## Definitions

*These definitions exist for the purpose of this competition and will assist you in placing your artwork in the correct category.*

**Painting** - Applying paint, pigment, color or other medium to a solid surface. The medium is commonly applied to the base with a brush, but other implements, such as knives, sponges, and airbrushes, can be used.

**Drawing/Printmaking** - (Drawing) Using instruments to mark paper or other two-dimensional surfaces. Instruments include graphite, inked brushes, colored pencils, crayons, charcoal, chalk, pastels, erasers, markers, styluses and metals (such as silverpoint). (Printmaking) The process of creating artworks by printing, most commonly on paper, but also on fabric, wood, metal, and other surfaces. Printmaking processes have the capacity to produce identical multiples of the same work and are created using a hand processed technique.

**Sculpture (3D)/Ceramics/Fiber Art** - (Sculpture) Three dimensional art. Sculpture processes include but are not limited to carving, assembling, welding, modelling, moulding, and casting. (Ceramics) Various hard, brittle, heat-resistant and corrosion-resistant materials made by shaping and then firing an inorganic, nonmetallic material, such as clay, at a high temperature. Common examples are earthenware, porcelain, and brick. (Fiber Art) Fine art whose material consists mainly of natural or synthetic fiber and other components such as fabric or yarn. It focuses on the materials and on the manual labor on the part of the artist as part of the works' significance, and prioritizes aesthetic value over utility.

**Photography** - The art, application, and practice of creating durable images by recording light, either electronically by means of an image sensor, or chemically by means of light-sensitive material such as photographic film. For the purpose of this competition, photographs taken with a digital camera are acceptable, but significant digital modification is not allowed in this category. Acceptable modifications include but are not limited to cropping, resizing, slight (10% or less) color correction.

**Digital Arts/Digitally-Manipulated Photography** - (Digital Arts) Artistic practice that uses digital technology as part of the creative or presentation process. (Digitally-Manipulated Photography) Digitally editing a photograph more than 10%. Some examples of digitally-manipulated photography are: using digital filters, manipulating color, saturation, tone, or vibrance more than 10% or in a manner that is not the natural or original color, pixelation, any photoshopping beyond basic edits (cropping, resizing, 10% or less color correction), erasure of elements in photograph, and recombination of images.

**Mixed Media** - Artwork in which more than one differing medium or material has been employed. Assemblages, collages, and certain sculptures are three common examples.

**Jewelry/Metalsmithing** - (Jewelry) Decorative items worn for personal adornment, such as brooches, rings, necklaces, earrings, pendants, bracelets, and cufflinks. Jewelry may be attached to the body or the clothes. Jewelry often contains precious metals in some combination with gemstones or other materials such as shells. (Metalsmithing) The process of creating jewelry through the manipulation of various metals, These manipulations include forming and shaping, sawing, doming, foldforming, drilling, soldering, texturing, stamping, and more.

**Heritage** - In celebration of the 150th year of the Colorado State Fair, we are celebrating heritage; the heritage of the Fair, Colorado, and you! This category may be any medium and must embody heritage.
