HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Research, Inc. of Jacksonville, Florida from May 7 through May 9, 2019. A total of 625 registered New York City voters were interviewed citywide by telephone.

Those interviewed were randomly selected from a phone-matched NYC voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect voter registration by borough.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: Worldwide, over 100 million animals are killed for their fur every year. Roughly 85% of animals raised for fur are from fur farms primarily in China and Russia. On fur farms, dogs, cats, minks, foxes, and other fur-bearing animals are confined in wire cages, fed poor diets, and once grown, are killed by gassing, neck-breaking, and anal/vaginal electrocution. Would you support or oppose a prohibition in the City of New York on the sale of fur from fur-farms?

QUESTION: The remaining 15% of the 100 million animals killed for fur each year are trapped in the wild with metal leg-hold traps, or similar trap that results in the animals being trapped for days without any food, water or shelter before they're killed by strangulation, shooting, drowning, or bludgeoning. Would you support or oppose a New York City law prohibiting the sale of fur from trapped wild animals?
