

# Allego Enters Into Partnership with Burger King France to Enable Its Restaurants to Provide Ultra-Fast Charging, Reinforcing Allego's Leading Position in France

- Allego and Burger King France are establishing an exclusive partnership following a call for tenders launched by the restaurant chain to install ultra-fast charging stations at locations throughout the country.
- The first sites are expected to be operational by Q3 2024.
- With a network of chargers spanning strategic locations at supermarkets, restaurants, cinemas, and shopping centers, Allego is positioned to be one of the largest destination charging providers across the French market.

ARNHEM, Netherlands--(BUSINESS WIRE)-- Allego N.V. ("Allego" or the "Company") (NYSE: ALLG), a leading pan-European public electric vehicle fast and ultra-fast charging network, and Burger King France, today announced the establishment of a long-term partnership to proliferate electric vehicle (EV) charging in France through the rollout of ultra-fast chargers across Burger King France drive-through and dine-in locations that are not in co-ownership.

Following Burger King France's call for tenders, Allego has been chosen as the partner of choice to enable the installation of ultra-fast charging stations at existing and future Burger King France locations over the next three years; the deployment of charging stations will also depend on the agreement of the various landowners. The partnership has the potential to enable the deployment of a large number ultra-fast charge points across the restaurant's locations in France. The first sites are expected to be operational by Q3 2024 and for easy recognition for the drivers, the chargers will be fitted with both Allego and Burger King branding.

This new partnership is expected to be a significant addition to Allego's network in France where it currently operates a network of 190 ultra-fast charging locations. The Company is also rolling out a network of 4,000 charging points across 400 Carrefour hypermarket locations, Pathé cinemas, Klepierre shopping center and more throughout the country, which positions Allego to be one of the largest destination charging providers across the French market.

Mathieu Bonnet, Chief Executive Officer of Allego, said, "To meet the demand of the ever growing EV market in Europe, we must swiftly roll out high power chargers in locations that are most convenient for drivers. This sort of growth cannot be achieved alone, so we must work with like-minded partners to support the considerable change brought by e-mobility. Through this partnership, we can make charging more accessible and enjoyable so drivers

can travel with ever greater ease. Allego is reinforcing its position as one of the leading ultra-fast charging networks in France.”

## **About Allego**

Allego is a leading provider of electric vehicle charging solutions, dedicated to accelerating the transition to electric mobility with 100% renewable energy. Allego has developed a comprehensive portfolio of innovative charging infrastructure and proprietary software, including its Allamo and EV Cloud software platforms. With a network of over 35,000 charging points (and counting) spanning 16 countries, Allego delivers independent, reliable, and safe charging solutions, agnostic of vehicle model or network affiliation. Founded in 2013 and publicly listed on the NYSE in 2022, Allego now employs a team of 200 people striving every day to make charging accessible, sustainable, and enjoyable for all.

## **Forward-Looking Statements**

All statements other than statements of historical facts contained in this press release are forward-looking statements. Allego intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. Forward-looking statements may generally be identified by the use of words such as “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” “should,” “would,” “plan,” “project,” “forecast,” “predict,” “potential,” “seem,” “seek,” “future,” “outlook,” “target” or other similar expressions (or the negative versions of such words or expressions) that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements include, without limitation, Allego’s expectations with respect to future performance. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially, and potentially adversely, from those expressed or implied in the forward-looking statements. Most of these factors are outside Allego’s control and are difficult to predict. Factors that may cause such differences include, but are not limited to: (i) changes adversely affecting Allego’s business, (ii) the price and availability of electricity and other energy sources, (iii) the risks associated with vulnerability to industry downturns and regional or national downturns, (iv) fluctuations in Allego’s revenue and operating results, (v) unfavorable conditions or further disruptions in the capital and credit markets, (vi) Allego’s ability to generate cash, service indebtedness and incur additional indebtedness, (vii) competition from existing and new competitors, (viii) the growth of the electric vehicle market, (ix) Allego’s ability to integrate any businesses it may acquire, (x) the agreement of various landowners to deployment of Allego charging stations, (xi) Allego’s ability to recruit and retain experienced personnel, (xii) risks related to legal proceedings or claims, including liability claims, (xiii) Allego’s dependence on third-party contractors to provide various services, (xiv) data security breaches or other network outage, (xv) Allego’s ability to obtain additional capital on commercially reasonable terms, (xvi) Allego’s ability to remediate its material weaknesses in internal control over financial reporting, (xvii) the impact of COVID-19, including COVID-19 related supply chain disruptions and expense increases, (xviii) general economic or political conditions, including the Russia/Ukraine and Israel/Hamas conflicts or increased trade restrictions between the United States, Russia, China and other countries, and (xix) other factors detailed under the section entitled “Risk Factors” in Allego’s filings with the Securities and Exchange

Commission. The foregoing list of factors is not exclusive. If any of these risks materialize or Allego's assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that Allego presently does not know or that Allego currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect Allego's expectations, plans or forecasts of future events and views as of the date of this press release. Allego anticipates that subsequent events and developments will cause Allego's assessments to change. However, while Allego may elect to update these forward-looking statements at some point in the future, Allego specifically disclaims any obligation to do so, unless required by applicable law. These forward-looking statements should not be relied upon as representing Allego's assessments as of any date subsequent to the date of this press release. Accordingly, undue reliance should not be placed upon the forward-looking statements.
