

IDA21

IDA in Focus

IDA21 Scorecard:

A More Effective Way to
Measure IDA's Results

May 7th, 2024

WORLD BANK GROUP

The Scorecard links IDA21 to the WBG Evolution

Moving from Vision to Impact

NEW VISION & MISSION

“Creating a world free of poverty – on a livable planet.”

NEW SCORECARD

For the first time ever, we will have a unified Scorecard for IDA, IBRD, IFC, and MIGA. Results can be customized by institution, enabling an IDA only view of the data.

FINANCING MODEL

NEW PLAYBOOK

“This scorecard will be our yardstick of accountability and a guidepost that our teams can rally around and work toward.”

Remarks by World Bank Group President Ajay Banga at the 2023 Annual Meetings Plenary

The IDA21 Scorecard has four building blocks: vision, client context, WBG results indicators, and results narratives

VISION

OUR VISION IS A WORLD FREE OF POVERTY ON A LIVABLE PLANET

Aspiration

PEOPLE

Global population headcount living in poverty
(at \$2.15/day and \$6.85/day)

PROSPERITY

Global average income shortfall from a prosperity standard of \$25/day

Number of countries with high inequality

PLANET

Global greenhouse gas emissions
(gigatons of CO₂ equivalent)

Millions of people highly vulnerable to climate risks globally*

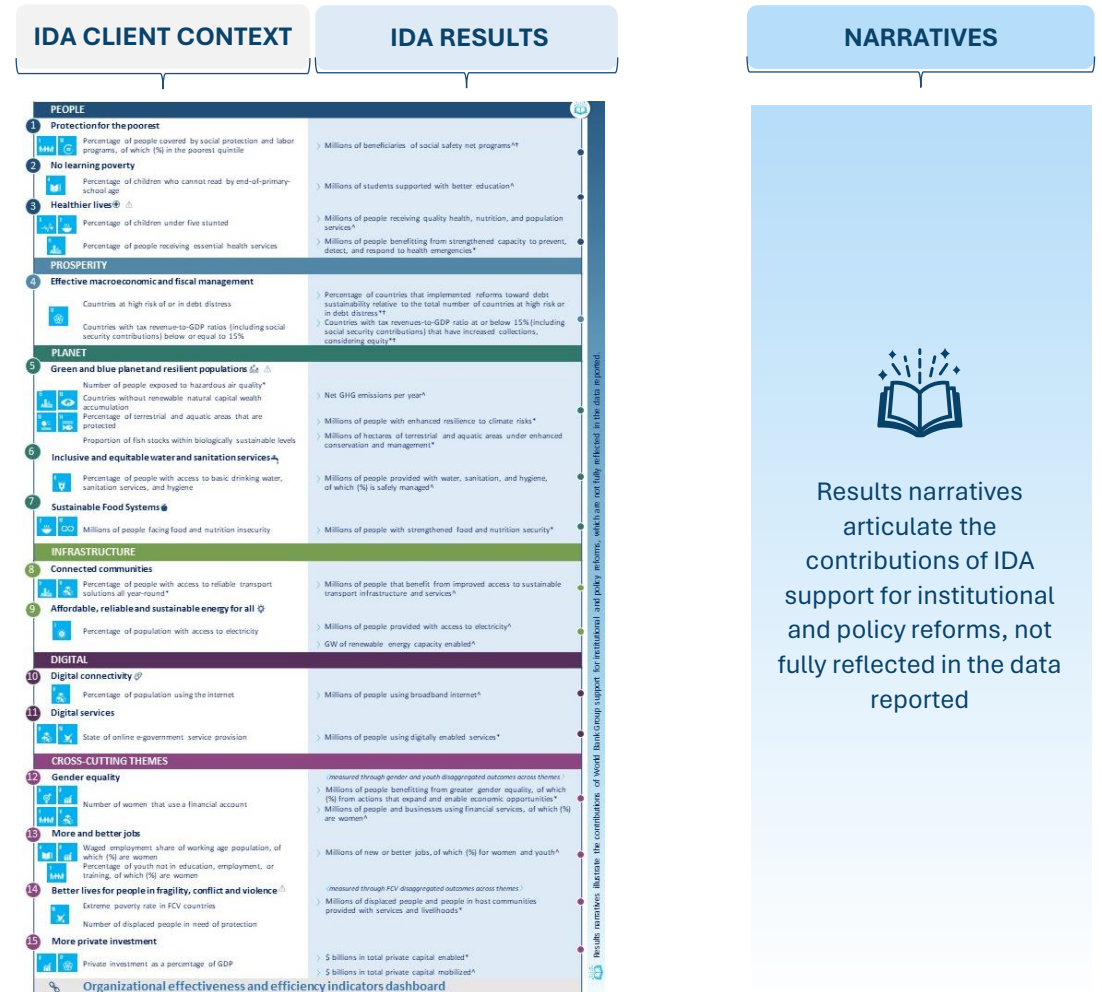

Millions of hectares of healthy terrestrial ecosystems globally*

Millions of people facing food and nutrition insecurity globally

Percentage of people with access to basic drinking water, sanitation services, and hygiene globally

* New indicator

THE SCORECARD CAPTURES THE CORE OF WHAT IDA21 WILL DO

Results narratives articulate the contributions of IDA support for institutional and policy reforms, not fully reflected in the data reported

The IDA21 Scorecard builds on lessons from the RMS and feedback from IDA Partners

Learning from IDA

IDA RMS has progressively increased its outcome-orientation, with 70 percent of IDA20 indicators focused on outcomes.*

Enhancing the focus on **OUTCOMES**

Since IDA17, the RMS has gradually expanded FCS and sex disaggregation. For the first time, IDA20 published methodology notes for all indicators.

More transparency for true **ACCOUNTABILITY**

IDA Partners requested that IDA21's overarching theme emphasize scale and ambition **for impact**.

MANAGING with results-driven insights

IDA Scorecard is...

Organized thematically with 100 percent of indicators focused on outcomes.*

Provides more disaggregation, more robust methodologies, and transparent underlying data on a dedicated IDA platform. For the first time, methods will be published in a reproducible form, enabling replication of results calculations.

Tracks the stock of anticipated and results achieved, enabling the Scorecard to serve as both a reporting and a management tool.

*According to the taxonomy presented by the Independent Evaluation Group in the 2021 Results and Performance of the World Bank Group 2021.

IDA21 will measure results across 15 outcome areas, covering the most pressing challenges IDA countries face

Aligned with the SDGs

1

Protection of the Poorest

2

No Learning Poverty

3

Healthier Lives

4

Effective Macroeconomic and Fiscal Management

5

Green and Blue Planet and Resilient Populations

6

Inclusive and Equitable Water and Sanitation Services

7

Sustainable Food Systems

8

Connected Communities

9

Affordable, Reliable and Sustainable Energy for All

10

Digital Connectivity

11

Digital Services

12

Gender Equality

13

Better Lives for People in Fragility, Conflict, and Violence

14

More and Better Jobs

15

More Private Investment

The Scorecard aligns with the IDA21 policy framework, with indicators for all focus areas and lenses¹

FOCUS AREAS

PEOPLE

1 Protection of the poorest

2 No learning poverty

3 Healthier Lives

PROSPERITY

4 Effective macroeconomic and fiscal management

PLANET

5 Greener planet and resilient populations

6 Inclusive & equitable water and sanitation services

7 Sustainable food systems

INFRASTRUCTURE

8 Connected communities

9 Affordable, reliable and sustainable energy for all

DIGITAL

10 Digital connectivity

11 Digital services

LENSES

12 Gender equality

13 Better Lives for People in Fragility, Conflict, and Violence

14 More and Better Jobs

15 More Private Investment

¹ Focus Areas and Lenses are as presented to Participants at the March meeting. This list is illustrative, not exhaustive.

IDA21 will go further in measuring results that improve people's well being

IDA20 RMS

 People provided with access to improved water sources

Raising the bar on **QUALITY**

 People provided with enhanced **access** to financial services

From access to **USE**

 Number of gender-tagged projects

From inputs to **OUTCOMES**

 Beneficiaries in IDA countries of job-focused interventions

From outputs to **OUTCOMES**

IDA21 SCORECARD

 People provided with water, sanitation, and hygiene, of which (%) is **safely managed**

 Millions of people and businesses using financial services, of which (%) are women

 People benefitting from **greater gender equality**, of which (%) from actions that expand and enable economic opportunities

 **New or better jobs**, of which (%) for women and youth

Nearly all IDA20 RMS indicators can be reflected in IDA21

New Results Indicators shed light on IDA21's outcomes in critical areas

SEVEN NEW RESULTS INDICATORS

- **PREPARING FOR THE NEXT PANDEMIC**
People benefitting from strengthened capacity to prevent, detect, and respond to health emergencies.
- **SAFEGUARDING HABITATS**
Hectares of terrestrial and aquatic areas under enhanced conservation and management.
- **MOBILIZING DOMESTIC RESOURCES**
Countries with tax revenues-to-GDP ratio at or below 15% (including social security contributions) that have increased collections, considering equity.

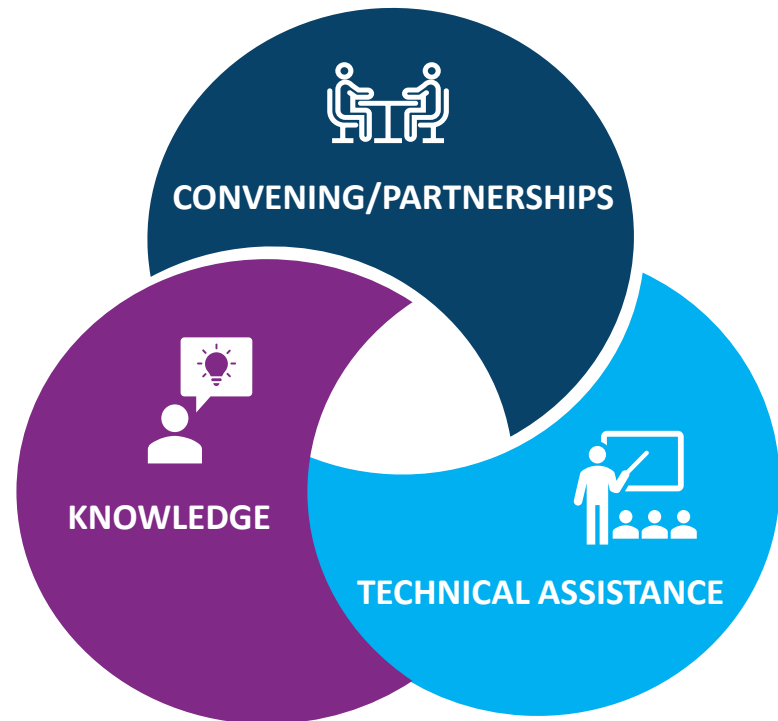

- **ACCELERATING THE DIGITAL REVOLUTION**
People using digitally enabled services.
- **CROWDING IN THE PRIVATE SECTOR**
Private capital enabled.
- **ASSISTING DISPLACED COMMUNITIES**
Displaced people and people in host communities provided with services and livelihoods.
- **MITIGATING THE LOOMING DEBT CRISIS**
Reforms toward debt sustainability.

Results Narratives trace how the WGB’s support for institutions, policies, and market creation contribute to better development outcomes

Giving visibility to important, longer-term results beyond the Scorecard indicators

Responds to IEG’s caution that quantitative indicators alone “leave the institution with major blind-spots, notably on its contributions with **analytical work and advisory, convening, advocacy, and standard-setting.**”¹

One for each Outcome Area updated annually, all Results Narratives will include **IDA country examples**

Evidence-based narratives, using a standard approach, informed by expert consultations

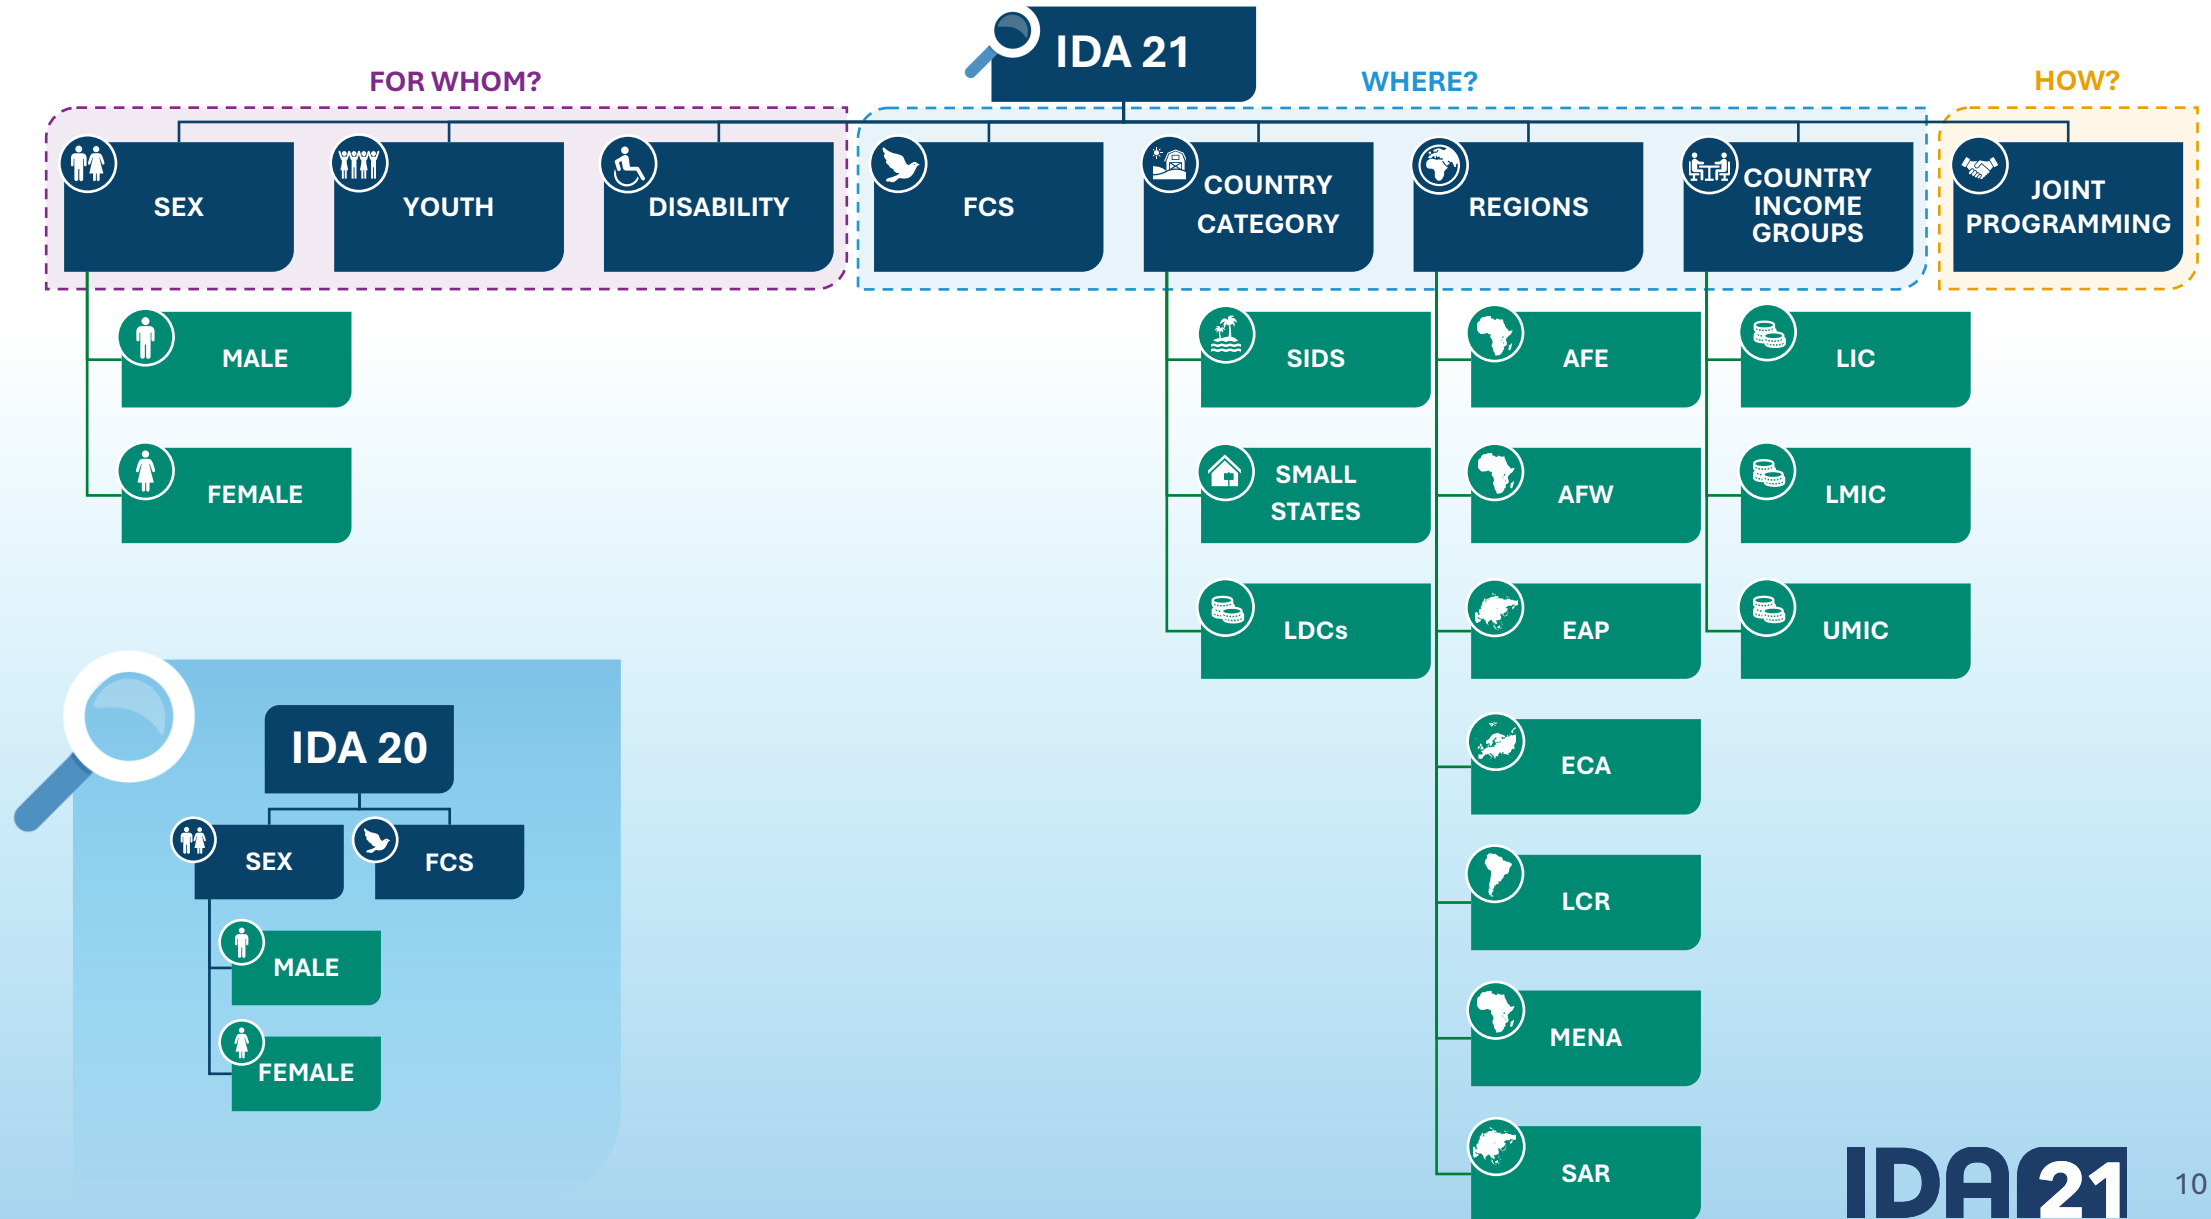

Methodology for Results Narratives **currently under development**

¹ IEG note on Outcome Orientation prepared for WBG Evolution discussions..

The Scorecard will disaggregate IDA results by eight variables, offering greater transparency on who benefits, where benefits are realized, and how they are achieved

We are preparing to use the Scorecard as a managerial tool.

Using more and better data for timely course-correction and greater outcomes

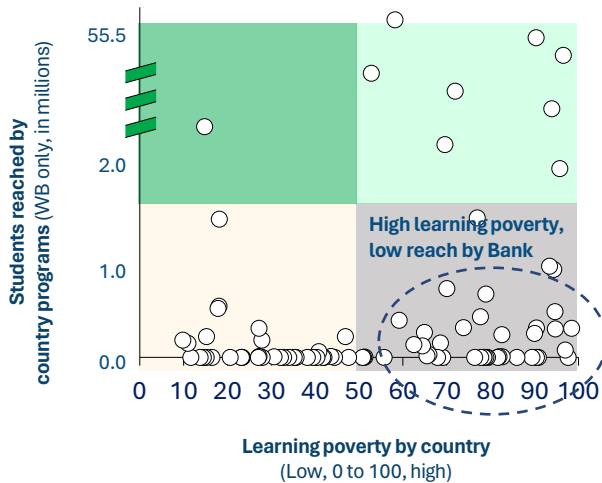

Example

LEARNING POVERTY

Countries with **highest share of learning poverty with low Bank support**

Are results growing where they are most needed?

This illustrative example applies to the Bank, but the rationale is also relevant to IFC/MIGA

Increasing our ability to understand the difference we make and how to amplify it

Stepping-up our capacity to produce analytics to improve **accountability and selectivity**

Using more and better data to improve **learning and evidence-based decision-making**

Updated guidance and training for staff and clients is being drafted to support Scorecard implementation as a management tool.

Thank you
