

Great news!

Energy Institute membership for employees is here, opening up complimentary, career-enhancing support for you and your colleagues.

The Energy Institute (EI) is the chartered professional membership body for people who work across the world of energy.

Whether you're looking to get professionally qualified, to progress in the energy sector, or simply interested in understanding more about energy, the El is here for you.

And as an employee of a company which holds corporate membership of the El, you can sign yourself up for Associate membership without the usual fee.

What are the benefits of joining?

Bolster your credentials

Demonstrate your commitment, competence and expertise by working towards valuable professional qualifications in energy, including *Chartered status*.

Get connected

Connect with others working or interested in energy through our member and young professional <u>communities</u> in geographies around the world, and free and discounted <u>events</u> and <u>training</u>.

Access support

THILLIAN TO THE PARTY OF THE PA

Gain confidential support through <u>El Assist</u> and, if you're aiming to develop professionally, use <u>El Connect</u> to find a mentor and <u>mycareerpath</u> to record your progress.

Be in the know

Access extensive <u>e-library resources</u>, our weekly digital magazine <u>New Energy World</u> and discounted internationally renowned <u>publications and guidance</u>.

Contribute to your industry

Expand your experience and share your knowledge by taking part in research initiatives, joining *specialist committees*, speaking at conferences, and *becoming a mentor*.

Gain a wider perspective

Join 20,000 other members to learn about how energy is developing in your field and more broadly around the world. You'll discover new ideas and future opportunities.

Hear from some of our members

Gino Antoine Leon AMEI

Wind Turbine Graduate Engineer, Public Utilities Corporation — Mahé, Seychelles

Being an Associate has greatly benefited my career. The skills and knowledge from their Level 1 Energy Management Training allowed me to optimise energy consumption in my role, their resources keep me updated on industry trends and their events and training facilitated networking opportunities.

Shahda Al Taie AMEI

ESG Manager for the energy sector, KPMG — Dubai, UAE

Being an Associate has given me great access to the wider El network and has helped me support other young professionals along their career journeys in the energy sector. I am an active member of the board of the Middle East branch, and I chair the Young Professionals Network in the region.

Mattias Gustafsson AMEI

Laboratory Engineer, Preem Refinery — Gothenburg, Sweden

I've received support from the EI over the past two years. The meetings about sustainable aviation fuels have been amazing and have given me so much valuable information. A new world opened up for me, and I became a member to fully take advantage of all the knowledge available from the EI, without which it would be very hard for me to find all the information I need.

You're almost a member.

Membership for employees is available on a complimentary basis to anyone working for an organisation which is a corporate member of the El.

It applies to the Associate grade of membership only. If this is already you, you will not have to pay for your next renewal.

If you are an Affiliate member and would like to benefit from complimentary membership, email companies@energyinst.org to ask us to transfer you over to Associate.

Membership arrangements and payments for professional grades are unchanged.

Here's how to get started

Are you an existing Associate member?

If you already use your company email address for your membership, you have automatically been moved to complimentary membership for employees and you don't need to take any action.
