- **ROP:** If submitted through the Nurture Ohio site, providers will be reimbursed \$30.
- **PRAF:** If submitted through the Nurture Ohio site, providers will be reimbursed \$90 per submission. Each Provider is encouraged to update the PRAF with each trimester. Faxed/paper versions will continue to be reimbursed at \$12.11.

## Impact

### Report of Pregnancy (ROP)

An ROP captures a Medicaid individuals' pregnancy as soon as possible by providing notification of pregnancy to the MCOs and Ohio Job and Family Services. An ROP is to be submitted at the first positive pregnancy screening.

The ROP will assure timely healthcare and connection to resources in the community and through the MCOs. This also maintains a pregnant women's Medicaid eligibility without disruption in coverage throughout pregnancy and sixty days post-partum.

Submission of the ROP through the Nurture Ohio site, Providers will be reimbursed \$30. This is for Non OBGYN providers.

### Prenatal Risk Assessment Form (PRAF)

Every pregnant woman with Medicaid coverage should have a PRAF completed through the Nurture Ohio site. Through this submission, Medicaid coverage for Mom and baby will continue without disruption through their pregnancy and sixty days post-partum. Also, this can serve as a pregnancy notification to all MCOs and Ohio Job and Family Services. This will provide timely health care and connections to resources both community wide and through the MCO.

When submission of the PRAF form is completed through the Nurture Ohio site, Providers will be reimbursed \$90 with each submission. Each Provider is encouraged to update the PRAF with each trimester. Faxed/paper versions will continue to be reimbursed at \$12.11.
