

2021 Notifications Sent by NCMEC Per Electronic Service Providers (ESP)

We often receive CyberTipline reports about imagery of child sexual exploitation that is being shared online. In some cases, the reports are made by the child victims themselves or their guardians/caregivers. The CyberTipline is a lifeline for families who are struggling to have explicit images of their child taken down.

After visually reviewing the reported imagery, NCMEC staff members notify the electronic service provider where the image or video has been shared. Based on how a company or their platform operates, content may be removed or users blocked or banned from their services in response to a notification. Once a notice has been sent to the company, NCMEC staff manually track the response and will generate additional notices until we can confirm that the content is addressed.

The following is a breakdown of notifications by electronic service providers

| ESP | Notifications Sent | Average Days to Response/ Take Down |
|--|--------------------|--|
| 4archive.org | 1 | 1.59 |
| 8kuntop | 12 | 0.75 |
