

2022 Notifications Sent by NCMEC Per Electronic Service Providers (ESP)

In some cases, the reports about imagery of child sexual exploitation online are made by the child victims, their guardians/caregivers, or INHOPE member hotlines from around the world.

After visually reviewing the reported imagery, NCMEC staff members notify the electronic service provider where the image or video has been shared. Based on a company's Terms of Service, imagery may be removed or users blocked in response to a notification. Once a notice has been sent, NCMEC staff manually track the status and will generate additional notices until the content is addressed.

The following is a breakdown of notifications by electronic service providers

ESP	Notifications Sent	Average Days to Respond/Takedown
1337 Services LLC	14	2.9
1gservers LLC	1	0.7
2ch.hk/life	9	5.1
