V = tested, compatible
X = tested, not compatible
X = testing in progress (compatibility cannot be claimed)
* Britax Romer specific adapter for Joolz Day²/³ + Joolz Geo^I/2

JOOLZ

Testing & Safety Disclaimer: Compatibility with Car Seats

When it comes to the safety and quality of Joolz products, there is no room for compromise. The safety of your baby is (y)our top priority. That's why our strollers are designed to be compatible with a range of car seats, providing a seamless travel experience for you and your little one.

1 Thorough Compatibility Testing:

Before claiming compatibility with a specific car seat, we conduct rigorous testing. Our dedicated team thoroughly assesses each car seat with our strollers, considering numerous safety measures and aspects to ensure a secure and reliable connection. We pay particular attention to stability testing according to European standards for prams and pushchairs (EN 1888 1 & 2).

2 The new version of an existing model is not on the list?

Please be aware that the overview of compatible car seats may not always reflect the latest generations of existing models. When new generations or models of car seats are introduced by brands that are already compatible with Joolz models, it's likely that our strollers maintain compatibility. This is because these newer models often share a similar attachment design, making them compatible with Joolz adapters. However, please be aware that until testing is completed, we do not claim compatibility in the overview below. If you have any questions about a new model, feel free to reach out to our dedicated Customer Excellence team for support.

3 Your car seat is not on the list?

There are many car seat products to be found. While we aim to ensure compatibility with most car seat models, it is impractical to test every option available due to the extensive variety. All compatible car seats are updated in the list. If a specific model is not listed we cannot confirm it's compatibility.

We appreciate your understanding. Do you still have any questions or concerns? Feel free to reach out to us!
