

Focal creates the ultimate experience for the electric hypercar Rimac Nevera

This sensational hypercar is produced by a Croatian company that specialises in high-performance electric vehicles. It's equipped with a Focal Utopia M sound system which provides an incredible listening experience. Focal, a leading French brand in the audio industry, is the first to offer a custom-made installation for an electric hypercar. With shared values such as high technology, local manufacturing, performance, and a taste for refinement, Focal and Rimac Automobili have formed a partnership of excellence around the 150 exclusives Nevera vehicles.

ADVANCED TECHNOLOGY

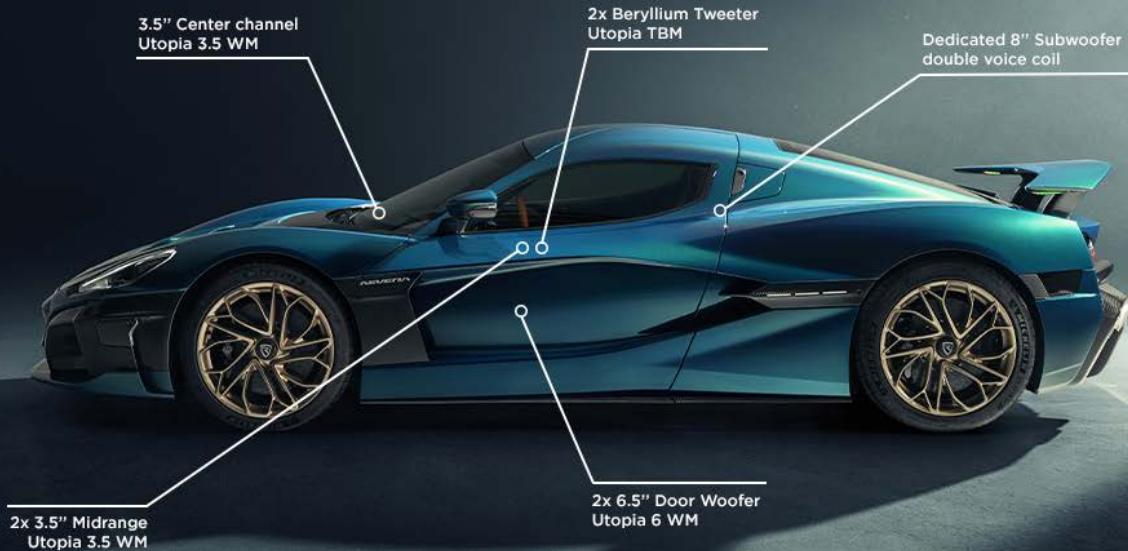

The Rimac Nevera hypercar is an outstanding example of cutting-edge technology. It has a full carbon fiber monocoque structure, four electric motors that together produce 1914 horsepower, updated air intakes, and a superior mechanical cooling and braking system. This car is designed to push boundaries and can reach a top speed of 256mph (412km/h). The Rimac engineers have achieved a 0 to 62mph (100km/h) acceleration in just 1.81 seconds. Focal engineers have also designed the ultimate Utopia audio system to display the brand's signature sonic excellence.

A BESPOKE HIGH FIDELITY SYSTEM

Sound is a crucial element in a car, and its importance is even more significant in electric vehicles. The Utopia M system by Focal takes the onboard sound experience to a whole new level. It includes exclusive technologies such as the Beryllium 'M'-shaped tweeter, 'W' sandwich cone, TMD® surround, and neodymium magnet, offering a sound of unrivalled purity and precision. The speaker driver design is inspired by French architecture, seamlessly blending into these prestigious automobiles.

PARTNERSHIP OF EXCELLENCE

Both Rimac Automobili and Focal prioritise impeccable production quality and complete mastery of the manufacturing processes. Nevera is designed, engineered, and manufactured at Rimac's headquarters in Croatia, from where deliveries are underway to customers around the world. Each car is equipped with the Utopia M system, manufactured in Focal's workshops. The Rimac Nevera is a true embodiment of the exceptional and authentic expertise of two key players in the international automotive and audio industry.
