**CEO COMMENTS****ANOTHER STABLE QUARTER  
WITH OPERATIONAL EBIT UP 49%  
TO SEK 973 MILLION**

*The Group reports another stable quarter. Both net sales and operational EBIT grew in line with management expectations. We are 8 operating groups, 17 publishers, 82 studios, and are engaging over 9,000 people. Our pipeline includes 25 AAA releases until March 2026, and as we always put quality first, two of these are postponed from FY 21/22 to FY 22/23. We forecast Operational EBIT: FY 21/22 SEK 4,300-4,700 million, FY 22/23 SEK 7,000-8,500 million, FY 23/24 SEK 7,500-10,000 million. IFRS-reporting is scheduled to begin as of Q1 FY 22/23 and listing to Nasdaq Stockholm's regulated main market to follow no later than June 2023.*

Group net sales increased by 38% to SEK 3,296 million (2,383), whereof the Games business area contributed SEK 2,831 million (1,495), an 89% increase. Operational EBIT grew by 49% to SEK 973 million (652) with an increasing Operational EBIT margin of 30% (27%). Cash flow from operating activities amounted to SEK 1,024 million (805) and investments in game development amounted to a record SEK 881 million (445) to drive future organic growth.

**25 AAA releases planned until March 2026 including two postponed releases from FY 21/22**

Embracer Group is in better shape than ever before. We have eight scalable operating groups and within these, 17 publishers and more than 80 studios with amazing talents working on close to 200 ongoing game development projects. We are now more than 9,000 people engaged on a daily basis across the group – of which close to 7,500 games developers. Our organic growth strategy pays off and we have been able to grow the number of employees organically with 25% year over year. We have consistently invested in our project pipeline over the past five years and are well positioned to grow faster than the overall gaming market in the long term. We have one of the largest and most diversified portfolios of game franchises in the industry. This gives us a position of strength and enables our operative groups always to make the right longterm decisions. In order to put the product quality first and optimize the outcome for all parties - gamers, employees, shareholders – we have decided to postpone a number of releases from FY 21/22 to FY 22/23. This includes Saints Row and another unannounced but earlier expected AAA title in the fourth quarter.

Looking ahead in the current financial year, we are now expecting to complete games in the third quarter in the range of SEK 350-400 million followed by SEK 400-600 million in the fourth quarter. Our business has the past year changed notably with more revenues from Live Ops, mobile games and development/work for hire. This means that the forecasted completion value is a less relevant KPI to measure the business going forward. Hence, we have decided to cease to give a forecasted range of completed games from this quarterly and move over to Operational EBIT forecast going forward.

In the coming years, we are now expecting to release 25 AAA titles across the group until the end of the financial year ending March 2026. All these are all large premium game projects with development teams of between 100 and 250 at peak, and are all expected to be multi-million sellers backed with notable or significant marketing budgets. 11 of them are in full production, 6 under pre production and 8 in concept phase. 23 games are developed at internal studios.

**Management forecasts higher profitability and significant growth the coming years**

The management expects stronger profitability over the coming years than earlier, mainly driven by a greater pipeline of new products (including the delayed titles from FY 21/22), a continued strong back catalogue and live ops business within premium PC/console/VR segment as well as a healthy growth within the free-to-play mobile segment.

Operational EBIT forecast for the coming years:

FY 21/22	SEK 4,300-4,700 million
FY 22/23	SEK 7,000-8,500 million
FY 23/24	SEK 7,500-10,000 million

The forecast does not include any new M&A.

**Stable performance from our mobile businesses growing 26%.**

Our combined mobile business, with DECA Games, A Thinking Ape, IUGO, Easybrain and CrazyLabs (acquired in the quarter) had an impressive proforma sales growth of 26% during the quarter, despite the changes in Apple IDFA. Our mobile businesses combined had 32 million daily active users, 271 million monthly active users and 350 million total installs on a proforma basis. Easybrain announced that their titles reached the milestone of 1 billion total installs from App Store and Google Play with an all-time-high revenue of SEK 607 million in the quarter.

Despite growing the Games business with 89% in the quarter, we had an underlying negative organic CCY growth of -9% due to tough comps from THQ Nordic record quarter last year. Our acquired businesses the past year grew close to 30% resulting in proforma growth at +11%. Our premium PC/console/VR businesses primarily relied on back catalog sales in the quarter and only a few new releases contributed to sales. The most important new releases, *Hot Wheels Unleashed*, *Insurgency Sandstorm* (console) and *World War Z Aftermath* were successfully released during the last days of the quarter. Saber Interactive had a record performance in the quarter with net sales of SEK 463 million and strong Operating EBIT margin. Saber is intensively working on realizing synergies both within Saber group as well as across the wider group eco-system.

**IFRS Conversion and listing on Nasdaq Stockholm**

Our process to convert to the reporting standard IFRS is underway. We believe that this will facilitate investors' understanding of our financial development as well as improve comparisons to peers while streamlining reporting procedures throughout the group. This is the most comprehensive step needed in the process to have the shares up-listed on a regulated market eventually. Significant progress has been made and the conversion date has now been set to 1 April 2022, which means the first quarterly report in August 2022 for FY 22/23 will be made under IFRS. The listing change will take place after the publication of our first quarterly report under IFRS, but no later than June 2023.

**Review of long-term financial leverage**

As a consequence of an expected improvement in absolute profits and free cash flow from our core business area Games in the coming years, the board of directors has initiated a review of the Group's long-term financial leverage target, including likely cash payments for deferred M&A considerations. The outcome will be announced as soon as the review is concluded, but at the latest in connection with our Q3 report in February 2022.

**Continued good pace on M&A**

Acquisitive growth has been a strategic pillar for Embracer Group in the past and will remain so in the future. Currently, we have SEK 7.1 billion in net cash and SEK 16.2 billion in available cash, including credit facilities. Most of our contemplated transactions relate to talent and IP acquisitions with the purpose of strengthening our existing operating groups. We see increasing benefits from adding new studios to our growing ecosystem. We can create more content with a higher quality in a shorter time frame by cooperating across the Embracer network of studios and between operating groups.

We continue to have a number of active dialogues with entrepreneurs, management teams and owners across gaming and entertainment about larger, more transformative transactions, which would create new operating groups. We see benefits from adding additional scale and diversification across premium and free-to-play Gaming, but also adding capabilities to develop true transmedia IP's. We are also intrigued by the prospect of strengthening our geographical reach and improving our technology capabilities. That said, our principles remains unchanged. We will never force a deal for the sake of making a deal, but rather let it take adequate time. It is no different from the quality comes first approach in making games. In the past 12 months, we have made 37 acquisitions and expect to do a similar amount of transactions over the coming 12 months. We currently have a large range of active processes and dialogues, including a good number of signed exclusive term sheets.

**ESG-focus on people**

Our current financial year focuses on social sustainability through our framework "Smarter Business" pillar Great People. Based on the materiality analysis, with external and internal stakeholders, our prioritized areas are Diversity & Inclusion, Worklife Balance, and Creativity & Independence. During this quarter, we have initiated different projects within that area.

To further strengthen the parent company capabilities within the sustainability area we are happy to welcome Emma Ihre as the Head of sustainability, starting early next year. Emma brings in senior experience in the area and has a relevant background to accelerate our efforts within ESG.

The still ongoing pandemic has to some extent had an adverse effect on productivity in studios due to a long-lasting period of work from home. Throughout the group, we try the best way forward in the "new normal" with home-office and hybrid solutions as societies slowly open up again.

We are humbled about that remote work has enabled new ways of talent recruitment, but also increased competition for talent globally. Talent scouting and recruitment within the industry are increasingly taking place online across countries and markets.

To conclude, I would like to send my thanks to all our shareholders, employees, customers, industry colleagues and business partners for contributing to the prosperity and success of Embracer Group.

November 17, 2021, Karlstad, Värmland, Sweden

<b>Games Subtotal</b>	<b>2,831.1</b>	<b>1,495.4</b>	<b>89%</b>	<b>5,792.0</b>	<b>3,117.5</b>	<b>6,448.3</b>
Partner Publishing/Film	465.3	887.8	-48%	931.0	1,334.4	2,575.9
<b>Consolidated Net Sales</b>	<b>3,296.4</b>	<b>2,383.2</b>	<b>38%</b>	<b>6,723.0</b>	<b>4,451.9</b>	<b>9,024.2</b>

Consolidated net sales in the quarter increased by 38% or SEK 913.2 million compared to last year. The growth was driven by the addition of Easybrain, Gearbox Entertainment and DECA Games as well as new releases, a continued strong interest in titles released in previous quarters and long-lasting top sellers from previous financial years. The solid growth in Saber Interactive was driven by two releases in the quarter and by the addition of Aspyr. The decrease in net sales for THQ Nordic mainly relates to no new significant releases in the quarter compared to last year, which included notable releases. Organic growth in constant currency for the Games Business Area amounted to -9% in the quarter.

The decrease in net sales of the Partner Publishing/Film business area is mainly due to the absence of larger releases in the quarter compared to last year which included larger releases *F1 2020* and *Marvel Avengers*.

## GROSS MARGIN DEVELOPMENT

The improved gross margin is due to a favorable product mix shift towards business area Games and coupled with a margin expansion in business area Games as a result of the addition of Gearbox Entertainment and Easybrain.

## DEVELOPMENT OF OPERATING EXPENSES EXCLUDING MARKETING COSTS

The development of net operating expenses is stable compared to the previous quarter. The increase in net operating expenses compared to last year is mainly explained by the addition of Gearbox Entertainment and Easybrain in April 2021.

The business model of Gearbox Entertainment includes larger co-publishing projects that are accounted for under the percentage of completion method. The percentage of completion method means that revenues are recognized as a percentage of total project income as work is performed and expenses incurred, where timing differences are recorded in working capital as opposed to intangible assets. Based on the current business model of Easybrain it has been concluded that development expenses should be expensed as occurred, hence there are no capitalization of development expenses related to Easybrain.

Other operating expenses includes remeasurements of contingent consideration. The remeasurement is mainly related to Milestone and amounts to SEK 271 million. The remeasurement is due to an increased contingent consideration due to better performance than expected in the finalized PPA. The amount is excluded from Operational EBIT.

## DEVELOPMENT OF MARKETING COSTS

The increased user acquisition costs (UAC) in the quarter are explained by the addition of CrazyLabs and continued investments by the existing mobile companies to drive further organic growth. The UAC in CrazyLabs amounted to SEK 60 million for one month. Non-UAC marketing costs in the period includes marketing costs related to up-coming AAA-titles. Marketing costs are expensed as occurred and never capitalized, although benefits are expected to be realized over time.

## INTERNAL INVESTMENTS - CAPITALIZATION RATE

The internal capitalized development amounts to SEK 558 million for the quarter or 43% of the total of personnel and other operating expenses.

## OPERATIONAL DEPRECIATION AND AMORTIZATION EXPENSES

Operational depreciation and amortization, SEK m	Jul-Sep 2021	Jul-Sep 2020	Apr-Sep 2021	Apr-Sep 2020	Apr 2020–Mar 2021
<b>Intangible assets</b>					
Finalized game development	220.8	222.2	435.7	413.3	814.9
Other intangible assets (Film etc.)	32.0	43.4	60.6	97.8	217.0
<b>Sub-total</b>	<b>252.8</b>	<b>265.7</b>	<b>496.3</b>	<b>511.2</b>	<b>1,031.9</b>
<b>Tangible assets</b>	<b>24.2</b>	<b>9.3</b>	<b>41.7</b>	<b>17.2</b>	<b>41.2</b>
<b>Total operational depreciation and amortization</b>	<b>277.1</b>	<b>275.0</b>	<b>538.0</b>	<b>528.3</b>	<b>1,073.2</b>

Operational amortizations for finalized game development is driven by the value of completed games and the timing of completion as the amortizations are calculated on a monthly basis.

Operational amortization of games amounted to SEK 220.8 million in the quarter, and the value of finalized game development in the quarter amounted to SEK 281 million. At the end of the quarter the book value of finalized games amounted to SEK 793.6 million.

## ACQUISITION-RELATED AMORTIZATION EXPENSES

Acquisition-related depreciation, SEK m	Jul-Sep 2021	Jul-Sep 2020	Apr-Sep 2021	Apr-Sep 2020	Apr 2020–Mar 2021
IP-rights	223.3	104.2	441.1	206.4	456.4
Surplus value Partner Publishing/Film	14.4	15.3	28.1	30.4	54.1
Goodwill	1,584.7	401.1	3,148.7	776.4	1,924.9
<b>Total acquisition-related depreciations</b>	<b>1,822.4</b>	<b>520.6</b>	<b>3,617.9</b>	<b>1,013.2</b>	<b>2,435.4</b>

Forecasted acquisition-related amortizations for the quarter amounted to SEK 1,900 million, which is SEK 77.6 million higher than actual. The difference is mainly explained by the difference in Embracer's share price at completion date, the VWAP share price as set forth in the relevant share purchase agreement and the resulting revaluation of goodwill due to changes of conditional purchase price within 12 months as mentioned below under "Conditional Purchase Price Overview". After 12 months any changes in conditional purchase price will affect the P/L.

The increase in acquisition related depreciations in the quarter, compared to same period last year, is explained by that more acquisitions were completed during the year where Gearbox Entertainment, Easybrain, Aspyr, CrazyLabs and Ghost Ship Games account for the largest portion.

## PROFIT FROM ASSOCIATED COMPANIES

Profit from associated companies in the quarter amount to SEK 427.7 million and is mainly related to the SEK 416.7 million remeasurement of participation in associated companies from acquiring 100% of the shares in Ghost Ship Games previously owned by 30%. The remeasurement gain has been excluded from the calculation of operational EBIT. The profit share from Iron Gate amounts to SEK 7.3 million in the quarter of a total profit share amounting to SEK 10.9 million, which should be viewed together with the gross margin generated.

## FINANCIAL NET

Interest income and similar items also include other financial income. Interest expenses and similar items also include other financial expenses. Exchange gains/losses net include both realized and unrealized gains or losses. The increase in interest expenses relate mainly to the discount effect on provisions for conditional purchase prices.

## CONSOLIDATED EARNINGS

The increase of the Group's EBITDA, from SEK 969.0 million to SEK 1,640.0 million, and Operational EBIT, from SEK 652.5 million to SEK 973.4 million, for the quarter is mainly explained by the increase in net sales and improved gross margin compared to the same period last year.

The increase in Operational EBIT fell through to EBIT but was offset by increased acquisition-related amortizations of SEK 1,301.8 million. EBIT decreased, from SEK 173.4 million to SEK -459.5 million, in the quarter.

<sup>1)</sup> EBITDA, adjusted - EBITDA adjusted for remeasurement of participation in associated companies and contingent consideration.

Investments in intangible fixed assets mainly consist of investments into ongoing game development SEK -881.6 million and film rights SEK -27.2 million. The increased investments into game development in the quarter over prior quarters is mainly related to the addition of Aspyr and Gearbox Entertainment coupled with increased organic investments into new game development, where the latter is impacted by a shift from co-publishing projects towards internal development projects in Saber Interactive. Net investment in tangible assets is mainly related to investment in buildings by Koch Media Group amounting to SEK -73.4 million.

## CONDITIONAL PURCHASE PRICE OVERVIEW

As of 30 September 2021 the Group had provisions of SEK 9,610.1 million for earnouts with expected settlement according to the table below.

### Provisions for conditional purchase price

Financial year when settlement is expected, SEK m	Provision to be settled		
	in cash	by shares	Total
2021/2022	19.1	51.1	70.2
2022/2023	611.6	-	611.6
2023/2024	393.5	-	393.5
2024/2025	680.3	888.5	1,568.8
2025/2026	1,086.8	1,673.8	2,760.6

2031/2032	-	18.3	18.3
<b>Total</b>	<b>6,001.8</b>	<b>3,608.3</b>	<b>9,610.1</b>

The present value of the additional purchase prices has been calculated based on expected outcome based on financial and operational targets for each individual agreement. The provisions will vary over time depending on, among other things, the degree of fulfillment of the conditions for the additional purchase prices, the development of certain exchange rates versus the Swedish krona and interest rate. Provisions to be settled by shares are further dependent on the development of Embracer's share price. This means that the number of shares to be paid as additional purchase price can vary but never exceed 52,686,630 according to the earnout agreements. If all shares are issued, the dilution in capital will amount to 4.9% and 3.2% of the voting rights as of September 30, 2021. The provision settled in shares was approximately SEK 1,170 million lower 30 September 2021 compared to 30 June 2021 primarily driven by the decrease in the Embracer share price (84.30 SEK as of 30 September 2021 compared to 115.75 SEK as of 30 June 2021 adjusted for split 2:1)

In addition to provisions for conditional purchase price the Group has issued shares with clawback rights. Out of the 1,014.9 million shares outstanding there are approximately 122.0 million shares with clawback rights as per 30 September 2021. These shares have already been issued to cover for future earnout obligations

## INTANGIBLE ASSETS

The Group had intangible assets of SEK 38,922.4 million at the end of the quarter, compared to SEK 13,768.2 million at the end of the previous quarter, distributed as follows:

Intangible assets – Specification SEK m	Sep 30 2021	Sep 30 2020	Mar 31 2021

The forecast for October to December 21/22 amounts to SEK 2,000 million

## DEPENDENCY ON FOREIGN EXCHANGE RATES

Embracer operates on a global market and reports financial performance in SEK and thus has a dependency towards foreign currencies, mainly USD and EUR. The Swedish krona (SEK) has strengthened during the year versus USD and EUR. Everything else being equal, this has a negative impact on net sales in SEK. However, organic growth in net sales in local currency would not be affected.

The consolidated equity of the group increased with SEK 24.6 million in translation differences from 1 April 2021 to 30 September 2021. The translation differences are mainly related to the revaluation of net assets in subsidiaries to the exchange rate per 30 September 2021.

## PARENT COMPANY

The Parent Company's net sales for the quarter were SEK 106.1 million (252.9) and profit before tax was SEK 117.8 million (–241.2). The positive outcome is explained by unrealized exchange rate gains on intercompany loans. Profit after tax was SEK 104.0 million (–189.3).

Investments in intangible assets in the quarter were SEK 0.4 million (150.1).

Cash and cash equivalents as of 30 September, 2021 were SEK 6,404.5 million (2,083.3). The Parent Company's equity at the end of the period was SEK 35,524.2 million (11,965.9).

## SIGNIFICANT EVENTS DURING THE QUARTER

> On August 5, Embracer Group entered into eight acquisition agreements which closed during the period, some through its subsidiaries, adding more than 550 new colleagues to the group:

- DECA Games acquired CrazyLabs, an Israel-based publisher and developer of hit mobile game *Super Stylist* and long-lasting casual and lifestyle role playing games.
- Coffee Stain acquired Ghost Ship Games, a Denmark-based indie game developer.
- Coffee Stain acquired Easy Trigger, a Sweden-based studio behind the critically acclaimed title *HuntDown*.
- Koch Media through its subsidiary Vertigo Games acquired Force Field, a Dutch-based leading VR development studio with a portfolio of multiple award-winning VR titles.
- Koch Media acquired DigixArt, a France-based a development studio and the creator of multiple narrative games.
- Saber acquired Slippgate Ironworks, a Denmark-based game development studio with long experience in collaborating with leading publishers and IP-owners.
- Saber acquired 3D Realms, a Denmark-based game publisher with 30+ years of heritage in the industry and the creators of cult game series *Duke Nukem*.
- Embracer Group acquired 70% in Grimfrost, a Sweden-based e-commerce specialist and a leading player with a global brand within high-quality Viking merchandise.

These acquisitions improve the group's capabilities within mobile publishing and development, indie development, VR development as well as story driven and retro shooter development for PC/consoles. Combined these eight acquisitions are expected to contribute an estimated SEK 2-3 billion in net sales and SEK 350-550 million in operational EBIT during FY 2022/23.

> On August 18, Embracer Group, through its wholly owned subsidiary Saber Interactive, entered into agreements to make three acquisitions which have now closed.

- Demiurge Studios, an independent game development studio with a team of 68 employees, based in Cambridge, Massachusetts, US. Its experienced team of developers strengthens Sabers footprint in the US.
- Fractured Byte, a well-regarded, creative and cost-effective game studio with headquarters in Estonia. The team of 50 developers is based across Ukraine and primarily working with independent game development and porting projects.
- Russian-based SmartPhone Labs, an independent software testing and games development company for mobile, PC, consoles and VR.

> On September 22, Embracer Group, through its wholly owned subsidiary Saber Interactive, entered into an agreement to acquire Bytex Limited Liability Company, a reputable Quality Assurance and Work for hire-developer studio based in Saransk, Russia. The acquisition onboards a skilled team of more than 240 employees.

All of the announced acquisitions were closed in the quarter, except Fractured Byte that was closed on October 10, after the quarter

> On September 30, Embracer carried out a share split 2:1, as resolved by the annual general meeting.

## THE GAMES MARKET

The underlying market conditions remain buoyant. Gaming is highly popular, and a recent study showed that young Americans (10-35 years) spend more time playing video games than any other single home leisure activity (including watching TV and using social media) (Newzoo).

### Overall trends

The 2021 games market will likely exhibit a slight slowdown, but only because the previous year, during the height of the pandemic, was so unprecedentedly strong. The global market (all sectors including console, mobile, PC and free-to-play but not hardware) will generate USD 176 billion in 2021, representing a slight -1% YoY decline (Newzoo).

Looking forward at the global games market, Newzoo predict that it will swiftly recover from its slight 2021 dip and will grow with a CAGR (2019 to 2024) of +9% to reach USD 219 billion in 2024, passing the coveted USD 200-billion threshold in 2023.

The global semiconductor shortages and shipping blockages are continuing to affect supply of consoles and PC hardware (which remain in high demand). This is expected to continue in the near term although Sony recently reported sales of 3.3 million PS5 consoles in (their) Q2 (1 million more than the 2.3 million achieved in their Q1). The total PS5 installed base is now at approximately 13½ million as of the end of September.

The share of total games that are digital increased significantly in 2020 but NPD/GSD data (Jan-Sept 2021) suggests that growth has now stabilised from the Covid highs of last year, now up only fractionally in 2021; +1% in Europe and +2% in the US.

## SEGMENT BREAKDOWN OF GLOBAL GAMES REVENUE

### The global PC/Console market

The Console Market is forecasted to decline by -9% to USD 49 billion in 2021 (Newzoo), significantly impacted by Covid-19, subsequent home working and its influence on AAA game development. This impact will also be felt on PC, albeit to a lesser extent. Many titles initially slated for release in 2021 will now launch later in 2022.

The PC Market will generate USD 36 billion in 2021, a decline of -3% from the previous year (Newzoo). The vast majority of this number (USD 33 billion) will come from boxed/digital PC games, with browser games accounting for the remaining USD 3 billion. As browser players continue to shift to mobile, revenues from PC browser games will continue to dwindle toward 2024.

### **The Global Mobile market**

The Mobile Market will generate USD 91 billion in 2021, up +4% year on year, and now accounts for more than half of the global games market. The pandemic has had significantly fewer negative impacts on mobile which relies more heavily on in-app purchases, and whose development process has been less affected by home working. Furthermore a growth CAGR of +11% is expected between 2019 and 2024 (*Newzoo*). It will be driven by growth regions, continued innovations in mobile monetization, and large console and PC publishers bringing their IPs to mobile devices.

Apple's removal of IDFA, is likely to negatively impact some stakeholders within the mobile games market, though not enough to stop consumers' strong mobile spending.

### **The Swedish Games market**

With Embracer Group's headquarter being located in Karlstad, the company is part of the dynamic and fast-growing Swedish games industry scene. Sweden has a long history and tradition in games development, stretching far back, but the commercial success has happened over the last ten years. According to the annual report Game Developer Index 2010, the Swedish industry had in 2010 a combined revenue of EUR 130 million (SEK 1.2 billion) and employed 1,203 persons. In 2020 these numbers had increased substantially to EUR 3.3 billion EUR (SEK 34.7 billion) and 6,596 employees. Embracer Group is the largest company when ranked by revenue with EUR 861 million (SEK 9 billion) which represents 26% of the combined Swedish industry.

From 2010 to 2020, Sweden has also become a catalysator investing in the global games industry. In 2020, Swedish companies employs 7,177 persons abroad which is more than the combined local workforce.

### **Post-pandemic trends in the US market**

A study by NPD (in the US) noticed that there were slightly fewer players in 2021 compared to 2020 when the 'Covid-spike' saw the number of Americans playing games jump from 73% (2019) to 79% (2020). This year that figure slid back to 76%. But players are playing for longer and game time has continued to increase hitting 17 hours (ave. p. week in 2021) up from 15 hours in 2020 and 13 hours in 2019 (*NPD*).

<i>Pile Up! Box by Box</i>	HandyGames	External	PS4, Xbox One, Switch	Digital
<i>Skydrift Infinity</i>	HandyGames	Own	PC, PS4, Xbox One, Switch	Digital

Net sales of Business Area: Games - THQ Nordic amounted to SEK 374.0 million (566.9) including Net sales for Amplifier.

There were no notable releases in the quarter and the comparison is challenging as it's made against a quarter with significant releases.

*Spongebob*, *Biomutant* and *Kingdom of Amalur Reckoning*, were the most notable back catalogue titles that contributed during the quarter.

Releases during the quarter included *Darksiders II* on Stadia, *Darksiders III* on Stadia and Switch, *Comanche* on PC, *Skydrift Infinity* on several consoles, *Pile Up! Box by Box* on several consoles and *Neighbours Back from Hell* on Android and iOS. None of the released titles made a notable revenue contribution in the quarter.

## BUSINESS AREA: GAMES – KOCH MEDIA PUBLISHING

Business Area: Games – Koch Media Publishing released the following new products in the quarter July-September 2021:

Title	Publishing Label	IP Owner	Platforms	Channels
<i>Big Rumble Boxing: Creed Champions</i>	Koch Media	External	PC, PS4, Xbox One, Switch	Physical
<i>Beyond Contact - (early access)</i>	Deep Silver	External	PC	Digital

<i>Space Punks - (early access)</i>	External	External	PC	Digital

Net sales of Business Area: Games – Koch Media Publishing increased by 15% to SEK 584.7 million (506.8) compared to the corresponding period last year.

Sales exceeded management's expectations during the quarter. The main new release, *Hot Wheels Unleashed* published by Milestone, was a major revenue driver in the quarter. The release of *Hot Wheels Unleashed* was also well received by the media globally. The release is a notable achievement by the 25th year celebrating-Milestone that has become the largest premium game developer in Italy over the years, today comprising over 250 employees.

The Koch Media Group continues to grow its workforce with over 100 new employees that have joined during the quarter, where the majority came from new acquisitions in the

quarter of development studio DigixArt Entertainment within the growing sector of narrative games, as well as Dutch-based Vertigo Studios Amsterdam (formerly known as Force Field VR), a leading VR development studio, operating under Koch Media's Vertigo Games Group, a leading VR development and publishing company.

The VR developer and publisher Vertigo Games has been in the spotlight during and after the quarter. The company was selected Best Studio 2021 at the Dutch Game Awards, highlighting its combination of studios, arcades and publishing business and growth. After the quarter and in connection to the annual Facebook Connect event, Vertigo announced a partnership deal to bring five titles to VR over the coming years, including Deep Silver Games and others.

## BUSINESS AREA: GAMES – COFFEE STAIN / GHOST SHIP GAMES

Business Area: Games – Coffee Stain / Ghost Ship Games released the following new products in the quarter July-September 2021:

Title	Publishing Label	IP Owner	Platforms	Channels
<i>Valheim Hearth &amp; Home DLC</i>	Coffee Stain Publishing	External	PC	Digital

Net sales of Business Area: Games - Coffee Stain / Ghost Ship Games amounted to SEK 120.4 million (129.9) during the quarter. Sales were slightly lower than management's expectations. Delayed game updates for *Deep Rock Galactic* and *Satisfactory* contributed to lower sales than expected. Still the same titles were the major revenue contributors for the quarter, accomplished with *Valheim*, however on a slower phase than earlier quarters.

The long awaited and major update of *Valheim*, titled *Hearth & Home*, was launched in September. The update was well received from players. *Valheim* once again reached more than 100,000 concurrent players. Following the update, sales of *Valheim* now performs on a more stable level.

Coffee Stain acquired the Swedish game development studio Easy Trigger during the quarter. Easy Trigger was founded in 2016 and has developed the critically acclaimed title *HuntDown*. The onboarding of Easy Trigger has proceeded according to plan and the team is now focused on pre-production of their next title.

Coffee Stain has a strong pipeline of development project and is progressing according to plan. Looking ahead, the current quarter includes the long-awaited *Satisfactory* update.

In September, *Deep Rock Galactic* got a major update with full modding support for the Steam version of the game. This has been a request from the community for a long time and the final result came from a collaboration with both the modding community and with Mod.io. Mod.io is a relatively new modding platform started by veterans from the modding scene. The modding support in *Deep Rock Galactic* is seen as a long-term investment that will pay off over time and potentially keep the game alive for many, many years. Ghost Ship Games is also dedicated to the future support and growth of *Deep Rock Galactic* and has planned a new invigoration of the game with the launch of Season 01 in November 2021, and several more Seasons to come in 2022 and beyond.

During the quarter, Ghost Ship Games invested into a minority stake in the Danish start-up Ugly Duckling Games, an Aarhus-based game developer.

## BUSINESS AREA: GAMES – AMPLIFIER GAME INVEST

Business Area: Games – Amplifier Game Invest released the following new products in the quarter July-September 2021:

Title	Publishing Label	IP Owner	Platforms	Channels
<i>Dice Legacy</i>	Ravencourt	Own	PC, Switch	Digital
<i>Fishing: North Atlantic Scallops - DLC</i>	External	External	PC, PS4, Xbox One	Digital

Net sales for Business Area: Games - Amplifier Game Invest amounted to SEK 30.1 million (8.9). Amplifier's net sales are reported within Business Area: Games THQ Nordic.

Amplifier released DICE Legacy developed by Destiny Bit and published by Ravenscourt during the Quarter. The absolute majority revenue contributors for the quarter were royalties from *Little Nightmares 1 & 2*.

After the reporting period, Amplifier announced the foundation of two new studios: Zapper Games in Durham, US, and Goose Byte Studio in Montréal, Canada. The new studios are based on a pioneering investment model, where Amplifier establish and fund the company, provide a wide range of development support, while the top tier talent, backed by solid financial incentives, drives the creative vision of the studio.

Zapper Games will be led by Josh Mills, Abey Miranda and Mike Tata, seasoned developers with a combined experience of over 40 years in the games industry. Zapper Games will focus on action-adventure games for PC and Consoles.

Goose Byte sets up in Montréal led by Theodor Diea and Nathan Ross Powell, who will form the organizational and technical core of the studio. Goose Byte will design and build games based on their own IPs, for PC and Consoles, in the open world survival crafting genre, with a strong focus on good UX and solid social features. The studio aims to expand existing genres to wider audiences by putting a strong focus on innovations in UX, networking and social elements.

<i>Sid Meier's Civilization VI: New Frontier Pass</i>	Aspyr	External	Mobile - IOS	Digital

Net sales of Business Area: Games – Saber Interactive were SEK 462.9 million (259.1) during the quarter, with the highest operational EBIT-margin in the global Embracer Group.

Saber Interactive had its best quarter since joining the Embracer Group. Major contribution in the quarter by the two new releases *World War Z: Aftermath* and *Insurgency Sandstorm*, accomplished by the back catalogue titles *Snowrunner*, the original *World War Z* and Aspyr catalogue titles. The Work-for-hire business is an ongoing contributor to the revenues.

After the quarter Saber released *Crysis Remastered Trilogy* (in collaboration with Crytek), *Phoenix Point* (console) and *Darksiders III* (Switch). All three titles were physical and distributed by other group companies (Koch Media and THQ Nordic).

Saber continuing its extensive growth, both organically and through acquisitions, their talent base of Internal headcount has increased with 563 persons where of 139 persons from organic growth, compared to last quarter. During the quarter Saber completed the acquisitions of Slippgate, 3D Realms, Fractured Byte, SPL (Smartphone Labs), Bytex, and Demiurge and the onboarding is running smoothly.

## BUSINESS AREA: GAMES – DECA GAMES / CRAZYLABS

Revenues in Business Area: Games – DECA Games / CrazyLabs amounted to SEK 248.8 million (32.7).

Sales growth was driven by the addition of CrazyLabs and healthy back catalogue sales. The greatest sales contributors were *Party in my Dorm*, *Realm of the Mad God* and *Kingdom of Heckfire* and *Super Stylist*.

DECA Games has made several sizeable acquisitions during the period.

The acquisition of the Israel-based publisher and developer CrazyLabs, closed in September and earlier than expected, contributed to SEK 104 million in the quarter. CrazyLabs is an Israel-based publisher and developer of hit mobile game *Super Stylist* and long-lasting casual and lifestyle role playing games. Additionally, CrazyLabs is one of the top hyper-casual publishers. CrazyLabs brings an internal team of over 300 FTEs, a large global network of developer relationships, proven publishing and UA expertise across multiple genres and a robust publishing infrastructure. CrazyLabs improves Embracer’s publishing capabilities within mobile, adding scale and creating additional M&A opportunities.

During the quarter, DECA Games also acquired China-based Jufeng Studio from Gaea and two mobile titles, *Hero Hunters* and *Killshot Bravo*, from Canada-based Hothead Games. The acquisition of Jufeng Studio comprising a team of 50 persons gives DECA Games access to a talent base in China and a platform for growth in the Asia Pacific Region. Gaea’s co-founder and President, An An, will join as the Managing Director of DECA Games’ new China office, and lead M&A efforts within the Asia Pacific Region for DECA Games. Jufeng studio will initially focus on the live operations of its six existing IP’s but over time, additional IP’s will be added to its portfolio, both through acquisitions and development in-house. Jufeng Studios will be consolidated into Embracer’s accounting as of October 2021.

## BUSINESS AREA: GAMES – EASYBRAIN GROUP LIMITED

Net sales for Business Area: Games – Easybrain amounted to SEK 606.7 million during the quarter. Sales and UA (user acquisition) exceeded management’s expectations.

During the quarter, the IDFA changes negative impact was lower than management initially expected, and the overall performance of Easybrain business was significantly higher. Easybrain was able to constantly scale its business finding new ways to significantly grow UA, improving performance and monetization of existing games, and successfully launching the new game *Number Match*.

After the reporting quarter and close to the publication of this report, games by Easybrain had more than 1 billion cumulative downloads and reached historically high levels of daily revenue, projected profits, and UA spend; further, DAU (daily active users) approached 14 million. Easybrain had three of the top five revenue titles of the global Embracer Group in the quarter, and four of the top five performers in the first half year.

## BUSINESS AREA: GAMES – GEARBOX ENTERTAINMENT COMPANY

Business Area: Games – Gearbox Entertainment Company released the following new products in the quarter July-September 2021:

Title	Publishing Label	IP Owner	Platforms	Channels
<i>Godfall</i>	Gearbox Publishing	External	PS4	Digital
<i>Godfall - Fire &amp; Darkness DLC</i>	Gearbox Publishing	External	PS4, PS5, PC (Epic)	Digital
<i>Tribes of Midgard</i>	Gearbox Publishing	External	PC (Steam), PS5, PS4	Digital & physical

Net sales of Business Area: Games – Gearbox Entertainment Company amounted to SEK 433.6 million. The major revenue contributors of the quarter were the new release of *Tribes of Midgard* and back catalogue sales of *Borderlands 3*.

New releases during the quarter included *Godfall – Fire & Darkness DLC* and *Tribes of Midgard*, both on PC, PS4 and PS5. Both games were well received by gamers and initial sales exceeded management’s expectations.

In August, Gearbox Entertainment announced a new studio in Montréal, Canada. The studio has an ambition to over time employ 250 individuals. The new development team in Gearbox Studio Montréal will work on internal franchises and create new IP’s. Following the opening of a new studio, Gearbox Entertainment has significant recruitment needs. Gearbox Entertainment will therefor focus on recruiting and onboarding talent during the coming months.

Gearbox Entertainment offers its employees hybrid office solutions and the majority choose to work part of the time at the office.

After the reporting period, Gearbox Entertainment’s founder and CEO Randy Pitchford announced that veteran chief technology officer Steve Jones will take on his role as president of Gearbox Software. Randy Pitchford, who, in addition to remaining a key driver of creative strategy and development across titles and franchises, will continue to serve as CEO and President of The Gearbox Entertainment Company and oversee Gearbox’s transmedia work in film and television.

## BUSINESS AREA: PARTNER PUBLISHING/FILM

Net sales in the Partner Publishing/Film business area amounted to SEK 465.3 million (887.8).

There were no notable releases with significant commercial impact during the quarter whereas sales were boosted by the releases of *F1 2020* and *Marvel Avengers* in the comparable period last year. Given the lack of notable releases, sales were in line with management expectations.

Koch Media is expanding the capacity of its Shared Service- and European Logistic Center in Höfen, Austria. Phase one is now achieved and set for being ready to warehouse and ship major partner publishing releases starting from the start of this month. Phase two will be to install a fully automated picking system which can handle all our product SKUs (standard boxed videogames and film Blu Rays, collector editions, game merchandise including apparel, etc.).

After the quarter, Koch Media UK announced the acquisition of the British marketing and live events company Splatter Connect. Splatter Connect provides a multitude of field marketing services, spanning retail store attendance, experiential marketing and live event staffing and management. The company comprise four fulltime employees, and provides staffing to clients/projects via a digital platform they created, drawing from a pool of up to 200 people on a flexible freelance basis.

### FILM

The film segment had a solid quarter with performance above management expectations.

Strong catalogue sales were mainly driven by collectors' boxes. In Italy, the rollout continues of relevant catalogue titles from Paramount and additional TV series will be made available over the coming quarters. It is worth noting that Q2 last year is a challenging comparison since it included a number of significant releases.

The digital market performed in line with budget, supported by growth of the Horror Channel on Amazon Italy. The theatrical market remains weak even though it has recovered compared to the same period last year.

Quantic Lab, the software outsourcing company specialized in quality assurance ("QA"), localization and user experience for gaming and applications, had a solid quarter above management expectations. An increased demand for the services provided is a contributing factor. Furthermore a functional complex in-office, multiple shifts together with WFH system, has been implemented, to deliver ongoing support.

The onboarding and integration into Embracer group is progressing well. During the quarter Quantic Lab celebrated its 15 years anniversary.

Grimfrost, which was acquired by Embracer Group during the quarter, is a global leader within high-quality Viking merchandise. Its headquarters are located in Karlstad, Sweden with 12 employees. The primary business model is B2C, but Grimfrost also supplies costumes and assets to TV and movie productions (e.g. Game of Thrones, Vikings), and to reproductions for museums. The biggest market is currently the US which represents approximately 60% of sales. Since the acquisition, Grimfrost has continued to invest in its growth. Investment have been made in product development to grow the range of custom Grimfrost products. The revenue of Grimfrost was consolidated in the group as of August.

## ONGOING DEVELOPMENT AND COMPLETED GAMES

Total SEK 881.6 million was invested in ongoing game development, the highest amount ever in a single quarter. These investments lay the foundation for growing revenues from future launches.

The increased investments into game development in the quarter over prior quarters is mainly related to increased organic investments into new game development, where the latter is impacted by a shift from co-publishing projects towards internal development projects in Saber Interactive.

The finalized value of the completed and released games during the quarter were SEK 281 million driven by the releases of *Kings Bounty 2*, *Tribes of Midgard*, *Hot Wheels*, *Insurgency Sandstorm* and *World War Z Aftermath*.

## FORECAST – VALUE OF FINALIZED GAME DEVELOPMENT

In the current financial year ending March 2022, the ambition is to complete more than 90 game development projects with a total completion value in the range of SEK 1,330-1,580 million.

### SIGNIFICANT EVENTS AFTER THE QUARTER

> On October 14, Embracer Group announced the acquisition of mobile game developer Jufeng Studio and eight mobile titles:

- Embracer Group, through its wholly owned subsidiary DECA Games, has acquired Gaea's mobile studio Jufeng and its six titles. Through the acquisition DECA Games gains access to a talent base in China, providing a foundation for further growth in the Asia Pacific Region.
- DECA Games has also acquired two mobile titles, *Hero Hunters* and *Killshot Bravo*, from Hothead Games Inc. DECA Games' internal studios in Europe will continue the live operations and development of these two titles.

In the quarter July to September 2021, the eight acquired titles in total had approximately 150,000 DAU and 800,000 MAU. Total gross revenues for the period were approximately SEK 50 million. Revenues will be included in Embracer Group's accounting starting October 2021.

### IFRS CONVERSION AND CHANGE OF LISTING VENUE TO REGULATED MARKET

The Board of directors decided in February 2021 that the company is to convert to the reporting standard IFRS. Thereby, an important step was taken in the process to change listing venue to a regulated market. The time-plan stipulated ranged from September 2022 to March 2024. Significant progress has been made and the conversion date has now been set to 1 April 2022, which means that the first quarterly report for the fiscal year 2022/2023 will be made under IFRS and will be released 18 August 2022.

The project for change of listing venue to a regulated market has progressed well during the quarter. At the end of September, the Board of directors decided that Embracer Group AB should proceed with a change of listing venue to Nasdaq Stockholm. The listing change will take place after the publication of our first quarterly report under IFRS, but no later than June 2023.

## SUSTAINABILITY

### Developments for Smarter Business Framework

Being smart about our business to create great entertainment, be a great place to work and do better for the communities in which we operate is the foundation within our approach to ESG. The Smarter Business Framework and its four pillars – Business Sense, Great People, Solid Work, and Greener Planet – is our approach to sustainability. We are constantly evolving our ESG agenda to support our rapid growth. Our focus for the financial year 2021/2022 is Great People.

### Recruitment of Head of Sustainability for Embracer Group

To further strengthen the parent company's capacities within ESG and sustainability, Emma Ihre is recruited as our new Head of Sustainability for Embracer Group, starting in January 2022. Emma has an extensive and senior background in the field and currently holds the title Head of Sustainability at a leading Swedish law firm. Karin Edner will remain as the Corporate Governance & Sustainability Coordinator for Embracer Group.

### ESG initiatives and projects

A key aspect of Smarter Business is taking it step by step, which means we are continuously developing new initiatives and refining existing ones. A key focus is governance, and during the quarter, we have continued the preparations and activities for entering a regulated market.

A network for empowerment in the workplace was initiated as a pilot project. Its a key initiative of this year's focus on "Great People" - one of the four pillars of Embracer's ESG framework. The initiative aims at diversity and inclusion in the workforce. It will start small-scale at studio level and is to be evaluated before potentially scaling up as a group-wide initiative. The pilot program will consist of a lecture series and a mentorship program.

During this quarter, we have also initiated the development of a climate strategy. The climate strategy will lay the groundwork for Embracer Group's emission reduction and climate offset compensations. Additionally, the Compliance Code training programme has been updated during the quarter. We have planned for a series of sustainability webinars that is available to everyone in the Embracer Group. For management level in Operative Groups we are also planning to launch ESG Sessions shortly.

Through the Smarter Business Framework we encourage our operative groups and studios to launch their own initiatives on the ESG spectrum. One example among many is Koch Media's work to become climate neutral, a pledge they made during the last financial year. Their work is focused on reduction and minimizing the carbon foot print, and have made carbon offset investments totaling 6,285 tCO<sub>2</sub>e. They have now been certified as a climate neutral company, with on-going projects to minimize carbon footprint.

## PARENT COMPANY

We continue to build scalable corporate capabilities at the parent company, bringing on more talents and expertise to the offices in Karlstad, Stockholm, and remote. We are building capacities throughout our organization and have increased overhead positions within legal, M&A, communication, ESG and finance. During the quarter, we are pleased to have recruited key positions in legal, M&A and finance. We welcomed Ian Gulam as the Legal Counsel, Anna Orlander as Head of M&A legal, Caroline Andersson as Vice President of M&A, Anna Bokström as Head of Tax and Emma Ihre is recruited as our new Head of Sustainability. Since the IPO in November 2016 we have grown from 3 to 31 FTE's as of today.

Further, there are parent company investments that could potentially create new operative groups or be incorporated into existing ones. After the quarter, the parent company acquired 100 percent of the shares in Aionic Labs from its founders. Aionic Labs Inc is a technology and business development company based in Livermore (California), USA. The company was founded in 2020 by Lee Guinchard (CEO), Winston Chen and Alexander Caveny. Lee Guinchard, who continues to lead the company as its CEO, is a serial gaming entrepreneur and has more than 30 years of experience building and developing game related businesses through his deep industry global network.

For the past year, the parent company has been working on the ambition to create an independent operative group in retrogaming with passion-driven entrepreneurs and creators. During the start-up of this, the parent company has made two, not previously communicated, minor acquisitions in Sweden and Japan, but without any financial significance as of today. For commercial and communicative reasons, we will not provide more information at this time, but we look forward to communicating more as soon as we have all the starting blocks for the business ready.

Going forward, some smaller acquisitions will be communicated directly from operating groups or noted in future quarterly reports.

## THE GAMES ARCHIVE

### WE ARE BUILDING AN ARCHIVE TO EMBRACE THE HISTORY OF GAMES

For us, games are more than just games. It is culture. It is something created by great people with creative ideas. Preserving games and their history is important as it's a part of our heritage. By building a large archive of all physical games made, we want to preserve and tribute the games culture for a long period of time.

Embracer Group will build the games archive with the long-term ambition to preserve and document the video games heritage for both internal and external stakeholders.

The foundation of the Archive has during the year been donated by our CEO Lars Wingefors. Currently, the Archive holds approx. 50,000 pieces of games, consoles, peripherals, and arcades including many of them extremely rare and almost unique items.

The Archive is located close to our HQ in Värmland. The goal is to build an archive to preserve games and a complete reference library for the benefit of the group and all its stakeholders. The Archive can be exhibited to entertain and educate about the video games history, and it is a launchpad for a long-term plan to support and collaborate with institutional and grassroots efforts to preserve and document the video games heritage

The Games Archive's are in a startup face, and its recently hired CEO, David Boström, has focused on recruitment and building the team during the quarter. Natalia Kovalainen was recruited as the first archivist; she has deep knowledge about retro gaming in combination with extensive expertise in archiving. The Archive itself keeps growing, and in the quarter, a range of new games had been added, including a complete set of Japanese versions of the amazing Neo Geo CD games and hardware.

### INTERNATIONAL OWNERSHIP TOP 50 INSTITUTIONAL BY CAPITAL

### INSTITUTIONAL OWNERSHIP VS MANAGEMENT BY CAPITAL

### INFORMATION ABOUT NASDAQ FIRST NORTH GROWTH MARKET

Nasdaq First North Growth Market ("First North") is an alternative marketplace operated by the constituent exchanges of Nasdaq Stockholm. It does not have the same legal status as a regulated marketplace. Companies quoted on First North are subject to First North's rules, rather than the legal requirements set for trading on a regulated marketplace. An investment in a company trading on First North implies higher risk than one in a company listed on a regulated market. Companies must apply to the exchange and gain approval before trading on First North can commence. A Certified Adviser guides the company through the listing process and also ensures that the company continuously satisfies First North's standards.

FNCA Sweden AB is Embracer Group's certified adviser who may be contacted at: info@fnca.se or +46-8-528 00 399.

### RISKS AND UNCERTAINTY FACTORS

Embracer Group is exposed to risks, particularly the dependence on key persons for the success of game development, the sales performance of launched games, dependence on a few distributors and the success and performance of acquisitions. The complete risk analysis is found in the company's most recent Annual Report.

### ACCOUNTING AND VALUATION POLICIES

This Interim Report has been prepared in accordance with the Swedish Annual Accounts Act. The accounting and valuation policies applied are consistent with the Swedish Accounting Standards Board's Category 3 (BFN K3) regulation and are unchanged since the latest published Annual Accounts, and the Swedish Accounting Standards Board's BFNAR 2012:1

The Company's accounting policies are stated in its most recent Annual Report.

Amounts are reported in Swedish kronor, rounded to the nearest million unless otherwise stated. Rounding to the nearest million may mean that amounts are not consistent when added. Amounts and figures stated in brackets are comparatives for the corresponding period of the previous year.

### AUDITOR'S REVIEW

This Interim Report has not been subject to review by the Company's auditor.

## DEFINITIONS OF ALTERNATIVE KPI's

Embracer Group's definitions of a number of alternative KPI's used in this Interim Report are stated below. Net sales growth is reported by the Company because it regards this KPI as contributing to investor understanding of the Company's historical progress. EBITDA and EBITDA margin are reported because these are metrics commonly used by certain investors, financial analysts and other stakeholders to measure the Company's financial results. The company has chosen to disclose operational EBIT in order to provide a fair picture of the underlying operational performance. The equity/assets ratio is stated because the Company regards this as a metric commonly used by certain investors, financial analysts and other stakeholders to measure the Company's financial position.
