicator_Lookup

This table defines the allowed Functional Skills Indicator codes for use within LARS.

LARS_FundingCategory_Lookup

This table defines the allowed Funding Category codes for use within LARS.
N.B. The field type for the Funding Category code is Text and not Int.

LARS_GCEIndicator_Lookup

This table defines the allowed GCE Indicator codes for use within LARS.

LARS_GCSEIndicator_Lookup

This table defines the allowed GCSE Indicator codes for use within LARS.

LARS_IndependentLivingSkills_Lookup

This table defines the allowed Independent Living Skills codes for use within LARS.

LARS_IssuingAuthority_Lookup

This table defines the allowed Issuing Authority codes for use within LARS.

Field Name	Data Type	Description
Issuing Authority	Int	Issuing Authority code
IssuingAuthorityDesc	Text	Issuing Authority Name
IssuingAuthorityDesc2	Text	Issuing Authority short name.
IssuingAuthorityUKPRN	Int	UKPRN number for the Issuing Authority
EffectiveFrom	Date	Identifies the date from which the particular Issuing Authority code is valid.
EffectiveTo	Date	Identifies the date to which the particular Issuing Authority code is valid.

LARS_JointInvestmentProgrammeOnly_Lookup

This table defines the allowed JointInvestmentProgrammeOnly codes for use within LARS.

LARS_KeySkillsIndicator_Lookup

This table defines the allowed KeySkillsIndicator codes for use within LARS.

LARS_LearnAimRefType_Lookup

This table defines the allowed Learning Aim Reference Type codes for use within LARS.
N.B. The field type for the Learning Aim Reference Type code is Text and not Int.

LARS_LearnDirectClassSystemCode_Lookup

This table defines the allowed Learn Direct Class System codes for use within LARS.
N.B. The field type for the Learn Direct Class System code is Text and not Int.

LARS_LearningDeliveryGenre_Lookup

This table defines the allowed Learning Delivery Genre codes for use within LARS.
N.B. The field type for the Learning Delivery Genre code is Text and not Int.

LARS_LTRCPWithProviderUpliftFactor_Lookup

This table defines the allowed LTRCPWithProviderUpliftFactor codes for use within LARS.

LARS_MI_Fulllevel2Indicator_Lookup

This table defines the allowed MI_FullLevel2Indicator codes for use within LARS.

LARS_MI_Fulllevel3Indicator_Lookup

This table defines the allowed MI_FullLevel3Indicator codes for use within LARS.

LARS_MI_NotionalNVQLevel_Lookup

This table defines the allowed MI_NotionalNVQLevel codes for use within LARS.

LARS_MI_NotionalNVQLevelv2_Lookup

This table defines the allowed MI_NotionalNVQLevelv2 codes for use within LARS.

LARS_NotionalNVQLevel_Lookup

This table defines the allowed Notional NVQ Level codes for use within LARS.
N.B. The field type for the Notional NVQ Level code is Text and not Int.

LARS_NotionalNVQLevelv2_Lookup

This table defines the allowed Notional NVQ Level codes for use within LARS.
N.B. The field type for the Notional NVQ Levelv2 code is Text and not Int.

LARS_OccupationalIndicator_Lookup

This table defines the allowed OccupationalIndicator codes for use within LARS.

LARS_OfQualOfferedEngland_Lookup

This table defines the allowed Ofqual Offered In England codes for use within LARS.

LARS_OfqualPurpose_Lookup

This table defines the allowed Ofqual Purpose codes for use within LARS.
N.B. The field type for the Ofqual Purpose code is Text and not Int.

LARS_OfqualSubPurpose_Lookup

This table defines the allowed Ofqual Sub Purpose codes for use within LARS.
N.B. The field type for the Ofqual Sub Purpose code is Text and not Int.

LARS_OLASSOnly_Lookup

This table defines the allowed OLASS Only codes for use within LARS.

LARS_ProgType_Lookup

This table defines the allowed Programme Types codes for use within LARS.

LARS_QCFCertificateIndicator_Lookup

This table defines the allowed QCFCertificateIndiactor codes for use within LARS.

LARS_QCFDiplomaIndicator_Lookup

This table defines the allowed QCFDiplomaIndicator codes for use within LARS.

LARS_QCFIndicator_Lookup

This table defines the allowed QCFIndicator codes for use within LARS.

LARS_QltyAssAgencyType_Lookup

This table defines the allowed QAA Type codes for use within LARS.

LARS_Section96ApprovalStatus_Lookup

This table defines the allowed Section96ApprovalStatus codes for use within LARS.

LARS_Section96OtherProvision_Lookup

This table defines the allowed Section96OtherProvision codes for use within LARS.

LARS_Section96Valid16to18_Lookup

This table defines the allowed Section96Valid16to18 codes for use within LARS.

LARS_Section96Valid18plus_Lookup

This table defines the allowed Section96Valid18plus codes for use within LARS.

LARS_Section96Valid19plus_Lookup

This table defines the allowed Section96Valid19plus codes for use within LARS.

LARS_Section96ValidPre16_Lookup

This table defines the allowed Section96ValidPre16 codes for use within LARS.

LARS_SectorSubjectArea_Lookup

This table defines the allowed Sector Subject Area codes for use within LARS.

Field Name	Data Type	Description
SectorSubjectAreaTier1	Decimal	Sector Subject Area (Tier 1) code
SectorSubjectAreaTier1Desc	Text	Sector Subject Area (Tier 1) code description
SectorSubjectAreaTier1Desc2	Text	Sector Subject Area (Tier 1) code description short name.
SectorSubjectAreaTier1_EffFrom	Date	Identifies the date from which the particular Sector Subject Area (Tier 1) code is valid.
SectorSubjectAreaTier1_EffTo	Date	Identifies the date to which the particular Sector Subject Area (Tier 1) code is valid.
SectorSubjectAreaTier2	Decimal	Sector Subject Area (Tier 2) code
SectorSubjectAreaTier2Desc	Text	Sector Subject Area (Tier 2) code description
SectorSubjectAreaTier2Desc2	Text	Sector Subject Area (Tier 2) code description short name.
SectorSubjectAreaTier2_EffFrom	Date	Identifies the date from which the particular Sector Subject Area (Tier 2) code is valid.
SectorSubjectAreaTier2_EffTo	Date	Identifies the date to which the particular Sector Subject Area (Tier 2) code is valid.

LARS_SectorSubjectAreaTier1_Lookup

This table defines the allowed Sector Subject Area (Tier 1) codes for use within LARS.
N.B. The field type for the Sector Subject Area (Tier 1) code is Decimal and not Int.

LARS_SectorSubjectAreaTier2_Lookup
