Subject: State of Ohio Clarifies FQHCs, RHCs Not Eligible for PCRI

The State of Ohio recently issued a clarification that Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs) are not eligible for increased payment through the Primary Care Rate Increase (PCRI). See [the memo](#) from the Ohio Department of Medicaid (ODM). CareSource provider relations will be working with FQHCs and RHCs to collect funds paid in error.
