**The Second Governing Board Meeting**

**On Interval between the Governing Board meetings**

Kyoto, 21<sup>st</sup> October

1. As per the Article 5 paragraph 5 of the Agreement, the Governing Board shall be held at least once every two Japanese fiscal years.
2. Under the Japanese fiscal system, IRCI must annually submit proposals of programs to the Ministry of Education, Culture, Sports, Science and Technology and the Agency for Cultural Affairs in February each year in order to obtain budget for the following fiscal year starting from April. Once the proposals are approved by the Ministry and the Agency, IRCI must strictly follow the proposal. Considering inflexibility of the aforementioned process, opinions of the Governing Board members must be reflected on the proposals prior to its submission. IRCI regrettably admits, however, that the long interval between the Governing Board meetings deprived the Centre of opportunity for sufficient consultation with the members of the Board in the past two years.
3. In order to upgrade the transparency of the decision –making on the program and budget of the Centre, the Director-General of the Centre proposes that the Governing Board shall meet once every year.

**The Second Governing Board Meeting**

**Approval of an amendment on Rules of Advisory Board  
and the Rules of Executive Committee of IRCI**

**Decision Required**

**Paragraph 4**

**Kyoto, 21<sup>st</sup> October**

1. As per Article 5 para. 3(d) of the Agreement, the Governing Board shall adopt any necessary internal regulations of the Centre, based on the relevant legislative and regulatory framework relating to NICH.
  
2. Following the decision of the Governing Board on 3rd October 2011, IRCI set up an Advisory Board composed of five academicians in the field of ICH. The Advisory Board, however, has not always functioned in a satisfactory manner due, in part, to the lack of clarity on the terms of reference and the term of each advisor. The Director-General of the Centre therefore proposes an amendment to the relevant rules of NICH in order to streamline the functioning of the board and to embed the Board more clearly in the organization of the Centre's work. In this context, the Director-General of the Centre proposes to increase the number of the advisors from the current ceiling 5 to 8. It will allow the Centre not only to benefit from the knowledge and experience of more advisors, but also to obtain expert views on the reality and the needs of Intangible Cultural Heritage in wider range of the Asia-Pacific region, by selecting advisors from different sub-regions, given the fact that only the People's Republic of China and the Republic of Korea are represented on the Governing Board.
  
3. Draft of the amended version of the relevant rules is attached as ANNEX.
  
4. The Governing Board may wish to adopt the following decision:  
The Governing Board,
  - (1) Having examined the document IRCI/2013/ 2nd GBM/S1E and its annex;
  - (2) Approves the amendment to Rules 86, 87 and 88 of the National Institute of Cultural Heritage.

1. Having examined document IRCI/2013/2. GB/S2 and annex 1, 2;
2. Adopts the report on the Centre's activities and financial statements for FY 2011 and FY 2012.

## ANNEX 1

### Projects Implemented in FY 2011 and FY 2012

#### **1 . Long term and Mid-term programs adopted at the first Governing Board meeting.**

Established on 3 October 2011, IRCI implements international research projects which are in lines with Long-term (2012-2021) and the first Mid-term (2012-2015) programmes, which were approved by the Governing Board at its first meeting on the day of the establishment of the Centre. In accordance with the Long-term mission, our studies cover the following five themes:

- A.** Promotion and Impact of Convention for the Safeguarding of ICH
- B.** The current status of ICH, in particular, research and studies on intangible cultural heritage in urgent need of safeguarding.
- C.** Various records of ICH and their utilization
- D.** Good Practices in Safeguarding of ICH
- E.** Dissemination of information on ICH in cooperation with Sakai City

In order to accomplish research and studies on these five pillars, our approaches comply with the following six policies which are also indicated in Mid-term programme (for more details please see Appendix II):

- a.** Facilitating research practice and methods of safeguarding endangered ICH
- b.** Assisting countries in the Asia Pacific Region in implementing measures in Articles. 11-14 of the 2003 Convention
- c.** Organizing workshops and seminars on methods concerning safeguarding ICH
- d.** Supporting young researchers in the Asia-Pacific Region
- e.** Collaborating with organization in the field of the safeguarding of ICH
- f.** Cooperating with Sakai City. The following is the summary of the projects implemented in FY 2012

In FY 2011 and 2012, we implemented 12 projects. The following chart indicates that

the 12 projects comply with both Long- and Mid- term themes and schemes. Details of the projects are described thereafter. The table also denotes that the activities covered all the domains of the Long –term and Mid-term programs.

## 2 • Research activities

### A. 2003 Convention

Meeting 1: The First ICH-Researchers Forum: The Implementation of UNESCO's 2003 Convention [MT1]

Venue: Paris, France

Date: 3 June 2012

Co-organiser: Maison des Cultures du Monde (MCM), France

Summary: In view of the forthcoming 10th anniversary of the Convention for the

Safeguarding of ICH, IRCI and MCM jointly hosted “the First ICH Researchers’ Forum” in Paris to discuss issues of the convention in the Asia Pacific region. More than 200 people attended the forum, to actively exchange views on the presentations made by the 12 experts. Contents of the meeting are published as a final report in September, 2012.

Outcome: Final Report of the Forum was published in July 2012.

Meeting 2: “2013 IRCI Meeting on ICH – Evaluating the Inscription Criteria for the Two Lists of UNESCO’s Intangible Cultural Heritage Convention” [MT2]

Venue: Tokyo, Japan

Date: 10-11 January, 2013

Summary: As the follow-up of “the First ICH-Researchers Forum” in June 2012, the meeting took place to discuss current situation and challenges of the elements under the present criteria of the lists of the 2003 Convention. Sixteen participants who specialize in the above theme were invited to make presentations for in-depth discussion.

Outcome: Final Report of the meeting is published in April 2013.

**B. The current status of intangible cultural heritage, in particular, research and studies on intangible cultural heritage in urgent need of safeguarding**

Field Research 1:” Current status of intangible cultural heritage and its protection in Papua New Guinea”[FR1]

Research field: Oral traditions and expressions

Venue: Port Moresby, Ukarumpa, Goroka, and Simbu Province

Period of field research in FY 2012: 10- 30 September, 2012

Summary: In FY 2012, we launched a new project in Papua New Guinea where oral tradition plays a vital role in its culture. Even though two linguists were dispatched for a feasibility study, IRCI decided to discontinue it, judging the project was not feasible.

Field Research 2: "Intangible Cultural Heritages in Myanmar toward Inventory-making"  
[FR2]

Research field: Social practices, rituals and festive events; Traditional craftsmanship  
Venue: Yangon, Mandalay, Mawlamyaing, and Hpa An  
Period of field research in FY 2012: 15- 30 December, 2012, 6- 15 January, 2013

Summary: In view of our mission to assist countries in the Asia-Pacific region in implementing such measures as referred to in Articles from 11 to 14 of the 2003 Convention, this project encouraged inventorying intangible cultural heritages, in particular with folk music. IRCI retreated from the project in 2012 as the government decided to make the inventory under partnership with another party.

Field Research 3: Current status of intangible cultural heritage and its protection  
in Thailand [FR3]

Research field: Traditional craftsmanship  
Venue: Bangkok and Ayutthaya  
Period of field research :14-18 December 2011, 10-15 January 2012, 25-29 January 2012

Summary: As a part of our effort to identify existing traditional element of Asian handicraft, we dispatched an expert of clothing to document traditional technique of Thai textile. The study reaffirmed definitive Indian influence on Thai traditional textile to prelude our projects in India. Participation of young local researchers into the project paved path for signing the mutual cooperation agreement between the Princess Maha Chakuri Silindorn anthropology centre (SAC) and IRCI.

Field Research 4: Current status of intangible cultural heritage and its protection  
in India [FR4]

Research field: Traditional craftsmanship  
Research field: Traditional craftsmanship  
Venue: Srikarlahasti and Masripatnam  
Period of field research in FY 2012: 19-28 November, 2012

Summary: Being consonant with our mission to coordinate research into practice and methodologies of safeguarding intangible cultural heritage elements, we facilitated an intensive research to document existing craftsmanship pertaining to cotton printing in Southern India. The project could successfully distinguish genuinely traditional elements of existing technique from recently invented ones.

Seminar: "International Field School Alumni Seminar on Safeguarding Cultural Heritage in the Asia Pacific" [SM]

Venue: Lamphun, Thailand

Date: 6-10 August, 2012

Co-organiser: the Princess Maha Chakri Sirindhorn Anthropology Centre (SAC), Thailand

Summary: As the first attempt to collaborate with other research institutions in the Asia Pacific Regions, SAC and IRCI jointly held an international research seminar in Lamphun, Thailand. The purpose of this project was to support young researchers in the Asia-Pacific Region who are engaged in activities in the field of the safeguarding of ICH, and attendants at the seminar included 13 curators and researchers at the respective museums within the region. The seminar consisted of experts' lectures and participants' presentations concerning the safeguarding of ICH based on case studies.

Output: Contents of the seminar were published as a report in February, 2013.

### **C. Various records of intangible cultural heritage and their utilization**

Meeting 3: Documentation of Intangible Cultural Heritage as a tool for community's safeguarding activities [MT3]

Venue: Tokyo, Japan

Date: 3-4 March, 2012

Summary: While the 2003 Convention emphasizes the importance of the active participation of communities and individual bearers in all the activities concerning ICH, there are not enough

examples of documentation projects where the needs of the community concerned have been taken into account into the project design. Given this background, IRCI organized a meeting r to share good practice and to promote disucussion on community-led documentation, inviting researchers who are actively involved in community-based documentation.

Outcome: The final report of the first intensive meeting was published in July 2012

Workshop: Intangible Cultural Heritage Documentation as a Tool for  
Community's Safeguarding Activities [WS]

Venue: Tsuruoka, Japan

Date: 22-25 February, 2013

Summary: This project aims to enhance various records of ICH and their utilization. Following the first intensive researchers meeting (Tokyo, March 2011) which resulted in developing a framework for "Guidelines for documentation as a tool for community safeguarding", IRCI organized a workshop in order to check whether or not these guidelines are useful and practical for the community and other people concerned in safeguarding activities. The participants created a draft plan of film shooting on their specific part of ICH elements while being provided with practical techniques of filming and editing.

#### **D. Good Practices in Safeguarding of Intangible Cultural Heritage**

Field Research 5:" Case study on the transmission of a folk-art performance  
and its safeguarding in North Eastern Japan" [FR5]

Research field: Safeguarding measures

Venue: Tsuruoka, Japan

Period of field research: 8-11 November 2011, 29 January -3 February, 2012

24 February- 1 March, 2012

Summary: IRCI conducted intensive interview to performers of Kurokawa-Noh, alchaic form of Noh performance transmitted among community members in Tsuruoka in Northern Japan. Cordial relationship with community members and municipal

government fostered through the field study latter allowed IRCI to host the “Workshop on Intangible Cultural Heritage documentation as a tool for community’s safeguarding activity” in Tsuruoka under devoting cooperation of the local community.

Field Research 6: “Impact of intangible aspects over tangible heritage and possibility of its legalization-taking buildings in Bhutan as examples” [FR6]

Research field: Safeguarding measures

Venue: Thimpu, Wangdue, and Punakha

Period of field research: 29 September - 7 October, 2012

28 January - 2 February, 2013

Summary: In FY 2012, we organized a field research on current status of protecting intangible cultural heritage, including legal measures, in Bhutan. The focus of the research was the impact of intangible values over tangible heritage and its legalization. Issues such as conservation of traditional building which appreciates both intangible and tangible values were examined.

#### **E. Dissemination of ICH information in Cooperation with Sakai City**

In FY 2012, IRCI cooperated with the ICH projects carried out by Sakai City: three seminars, a symposium, and an exhibition at Sakai City Museum.

Outcome: Report of each event is updated on the website of Sakai City Museum (<http://www.city.sakai.lg.jp/kanko/hakubutsukan/unesco/renkei/renkei2012.html>).

### **3. Networking for Research Activities**

#### **A. Database for ICH research**

Based on “Work Plan and Budget Plan” approved by the first Governing Board meeting of IRCI on 3rd October 2011, we have listed institutes and researchers concerning ICH. At present, our database contains 630 researchers and institutes. We utilize the database to enhance our research activities: such as convening meetings, facilitating field researches, and extending our network with relevant institutions.

#### **B. Cooperation with other research institutes**

Provided enormous geographic sphere and immense cultural diversity of Asia-Pacific region, it is imperative to establish strategic partnership among research institutes in the Asia Pacific region. IRCI had honour to sign the first mutual cooperation agreement with the Princess Maha Chakuri Silindorn anthropology centre (SAC) in July 2012 and further had privilege to co-organize “International field study alumni seminar”. Having invited young ICH researchers from nearby countries, the seminar served as catalyst to enhance commitment of local talents into safeguarding ICH in their own countries.

### **C. Website in vernacular languages of Asia and the Pacific**

In light of our mandate to facilitate research on intangible cultural heritage in the Asia-Pacific region, it is imperative to present various information regarding ICHs to people in the region. From this vantage point, we are now developing a multi-lingual website for the purpose of making our information widely accessible to non-English speaking people in the region. As the first step, in FY 2012, we released our website in Thai under cordial cooperation of SAC, and also in Vietnamese in view of the closer cooperation with Vietnamese institutes in FY 2013. Our website is consequentially available in four languages: Thai, Vietnamese, English and Japanese.

#### 1. Current status and safeguarding policy

##### (1) Endangered Traditional Handicrafts in Post-Conflict States (Sri Lanka)

Civil war is one of the factors having the most severe impact on the transmission of ICH. This project is a pilot study to revive ICH in a post-conflict society. As a baseline for further safeguarding measures, information will be collected and organized with regard to traditional handicrafts and their successors in regions of Sri Lanka formerly dominated by the LTTE, where such information is notably insufficient due to the post-conflict nature of the area. Practitioners identified on 1. in need of improvement of socio-economic situations are supported by UNESCO and Sri Lankan government by revitalizing their traditional handicrafts.

Performance Indicator	Benchmark
A handicraft database covering 10 regions of the Northern and the Eastern Sri Lanka will be established.	1. The feasibility study of the project is completed.

	<ol style="list-style-type: none"> <li>2. A handicraft database covering at least 3 regions of the Northern and Eastern Sri Lanka is established.</li> <li>3. More detailed benchmark of the project such as the numbers of the documentations and more specific geographic coverage of the entire project will be submitted to the third Governing Board meeting in 2014.</li> </ol>

**(2) Safeguarding Intangible Cultural Heritage on the Verge of Extinction:  
 Vietnamese ICH Element Dong Ho Woodblock Printing**

In accordance with a request from the Vietnamese Government, IRCI will investigate the current status of Dong Ho block painting as a case of community-based safeguarding of endangered ICH. A plan for safeguarding measures with the active participation of community members will be explored.

Video records of techniques and knowledge of woodblock printing will be produced by local people themselves and stored in research institutions, local museums, community centres. The project also eyes to provide young people with opportunities to be involved in the process of documentation.

Performance Indicator	Benchmark
1. Video records and documents of techniques regarding the knowledge of woodblock printing are codified under the initiative of the representatives of Dong Ho village and Bac Ninh Province.	1. Representatives of Dong Ho village or Bac Ninh Province will participate in a documentation workshop in Japan early 2014 and complete production of the first version of the video record by October 2014. The records will encompass techniques of the two aged craftsmen of the village.
2. Interviews with village residents, including all the bearers of the woodblock painting, are conducted.	2. Detailed sample design for interview will be set after the preliminary visit.

**(3) Study of Legal Systems Related to Intangible Cultural Heritage in the Greater Mekong Region**

This is a three-year project to enhance the safeguarding of ICH through the development of legal and policy frameworks in the Mekong region. In the first year of the project, experts in the field of ICH law from outside the Mekong

region will conduct hearings with local scholars and government officials on the current status of and issues facing the local legal system in connection with safeguarding endangered ICH.

<b>Performance Indicator</b>	<b>Benchmark</b>
A report on the legal systems related to intangible cultural heritage in three countries in the Mekong region — Laos, Cambodia, and Myanmar — will be produced.	Reporting on the two countries — Laos, and Cambodia — will be completed by October 2014.

#### **(4) Study Tour for East Timorese ICH officers in Japan**

This is a one week study tour mainly aims at giving opportunities for East Timorese officers to learn institutional and policy frameworks at national and local levels in Japan. Some good practices of transmitting, conserving and disseminating ICH at the community level in Japan are presented. Group work sessions are also set by IRCI to share, identify and discuss problems regarding the safeguarding of ICH in Timor-Leste.

<b>Performance Indicator</b>	<b>Benchmark</b>
<b>9</b> participants will improve their scores examined by questionnaires regarding their knowledge on ICH safeguarding measures.	<ol style="list-style-type: none"> <li>At least <b>6</b> participants significantly improve their scores.</li> <li>Scores on the knowledge in at least two of the three studied realms- institutional framework, roles of the private sector and communities, and current status of ICH in Timor-Leste- will significantly improve.</li> </ol>

## **2. Workshop for developing a methodology for ICH safeguarding**

IRCI will host workshops to promote the documentation of ICH as a tool for community safeguarding activities, which we have developed through a researcher forum and workshops during the past two years.

<b>Performance Indicator</b>	<b>Benchmark</b>
Video records of <b>6</b> ICH from <b>5</b> countries are produced by their bearers or the representatives of the relevant communities and utilized at the local communities.	All the participants will complete the production of the video records and elucidate their plans for the storage and the utilization of the records by October 2014.

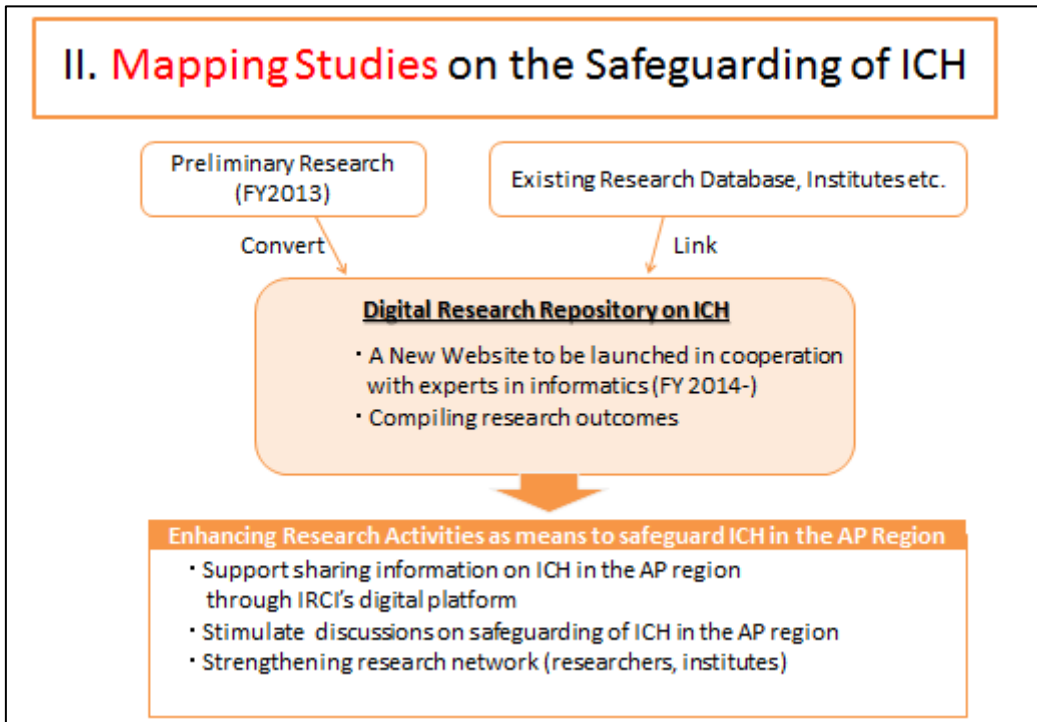

## II. Mapping Studies on the Safeguarding of ICH

### 1. Exploring Research for the Safeguarding of ICH in the Asia-Pacific Region

As a UNESCO Category 2 Centre, we will build a database of researchers, institutions, and government officers concerning safeguarding ICH in the Asia Pacific region. Closely consulting with key researchers, we will also undertake a mapping of studies on safeguarding ICH in the Asia Pacific region. The project outcomes will serve as a platform for study concerning ICH safeguarding in the region.

IRCI will also host two conferences to promote the safeguarding of ICH in the Asia Pacific region. In the first year, we will organize a preparatory meeting to identify key issues concerning studies on ICH safeguarding in the Asia Pacific region. In the second year, we will continue by holding a conference to discuss a number of specific key issues.

Performance Indicator	Benchmark
1. <b>12</b> key researchers from <b>6</b> sub-regions of the Asia-Pacific region are identified and their participation in the project will be confirmed.	1. The identification of the key researchers has been completed.
2. About <b>300</b> records regarding researchers, research institutes and good practices will be posted into the database.	2. Survey on at least four of the six sub-regions will be initiated and at least <b>200</b> records will be posted into the database by October 2014.
3. <b>2</b> researchers fora will be held and at least 12 papers are contributed to the final publication of the project.	3. The final report will be published no later than March 2015 and at least <b>12</b> papers are contributed to the publication.
