

 MacBook Pro

## Welcome to your MacBook Pro

Let's begin. MacBook Pro will automatically start up when you lift the lid. Setup Assistant will then guide you through a few simple steps to get you up and running. It will walk you through connecting to your Wi-Fi network, creating a user account, setting up Touch ID and Apple Pay, and enabling Siri. It can also transfer your documents, photos, music, and more to your new MacBook Pro from another Mac or PC.

You can sign in with your Apple ID in Setup Assistant. This sets up your account in the App Store and the iTunes Store, and in apps like Messages and FaceTime. It also sets up iCloud, so apps such as Mail, Contacts, Calendar, and Safari all have your latest information. If you don't have an Apple ID, you can create one in Setup Assistant.

Thunderbolt 3 (USB-C)

Charge MacBook Pro and connect external storage or an external display

Headphone

Touch Bar

FaceTime HD camera

Touch ID (power button)

Force Touch trackpad

## Get to know your desktop

Your MacBook Pro desktop lets you find everything and do anything. Keep the apps you use most in the Dock at the bottom of the screen. Open System Preferences to customize your desktop and other settings. Click the Finder icon to get to all your files and folders.

The menu bar at the top provides useful information about your MacBook Pro. To check the status of your wireless Internet connection, click the Wi-Fi icon. Siri is always ready to help you find information, locate files, and accomplish a variety of tasks on your Mac just by using your voice.

## Use the Touch Bar and Touch ID

The Touch Bar at the top of the keyboard dynamically changes based on your current application and activity. You can use familiar gestures such as slide and tap within the bar. Frequently used system controls like volume and brightness are located in the Control Strip on the right side. To expand the Control Strip, tap the arrow (⏏). To collapse it, tap (⊗) on the left.

The Touch ID sensor is located on the right side of the Touch Bar. Once you've set up Touch ID, you can use your fingerprint to unlock your MacBook Pro and make purchases from the App Store, the iBooks Store, the iTunes Store, and many of your favorite websites using Apple Pay.

## Control your Mac with Multi-Touch gestures

You can do a lot on your MacBook Pro using simple gestures on the trackpad. And with built-in pressure-sensing capabilities, the trackpad can distinguish between a light click and a deep press. To learn more, choose System Preferences in the Dock, and then click Trackpad.

- **Click**  
Press anywhere on the trackpad.
- **Secondary click (right click)**  
Click with two fingers to open shortcut menus.
- ↕ **Two-finger scroll**  
Brush two fingers along the trackpad to scroll up, down, or sideways.
- ⟨ ⟩ **Swipe to navigate**  
Swipe with two fingers to flip through web pages, documents, and more.

## **An important note**

Please read this document and the safety information in the *MacBook Pro Info* guide carefully before you first use your computer.

## **Back up your data**

You can back up your MacBook Pro using Time Machine, a built-in backup tool in macOS that works with an external storage device, such as AirPort Time Capsule (sold separately). Open System Preferences and click the Time Machine icon to get started.

## **Learn more**

For help setting up and using your MacBook Pro, refer to the *MacBook Pro Essentials* guide. To view the *MacBook Pro Essentials* guide in iBooks, open iBooks, then search for “MacBook Pro Essentials” in the iBooks Store. You can also find answers to your questions, as well as instructions and troubleshooting information, in Mac Help. Click the Finder icon, click Help in the menu bar, then choose Mac Help.

## **Support**

For detailed support information, go to [www.apple.com/au/support/macbookpro](http://www.apple.com/au/support/macbookpro) or [www.apple.com/nz/support/macbookpro](http://www.apple.com/nz/support/macbookpro).

Or to contact Apple directly, go to [support.apple.com/en-au/contact](http://support.apple.com/en-au/contact) or [support.apple.com/en-nz/contact](http://support.apple.com/en-nz/contact).

## **Restoring your software**

If you have a problem with your MacBook Pro, macOS Utilities can help you restore your software and data from a Time Machine backup or reinstall macOS and Apple apps. To access macOS Utilities, restart your computer while holding down the Command and R keys.

Not all features are available in all areas.
