Current tax is provided as the amount of tax payable in respect of taxable income for the year measured using the applicable tax rules and laws.
Deferred tax is provided on timing differences between taxable income and accounting income measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date.
Deferred tax assets are recognised only if there is a virtual / reasonable certainty, as applicable, in keeping with Accounting Standard 22 on 'Accounting for Taxes on Income' that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are reviewed for the appropriateness of their respective carrying amount at each Balance Sheet date.
Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax in excess of MAT during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax in excess of MAT during the specified period.
- (n) **Provisions and Contingent Liabilities**
Provisions are recognised when there is a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation as at the Balance Sheet date and are not discounted to its present value.
Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.
