CareSource®

Network Notification

Notice Date: **September 10, 2019**
To: **Ohio Medicaid and MyCare Providers**
From: **CareSource**
Subject: **National Provider Identifier for Ordering, Referring, and Prescribing Providers**

Summary

The Ohio Department of Medicaid (ODM) will soon require that all Medicaid managed care claims list the name and the National Provider Identifier (NPI) of the health care professional that ordered, referred or prescribed (ORP) the items or services. This information is required due to changes in federal and state law.

Impact

Providers who render services to Medicaid beneficiaries should ensure that such services are being ordered, referred, or prescribed by an eligible provider who is enrolled in Medicaid.

Importance

Claims submitted must include the name and the NPI of the health care professional that ordered, referred, or prescribed the items or services. Claims missing the ORP NPI could be subject to rejections or denials in the future. ORP is required for the following provider types:

- Private duty nurses
- Hospice
- Clinics (durable medical equipment/DME, skilled therapy, clinical laboratory or radiology imaging services only)
- Mental health clinics (DME, skilled therapy, clinical laboratory or radiology imaging services only)
- Medicare certified home health agencies
- Other accredited home health agencies
- Skilled therapists
- Clinical nurse specialists
- Pharmacies
- DME suppliers
- Imaging\testing facilities
- Independent laboratories
- Portable X-Ray suppliers
- Nursing facilities (DME, skilled therapy, clinical laboratory or radiology imaging services only)
- Federally qualified health centers – skilled therapy

Questions?

CareSource will provide further details once ODM has finalized and officially released the new policy.
