

Viper 551 Optical Gaming Mouse

Experience the power of absolute control in your hand no matter how intense the game is! The Viper V551 RGB gaming mouse lets you customize its full RGB spectrum lighting throughout its strikingly colorful LED multi-zones to match your personal setup. In addition, it features 7 handy, programmable macro buttons to cover all your gaming needs. The V551 is equipped with PixArt's advanced 3327 optical sensor and adjustable up to 6,200 DPI. Paired with our Viper Software users have changeable options of up to 12,000 DPI that can easily be managed between your personalized profiles at a click of a button, giving you the edge needed to excel during gameplay. Its true tracking at 220 IPS and polling rate of 1,000Hz, grants you the absolute advantage in real and sensitive response time during your long- fierce matches.

In addition to the ergonomic design, large PTFE glide pads, and sturdy 1.8-meter braided cord, the V551 Mouse allows for engaging performance and speed over any surface. The V551 is backed by a two year warranty and compatible with all up to date operating systems.
