Subject: Drug Testing Reimbursement Policy

CareSource monitors provider responses when we communicate changes in the way we do business with you. We strive to ensure our messaging provides transparent directives and guidelines. It was brought to our attention that language within the previous [Drug Testing Reimbursement Network Notification](#) dated August 30, 2017 and language within the policy itself needed further clarification.

Although modified for clarity, the policy will continue to have an effective date of October 1, 2017. All health partners that order these drug tests and all laboratories that perform these drug tests are encouraged to read and understand the requirements outlined in the policy. The policy outlines reimbursement guidelines for drug testing services.
