

NAVY COLLECTION by EMECO

FIRST LET'S MAKE THINGS THAT LAST.

In the throes of World War II, the U.S. Navy needed a place to sit. They commissioned a chair that was lightweight, non corrosive, fire resistant and torpedo proof. Emeco took on the challenge and in 1944 the 1006 Navy Chair was born. Handcrafted from 80% salvaged aluminum using a unique 77-step process, it was tested to last 150 years. Today we still make the Navy Chair the same way at our factory in Hanover, Pennsylvania.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful furniture that lasts through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

The 1006 Navy - our first chair. Created in 1944 for warships and sailors. Now found in all types of habitats. Make something well, it can survive anything. Handmade in America from recycled aluminum. Guaranteed for life.

1006 Navy Collection. Made in Hanover, Pennsylvania, USA.
Forming, welding, grinding, heat-treating, finishing and anodizing. Just a few of the 77 steps it takes to build one.
Available with a hand brushed finish, suitable for both indoor and outdoor use, or hand polished finish.

Heritage by Philippe Starck

Philippe Starck coined the saying "Heritage Against Recycling" - when you make something so well that it never has to be recycled. Starck designed the Heritage collection as a stacking version of the original Navy chair, built to last forever and be handed down for generations. We guarantee it for life.

1104 Navy

In 1949 the US Government needed a high quality library chair. Emeco's 1104 Navy with a wood seat was created for this application. The solid wood seat is available in ash, cherry, walnut and oak – each handcrafted by Amish woodworkers in Lancaster, Pennsylvania.

Navy Wood Chair

Navy Wood Chair. A solid wood edition of an iconic form. The mindful exploration of craftsmanship, engineering and materials makes for a well-built humble chair with an innate beauty that lives up to the high standards of the original 1006 Navy Chair.

With its smooth touch and feeling of warmth, the Navy Wood Chair comes in three finishes: White Oak, Dark-stained Oak and Walnut - all locally sourced from sustainably managed forests and crafted in collaboration with our Amish neighbors in Lancaster, Pennsylvania.

111 Navy - wasteful turned into hopeful

In 2010, Coca-Cola and Emeco collaborated to solve an environmental problem: Upcycling consumer waste into a sustainable, timeless, classic chair. Made of at least 111 recycled PET bottles, the 111 Navy collection is a story of innovation. Each year, 111 Navy keeps millions of plastic bottles out of landfills.

All 111 Navy colors are suitable for outdoor use.

111 Navy Mini. Strong and safe for both play and rest, it also sits lightly on the planet. With its generous seat and low height, it serves as both low chair and child's chair.
