This animosity between the Brazilian government and indigenous people took place until 2022 at the federal level, but at the municipal and state levels, the CTI could establish different partnerships with governments to act in safeguarding and valuing the cultural heritage of indigenous peoples.

Independently of the Brazilian government, CTI sought partnerships with different actors and was able to carrying out a different projects for the implementation of the National Environmental and Territorial Management Policy for Indigenous Lands - PNGATI, "which aims to guarantee and promote the protection, recovery, conservation and sustainable use of the natural resources of indigenous people lands and territories, ensuring the integrity of indigenous heritage, improving the quality of life and full conditions of physical and cultural reproduction of current and future generations of indigenous peoples, respecting their socio-cultural autonomy", CTI has supported the communities in many Indigenous Lands with the elaboration and participatory implementation of management plans.
