

Get a FAB credit card, in a few taps.

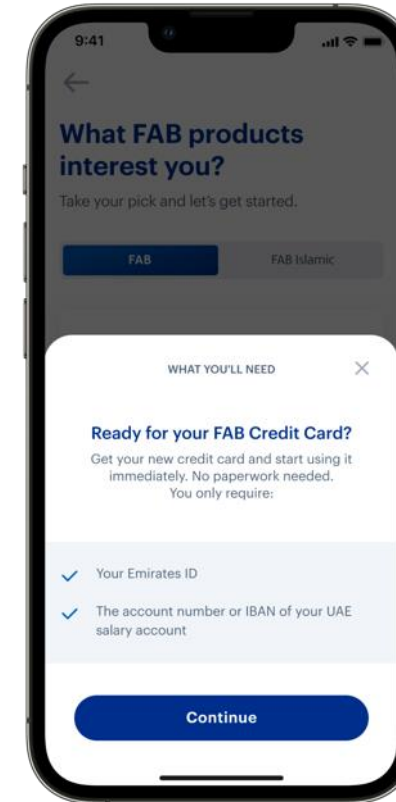

Step 01: Sign Up

01 New to FAB? No problem! Start with downloading the FAB Mobile app from the App Store or Google Play store.

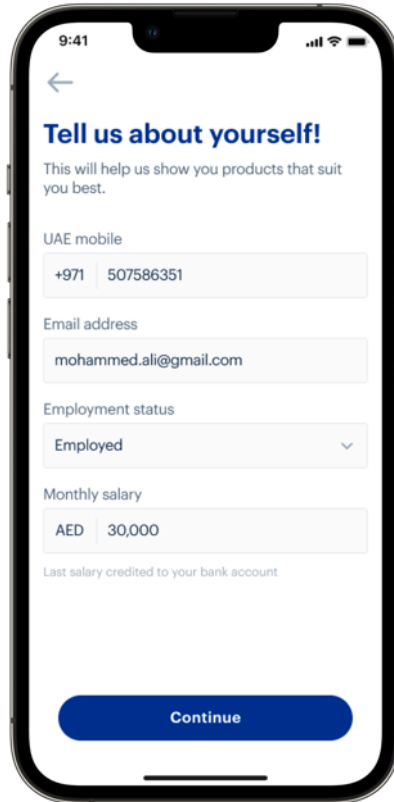

02 Choose the 'I want a credit card' option. You can choose either a FAB (conventional) or FAB Islamic credit card.

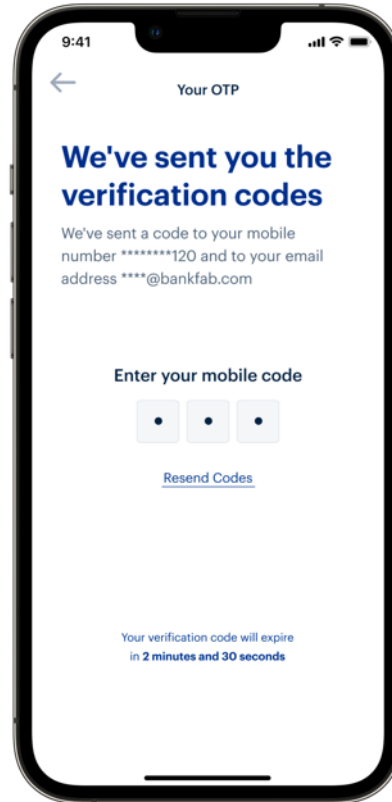

03 You will require your Emirates ID and your salary account information, so make sure you keep them handy.

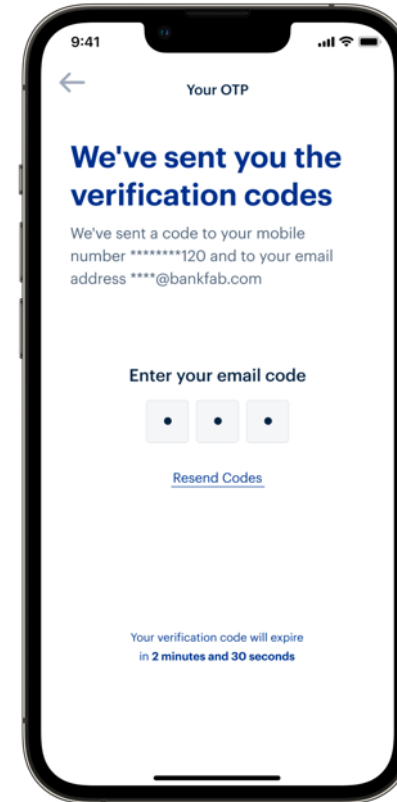

Step 02: Contact Info Verification

04 Share your contact information as well as your employment status, to receive credit card recommendations.

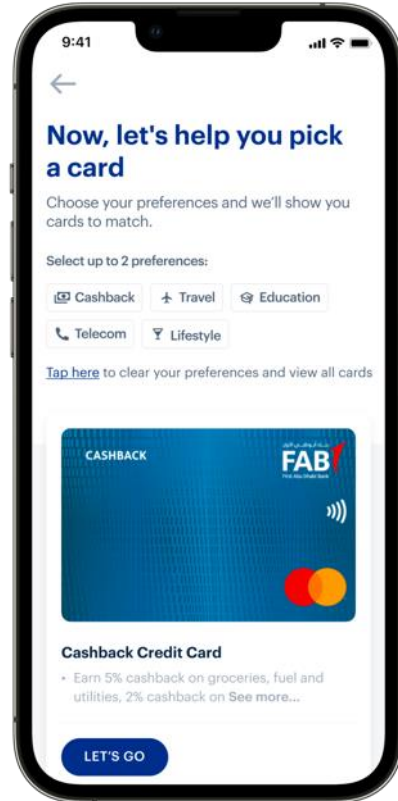

05 Verify your mobile number with the code sent to your mobile phone...

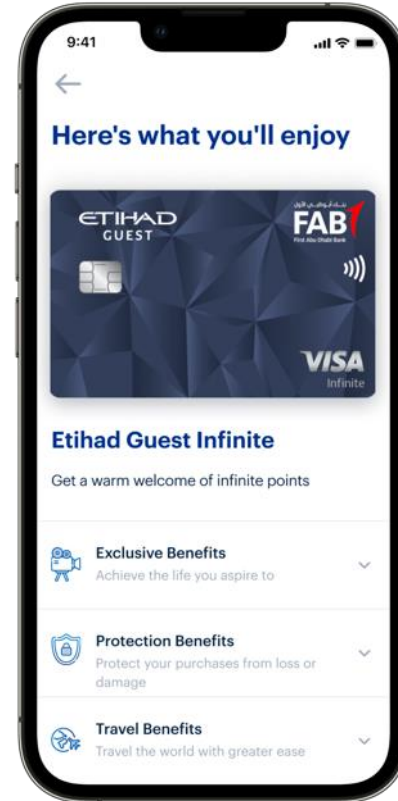

06 ... and your email address.

Step 03: Card Selection

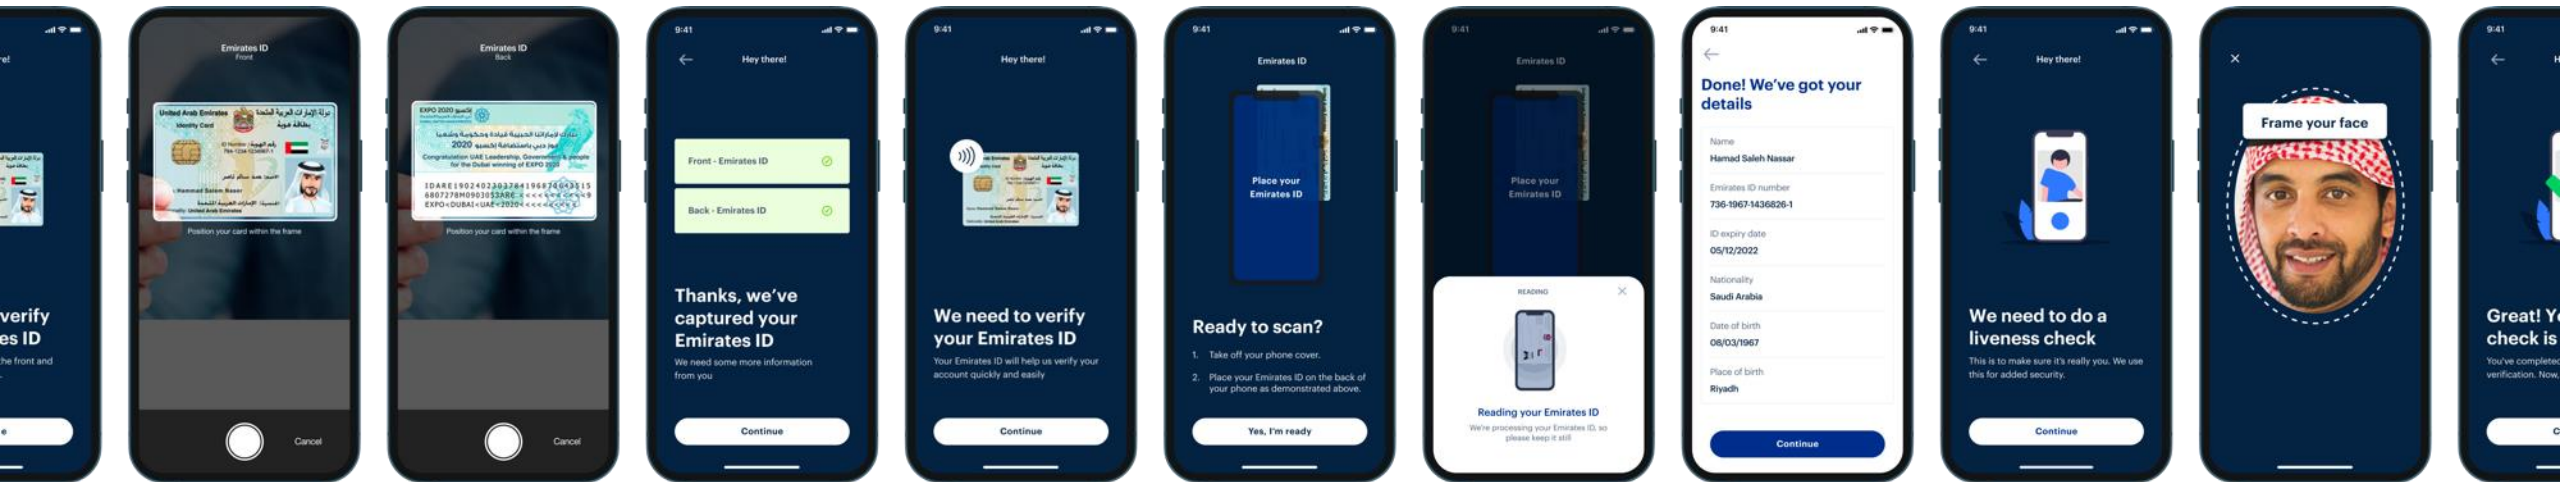

07 Select your card benefit preferences, and browse the list of cards that match your preferences.

08 Explore the range of benefits and offers that your card provides.

Step 04: Security Verification

09

There are two parts to the security verification. First, you will be prompted to scan and tap your Emirates ID. This auto-fills the form with information from your Emirates ID. A secure process that removes the need for manual form filling.

Second, you will be required to take a video selfie or a 'liveness check' to verify your identity. This eliminates the need for an agent to visit you in person and carry out additional checks.

Step 05: Additional Details

Enter the name and mobile number of someone you know and trust within the UAE.

Contact name
Khalid Ali

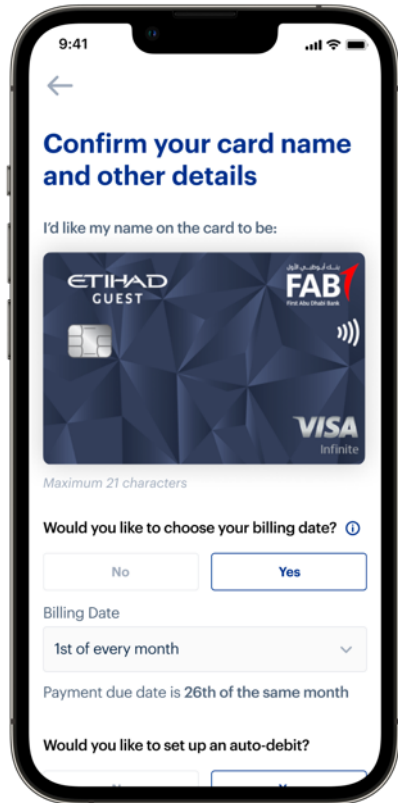

UAE mobile number
+971 50 827 3474

Don't worry, we won't use this information for any...

10

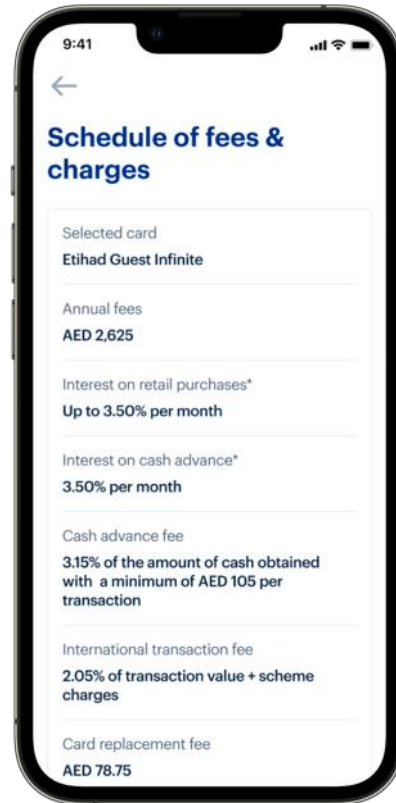

You can review the details captured and also enter additional details such as your home country address.

Step 06: Confirming your card

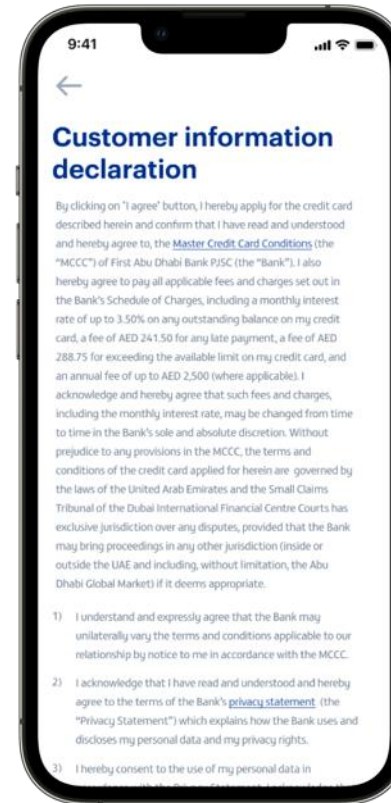

11

Confirm the name you want on your card and billing info.

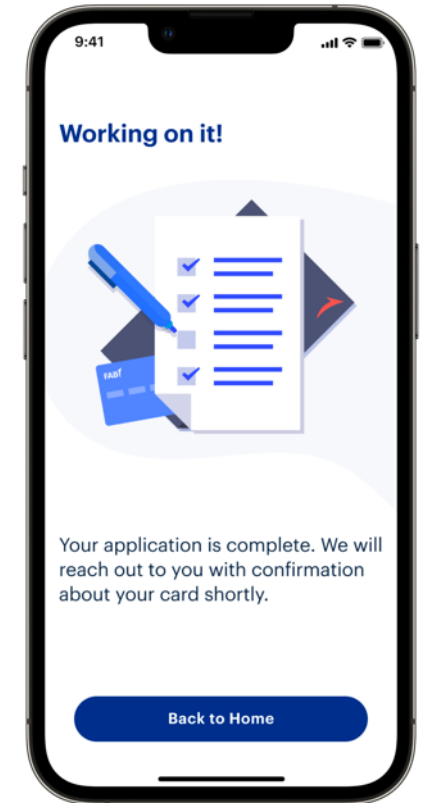

12

Review the fees associated with it.

13

Review the terms and conditions before you confirm your card.

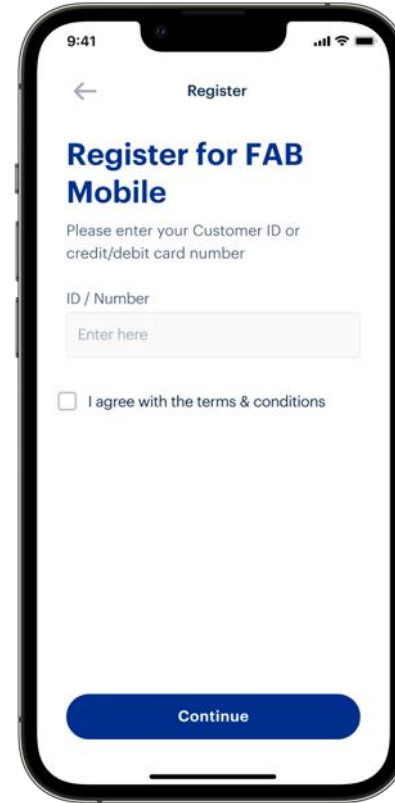

14

Your application is now complete. Mandatory credit checks and other verifications will be triggered by the Al Etihad Credit Bureau and other entities to approve the credit card limit.

Step 07: Approval & Registration

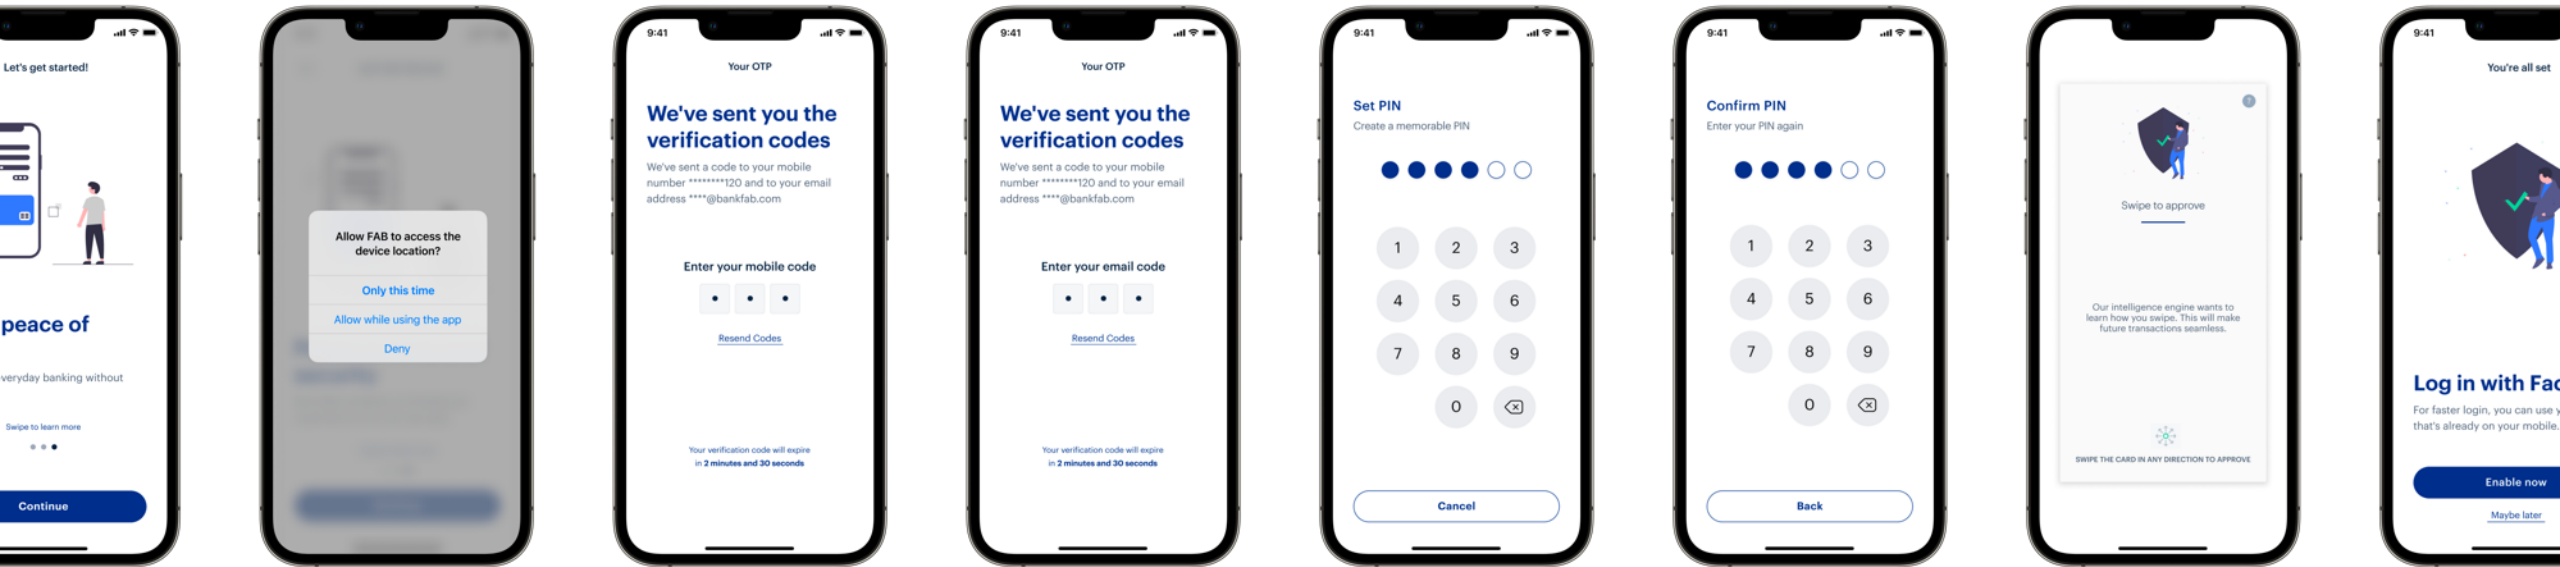

15 You'll be notified once your card is approved. You can register to the FAB Mobile app so that you can manage your information.

16 Enter your card number or Customer ID to register.

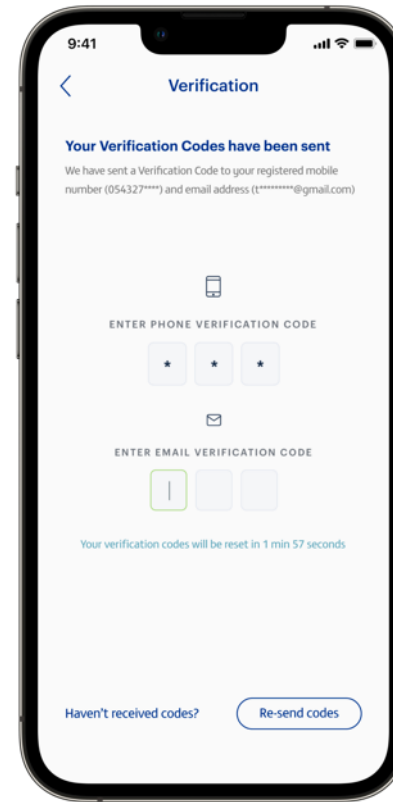

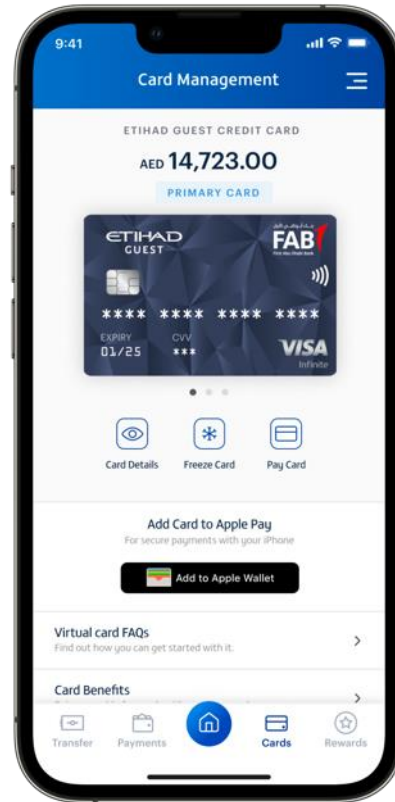

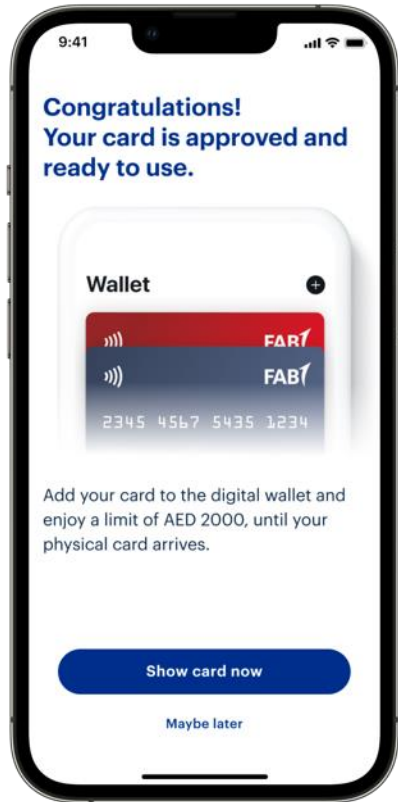

Step 08: Registration

17

Follow the steps to set your PIN and register to the FAB Mobile app.

Step 09: Start using your virtual card

18

Once the checks are complete and your card is approved, you can view your virtual card and start spending right away, even before your physical card is delivered by the courier.

Thank you
