

Network Notification

Date: March 8, 2013

Number: OH-P-2013-02

To: Ohio Providers with Fixed Wing and Helicopter Air Ambulance Services

From: CareSource

Subject: CMS Transmittal 408: Additional Requirements for Fixed Wing and Helicopter Air Ambulance Operators

As a service to our providers who supply the above services and pursuant to CMS Transmittal 408 dated February 22, 2012 regarding additional provider and supplier enrollment requirements for fixed wing and helicopter air ambulance operators:

The rule states that “within 30 days of revocation or suspension of a Federal or State license or certification...[the supplier] must report revocation or suspension of its license or certification to the applicable Medicare contractor. The following must be reported: specific pilot certification including but not limited to instrument and medical certifications and airworthiness certifications.”

Based on the above statement, CareSource wants to assure that the impacted providers are prepared to meet the requirements outlined in Transmittal 408.

CareSource will be mailing an attestation letter and form to affected Providers on a quarterly basis to confirm compliance with this CMS requirement. Please read and sign the attestation form within five working days of receipt.

If you have any questions, please call **1-800-488-0134** and follow the prompts for the Credentialing Department.

Thank you in advance for your cooperation.
