BY JENNIFER CABRERA

GAINESVILLE, Fla. – Aaron Pioquinto, 20, was arrested yesterday and charged with ten counts of possession of child pornography.

The National Center for Missing and Exploited Children received a CyberTip on June 24, 2022, from Google regarding 19 videos of child exploitation material in a Google Drive account. Google also provided login dates, times, and IP addresses for the account. A search warrant issued to Google produced the original content reported in the CyberTip, along with 936 child sexual abuse videos/images.

A subpoena produced a physical address for the IP addresses, and Gainesville Police Department served a warrant at the address on February 16. Four adults and a juvenile live at the address, including **Aaron Pioquinto**, and contact was made with Pioquinto's father when the search warrant was executed. While officers were at the scene, Pioquinto arrived and agreed to a search of his cell phone.

Post Miranda, Pioquinto reportedly denied ownership of the Google account at first but later admitted owning that account and other accounts; he admitted downloading and storing the content that was found in his Google Drive account. He also reportedly confirmed that he traded child sexual abuse material with other people. Sixty videos were reportedly found on one of his accounts, and preliminary analysis of one of his devices found more images and videos depicting the sexual abuse of children.

18-year-old arrested with child porn after multi-month investigation

HomeCrime ByStaff Report
JUNE 5, 2023

A Clermont teenager is facing nearly a dozen felony charges after he was found in possession of child pornography.

Aidan De Medeiros, 18, was arrested last week on 11 counts of sexual performance of a child by the Clermont Police Department Criminal Investigation Division.

The investigation into Medeiros began after a tip was obtained through the National Center for Missing and Exploited Children CyberTipline.

In partnership with the Internet Crimes Against Children Task Force and Florida Department of Law Enforcement, Clermont Police Department detectives reviewed photographs and videos of graphic sexual exploitation of prepubescent females that were in possession of a local resident.

Their investigation led them to identify De Medeiros as the sole suspect in possession of the child sexual abuse materials.

On Wednesday, May 31, a search warrant was obtained for De Medeiros' residence and on Friday, June 2, it was executed by members of the Clermont Police Department and Florida Department of Law Enforcement Cybercrime Task Force.

Three electronic devices were seized as evidence and De Medeiros was detained without incident. After a thorough review of the evidence seized, as well as an interview with the suspect, De Medeiros was charged with multiple felonies and transported to the Lake County Jail.

Law enforcement authorities say that De Medeiros has no known local employment and/or association with organizations involving children. He has no prior criminal history and detectives believe that the materials depicted children who were unknown to De Medeiros.

De Medeiros was released on Saturday, June 3 after posting bail.

Lowcountry Men Arrested on Child Sexual Abuse Material* Charges

(COLUMBIA, S.C.) - South Carolina Attorney General Alan Wilson announced the arrest of Jordan Eric Vandell Blake Jr., 19, of Johns Island, S.C., and **Aiden Joseph Mahon**, 18, of Galivants Ferry, S.C., on eight total charges connected to the sexual exploitation of minors. Internet Crimes Against Children (ICAC) Task Force investigators with the Charleston County Sheriff's Office and Horry County Sheriff's Office made the arrests in these unrelated cases. Investigators with the Attorney General's Office, Charleston Police Department, and Department of Homeland Security, all also members of the state's ICAC Task Force, assisted with these investigations.

Investigators received a CyberTipline report from the National Center for Missing and Exploited Children (NCMEC) which led them to both Blake and Mahon. Investigators state Blake distributed and possessed child sexual abuse material and Mahon distributed files of child sexual abuse material.

Blake was arrested on February 21, 2023. He is charged with one count of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment; and five counts of sexual exploitation of a minor, third degree (§16-15-410), a felony offense punishable by up to 10 years imprisonment on each count.

Mahon was arrested on February 22, 2023. He is charged with two counts of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment on each count.

Both of these cases will be prosecuted by the Attorney General's Office.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Ogden man arrested for 11 felonies related to child exploitation

By Nancy Van Valkenburg July 9, 2023

OGDEN, Utah, July 9, 2023 (Gephardt Daily) — An Ogden man has been arrested on 11 felony charges after he allegedly downloaded child sexual abuse material (CSAM) onto various electronic devices at his residence, obtaining some through chat rooms and soliciting original videos from juveniles.

Alec Pantaleoni, 28, was charged on Thursday, July 6, on suspicion of:

- Five counts of aggravated sexual exploitation of a minor, a first-degree felony
- Five counts of sexual exploitation of a minor, a second-degree felony
- Dealing in materials harmful to a minor, a third-degree felony

A search warrant was served Thursday, and multiple files were located.

“Your affiant reviewed these files and found that they were indisputable evidence of children being sexually abused and recorded,” say Pantaleoni’s charging documents, filed by an officer of the [Ogden City Police](#) Department.

“He admitted to entering chat groups on popular social media applications and obtaining CSAM. He admitted to distributing it as well.”

Pantaleoni also admitted to targeting juveniles age 12 through 17 “where he would obtain CSAM from them and send them naked photos and videos of himself.”

The suspect provided the phone passcode and allowed the officer to search it, the statement says.

“Your affiant confirmed he sent 10s if not 100s of files of CSAM to others and obtained the same amount. Your affiant knows, based on the individuals he was talking to, that he was actively victimizing minors and children, obtaining CSAM from them. He was also taking their photos and organizing them into albums of the child so he could quickly access them later. ... The A/P (arrested party) was keeping a typed diary using an old typewriter in which dates going as far back as 2020 were found.”

“Based on the hundreds of files located, and his admission the A/P was booked into jail.”

Bluefield men arrested on charges including possession of child sexual abuse material

Greg Jordan, Bluefield Daily Telegraph, W.Va.
July 27, 2023

Jul. 27—BLUEFIELD — Two Mercer County residents are facing charges including possession of child sexual abuse material after an investigation was conducted by the Mercer County Sheriff's Department.

Alexander Curzi, 22, of Bluefield was arrested Tuesday by Detectives Lieutenant S. A. Sommers and Corporal M. T. Hatfield, according to a statement released Wednesday by the sheriff's department.

Curzi has been charged with possession of child sexual abuse material (about 600 images); solicitation of a minor via computer (eight counts); cause/assist minors in filming sexually explicit conduct (three counts).

The case began Nov. 17, 2021 when Sommers was assigned a National Center for Missing & Exploited Children Cyber tip line report for investigation, according to the criminal complaint filed at the Mercer County Magistrate Clerk's Office. A review of the tip line report showed that an internet user "uploaded/shared four (4) files of suspected CSAM (Child Sexual Abuse Material) to another user or group of users within Kik on or about October 11, 2021."

The four files were color photographs of female juveniles less than 16 years old in sexual situations, according to the criminal complaint. Sommers obtained and served an administrative subpoena on an internet provider and a search engine for information. Google responded with information leading to Curzi. Sommers and Capt. J.J. Ruble conducted a "knock and talk" at Curzi's home.

"Alexander Curzi was present at the apartment, where a consensual interview took place in the parking lot," Sommers said in the report. "He admitted to receipt, distribution and possession of CSA M and identified the following devices that were inside his apartment as being use for/containing CSAM." These devices included a laptop computer, an external hard drive and an iPhone 11 Pro Max. The items were seized as evidence.

Curzi consented to being transported to the Mercer County Sheriff's Department for a recorded interview. After being advised of his Miranda Rights, Curzi gave a statement and admitted to owning email addresses and accounts

for distributing and receiving CSAM, possessing CSAM, actively engaging in the solicitation of minors and exchanging sexually explicit photographs with minors. When the interview was finished, Curzi was released pending the completion of the investigation, according to the criminal complaint.

The investigation showed alleged contact with minors and messages requesting explicit photographs and discussing sex acts and other sexual activity, according to the complaint. Explicit videos were allegedly requested from a female juvenile and received by Curzi.

Curzi was being held Wednesday at the Southern Regional Jail on a \$50,000 cash-only bond.

In an unrelated case, Marcus Allen Lambert, 31, of Bluefield was charged with possession of child sexual abuse material, according to a criminal complaint filed by Sommers. The case began Jan. 18, 2022 when Sommers was assigned a National Center for Missing & Exploited Children Cyber Tipline Report.

Facebook reported that a user had distributed two files with CSAM to another user with the Messenger application, according to the criminal complaint.

One alleged file showed an adult male in a sexual act with a juvenile female, according to the criminal complaint. Using an administrative subpoena, the account was identified as one belonging to Lambert.

Lambert was being held Wednesday on a \$6,000 bond at the Southern Regional Jail.

SANTA ROSA COUNTY, Fla. (WKRK) — An engineer on the Eglin Air Force Base was arrested on child pornography charges on Tuesday, according to the Florida Department of Law Enforcement.

Alexander Freehardt, 42, was charged with promoting a sexual performance by a child, use of two-way communication device to facilitate a felony and six counts of electronic transmission of child pornography.

According to FDLE investigators, on Jan. 2, the National Center for Missing and Exploited Children received a Cyber Tipline Report in reference to the "possession, manufacturing and/or distribution of child pornography."

The report said the username "geomachine1" was used on a Messenger app to upload four separate media files depicting child pornography.

According to the FDLE report, investigators submitted a search warrant to Google for the content of the "geomachine1"'s email. The content of the Google account included photos of Freehardt, according to the report.

On Feb. 7, law enforcement with the Santa Rosa County Sheriff's Office and Homeland Security executed a search warrant at Freehardt's address in Navarre. According to the report, while the search warrant was happening, Freehardt showed up to the address and consented to being interviewed.

During the interview, the report said Freehardt admitted to being the owner of the "geomachine1" email account, but said it was a spam account. In the interview, Freehardt admitted to using the Messenger application, though he declined being able to recall what his username was, according to the report. Freehardt initially declined having sent image and video files of child porn, but later he said he may have done so, according to the report.

Freehardt was booked into the Santa Rosa County Jail without bond.

Huntley man working as Lake in the Hills Taekwondo instructor facing child porn charges

Emergency meeting held for parents at Taekwondo studio Friday evening.
By Christian Piekos, Tre Ward, and Stephanie Wade

Friday, October 27, 2023

LAKE IN THE HILLS, Ill. (WLS) -- A Huntley man who worked as a Taekwondo instructor is facing child pornography charges.

Police confirmed that the suspect, 29-year-old **Allen Nguyen**, was an instructor at Ha's Taekwondo in Lake in the Hills.

Nguyen is facing multiple counts of possession of child pornography, following his arrest by the Huntley Police Department at his apartment earlier this week after a four-month investigation.

Parents of students at Ha's Taekwondo, remained silent as they were ushered into the Lake in the Hills facility for an emergency meeting Friday night, following disturbing allegations against the former instructor.

A yellow piece of paper posted to the front of the academy Friday morning alerted the community of the emergency meeting to address concerns and to discuss how to move forward.

Multiple people commented on a Huntley PD Facebook post about Nguyen's arrest, saying their children were taught by Nguyen at Ha's Taekwondo and are in disbelief.

Parents, whose children attend the Taekwondo studio, told ABC7 they are beyond disgusted and angry. They feel betrayed by the studio after learning an instructor who's spent countless hours with their children has now been charged with child pornography.

One parent said she is disgusted by the news and added that she pulled her children from Ha's Taekwondo and no longer wants to be attached to the academy.

Yesenia Cervantes was looking to enroll her daughter in the program, but changed her mind after reading the sign plastered on the door of the closed storefront, alerting the community about the meeting.

"It's in your own neighborhood. It's shocking," Cervantes said. "Thinking, 'oh, this is only a few blocks from my house. Let me see if I can put her in there.' It's hard, because who do you trust nowadays?"

The school said they are committed to regaining the community's trust by bringing in a professional and implementing new security programs.

An emergency parent-only meeting will be held 7 p.m. Friday at the Lake in the Hills studio.

Huntley Police Chief Robert A. Porter said in a statement, "I appreciate the work of our staff and various law enforcement partners who assisted us on this case. These are extremely difficult and challenging cases to work and I truly appreciate all of their efforts in bringing this individual to justice."

Ha's Taekwondo issued a statement about the situation:

Ha's Taekwondo has been serving the community for nearly 23 years. The recent arrest of former employee Allen Nguyen, has left the staff and families of Ha's Taekwondo completely devastated. Mr. Nguyen does not have a previous criminal record and there have been no warning signs. At this time we have had no indication from police that our school has been involved in any of Mr. Nguyen's personal actions. We take our students safety very seriously. Our business practices list a strict set of guidelines and policies in place to ensure parents trust in our school. This trust is what has allowed Ha's Taekwondo to make a positive impact on so many people's lives for the last 23 years. We are committed to reinforcing this trust by bringing in a professional to review the current processes we have in place and implementing any new security programs where necessary. Ha's Taekwondo has scheduled a private meeting for students' parents to meet with staff to promote an open dialogue about the situation. We are asking the public to refrain from making any false or unrelated comments that might cause more unnecessary pain and suffering to the innocent parties involved. Any tips or concerns related to the investigation of the accused should be communicated directly to the Huntley Police Department.

Gymnastics coach charged with 1,000 counts of possessing and sharing child sexual abuse materials

April 21, 2023

Prosecutors also suspect there are live victims in Neafie case.

SHICKSHINNY — A gymnastics coach was charged Thursday on allegations he possessed and shared child sexual abuse materials as Luzerne County District Attorney Sam Sanguedolce believes there may be live victims.

Andrew P. Neafie, 54, of Keller Road, Fairmount Township, was arrested when county Det. Charles Balogh, West Hazleton police Det. Richard Naprava, and state police Cpl. Chris Hill, members of the Internet Crimes Against Children Task Force and Pennsylvania State Police Northeast Computer Crime Unit, executed a search warrant at his residence.

The search warrant was the result of investigating several Cybertips generated from the National Center for Missing and Exploited Children.

The Cybertips involved several videos and/or images of children involved in sex acts, according to court records.

Neafie was at his residence when the search warrant was served.

During an interview with detectives, Neafie said he has been a gymnastics coach for 34, years focusing on children from 8 to 18-years old.

“Evidence found as a result of the search warrant leads us to believe there may have been some young females that had inappropriate contact with him, whether that rises to the level of criminal activity, right now we’re not certain,” Sanguedolce said.

Neafie initially denied possessing any child sexual abuse materials but admitted he browses the internet for pornographic images, court records say.

Detectives in court records say Neafie described coming across “eNature” while researching a nudist resort in western Pennsylvania and “clicks through” images but claimed it’s tough to guess ages on those depicted in images.

Neafie admitted, court records say, he finds younger "fit" females attractive and would view child sexual abuse images for self gratification.

Detectives allege forensic examinations of electronic devices from Neafie's residence uncovered more than 1,000 images of child sexual abuse materials including files containing "eNature" watermarks.

"Upon execution of the search warrant, we revealed evidence that gave us the possibility that there maybe live victims of these crimes," Sanguedolce said Friday. "We're aware Mr. Neafie was an instructor at a local gymnastic center and also previously worked in Palmyra (Lebanon County), Annapolis, Maryland and Central Kentucky."

Sanguedolce said his office has reached out to law enforcement in those areas while forensic examinations of electronic devices seized from Neafie's residence continues.

"If any member of the public has information related to Mr. Neafie or feel they know one of the victims, we ask them to contact Det. Balogh at the district attorney's office at 570-825-1674," Sanguedolce said.

Neafie was arraigned by District Judge Matthew C. Christopher on 1,000 counts of child pornography, eight counts of dissemination of film/photo of children engaged in sex acts and two counts of criminal use of communication facility. He was jailed at the Luzerne County Correctional Facility for lack of \$200,000 bail.

The judge also added an additional condition.

"GPS house arrest. That will be for a period," Judge Elliott Levine said. "If he complies with that without any violations whatsoever, then we can talk about removing that if necessary."

Schmidt plead not guilty to all the charges. A status hearing is scheduled for May 18.

Dorchester County Men Arrested on Child Sexual Abuse Material* Charges

JUL 10, 2023

(COLUMBIA, S.C.) - South Carolina Attorney General Alan Wilson announced the arrest of **Anton Christopher Lelingis**, 42, of Ladson, S.C., and Richard Keith O'Brien, 46, of Harleyville, S.C. on 15 total charges connected to the sexual exploitation of minors. Internet Crimes Against Children (ICAC) Task Force investigators with the Dorchester County Sheriff's Office made the arrests in these unrelated cases. Investigators with the Attorney General's Office, also a member of the state's ICAC Task Force, assisted with these investigations.

Investigators received CyberTipline reports from the National Center for Missing and Exploited Children (NCMEC) which led them to both Lelingis and O'Brien. Investigators state both Lelingis and O'Brien distributed files of child sexual abuse material.

Lelingis was arrested on June 30, 2023. He is charged with three counts of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment on each count.

O'Brien was arrested on July 6, 2023. He is charged with 12 counts of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment on each count.

MORRIS COUNTY, NJ — A Morris County man is facing charges after police say they found child pornography in his possession.

Antonino LaRosa, 26, of Morris Plains, was arrested and charged with one count of endangering the welfare of a child (possession of child sexual abuse materials), said Morris County Prosecutor Robert J. Carroll.

The investigation began in April 2023, according to officials, when the National Center for Missing and Exploited Children (NCMEC) received complaints via Discord Inc. that a user had uploaded suspected child porn files to its messaging platform.

Additional complaints were received by NCMEC from Reddit Inc., who claimed that a user with the same contact information and IP address had uploaded a suspected child porn file to its social media platform, Carroll said.

The IP address in question is said to be linked to LaRosa's home, police said. An additional investigation uncovered direct messages from LaRosa's account discussing child sex abuse material.

LaRosa was later charged on a complaint-summons and has a court appearance scheduled for Aug. 2.

Stable owners facing federal child porn charges and first-degree CSC locally

Liz Shepard
Port Huron Times Herald
June 24, 2023

The owners of a St. Clair County equestrian center that offers lessons, camps and birthday parties, and is home to a 4-H club are facing multiple criminal sexual conduct charges locally, as well as federal child pornography charges.

Local charges

Todd Sabb-Visga, 47, is charged with three counts of first-degree criminal sexual conduct in St. Clair County. **Austin Sabb-Visga**, 29, is charged with four counts of first-degree criminal sexual conduct, according to court records.

The men are listed as the owners of Smith's Creek Equestrian Center in Kimball Township.

Both men were arraigned on the charges Friday. Bond has been set at \$1 million for both men.

They are both due in St. Clair County District Court for probable cause conferences at 9 a.m. July 3.

A phone number listed on the equestrian center website went directly to voicemail Saturday. Lawyers were not listed for either man in court records.

Michigan State Police investigated the case. An MSP spokesperson said Saturday that further information would be released Monday.

The St. Clair County Prosecutor's Office could not be reached Saturday.

Federal charges

In a six-page complaint filed in federal court, the men are charged with conspiracy, sexual exploitation of children, possessing child porn and receiving/distributing child pornography.

A tip was made to the Michigan Internet Crimes Against Children Task Force in June, the complaint states.

"The cyber-tip reported that an individual was sexually assaulting children and sending videos of the abuse to others using an Internet-based social media messaging application," Special Agent Trevor Hilden of the US Secret Service wrote in the complaint.

The tipster said Austin Sabb-Visga sent them images of himself and Todd Sabb-Visga engaging in sexual acts with an 8-year-old boy. The images included a photo of a nude infant, with a message saying they baby-sit the infant.

A search warrant was executed at their home Thursday.

Austin Sabb-Visga admitted to having sexual contact with a 12-year-old in September, the complaint states, and that his husband did as well, and that the acts were recorded on his phone. Child pornography involving another child was found on Austin Sabb-Visga's phone during the preliminary investigation, according to the complaint.

About the equestrian center

Smith's Creek Equestrian Center first opened in 2020, the company's website states, and is owned and operated by the Sabb-Visga family, "whose dream it was to create a home for so many animals and those that love them."

"We offer boarding, lessons, training, camps, leasing, sales, hauling, show team, and a 4-H club," the center's Facebook page states.

The Benton, Illinois resident is also facing separate federal child pornography charges. He is currently detained at the Franklin County Jail and his next court date is Nov. 15.

“Child pornography is a horrific crime that can leave life-long scars on victims and their families, and we must hold predators accountable – particularly those who repeat their crimes,” Raoul said. “My office’s Internet Crimes Against Children Task Force is committed to collaborating with law enforcement throughout the state to protect Illinois families from offenders who demonstrate that they will continue exploit young, innocent children.”

Raoul’s investigators, with the assistance of the Benton Police Department, conducted a search of Lee’s residence on Oct. 31 in the 600 block of Maple Street in Benton and arrested him after discovering evidence of child pornography and sexual conduct with an animal. Lee was previously charged by the U.S. Attorney’s Office for the Southern District of Illinois with counts related to child pornography.

Raoul’s office will co-prosecute this case with the Franklin County State’s Attorney Abby Dinn.

Raoul’s office, with a grant from the U.S. Department of Justice, runs the Illinois Internet Crimes Against Children (ICAC) Task Force that investigates child exploitation crimes and trains law enforcement agencies. The task force receives

Illinois' ICAC Task Force is one of 61 ICAC Task Forces throughout the country and is comprised of a network of more than 175 local, county, state and federal law enforcement agencies. Since 2019, the Attorney General's ICAC Task Force has received more than 35,000 CyberTips and has been involved in more than 600 arrests of sexual predators. Plea deal expected in child porn case

By Phyllis Zorn Staff writer
June 22, 2023

Bane L. Spurlin, 19, Hillsboro, is scheduled to enter pleas agreements Aug. 8 in three different court cases involving eight counts of sexual exploitation of a child.

Spurlin, then a Goessel High School senior, a gold team member, and FFA participant, was charged April 20, 2022 with four counts of sexual exploitation of a child by possessing images of a child engaging in sexually explicit conduct between Aug. 24, 2002 and Nov. 2, 2021. The sentencing range for each charge is between 13 months community corrections to 11 years 4 months in prison.

Two months later, on June 20, 2022, he was charged with one count of sexual exploitation of a child for allegedly persuading, inducing, enticing, or coercing a child to engage in sexually explicit conduct Oct. 20, 2021. This charge is an off-grid felony, for which Spurlin could be sentenced to as much as life in prison.

Spurlin was charged Friday with three more counts of sexual exploitation of a child for possessing images of a child engaging in sexually explicit conduct between July 23, 2021 and March 27, 2023. The charges are the same as the original case, so an identical sentencing range for each charge is 13 months community corrections to 11 years and four months in prison.

Court records show Spurlin has not had preliminary hearings in any of the cases, but is expected to make a plea agreement.

Operation safe screen: 26 arrests in Luzerne County crackdown on online child predators

by Taylor Whartnaby Tue, July 18th 2023

WILKES-BARRE, LUZERNE COUNTY (WOLF) — State police have a strong message for parents tonight. Monitor who your children are interacting with online.

Today in Luzerne County, they unveiled their findings of operation safe screen, which focused on identifying child predators in hopes of stopping them before they reach their next victim.

A press conference was held here at Troop P with multiple law-enforcement agencies regarding operation safe screen, concentrating their effort in locating child predators on the internet. So far, there have been 26 criminal arrests.

Operation safe screen formed to seek out predators that lure in young children where they can be exploited sexually.

“The operation also focused on individuals who produce and share digital images of juveniles in sexual behavior, commonly known as child pornography,” said Michael Carroll, Pennsylvania State Police Major.

Highly trained investigators worked tirelessly from April through June this year.

“This includes over 1,800 counts of felony charges, 15 websites were taken offline for showing child pornography,” said Carroll.

“We identified several victims of these crimes, and we have them at a safe location where they get the resources, they need hopefully to better their lives,” he added.

Authorities are urging parents and guardians to be vigilante.

“It is an extremely difficult and disturbing assignment when you have to view images of innocent victims when they are being exploited in this manner by these predators,” he said.

Internet crimes against Children task force commander Sergeant Ken Bellis says the operation involved cyber tip lines from the national center for missing and exploited children.

“Through different companies google, Facebook, Instagram who are required by law to report any concerning activity or illegal contraband they find of their servers,” said Sergeant Ken Bellis, Internet Crimes Against Children Task Force Commander.

“And just to give you an idea of how overwhelming the reports are and the volume the reports are, before the pandemic all of Pennsylvania was roughly getting around 5,000-6,000 reports a year,” he said.

In a short time since the pandemic, Bellis says they are well over 15,000 for the year.

Those 26 arrests included four juveniles.

Operation Safe Screen

The Pennsylvania State Police has concluded Operation Safe Screen, which involved the coordinated efforts of multiple law enforcement agencies, concentrating their efforts in locating child predators on the internet. The main objectives of Operation Safe Screen included undercover online chatting with child sexual predators and coordinating an in-person meeting, locating possessors of child sexual abuse material files, and locating absconders of Megan’s Law registration requirements. This extensive operation ran from April until June of this year. The following agencies took part in this operation: Pennsylvania State Police Troops P, R, and N, PSP NECCU and SECCU, FBI – Williamsport, Kingston Twp Police Department, Hazleton City Police Department, West Hazleton Borough Police Department, Lackawanna County Detective’s Office, Luzerne County Detective’s Office, Lycoming County Detective’s Office, Wayne County Detective’s Office, Philadelphia HSI, and the PA Attorney General’s Office.

BOSTON – A Dorchester man was arrested yesterday for receiving and possessing child sexual abuse material (CSAM) obtained via Zoom chat rooms.

Beau Christopher Benson, 35, was charged with possession and receipt of child pornography. Following an initial appearance in federal court in Boston yesterday before U.S. District Court Magistrate Judge Donald L. Cabell, Benson was detained pending a detention hearing scheduled for 2 p.m. today.

According to the charging documents, in April 2023, law enforcement was notified that Benson allegedly participated in Zoom video chat rooms used to share and view CSAM. It is alleged that Benson recorded his participation in the chat rooms and saved the recordings – which featured videos of CSAM and conversations between Benson and others about the CSAM – to his social media account. It is alleged that approximately 15 video files depicting CSAM were found saved in his Dropbox. It is further alleged that a cybertip identified Benson as an online user who had uploaded two files containing CSAM to a Dropbox account. Specifically, the files allegedly depicted children who appear to be approximately two to four years old.

The charge of receipt of child pornography provides for a mandatory minimum sentence of five years and up to 20 years in federal prison, at least five years and up to a lifetime of supervised release and a fine of up to \$250,000. The charge of possession of child pornography provides for a sentence of up to 10 years in prison, at least five years and up to a lifetime of supervised release and a fine of up to \$250,000. Sentences are imposed by a federal district court judge based upon the U.S. Sentencing Guidelines and statutes which govern the determination of a sentence in a criminal case.

Acting United States Attorney Joshua S. Levy and Jodi Cohen, Special Agent in Charge of the Federal Bureau of Investigation, Boston Division made the announcement today. Assistant U.S. Attorney David G. Tobin of the Office's Major Crimes Unit is prosecuting the case.

This case was brought as part of Project Safe Childhood, a nationwide initiative to combat the growing epidemic of child sexual exploitation and abuse, launched in May 2006 by the Department of Justice. SARASOTA, FL — A firefighter in Manatee County was arrested Oct. 24 after child pornography was found on his computer, Sarasota County court records show.

Benjamin Dillon, 54, of Sarasota was charged with one count of child porn possession.

He was a firefighter with West Manatee Fire and Rescue and was arrested by the Manatee County Sheriff's Office at a fire station at 10350 Cortez Road in Bradenton.

The National Center for Missing & Exploited Children sent a cyber tip about suspected child pornography uploaded by Dillon to the Sarasota Police Department, a probable cause affidavit said.

Deputies assigned to the case confirmed that at least one of the three videos referenced in the tip was child pornography. The other two files were videos of young women but they couldn't determine their age, which they said could be anywhere from 14 to 19 years old.

Investigators also found videos of Dillon masturbating both at home and at the fire station on his computer, according to the affidavit.

His search history also included terms associated with child pornography and questions about the age of consent in other countries, police said.

The Demand Project says two recent Tulsa child porn arrests are drop in bucket of nationwide problem

John Asebes
Nov 1, 2023

TULSA, Okla. — Former Tulsa firefighter Courtney Robinson is charged with manufacturing child porn and peeping tom.

FOX23 spoke with Jamie Miller, Donor Development and Funding Coordinator at The Demand Project, a shelter that helps victims who have been exploited.

“Unfortunately I am not shocked,” Jaime Miller said.

According to court documents, Robinson installed spy cameras throughout his entire home claiming they were surveillance, but records say he was filming people in his home. Documents say there could be hundreds of files between Aug. 8 and Aug. 13.

Records say he recorded 15 adults and 10 young people.

Miller said there's only one word for it.

“Pornography,” she said.

In another case, **Brendan Rhoden** was charged with child sexual exploitation. Among the disturbing content found, records say there were 400 images and 49 videos of children believed to be under 12 engaging in sexual activity.

“At this point what I believe is going into 2024, it is not just about the groomers and pedophiles and predators, society is now grooming our children,” Miller said.

Neither case surprises Miller.

“We are losing as a society,” she said.

She said nationwide, 80,000 tips are sent in for child sexual abuse material each day with 50,000 files of sexual abuse materials downloaded every single minute.

“The Demand Project was created to disrupt the demand for sex with children to defund it,” Miller said. If we don’t have a demand, we don’t have a supply.”

Without taking the blame off predators, she is putting pressure on parents to rethink who they can trust.

"Who is a safe adult?" she said.

She is also stressing to parents to reexamine the amount of trust they put in their children with phones.

"We believe online enticement is preventable," Miller said. "Sex trafficking is preventable, if we can educate children on the signs of a predator but also educating parents on how to safeguard their kids and have the right boundaries with a cell phone."

She said crimes like these are so new and rapidly growing, it's hard to even track how often it's happening to Oklahoma children.

Centralia Police make another child pornography arrest

By WJBD Staff May 9, 2023

A 19-year-old Centralia man has been arrested for possession of child pornography.

Brent Morris of East Calumet was taken into custody at his home Monday night following an investigation that began in December when the Center for Missing and Exploited Children allegedly captured a snap chat that showed a video of a person under the age of 18 engaged in a sex act.

The information was sent to the Illinois Attorney General Task Force and investigated by Jefferson County Sheriff's Department Detective Bobby Wallace. Search warrants were reportedly issued for Morris' electronic devices where other videos of minors involved in sex acts were allegedly found.

Centralia Police Administrative Lieutenant Steve Whritenour says there appears to be no connection between Morris and another Centralia teen arrested over the weekend on child pornography charges.

South Carolina man faces child sex crime charges, officials say

Apr 26, 2023

Janice Limon Social Media Executive Producer

BELTON, S.C. —

A South Carolina father is facing at least four charges of child sexual exploitation, deputies said Wednesday.

Shale Remien, with the Anderson County Sheriff's Office, said **Brian Patrick Baum**, 37, of Belton, is charged with four counts of second-degree sexual exploitation of a minor for possessing/distributing material.

Remien said Baum was arrested on March 23 after a warrant was served at his home Cox Lake Road.

She said investigators found several pieces of evidence linking Baum to child sexual abuse material.

"At least three cyber tips submitted to the National Center for Missing and Exploited Children waved a red flag regarding Baum and his online activity," Remien said.

Some of the material Baum viewed includes victims between 6 and 13 years old, according to investigators.

"As of writing, there is no evidence suggesting any local victims," Remien said, but the investigation continues.

"We've put an end to the possibility of him revictimizing the children that are seen in the images and videos by stopping him from being able to continue distributing the images and videos," Detective Melanie Shovey said. "The discovery allows us to protect potential future victims as well."

Baum is currently awaiting trial and will be prosecuted by the Attorney General's Office.

Posted Monday, January 9, 2023 5:56 pm

By Jordan Lawrence

The state Attorney General's Office announced the arrest of two Lexington County men on child sex abuse material charges.

Per a release, **Brian Andrew Brown**, 18 of West Columbia, and Nathan Allen Miller, 32 of Cayce, were arrested on Dec. 28 and 29, respectively, on six total charges connected to the sexual exploitation of minors.

"Internet Crimes Against Children Task Force investigators with the Lexington County Sheriff's Department made the arrests in these unrelated cases," the release states, noting that Investigators with the Attorney General's Office, also a member of the task force, assisted in the investigations.

"Investigators received a CyberTipline report from the National Center for Missing and Exploited Children, which led them to both Brown and Miller. Investigators state Brown distributed files of child sexual abuse material and Miller was in possession of child sexual abuse material."

Brown is charged with two counts of second degree sexual exploitation of a minor, punishable by up to 10 years in prison on each count.

Miller is charged with four counts of third degree sexual exploitation of a minor, punishable by up to 10 years in prison on each count.

Both cases will be prosecuted by the state Attorney General's Office.

"Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes," the release notes.

"'Pornography' can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason."

By Lydian Kennin

Published: Mar. 15, 2023 at 5:28 PM EDT

MEMPHIS, Tenn. (WMC) - A man has been arrested and charged after Memphis police say they found child pornography on his Google Drive.

Police say that on July 16, 2022, the Memphis Police Department received a series of complaints from the National Center for Missing & Exploited Children regarding child pornography.

Police say these complaints originated from Google after the company discovered a large number of files that it considered to be "apparent child pornography" within its Google Drive and Google Photos platforms. In total, 600 photos and videos were reported and submitted to law enforcement.

Police say 16 images depicted children engaged in various sex acts and were uploaded by a Google user under the name of **Brian Howland**.

Subpoenaed records revealed that the IP addresses used to access the Google account were linked to the address of Brian Thomas Howland, 56, in Memphis.

Investigators executed a search warrant for the Google account, which yielded additional child sexual exploitation imagery. The total number of findings was not disclosed.

A warrant was issued for Howland's arrest on Tuesday. He was booked the same day on a charge of sexual exploitation of a minor.

Howland is being held on a \$5,000 bond and is scheduled to appear in court on Thursday.

Evansville man facing felony child sex crime charges

Adam Kight

Dec 15, 2023 Updated Dec 15, 2023

EVANSVILLE, Ind. (WEVV) — An Evansville man was arrested and booked into the Vanderburgh County Jail on multiple felony child sex crime charges.

Jail records show 39-year-old **Brian Shiver** was booked on multiple counts of child exploitation and possession of child porn.

According to an affidavit, the investigation started back in 2019 when authorities received information from a social networking site about a user sending sexually explicit files believed to involve minors.

Police say the name on the user's account was Brian Shiver, and that other details from the profile such as a birthday and phone number led back to Brian Shiver in Evansville.

Investigators say they got a search warrant for the account, which showed Shiver receiving and sending files with another user over the course of several months.

Police say they were able to identify Shiver from a previous arrest mugshot, and match them with other photos of him.

In November of 2023, police say they interviewed Shiver's family member, who told them Shiver was currently at a convention in Illinois that involved "furries." They say they also asked if Shiver had an interest in My Little Pony because of the profile picture on the reported account, and that the family member told them he did.

After that, police said that multiple attempts to interview Shiver were unsuccessful, but records show he was booked into jail just before 1 a.m. Friday.

Shiver is being held on a \$20,000 bond.

ATTORNEY GENERAL RAOUL CHARGES FAIRFIELD MAN WITH CHILD PORNOGRAPHY POSSESSION

June 23, 2023

Chicago – Attorney General Kwame Raoul today announced the Attorney General’s office has charged a Wayne County man with alleged possession of child pornography. The case is part of Raoul’s ongoing work, in collaboration with federal law enforcement agencies and local law enforcement officials throughout Illinois, to apprehend offenders who download and trade child pornography online.

Raoul’s office charged **Brian J Wallace**, 53, of Fairfield, Illinois, in Wayne County Circuit Court with 11 counts of possession of child pornography, Class 2 felonies each punishable by up to seven years in prison. Wallace’s bond was set at \$500,000.

“Child pornography is a reprehensible crime. Individuals in possession of these horrific images must be held accountable to ensure innocent children are protected from exploitation that can potentially leave life-long emotional scars,” Raoul said. “These charges highlight the vital efforts of my office’s Internet Crimes Against Children Task Force, which works tirelessly to identify and track down individuals who exploit children.”

Raoul’s investigators, with the assistance of the Wayne County Sheriff’s office, conducted a search of Wallace’s residence in the 1900 block of IL Highway 15 in Fairfield and arrested him after discovering evidence of child pornography.

“I was contacted by investigators with the Illinois Attorney General’s office about assisting them in the execution of a search warrant and arrest of a suspect for crimes involving child pornography in Wayne County,” Wayne County Sheriff Chris Otey said. “The operation was successful, and my office was happy to assist. The Wayne County Sheriff’s office stands ready to assist the Illinois Attorney General’s office in any way we can to help prevent these types of heinous crimes involving children.”

Attorney General Raoul’s office is partnering with Wayne County State’s Attorney Kevin Kakac’s office to prosecute the case.

“Experts within the Attorney General’s office have been working on this case with us,” Kakac said. “We welcome their expertise and assistance in investigation and prosecution to hold the defendant accountable and help keep our community safe from child exploitation.”

The case is part of Attorney General Raoul’s work to investigate and prosecute child pornographers in Illinois. Raoul’s office, with a grant from the U.S. Department of Justice, runs the Illinois Internet Crimes Against Children (ICAC) Task Force that investigates child exploitation crimes and trains law enforcement agencies. The task force receives CyberTips, or online reports of child pornography, from the National Center for Missing and Exploited Children. Over the last several years, CyberTipline reports have steadily increased. In 2022, reports to the ICAC increased by 26% over 2021.

Illinois’ ICAC Task Force is one of 61 ICAC task forces throughout the country and is comprised of a network of more than 175 local, county, state and federal law enforcement agencies. Since 2019, the Attorney General’s ICAC Task Force has received more than 30,400 CyberTips and has been involved in more than 485 arrests of sexual predators. Police: Child porn tip leads to discovery of family living in 'deplorable conditions'

by: Vivian Muniz

Posted: May 5, 2023

DALLAS BOROUGH, LUZERNE COUNTY (WBRE/WYOU) — A couple in Luzerne County's Back Mountain were arrested when detectives said they raided their home after being alerted to alleged child pornography by a cyber tip, which led to the discovery of a house in deplorable conditions and what investigators called the "worst stench ever".

According to the affidavit, on multiple occasions beginning in March, law enforcement was contacted for child pornography downloads with the address tracing back to a house on Machell Avenue in Dallas Borough where **Bruce Myers**, 60, and Cheryl Myers, 58, lived.

On May 4, police said multiple police agencies executed a search warrant on the residence and once they went inside, they were met with the "worst stench ever." Investigators stated they found the home filled with dirty clothing, dog and cat feces, old food, a non-working refrigerator, and doors that would not open due to excessive amounts of garbage.

According to court documents, four children were living in the home, and one child was found sleeping, naked, "in and on top of garbage with nothing more than a dirty comforter." Detectives also noted they "could not help but notice how many flies were flying inside the home".

Bruce told investigators he and his wife spoke about the condition of the house, but years passed and nothing was ever done, court documents stated.

Police said during Cheryl's interview she claimed to be unaware of her husband's online activity because he rarely comes downstairs and seldom leaves the house.

Both Cheryl and Bruce admitted to forcing the children to not tell anyone about the conditions of their home, out of fear of losing custody, investigators stated.

Bruce Myers has been charged with nearly a dozen child pornography-related counts and endangerment charges. Cheryl Myers is charged with more than a half dozen counts including endangering the welfare of children.

The affidavit states, the Meyers were foster parents starting in 2008 then adopted two of their foster children in 2010 and two in 2012. The children were turned over to Luzerne County Children and Youth.

Both remain jailed without bail at the Luzerne County Correctional Facility. Their preliminary hearings are scheduled for May 18.

A 30-year-old music teacher with the Baldwin County school district has been charged with four counts of possession of child pornography, the Baldwin County Sheriff's Office said Monday.

The arrest of **Bryant Ramey** came as the result of a search warrant executed at his home Monday morning.

Authorities allegedly found images of persons under 17 engaged in obscene acts were found on Ramey's personal electronic devices, according to investigators.

Investigators noted Ramey's employment with Baldwin County schools, but said they had no evidence to suggest illegal activity had taken place on school ground.

They added, however, they have been in contact with the Baldwin County Board of Education as the investigation continues.

"The safety and security of our students, teachers and other staff within our schools will remain a top priority," the sheriff's office said in a release.

Ramey has worked as a music instructor at Pine Grove Elementary and as a band instructor with Robertsdale High School, although his current role with the school district is unclear.

"Mr. Ramey has been placed on administrative leave as of this morning," Baldwin County superintendent Eddie Tyler said in a statement. "We are working closely with the Baldwin County Sheriff's Office and will continue to do so as this investigation progresses. Due to this being a personnel matter, we cannot comment any further at this time and all questions should be directed to the Baldwin County Sheriff's Office."

Ramey's arrest was the result of a joint effort between the Baldwin County Sheriff's Office, Alabama Law Enforcement Agency ICAC Task Force, and the Department of Homeland Security Mobile Field Office.

As of mid-afternoon Monday, Ramey remained in the Baldwin County Jail under \$60,000 bond -- \$15,000 per count.

Mobile man arrested for child sexual abuse material

by Andrea Ramey Fri, July 7th 2023

MOBILE, Ala. (WPMI) — The Mobile County Sheriff's Office arrested 57-year-old **Byron Parker** on three counts of pornography possession material of minors. A spokesperson for the department says deputies executed the warrants Friday morning. He is also charged with possession of a controlled substance.

RAINN (Rape, Abuse & Incest National Network) says while the term child pornography is still widely used by the public, it's more accurate to call it child sexual abuse materials because kids can't legally consent to having images of their abuse recorded and distributed.

NEWBURY — A Rockland man pleaded guilty to a child pornography charge during Wednesday's appearance in Newburyport District Court and was sentenced to 388 days in jail.

Christopher Laforce, 39, was originally arraigned on a distributing child pornography charge in early May 2022 and ordered held on \$15,000 cash bail. On Wednesday, the charge was reduced to possession of child pornography, according to court records.

Judge Peter Doyle sentenced Laforce to 2½ years in jail but suspended all but 388 days for 2½ years while on probation. Laforce, who remained in custody following his arraignment, was given credit for 388 days served behind bars.

During Laforce's time on probation, he must remain drug and alcohol free with random screens, have no unsupervised conduct with anyone under 18 years of age and cannot use social media. It was through social media that Laforce was first noticed by local police.

According to Newbury police, Laforce contacted an undercover detective on the social media site Kik in December 2021. While in a private chat room, Laforce sent then-Detective Sgt. Aaron Wojtkowski five media files, with most of them containing child porn. Wojtkowski, who is now the department's deputy chief, was posing as "an adult male" when Laforce messaged him.

"The user asked the UC (undercover) persona 'so you like younger teen girls too right? Acting in an UC capacity, I responded in the affirmative which prompted the user to send five media files to the UC account,'" Wojtkowski wrote in his report.

Four of the files included pornographic images of children as young as 8 years old, according to the officer's report.

"The user sent additional messages suggesting an interest in sexual conduct with children, moreover asked the UC persona if he would rape a teen with him," Wojtkowski wrote in his report.

Days later, Wojtkowski received a search warrant to check out Laforce's Kik account. On Jan. 7, 2022, Kik complied with the warrant and handed the detective enough information to link Laforce to the account.

That led to the detective getting a search warrant for Laforce's computer and smartphone. Wojtkowski served the warrant when visiting Laforce's residence March 22. He eventually issued Laforce a summons to appear in court.

Wojtkowski soon learned that state police were investigating Laforce for child porn based on earlier interaction.

During Laforce's arraignment, Essex County prosecutor Michelle Belmonte said Laforce has a sizable criminal record with convictions for assault and battery and burglary. After both convictions, Laforce violated probation conditions.

His record, plus Wojtkowski's report, warranted a high cash bail, according to Belmonte.

"The facts are disturbing to say the least," Belmonte said.

Coleman prison guard arrested for possession of child pornography

ByStaff Report October 19, 2023

A Coleman Federal Correctional Center guard has been arrested for possession of child pornography.

Christopher Andrew Mason, 27, of Ocala, was arrested Oct. 10 on five counts of possession of child pornography, according to the Ocala Police Department.

An investigation into Mason's activities began last year after Snapchat passed on information to the National Center for Missing and Exploited Children. The Snapchat account was under the name "James Griffin," but by tracking the Google account, phone number and Charter Communications account, the child pornography was connected to Mason. He was found to be in possession of media files that contained images of girls ranging in age from 10 to 14 in sexually provocative poses.

"There was also a large amount of adult pornography and adult/child erotica stored within Mason's Google account," the investigator wrote in the report.

He noted it was apparent that Mason used the images for "sexual gratification."

Earlier this month, a detective contacted Mason and invited him to come to the police station for an interview. Mason declined, but offered to meet with the detective in the leasing office at the Carlton Arms Apartments in Ocala, where Mason resides. When they met, Mason identified himself as a guard at the federal prison in Coleman. Mason's attorney was on speaker phone and announced that his client would not be answering any questions.

3 Cuyahoga County men arrested, indicted in child pornography sting

Eric Bartlett, John Orr, and Christopher Perry are accused of obtaining explicit images of minors through social media. All now face more than 100 years in prison.

Author: Tyler Carey Published: 5:19 PM EST February 2, 2023

CLEVELAND — Cuyahoga County Prosecutor Michael C. O'Malley on Thursday announced charges against three men arrested in separate incidents connected with a child pornography and exploitation sting.

Cleveland Heights native Eric Bartlett, North Royalton resident John Orr, and Euclid's **Christopher Perry** were all handed indictments of at least 17 counts each. All are charged with pandering sexually-oriented material involving a minor, illegal use of a minor in nudity-oriented material or performance, and possessing criminal tools.

Authorities say Bartlett, 39, had already been registered as a Tier II sex offender for crimes that occurred outside of Cuyahoga County. In this latest case, he is accused of using a fake identity to message with children on social media and exchanging sexually explicit material with them. Local, state, and federal officials raided his home near Revere and Grosvenor Roads less than two weeks ago.

The 22-year-old Orr and 52-year-old Perry are alleged to have also obtained illegal images through social media, with searches also occurring at their respective residences last October. According to court records, neither has a prior criminal history in the county.

Bartlett posted bond at his initial court appearance last month and is set to be formally arraigned this coming Monday, while bond for Orr and Perry has not been listed and both will be arraigned on Feb. 23. If convicted of all charges, all three defendants could potentially face more than 100 years in prison.

These cases were investigated by the Ohio Internet Crimes Against Children (ICAC) Task Force, which is run by the Cuyahoga County Prosecutor's Office. Tips initially came in from the National Center for Missing and Exploited Children.

Woodville man charged with two counts of possession of child pornography

Jason Schulte
Jun 15, 2023

A 35-year-old Woodville man was charged this month in St. Croix County Circuit Court with two counts of possession of child pornography.

Christopher Michael Platson was scheduled to be arraigned June 13. The count is a Class D felony, meaning the maximum penalties if convicted are \$100,000 and/or 25 years prison.

According to the criminal complaint, the St. Croix County Sheriff's Office was forwarded the case from the Minnesota Bureau of Criminal Apprehension (BCA) in March. The BCA was investigating someone on Snapchat saving, sharing, or uploading one file of apparent child pornography. The file in question was of an underage child performing a sex act.

The result of their investigation led to Platson which led to St. Croix County being involved.

Platson was then interviewed by St. Croix County investigators. He denied currently having a Snapchat account as he was locked out of it due too many log in attempts. He also denied having any images or videos on his phone which would have child pornography. He also answered 'not really' when asked if others have access to his phone.

Grand Mesa Little League president's background raising concern

by Anne Landman • July 18, 2023

Some people are expressing concern about the president of Grand Mesa Little League after finding out about an arrest in his background that involved sexually-tinged abuse of younger kids, and seeing worrisome comments about his behavior on social media.

Christopher Riley, who was formerly known as Christopher David Rasmussen, was arrested November 21, 2001, on charges of third degree assault and false imprisonment after he tied up a 14 year old boy at Grand Junction High School who had resisted Rasmussen's attempts to videotape him nude. Rasmussen was also accused of filming additional students nude at the school earlier that month. Rasmussen's name was made [public](#) in the Daily Sentinel at the time because he was 18 years old at the time of the incident.

Rasmussen ultimately plead guilty to a charge of 3rd degree assault after accepting a plea deal from the Mesa County District Attorney that called for him to get a 2-year deferred judgment and required him to meet with a probation officer twice a month and undergo a psychosexual evaluation to determine if he needed counseling.

The results of the evaluation are unknown.

Rasmussen ultimately plead guilty to a charge of 3rd degree assault after accepting a plea deal from the Mesa County District Attorney that called for him to get a 2-year deferred judgment and required him to meet with a probation officer twice a month and undergo a psychosexual evaluation to determine if he needed counseling.

The results of the evaluation are unknown.

Upon completing his deferred judgment and sentence, the conviction was wiped off his record. The only remaining record of it is in the archives of the Daily Sentinel, which explains why it is not discoverable in a standard background check.

A notice was published in the Sentinel on January 25, 2013 that Rasmussen had formally filed with the Mesa County Court to change his last name to "Riley."

A person concerned about the situation pointed to worrisome comments about Riley posted on the social media site Reddit, and noted that while the accusations in the comments are unproven, they nevertheless raise concerns for parents in light of Rasmussen/Riley's prior conviction:

Wilson County man arrested on child porn charges

February 19, 2023

By Drew C. Wilson

A Wilson County man faces child pornography charges following an investigation by federal, state and county officials.

Christopher Alexander Watkins, 25, of 8561 Galloway Road north of Walstonburg, is charged with eight counts of second-degree sexual exploitation of a minor, according to a statement from Chief of Staff Wanda Samuel of the Wilson County Sheriff's Office.

Samuel said the case was investigated through Wilson County's participation in the Internet Crimes Against Children Task Force.

Last month, the Wilson County Sheriff's Office received information from the National Center for Missing and Exploited Children about suspicious activity happening in the county, Samuel said. Detectives identified Watkins as the offender.

Authorities didn't describe Watkins' alleged conduct. Under N.C. General Statute 14-190.17, second-degree sexual exploitation of a minor includes recording or copying visual depictions of minors engaged in sexual activity as well as distributing or receiving such content. Many ICAC task force cases involve sending or receiving child pornography online.

A federal search warrant for Watkins' rural Wilson County home was issued on Monday. Samuel said the sheriff's office Special Response Team executed the warrant and took him into custody without incident.

Watkins received a \$500,000 secured bond and was incarcerated in the Wilson County Detention Center. He remained in jail as of Friday.

Samuel said U.S. Department of Homeland Security investigators and members of the N.C. State Bureau of Investigation Computer Crimes Unit assisted Wilson County detectives in the case.

Portage Co. man pleads not guilty to 32 felony charges in CSAM case

By Sean White

Published: Aug. 8, 2023 at 1:45 PM EDT|Updated: Oct. 2, 2023 at 4:22 PM EDT

STEVENS POINT, Wis. (WSAW) - A 26-year-old Portage County man formally charged with 32 felony counts of possessing child pornography, or child sex abuse material has pled not guilty.

Corbyn Lorbiecki appeared via video in Portage County Court on Monday where he pled not guilty to all the charges he faces.

In September, the judge determined that there was sufficient probable cause in the case and bound Lorbiecki over for trial. The judge also continued the cash bond set at \$20,000 in August.

According to a criminal complaint, on or around July 18, Lorbiecki possessed videos of a person engaging in sexually explicit conduct and did so while having reasonable knowledge that the person was under the age of 18.

In the complaint, on July 13, Plover police stated that they received reports of suspected child sexual abuse material, or CSAM, being stored on a cloud account associated with Lorbiecki. On July 17, police were able to search through the contents of the cloud account and in a file folder found 269 videos, many of which contained suspected CSAM.

Police were able to confirm the material belonged to Lorbiecki through "selfie" images he took that were also stored on the account. The phone located on Lorbiecki at the time of his arrest also matched the information given in the original CSAM report.

Additionally, the court is invoking a law that would impose a charge of \$500 per image and/or video associated with the crime.

A final pre-trial conference is scheduled for Nov. 22.

LOCALS ARRESTED IN ONLINE CHILD PREDATORS STING

May 9, 2023

As a result of a proactive online undercover investigation coordinated by the Georgia Internet Crimes Against Children (ICAC) Task Force, the Georgia Bureau of Investigation's Child Exploitation and Computer Crimes Unit, and the Bartow County Sheriff's Office Special Operations, 12 people were arrested over three days beginning Thursday, May 4th.

The following were arrested and charged with trafficking persons for labor or sexual servitude:

45-year-old Jose A. Martinez-Medina from Cave Spring (factory supervisor)

25-year-old Tyler Jordon Croft from Hull (unemployed)

Law enforcement arrested the following person for nine counts of sexual exploitation of children:

33-year-old **Curtis Breeden** from Cartersville (factory worker)

The following were arrested and charged with violating the Computer or electronic pornography and child exploitation prevention act:

- 38-year-old Ameziane Hadjaz from Acworth (sales engineer)
- 47-year-old Jason Rogich from Adairsville (unemployed)
- 33-year-old Algenone Kenonta Shaw from Cartersville (unknown)
- 43-year-old Senaca Terry Darns from Cartersville (landscaper)
- 56-year-old Melvin Walcott from Cartersville (rideshare driver)
- 42-year-old Jonathan Brumit from Lindale (forklift driver)
- 43-year-old Dannis Lucious Jackson from Rome (warehouse worker)
- 24-year-old Justin Leo Tan from Lawrenceville (unemployed)
- 64-year-old William Biggs, Jr from Cartersville (unemployed)
- Additional charges and arrests may be forthcoming.

"Operation Golden Eagle" took several months of planning and involved 12 law enforcement agencies collaborating. The arrestees, ranging in age from 24-64, traveled from areas around Bartow County, GA, intending to meet a child for sex. Eleven of those arrested believed they were going to a location to meet

with a child and engage in prearranged sex acts. Law enforcement arrested one for possessing child sexual abuse material found during a search warrant execution. GBI digital forensic investigators were on hand at the operation to forensically process 16 electronic devices that they seized as evidence.

The goal of "Operation Golden Eagle" was to identify persons who engage in sexually explicit communication with children on the internet, arrange to engage in a sex act with the child, and then travel to meet the child to have sex. Additionally, the operation targeted those willing to exploit children by purchasing sex with a minor. Child predators visit online chat rooms and websites, find children, begin conversations with them, introduce sexual content, and arrange a meeting with them to have sex. These predators targeted both boys and girls. Since 2014, the Georgia ICAC Task Force has arrested over 178 people in similar operations.

During "Operation Golden Eagle," undercover investigators had more than 98 exchanges with persons on various social media and internet platforms. During many of these exchanges, the subjects directed conversations toward sex with persons they believed to be minors; some of these conversations involved arranging sex with a child in exchange for monetary compensation. Investigators established that 21 cases met the threshold for arrest; eleven of those cases concluded with arrests after the perpetrator attempted to meet the "child" in person. In some cases, the subject introduced obscene or lude content, often exposing what the perpetrator thought was a child to pornography or requesting the child produce and send sexual or pornographic images for them. About half of the exchanges involved websites used for dating, socializing, or even websites used for classified advertisements.

Although some websites promote themselves as "adults-only," it is not uncommon for law enforcement to work cases in which children access these sites, establish profiles claiming to be older, and then find themselves vulnerable to victimization, harassment, blackmail, or assault. Investigators identified several subjects communicating simultaneously, with multiple investigators posing as minors. Such activity confirms what investigators uncover conducting these types of investigations: that many predators specifically seek out children on such websites to groom them as potential victims of sexual contact.

- Twelve law enforcement agencies, all partners in the Georgia Internet Crimes Against Children's Task Force, participated in "Operation Golden Eagle." These agencies were:
 - 1. Bartow County Sheriff's Office
 - 2. Bartow County District Attorney's Office
 - 3. Cartersville Police Department

- 4. Federal Bureau of Investigation
- 5. Floyd County Police Department
- 6. Georgia Bureau of Investigation
- 7. Hall County Sheriff's Office
- 8. Homeland Security Investigations
- 9. Lilburn Police Department
- 10. Polk County Police Department
- 11. Roswell Police Department
- 12. United States Secret Service

The Georgia ICAC Task Force comprises 290+ local, state, and federal law enforcement agencies, other related criminal justice agencies, and prosecutor's offices. The mission of the ICAC Task Force, created by the U.S. Department of Justice and managed and operated by the GBI in Georgia, is to assist state and local law enforcement agencies in developing an effective response to cyber enticement and child pornography cases. This support encompasses forensic and investigative components, training and technical assistance, victim services, prevention, and community education. Agencies developed the ICAC Program in response to the increasing number of children and teenagers using the internet, the proliferation of child pornography, and the heightened online activity by predators searching for unsupervised contact with underage victims. By helping state and local law enforcement agencies develop effective and sustainable responses to online child victimization and child pornography, the ICAC program delivers national resources at the local level. Any Georgia law enforcement agency wishing to join GA ICAC Task Force is encouraged to contact the GBI's Child Exploitation and Computer Crimes Unit.

The Georgia Bureau of Investigation Child Exploitation Unit, asks anyone with information about these cases or other cases of child exploitation to contact them at 404-270-8870 or report via the National Center for Missing and Exploited Children CyberTipline at CyberTipline.org. One can also submit anonymous tips by calling 1-800-597-TIPS(8477), online at gbi.georgia.gov/submit-tips-online, or by downloading the See Something, Send Something mobile app.

Monmouth resident indicted on child sexual assault, pornography charges

Natasha Venable, 46, is accused of sexually assaulting a child in Monmouth several times between September 2018 and August 2022.

Posted March 30, 2023

Updated March 30, 2023

Keith Edwards Kennebec Journal

AUGUSTA — A Monmouth resident accused of sexually assaulting a child between the ages of 11 and 13 has been indicted on 22 charges.

Natasha Venable, 46, allegedly sexually assaulted the child several times between Sept. 11, 2018, and Aug. 25, 2022, in Monmouth, according to a recent Kennebec County grand jury indictment. For those alleged assaults, Venable is charged with three counts of gross sexual assault, one count of unlawful sexual contact, one count of unlawful sexual touching and three counts of sexual exploitation of a minor. The gross sexual assault charges are Class A felonies, punishable by up to 30 years in prison. However gross sexual assault charges involving victims younger than 12 can be punished by up to “any term in years” under Maine law.

Venable also was charged with 14 counts of possession of sexually explicit materials.

An affidavit filed by Monmouth Police Sgt. Dana Wessling states Venable is a registered sex offender in Illinois and listed there as a sexual predator.

Wessling wrote that when confronted about the allegations, Venable claimed to not remember committing the acts but said if the accuser said she did, then she did it and was guilty and would take responsibility.

The possession of sexually explicit materials indictments allege Venable, between Oct. 13, 2021, and Aug. 25, 2022, possessed images or material she

knew or should have known depicted children under the age of 16 engaging in sexually explicit conduct.

An indictment is not a determination of guilt, but it indicates there is enough evidence to proceed with formal charges and a trial.

Also indicted on sex offense-related charges by a Kennebec County grand jury, which met March 23 and 24:

- Joshua D. Chambers, 34, of Waterville, 10 counts of possession of sexually explicit materials, each Feb. 15, 2022, in Waterville.
- Matthew J. Elston, 32, of Punta Gorda, Fla., sexual exploitation of a minor, sexual abuse of a minor and dissemination of sexually explicit material, Aug. 10, 2022, in Gardiner.

Former Blair Assistant Principal Sentenced for Child Pornography

Wednesday, June 28, 2023

For Immediate Release

U.S. Attorney's Office, District of Nebraska

United States Attorney Steven Russell announced the **Daniel Hutsell**, 42, of Blair, Nebraska, was sentenced on June 28, 2023, in federal court in Omaha, Nebraska, for distribution of child pornography. United States District Judge Brian C. Buescher sentenced Hutsell to 60 months' imprisonment. There is no parole in the federal system. After his release from prison, Hutsell will begin a five-year term of supervised release. Hutsell will be required to register as a sex offender.

On or about September 13, 2021, Stelivo, LLC, a business that runs several real-time chat websites, including freechatnow.com, identified one image of a minor engaging in sexually explicit conduct that was distributed through its server. Through a cybertip, Stelivo reported that a user with a freechatnow.com username, G|teachrr, sent the image to other freechatnow.com users. The image showed an 8- to 10-year-old female child exposing her genitalia in a sexually explicit manner.

Stelivo captured the IP address of the user account that was used to distribute the image. Law enforcement obtained information related to the IP address, which ultimately identified Hutsell as the subscriber and that he resided in Nebraska. Stelivo identified additional uploads of images from the same username and IP address using freechatnow.com, which included approximately 10 images of minors engaged in sexually explicit conduct.

On November 30, 2021, law enforcement executed a search of Hutsell's residence in Blair. At the time of the search warrant, Hutsell, an assistant principal with Blair Community Schools, admitted to law enforcement that he used a computer and freechatnow.com to trade pornography. Hutsell admitted he had seen the previously mentioned image of the 8- to 10-year-old female child exposing her genitalia in a sexually explicit manner.

This case was brought as part of Project Safe Childhood, a nationwide initiative to combat the growing epidemic of child sexual exploitation and abuse launched in May 2006 by the Department of Justice. Led by U.S. Attorneys' Offices and CEOs, Project Safe Childhood marshals federal, state and local

resources to better locate, apprehend and prosecute individuals who exploit children via the Internet, as well as to identify and rescue victims. For more information about Project Safe Childhood, please visit www.justice.gov/psc.

This case was investigated by the Nebraska State Patrol.

A 47-year-old man is facing a dozen child pornography-related charges after he allegedly uploaded a video of a naked pre-teen girl to a website popular with teenagers.

The website reported the video and account name to the National Center for Missing and Exploited Children in January and the cyber-tip was relayed to the South Florida Internet Crimes Against Children Task Force.

Former student sentenced for possession of child porn

STAFF REPORTS Jan 24, 2023

A former Purdue student was sentenced to six years on Friday after pleading guilty to child exploitation and child pornography charges.

Three of those years will be spent in the Indiana Department of Corrections, one in Tippecanoe County Community Corrections and two on supervised probation.

Daniel Tinnell, 19, was charged with child exploitation and three counts of child pornography in July after the National Center for Missing and Exploited Children reported videos and photos from one of his social media accounts in September 2021 showing girls who appeared to be younger than 12, the probable cause affidavit reads. NCMEC then tipped off local authorities.

The videos on Tinnell's account, "dantheman3421," showed prepubescent girls engaged in various sexual acts with adult men, the charging document reads. In one, "the child can be heard crying uncontrollably."

Police identified Tinnell by tracking his IP address and matching his appearance to selfies posted to the "dantheman3421" account.

His address was listed in court documents as Wiley Residence Hall, but Purdue spokesperson Tim Doty said Monday that Tinnell hasn't been an enrolled student since December 2021.

Tinnell entered into a plea agreement on the two charges with the Tippecanoe County prosecutor's office in November.

After the sentencing hearing on Friday, Judge Randy Williams ordered Tinnell to spend three years in the Indiana Department of Corrections, one in the Tippecanoe County of Corrections and two years on supervised probation.

On top of the time served, Tinnell will pay a \$100 child abuse prevention fee and a \$1,000 sexual assault victim's assistance fee, and he will have to register as a sex offender for life.

Area man charged following child porn investigation

April 13, 2023

An area man faced multiple charges last week in St. Francois County following a Missouri State Highway Patrol (MSHP) investigation into child pornography possession and promotion.

David Russell Darr, 33, of Farmington, has been charged with two counts of first-degree promoting child pornography, three counts of possession of child pornography, and one count of failing to register as a sex offender.

According to a probable cause statement from the MSHP, on Nov. 23, patrol investigators were provided information from the National Center for Missing and Exploited Children (NCMEC) that Darr had files of suspected child pornography in his Google account.

Google reported that Darr's name was on the account, along with his date of birth, according to authorities.

The report states that a Cole County search warrant was served to Google to obtain the subscriber information and content of the account identified by an email address. While reviewing the information Google provided, an investigator reportedly saw that the account was registered to Darr with an address on Highway 32 in Farmington. The Google Photos folder allegedly contained five videos of child pornography, according to police.

Through the investigation, it was reportedly learned that Darr is a registered sex offender in Missouri.

The report states Darr updated his registry at the St. Francois County Sheriff's Department on Oct. 4, 2022, and listed the same address as Google had on file — the residence on Highway 32 in Farmington. The report notes that Darr is required to update his sex offender registry within three days of any changes.

The report states Darr did not update his registry to show he was a student and attended truck driver training at Mineral Area College, that he possesses a Missouri commercial driver's license, that he is currently employed at a produce business in Park Hills, or that he uses two email addresses through Google and Yahoo.

Last week, on March 30, MSHP investigators reportedly executed a St. Francois County search warrant at Darr's residence in Farmington.

During an interview with the investigators, Darr allegedly confirmed he used the Yahoo and Google email addresses, and the Google account reported by NCMEC was his. The report states the man admitted to viewing and downloading child pornography online at his residence in St. Francois County.

The report states that when shown the images of child pornography uploaded to his Google account, Darr allegedly admitted to previously viewing them. Inside a backpack in his room, investigators reportedly found a cell phone. A search of the phone allegedly revealed over a hundred videos of pornography, according to investigators.

Darr was booked at the St. Francois County Detention Center, where he remains in custody without bond. If a bond is set and he is released, the man must comply with GPS and pre-trial monitoring. The man is also prohibited from having contact with children under the age of 18.

Darr made an initial court appearance on Monday, where he waived arraignment, pleading not guilty to the charges. A confined docket hearing in the case against Darr is scheduled for Tuesday.

The charging documents filed in the case note that Darr is on supervised release with the US Probation Department and was living at a residential treatment facility before his arrest.

Court records show Darr was previously convicted in federal court for the production of child pornography involving a person under 14 years of age.

The probable cause statement indicates Darr has prior arrests for crimes involving children, including statutory sodomy, use of a child in a sexual performance, sexual misconduct involving a child, and possession of child pornography.

Best Buy Geek Squad manager enters plea in child porn case

ByStaff Report
August 27, 2023

A Best Buy Geek Squad manager has entered a plea to 31 counts of possession of child pornography.

David Frisby, 37, of Fruitland Park, was taken into custody Aug. 8 and booked at the Lake County Jail. He remains free on \$137,000 bond.

This past week in Lake County Court, he entered a plea of not guilty in the case.

The investigation began when Adobe Systems Incorporated submitted a tip in January to the National Center for Missing & Exploited Children regarding files reportedly uploaded by Frisby. The files showed images of very young girls having sex with adult males.

A subpoena was obtained for the Comcast Cable account at Frisby's home at 603 Bidwell St. The subpoena led to the discovery of more files, intermingled with Frisby's family photos.

During the investigation, a detective with the Fruitland Park Police Department learned that Frisby was employed as the Geek Squad manager at Best Buy in Lady Lake.

"This leads your affiant to believe that David is very familiar with computers, software, data entry, technology repair, cell phones, and use of other electric devices," the detective wrote in an affidavit of probable cause.

No prison time for Columbia City man who admitted to child pornography possession

Corryn Brock | The Journal Gazette
Aug 18, 2023

A 24-year-old Columbia City man who pleaded guilty to three counts of child pornography possession will spend the next four years on probation after being sentenced Friday.

David Knezevich pleaded guilty to three counts of possession of child pornography in July after being charged in December.

During Friday's hearing, Knezevich told Allen Superior Court Judge Fran Gull that he hopes to move forward and do better in the future.

"I feel very remorseful for the actions I have done," Knezevich said.

The defendant was given two six-year sentences and one two-year sentence for the child pornography charges.

The sentences were ordered to be served concurrently but were suspended, leaving Knezevich to serve his time as a probationer.

State police received a tip about Knezevich from the National Center for Missing & Exploited Children in 2021, according to a probable cause affidavit written by Brandon Davenport, a detective with the Indiana State Police.

The tip came after Knezevich circulated a video of what was claimed to be a 13-year-old girl being molested by a man, court records show.

A search warrant led to the discovery on Knezevich's phone of two videos and four photos of children engaged in sex acts with other children, adult males and a dog.

One video appeared to be from an online streaming site called LiveMe, which claims to "(create) authentic connections between people as one of the world's most popular live video broadcasting platforms."

The video, which is more than 30 minutes long, showed two prepubescent girls engaged in sex acts, according to court documents. The children appeared to

be reading the screen and taking directions, but police could not determine what was being said because they were speaking in a foreign language.

Police also found four photos of one child who appeared to be younger than 14 years old naked and performing sex acts with an adult male and a dog, court records said.

Mount Pleasant Man Arrested on Child Sexual Abuse Material* Charges

April 04, 2023

(COLUMBIA, S.C.) - South Carolina Attorney General Alan Wilson announced the arrest of **David Thomas Kurtz**, 71, of Mount Pleasant, S.C., on 12 charges connected to the sexual exploitation of minors. Internet Crimes Against Children (ICAC) Task Force investigators with the Mount Pleasant Police Department made the arrest. Investigators with the Attorney General's Office, U.S. Marshals Service, Homeland Security Investigations, and Charleston County Sheriff's Office, all also members of the state's ICAC Task Force, assisted with the investigation.

Investigators received a CyberTipline report from the National Center for Missing and Exploited Children (NCMEC) which led them to Kurtz. Investigators state Kurtz possessed files of child sexual abuse material.

Kurtz was arrested on March 29, 2023. He is charged with 12 counts of sexual exploitation of a minor third degree (§16-15-410), a felony offense punishable by up to 10 years imprisonment on each count.

This case will be prosecuted by the Attorney General's Office.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Former Richmond officer convicted of possessing child porn

David E. Stone 'has been held in continuous custody' since January
By NBC12 Newsroom
Published: May. 1, 2023

LOUISA, Va. (WWBT) - A former Richmond police officer was convicted Monday of possessing child pornography.

The Louisa County deputy commonwealth's attorney says **David E. Stone** faces up to 255 years in prison on the 50 charges when he is sentenced this summer.

Stone was arrested earlier this year after the sheriff's office received a cyber tip as a member of the Internet Crimes Against Children.

"A technology company identified Stone's illegal online behavior on their network and forwarded the information to the National Center of Missing and Exploited Children (NCMEC)," Deputy Commonwealth's Attorney Robert Wood said in a news release on Monday. "NCMEC developed a Cyber Tip that included a cellular phone number and an email address and sent them to the Southern Virginia Internet Crimes Against Children Task Force (SOVA.)"

SOVA then identified the suspected account owner as Stone, who was arrested on Jan. 24.

During a search warrant, a detective found a tablet that contained 50 images of children - including infants - being sexually assaulted.

Stone had been with the Richmond Police Department since Nov. 27, 2006, according to representatives from within the force.

"The Louisa County Sheriff's Office learned Stone was a member of law enforcement in a city and contacted his department and they arrested Stone when he showed up for duty that night," Wood's email said. "He has been held in continuous custody."

Stone's sentencing is scheduled for July 17.

"We are thankful to the National Center for Missing and Exploited Children, Southern Virginia Internet Crimes Against Children Task Force, Richmond Police

Department, and the Louisa County Sheriff's Office for all of their teamwork and bringing this case to a successful resolution," said prosecutor Morgane Harper.

48-year-old man arrested for distributing child porn

ByStaff Report

June 9, 2023

A 48-year-old Gainesville man was arrested this week after local authorities received a tip from a national agency that videos depicting child pornography had been uploaded to a social media platform.

The Gainesville Police Department stated that the investigation was prompted after police received a Cyber Tip from the National Center for Missing and Exploited Children. According to the tip, Meta had determined that a user had uploaded and shared child sexual abuse material on their platform on two separate occasions.

A GPD detective conducted an investigation and determined that the videos had been uploaded and shared from an account belonging to **David Christopher Williams**. On Thursday, the GPD's Internet Crimes Against Children Division and SWAT Team served a search warrant at Williams' apartment located in the 1100 block of NW 45th Avenue in Gainesville.

Officers made contact with Williams. After being read his Miranda rights, Williams admitted that he owned the account in question. He told investigators that he "messed up," and he further stated that he was "going through a dark place" when he distributed the videos.

Williams was arrested and transported to Alachua County Jail. He is facing felony charges for distribution of child pornography (two counts).

In a social media post, the Gainesville Police Department stated that it "wants parents to be aware that children are being solicited and exploited through social networking and messaging apps."

The police department added, "We encourage parents to have age-appropriate conversations with their children about the dangers of the internet. Please be vigilant and aware of any social networking platforms your children may access."

Area man arrested on child pornography charges

August 30, 2023 5:06 am August 30, 2023 5:06 am

An investigation into child pornography being uploaded by an area man to his Snapchat account has led to multiple charges against the suspect. Eighteen-year-old **Dawson Thomas Cone** of Mountain View was arrested earlier this month on 13 felony charges.

According to the probable cause affidavit in the case, the investigation was initiated in January 2022 when Snapchat officials filed a complaint via a Cyber Tipline Report which was then sent the National Center For Missing & Exploited Children of seven child pornography files uploaded by the username "dawsoncone". The information was forwarded to the Arkansas State Police (ASP) to investigate after the Cyber Tipline Report found the phone number and I.P. address came back to a residence in Melbourne. Later last year, Cone's family moved to Mountain View.

ASP investigators executed a search warrant on Cone's cell phone in January of this year. During questioning, Cone admitted to the fact he viewed and uploaded images and/or videos of child pornography with his cell phone.

A forensic analysis of Cone's phone showed it contained nine images and four videos of underage girls.

Cone is facing 13 counts of distributing, possessing or viewing matter depicting sexually explicit conduct involving a child. He is free after posting \$50,000 bond.

Standoff location presented challenge for authorities, Black Mountain police say

by Ed DiOrio

Tue, October 10th 2023

BLACK MOUNTAIN, N.C. (WLOS) — Around 2:30 p.m. Monday, Black Mountain Police identified 56-year-old **Dean Laine** driving through town in his Toyota Tacoma.

“There was information that the person inside the vehicle had warrants for six felony counts of sexual exploitation of minors of second and third degree,” Black Mountain Police Chief Steve Parker told News 13 on Tuesday.

What followed was Laine leading units out of Black Mountain into Old Fort, and back into where the chase began. Eventually, it ended at the Apple Blossom Motel.

Laine had been staying in Room 15, where he barricaded himself after police stop strips forced a flat tire. Police had reason to believe Laine was armed.

“We’d received information from a person that he had passed by, saying that he was waving a gun around,” Chief Parker said.

As the standoff began, officers knew they had to evacuate the motel residents.

“He did speak of coming out and shooting individuals,” Parker said. “We recognized the fact that we needed to evacuate the immediate area where we felt could be threatened. We did that and had no issues.”

No shots were fired on either side.

Parker explained how this standoff situation was more difficult compared to a situation at a home in a neighborhood.

“In a home, it’s individualized,” the police chief said. “Here, we’re talking about 16-18 units. So yes, there’s a big complexity issue that adds to the danger that’s already there.”

Just before 9 p.m., units lost communication with Laine.

“We heard two shots from inside his room,” Parker said. “We didn’t feel threatened that those shots were toward us. So, we didn’t use any force whatsoever.”

Upon entry, police discovered Laine was dead from a self-inflicted gunshot wound. Nobody else was injured during the events.

Buncombe County Sheriff's Office Crisis Negotiation team, SWAT and Asheville police assisted Black Mountain police, among other units.

"This was a very difficult situation," Parker said. "It's tragic for the suspect's family and other people involved. But overall, we're thankful that no one else who was innocent was hurt."

The Black Mountain Police Forensic investigation is continuing their investigation, but Chief Parker says there is no immediate threat, as Monday was an isolated incident.

Investigators with the Attorney General's Office, also a member of the state's ICAC Task Force, assisted with the investigation.

Investigators received a CyberTipline report from the National Center for Missing and Exploited Children (NCMEC) which led them to McCray. Investigators state McCray distributed files of child sexual abuse material.

McCray was arrested on November 30, 2023. He is charged with one count of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment.

This case will be prosecuted by the Attorney General's Office.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Diego JD Martinez, 21, who lives in the Ives Estates area, transmitted files of child sexual abuse material across platforms like Google and Instagram from February 2021 to July 2022, deputies said.

According to a Broward Sheriff's Office arrest report, the files depicted children, some as young as 3, engaged in lewd poses or various sex acts with adults or other children.

Martinez was identified as part of an investigation by the South Florida Internet Crimes Against Children task force, the report states.

Deputies said after they arrested Martinez outside of the Dania Beach coffee shop where he works, he voluntarily logged onto an account, which had "several thousand stored files" contained in multiple folders.

According to the BSO report, a brief sampling of each folder revealed that the "overwhelming majority" of the files were of child sexual abuse material.

He was being held in the Broward Main Jail, according to BSO records.

Florida woman caught with child pornography faces 149 counts for sexually abusing her dog, deputies say

Alberto Luperon August 2, 2023

A young woman in Brandon, Florida, faces 152 criminal counts after authorities claim she sexually abused her dog and possessed child sexual abuse material.

Emoree Romero, 18, turned herself in on Thursday after detectives obtained an arrest warrant, the Hillsborough County Sheriff's Office announced on Wednesday.

"On July 3, 2023, HCSO's Internet Predator Unit received a tip from the National Center for Missing and Exploited Children that someone in the 1900 block of Lido Drive in Brandon, FL was uploading child pornography," deputies wrote.

Detectives got in touch with Romero.

She allegedly let them search her cellphone. Inside, they discovered "multiple files of Romero engaging in sexual acts with her pet dog," authorities said.

Detectives said they got a search warrant. They claimed to find more images and videos of child pornography and bestiality.

"These kinds of investigations are not easy for our detectives, who are often subjected to some of the worst things a person can see," Sheriff Chad Chronister said. "I am beyond proud that our detectives have brought this predator to justice. Our hearts and thoughts go out to the victims of this disturbing crime."

Romero faces 100 counts of filming, distributing, or possessing an image or video of sexual activity with an animal; 49 counts of engaging in sexual contact with an animal; two counts of possession of child pornography; and one count of unlawful use of a two-day communication device.

Records show she waived her arraignment and pleaded not guilty Friday. Authorities released her on her own recognizance Saturday.

Her attorney of record did not immediately respond to a Law&Crime request for comment.

New Port Richey Man Sentenced To More Than 30 Years In Federal Prison For Producing Child Sex Abuse Material

Wednesday, January 11, 2023

For Immediate Release

U.S. Attorney's Office, Middle District of Florida

Tampa, Florida – U.S. District Judge Virginia Hernandez Covington has sentenced **Eric Paul Jones** (44, New Port Richey) to 30 years and 5 months in federal prison for production and possession of child sex abuse material. The court also ordered Jones to forfeit the electronic devices used in the commission of the offense and entered an order of restitution to the victims in the amount of \$18,528, and an assessment in the amount of \$18,000 to the Amy, Vicky, and Andy Child Pornography Victim Assistance Fund. Jones had pleaded guilty on October 13, 2022.

According to court documents, Jones belonged to an online group dedicated to discussing and trading child sex abuse material. On April 19, 2021, Jones began communicating with an undercover FBI agent. Jones told the undercover agent that he had engaged in sexual activity with a 10-year-old child, to whom he had access. Jones then sent the undercover agent sexually explicit videos and images he had produced of the child victim, as well as child sex abuse material he possessed of other victims.

A few days later, on April 22, 2021, the FBI executed a search warrant for Jones's residence, as well as for the cellphone Jones had used to communicate with the undercover agent. A search of Jones's cellphone revealed that he was in possession of more than 100 child sex abuse images and videos of young children engaged in sexually explicit conduct, some of which included infants and toddlers subjected to bondage and sadomasochistic conduct. The FBI also found the same images and videos that Jones had sent to the undercover agent on Jones's cellphone. Jones later admitted to agents that he had been producing child sex abuse images of the child victim for several years.

"While it's heartbreaking to learn of yet another child victim of a sexual predator, it's reassuring to learn of the dedicated work by special agents to make sure that predator spends a long time in prison for his despicable crime," said FBI Tampa Division Special Agent in Charge David Walker.

This case was investigated by the Federal Bureau of Investigation, with assistance from the Metropolitan Police Department of the District of Columbia, the Pasco Sheriff's Office, and the Tampa Police Department. It was prosecuted by Assistant United States Attorney Lisa M. Thelwell.

This case was brought as part of Project Safe Childhood, a nationwide initiative launched in May 2006 by the Department of Justice to combat the growing epidemic of child sexual exploitation and abuse. Led by United States Attorneys' Offices and the Criminal Division's Child Exploitation and Obscenity Section (CEOS), Project Safe Childhood marshals federal, state, and local resources to locate, apprehend, and prosecute individuals who sexually exploit children, and to identify and rescue victims. San Diego man charged with attempted child porn production; Officials looking for potential victims

He FBI said victims who participated in youth sports were primarily targeted

By City News Service and Brenda Gregorio-Nieto • Published July 12, 2023

The San Diego Federal Bureau of Investigation (FBI) and the San Diego Internet Crimes Against Children (ICAC) Task Force are asking for the public's help in identifying potential victims of an alleged sexual offender from University City.

Eric Jacob Layton, who previously went by Eric Leighton Abrams, is accused of posing as a doctor, sports reporter, massage therapist and youth sports modeling agent in order to solicit sexually explicit photographs from minors and/or arrange in-person meetings with the juveniles.

He is facing federal charges in Florida, but according to the FBI, several other potential victims have been identified and are believed to be based out of San Diego.

The FBI said victims who participated in youth sports were primarily targeted. Layton has presented himself as a sports massage therapist named Travis Parkin who specialized in youth athletics and as a sports physician named Dr. Alexis Iniesta, the FBI said.

Layton was arrested last Thursday at his home in connection with the alleged solicitation of a 15-year-old Florida boy and awaits extradition to Florida.

According to a criminal complaint filed in federal court, Layton originally reached out to the boy via Instagram and claimed to be a writer for a sports publication.

He later allegedly posed as a physician -- Dr. Iniesta -- and asked the boy a series of questions over the phone that he claimed were necessary for the boy to participate in his sport. Many of the questions were sexually explicit in nature, according to the complaint, which states Layton also sought pictures of the boy that he claimed "were required to determine the minor victim's physical development."

The Instagram and email accounts used to contact the boy were found to be linked to Layton, the complaint states.

Layton was booked into county jail and held on \$275,000 bail. He was later released on bond with a hearing set for July 17.

Indian Land man arrested on Child Sexual Abuse Material* charges

(COLUMBIA, S.C.) - South Carolina Attorney General Alan Wilson announced the arrest of **Erick Joseph French**, 25, of Indian Land, S.C., on 11 charges connected to the sexual exploitation of a minor. Internet Crimes Against Children (ICAC) Task Force investigators with the Lancaster County Sheriff's Office made the arrest. Investigators with the Attorney General's Office and Homeland Security Investigations, both also members of the state's ICAC Task Force, assisted with this investigation.

Investigators received a CyberTipline report from the National Center for Missing and Exploited Children (NCMEC) which led them to French. Investigators state French distributed and possessed files of child sexual abuse material.

French was arrested on November 21, 2023. He is charged with one count of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment; and 10 counts of sexual exploitation of a minor, third degree (§16-15-410), a felony offense punishable by up to 10 years imprisonment on each count.

The case will be prosecuted by the Attorney General's Office.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Saraland man charged with child porn possession

By Brendan Kirby

Published: Jun. 22, 2023

MOBILE, Ala. (WALA) - An expanded internet crimes unit at the Mobile County Sheriff's Office has resulted in another arrest – a 26-year-old man accused of having child pornography.

Erik Joseph Rafter, of Saraland, did not say a word as deputies led him to jail after his arrest Thursday.

Mobile County Sheriff Paul Burch said the department's Internet Crimes Against Children unit developed Rafter as a suspect and arrested him Thursday after receiving a tip about his whereabouts. The Sheriff's Office charged him with five counts of possession of child pornography.

"That's what this unit does, and we're not gonna get into details as to how we do it," he said. "But they did what they do and was able to identify him and, you know, he is a sexual predator of children."

Burch said Rafter moved with his parents from Tennessee to Alabama about a year ago. He said the defendant was living and working at a trailer park.

The sheriff beefed up the Internet Crimes Against Children unit in February, assigning three detectives to the squad. He said, unfortunately, the detectives have more than enough work. He said the unit has made about a dozen arrests.

"They're working diligently every day," he said. "You know, unfortunately, they are a small unit. I hope to increase the size of that unit. Sadly, there's a need for it. ... I was saddened to learn how great the need is for additional personnel to have to address these kinds of crimes in our community."

Burch said the prevalence of child sexual offenses is eye-opening.

"And it comes from all walks of life," he said. "You know, young people, old people, rich people, poor people. Would like to say I'm shocked, but I'm not, to know how many people there are out there doing it."

Pawtucket man facing child pornography charges

Updated: Oct 11, 2023 / 07:00 AM EDT

PAWTUCKET, R.I. (WPRI) — Special agents arrested a Pawtucket man Tuesday following a months-long child pornography investigation, 12 News has learned.

Eugenio Gomes, 46, has been charged with possession of and receiving child pornography.

Gomes' arrest stemmed from a U.S. Department of Homeland Security investigation that began back in August when special agents identified a phone number that had uploaded dozens of files depicting child pornography.

That phone number was eventually traced back to Gomes, according to a court affidavit obtained by 12 News.

Special agents searched Gomes' Seabiscuit Place home Tuesday, during which his laptop, tablet, cell phone, external hard drive and eight thumb drives were taken.

The affidavit states that a forensic analyst uncovered thousands of images depicting child pornography on Gomes' tablet alone.

While speaking with special agents, Gomes admitted that he had been downloading child pornography for roughly 10 years, according to the affidavit.

Gomes was released on a \$10,000 unsecured bond and ordered to wear a GPS monitoring bracelet pending his next court date, which has not yet been scheduled.

Camden man charged with possession of child pornography

by Bradly Gill | June 1, 2023

According to a probable cause affidavit from the 13th Judicial Drug Task Force, a Camden man has been charged with possessing a medium depicting sexual conduct with a child and viewing matter depicting sex with a child, both class C felonies.

Eulus Queen, 42, is currently being housed in the Ouachita County Detention Center.

According to the affidavit, on November 11, 2022 Microsoft reported to the National Center for Missing and Exploited Children that an unknown subject had uploaded an image that matched hash values to known child pornography images.

On February 7, an administrative subpoena was sent by the Arkansas State Police to Satco, an internet service provider, which provided the IP address from which the image was allegedly uploaded.

On February 22, Judge Spencer Singleton signed a search warrant for Queen's residence. Numerous electronic devices were seized during the search.

According to the affidavit, Queen was at the residence and waived his Miranda Rights, allegedly telling officers he knew why they were at the residence and that he "looked at pictures of children naked."

The report states that Queen, asked how long he had been doing this, stated that he looked at photos on several occasions but could not give an exact number of the times he had done so.

Investigators stated Queen said he used his laptop to access child pornography several times over the years.

Queen waived his first appearance, until he could speak to an attorney.

Man arrested, accused of owning hundreds of child pornography files

by Troy Myers

Mon, November 6th 2023

ROYAL PALM BEACH, Fla. (CBS12) — Charged with 30 counts of possession of 10 or more files of sexual performance by a child, a 20-year-old man from Brazil living in Royal Palm Beach faces up to 150 years in prison if convicted on each offense.

Ezequiel Werneck Dasilva was arrested Wednesday morning by Palm Beach County Sheriff's Office (PBSO) deputies. According to the affidavit, the investigation began in May from a National Center for Missing and Exploited Children Cybertip, which led to the uncovering of hundreds of child sexual abuse materials, including that of infants.

Google reported the initial suspected uploading of nearly 70 child sexual abuse files on May 23.

Three days later, a search warrant was served to Google for additional information regarding the account linked to the Cybertip. Over 100 more videos were revealed to be stored within the suspect's account, the arrest report said.

Early last week, a judge approved a search warrant on the suspect's residence off Wakulla Springs Way, allowing the PBSO SWAT team and HEAT unit to enter the home.

Once the search was executed, a detective met with all the house's residents. The record showed Dasilva was interviewed first, admitted something in the affidavit which was redacted and denied ever touching a child. Two forensic detectives conducted a quick search of the 20-year-old's cellphone at the scene.

Over 30 more files of child sexual abuse were allegedly on the device, including victims as young as infants.

At the man's first appearance hearing last week, his mother, father and sister were present, court records show. As of Monday afternoon, Dasilva remains in the Palm Beach County Jail with a total bond amount of \$450,000.

Per the conditions of his bond, the defendant is ordered to have no contact with any minor children, no internet access and surrender all travel documents and passport to the clerk's office.

In court charged with possession of child pornography

March 1, 2023

According to police, this subject has been released on bail for another charge of possession of child pornography. But the investigation continued and officers discovered that this man had more material recorded on his computer.

For the second time in a week, the police arrest **Frank Laino**, 72, for possession of child pornography.

Miami Police Department spokesman Mike Vega said:

“There were sexual acts with minors. We are talking about children under 12 years old.

According to detectives, the initial investigation began on December 14, 2022.

It wasn't until February that Laino was visited by Miami uniformed agents at his home at 7835 Northeast with Second Avenue.

Evidence from the officer in charge of the case would not be hard to come by.

Miami police spokesman Mike Vega said

“We knocked on the door and one of our sergeants saw inside the apartment where there was an open computer a little girl having sex with an adult.”

This Wednesday, Laino appeared in court for another similar case. Since then, after a search of his home and electronic devices, authorities have found 15 images that showed content of sexual activity involving children.

This is just one of the child pornography cases the police are investigating. The call to people who do this is very clear.

The defendant remains this time arrested at the TGK prison with a bond of 75,000 dollars and will have to appear before the district judge during another hearing.

Gainesville man arrested on a dozen child pornography charges

His bond is set at \$480,000

By Aidan Bush March 14, 2023 | 7:56pm EDT

A Gainesville man was arrested Monday on suspicion of uploading over 30 child pornography videos.

Frederick Landt IV, 38, was charged with 12 counts of the promotion of obscene material, after allegedly uploading child pornography to the online-messaging platform Kik.

Kik tipped off the National Center for Missing and Exploited Children, Jan. 1, 2022, after users reported an account with four illegal videos on them, according to the arrest report.

The videos contained prepubescent girls performing sexual acts, and in some instances showed adult men raping them, according to the report.

The email, IP address and login associated with the account led law enforcement to find the phone number the email was registered with, which was allegedly under Landt IV's name, according to the report.

After additional tips came in from Kik Dec. 7, law enforcement found another 27 additional child pornography videos on the account. Throughout 2021 and 2022, Landt IV would allegedly send these videos to other accounts on Kik, according to the report.

Landt IV allegedly also took several selfies and nude photos on the account, with a coffee table routinely in the videos later being identified in his home.

GPD approached Landt IV's home where they met with his wife Dec. 8. She told officers that he was in Ocala for a job interview and took his electronics with him.

Officers later arrested Landt IV Monday at his home and took him to the Alachua County Jail. His bond is set at \$480,000.

Landt IV was believed to be involved in multiple youth athletic programs in Ocala, though law enforcement doesn't believe the photos or videos were children he knew, according to a press release. As of Tuesday evening, his next court hearing is not yet scheduled.

Yale man jailed on child porn & child exploitation charges

Posted on March 9, 2023

By Patti Weaver

(Stillwater, Okla.) — A 33-year-old Yale man with a history of substance abuse has been jailed on \$100,000 bail on charges of exploiting a 6-year-old for child pornography as well as possessing child pornography on his computer device and Google photo account.

Garrett Paul Derycke, who previously lived in Cushing, was arraigned Wednesday from the Payne County Jail on the two-count felony charge punishable by as much as a life prison term plus 20 years on conviction, court records show. Derycke was ordered to return to court on March 15 with an attorney.

Derycke was arrested at his Yale residence on Feb. 28 by Payne County Sheriff's Investigator Lew Kellison after the National Center for Missing and Exploited Children received a cyber tip from Google concerning apparent child pornography that was uploaded to a Google Photos account, an affidavit alleged.

"The image metadata provided by Google suggest that the images were recently created by a cellphone and uploaded by the user, and the images were 'newly produced' or 'homemade content,'" the affidavit alleged.

"On 2/28/2023, Payne County Sheriff's Office Investigators and Task Force Officers of the Oklahoma Internet Crimes Against Children Task Force executed a search warrant at Garrett Paul Derycke's residence," where his cellphone was located, the affidavit alleged. During an interview, Derycke denied taking nude pictures of a child, the affidavit said.

According to Payne County court records, five months ago Derycke was placed on four and one-half years of probation for drunk driving on a revoked license in a vehicle with expired tags in Yale, plus 180 days in jail with credit for time served from his arrest in June of 2022, concurrent to his Drug Court termination cases.

Derycke had previously been placed on probation for felony marijuana possession in 2016 and misdemeanor drug possession in 2019, court records show.

Disturbing new details revealed as NJ school janitor accused of tainting food appears in court

Giovanni Impellizzeri was employed by the Elizabeth Moore School in the Upper Deerfield School District.

By6abc Digital Staff
Thursday, November 9, 2023

UPPER DEERFIELD TWP., New Jersey (WPVI) -- A Cumberland County, New Jersey elementary school janitor appeared in court on Thursday morning for a detention hearing as new disturbing details were revealed in the case.

Giovanni Impellizzeri, 25, of Vineland, is accused of violating and contaminating school food and property in a number of vile ways. He is also charged with Distribution of Child Pornography and Possession of Child Pornography.

Authorities say Impellizzeri did not manufacture the child pornography, but it was in his possession and it was distributed to others.

A judge has ordered him to be held behind bars until his next court appearance.

Officials say Impellizzeri was employed by the Elizabeth Moore School in the Upper Deerfield School District.

Back on October 31, he was arrested after authorities alleged he contaminated food and utensils with both bleach and bodily fluid.

During his Thursday morning court appearance, the Cumberland County Assistant Prosecutor said Impellizzeri admitted in a chatroom on the Telegram app that he mixed feces into taco meat at the school.

Prosecutors said video from the suspect's phone showed him using a dish sponge from the teachers' lounge to wipe urinals and toilets. He is then seen putting the sponge back in the lounge.

Another video allegedly showed Impellizzeri rubbing hoagie rolls on his private areas before placing them back into a container.

Police say Impellizzeri also sprayed bleach into a container of cucumbers with the intent of harming children. In a chatroom, Impellizzeri wrote that he did

these sort of things as "a sexual fetish." He also allegedly said he was doing "the devil's work," prosecutors said.

"It is clear that this defendant has no regard for the safety or well-being of the community at large," said Lindsey Seidel, an assistant prosecutor.

Prosecutors say Impellizzeri did all of this while employed by the school, where he had worked since September 2019.

"It is clear that the videos were recorded on at least three separate dates within the school. But, his admissions and the messages indicate that this has been going on for a much longer period of time," Seidel said.

Authorities believe he tainted the food between October 26 and 30.

The Cumberland County Health Department conducted testing and it was determined Wednesday that Impellizzeri did not pose any health risks.

"Additional tests are pending, and it is possible, but unlikely, that recommendations may change within the next week," the health department said in a statement.

Prosecutors say Impellizzeri also allegedly urinated at a tanning salon in the community.

"He is a substantial risk to the community at large," said Judge Cristen P. D'Arrigo.

Impellizzeri's public defender Emily Bell said he has a long history of mental health issues and has been treated for a long period of time. Impellizzeri has no criminal past, she said.

Action News spoke with Upper Deerfield mother Tabitha Thomas, who is considering homeschooling her children after this and other incidents at the schools.

"I did keep them home this week," said Thomas. "I feel that I want answers and we're not getting them."

Action News reached out to the Upper Deerfield Superintendent on Thursday but hasn't heard back.

The Cumberland County Prosecutor says the district is cooperating with the investigation and is working with the health department to sanitize affected areas.

Impellizzeri **could** face 10 to 20 years behind bars.

4 men, teen charged over 200 counts of possessing child pornography: Sheriff

by Skyler Shepard

Thu, October 20th 2022, 9:23 PM EDT

POLK COUNTY, Fla. (CBS12) — Four men and a teenager were arrested by detectives for possession of child pornography after investigators received tips on the suspects' computer activity.

The Polk County Sheriff's Office (PCSO) said the five men face over 200 counts of possessing child pornography, one man having 141 counts alone. The tips were provided by the National Center for Missing and Exploited Children (NCMEC) and the sheriff's office worked with the PCSO Vice Unit and Technical Service Unit in the investigation.

The five suspects arrested were:

Timothy Ahearn, 64, from Lakeland:

Detectives said Ahearn will be charged with 141 counts of possession of child pornography.

Ryan Murray, 32, from Lakeland:

The sheriff's office said Murray had been charged in 2012 with 40 counts of possession of child pornography. In 2014, he served seven years of a ten year sentence in Florida State Prison. Now, Murray faces possession of child pornography and promoting sexual performance by a child.

Eric Lewis, 38, from Davenport:

Detectives said Lewis will be charged with 37 counts of possession of child pornography, the possession of methamphetamine and possession of drug paraphernalia. In the past, Lewis was charged with 10 counts of possession of child pornography in 2015 by the Florida Department of Law Enforcement (FDLE), and served six months in jail and was put on probation for 53 months.

Judiel Gonzalez, 61, from Lakeland:

The sheriff's office said Gonzalez faces 15 counts of possession of child pornography, one count of possession of marijuana and one count of possession of drug paraphernalia.

Giovanny Hernandez, 16, from Haines City:

Detectives said Hernandez will be charged with 36 counts of possession of child pornography.

Sheriff Grady Judd provided a statement regarding the case.

When our detectives receive tips from NCMEC, they tenaciously go after the suspects, build a solid case, and get them locked up as quickly as possible. Two of these men have already served time in prison and jail for possession of child pornography—here they are again, actively participating in the abusive child pornography industry—fueling the current and future sexual abuse of young children. We will do everything we can to make sure these deviant suspects are held accountable for their crimes. My message is simple: if you download, trade, create, or share child pornography in Polk County, we will lock you up.”

As part of the investigations, the sheriff's office said all electronic devices belonging to the suspects were seized by detectives, and will be subjected to further forensic examinations. Any additional child pornography recovered from the devices would result in more charges.

HCSO arrests child pornographer in Spring Hill

ByPat Raia

December 4, 2023

A Spring Hill man is facing multiple charges after tipsters led deputies from the Hernando County Sheriff's Office (HCSO) to investigate claims that he was allegedly engaged in the possession and sale of pornographic materials involving children.

HCSO Public Relations Manager Denise Moloney said that the investigation into the case began in February when tipsters told detectives that someone was distributing pornographic materials involving children from a residence in Spring Hill.

The subsequent investigation revealed that the activity was taking place at 4276 Gold Coast Ave. in Spring Hill.

Acting on a warrant, investigators searched that property on Dec. 1 and talked with resident **Greg Housman**, who told them that he was unaware of having child sexual abuse-related materials on any of his devices.

During a search of the residence's bedroom, detectives found two child-sized sex dolls that Houseman said he used for his own sexual gratification.

Detectives arrested Houseman, 51, and charged him with two counts of possession of child pornography and two counts of possessing a child-like sex doll.

Hernando County Sheriff Al Nienhuis said that the incident demonstrates the need to prevent child pornographers from victimizing youngsters.

"It is very concerning that these depraved individuals might eventually, if they have not already done so, hurt an innocent child," Nienhuis said. "Although disgusting, extremely infuriating, and hard to deal with, it is important to hold these warped criminals accountable."

Houseman is being held on bond at the Hernando County Detention Center.

Moloney said that the case remains under investigation and that additional charges may be forthcoming. Anyone with information about the case should

call Hernando County Crime Stoppers at 1-866-990-TIPS (8477) or text **TIPS from a cell phone. All Crime Stoppers tipsters remain anonymous.

November 30, 2023

By Hannah Simerson hsimerson@timesleader.com

HAZLE TWP. — A Hazle Twp. man is facing charges related to the possession of child pornography, police say.

Gregory Yorker, of 4011 Hollywood Blvd., was arraigned by MDJ James M. Dixon on Thursday after an investigation revealed the 52-year-old had been viewing images and videos depicting toddlers and prepubescent children performing lewd acts.

According to the affidavit, Luzerne County District Attorney's Office Detectives Richard Naporava and Charles Balogh received a Cybertip from the National Center for Missing and Exploited Children (MCMEC) in regards to a file of apparent child sexual abuse material uploaded to a Google Drive account under Yorker's name.

Upon reviewing the Cybertip, investigators observed that Google provided an Internet Protocol (IP) address associated with the file upload, which was registered to PenTeleData.

On Nov. 16, an administrative subpoena to access the subscriber information was served on PenTeleData and the following day, on Nov. 17, investigators discovered that the IP address was assigned to Greg Yorker.

A search through the Pennsylvania Department of Transportation records matched the Hollywood Boulevard address associated with the subscriber information.

On Thursday, Detectives Naporava and Balogh, along with members of the Pennsylvania Internet Crimes Against Children's Task Force and Pennsylvania State Police — Northeast Computer Task Force (NECCTF), executed a search warrant at the residence, in which they encountered Yorker inside.

Yorker was interviewed inside the home, where he advised investigators that he was recently notified by Google that his account was closed but couldn't recall the language Google used in the notification.

Investigators asked if Yorker had ever seen child pornography on the internet and he stated that he had not within the past 20 years. Yorker also related that he was aware that child pornography existed but that he would never use the word "teen" when searching for pornography.

Inside the residence, investigators located several electronic devices, which Yorker related were his and that he was the only person to use them.

Members of the Pennsylvania State Police — Northeast Computer Crime Task Force performed forensic previews on the electronic devices and located several video files containing child sexual abuse material.

Yorker faces six felony counts of sexual abuse of children and two felony counts of criminal use of a communication facility.

His bail is set at \$150,000 and a preliminary hearing is scheduled for Dec. 14 at 10 a.m. inside the Luzerne County Courthouse.

ECSO arrests Pensacola man for allegedly uploading over 100 files of child sex abuse

Benjamin Johnson
Pensacola News Journal
April 28, 2023

Escambia County Sheriff's deputies arrested a 59-year-old Pensacola man after authorities discovered he uploaded 113 files containing child sex abuse material.

J Bant Sexson III was arrested and charged with one felony count of possessing 10 or more child porn images along with a misdemeanor charge for marijuana possession and one felony count of possessing a controlled substance without a prescription.

According to his arrest report, Sexson possessed "at least 20 image files depicting children as young as approximately 5 years of age, engaged in sexual acts and/or posed with the lewd exhibition of genitals."

Law enforcement received a CyberTipline report from the National Center for Missing and Exploited Children on Oct. 13, 2022, regarding the upload of 113 child sex abuse files to "a commonly used file storage account."

After deputies reviewed the files, they determined the report met the statutory definition of child sex abuse material.

Sexson's cell phone number was reportedly listed in the storage account where the files were found, leading to investigators discovering the IP address used for the uploads was the residence in which Sexson lived.

Once deputies executed a search warrant for Sexson's address, they reportedly discovered several child sex abuse material files.

"Sexson III provided extensive detail on how he obtains pornographic files of adults, and the forensic analysis indicated that Sexson III actually utilized these methods to obtain files of child sex abuse material and files of child erotica," his arrest report states.

Sexson remains in Escambia County Jail as of Friday afternoon on \$305,500 bond.

Child porn suspect arrested at same La Crosse residence where child was found dead days later

Steve Rundio Jul 3, 2023

A 20-year-old La Crosse man was arrested for child pornography six days before police responded to the same address where a young child had been found dead.

Jabari M. Riles was arrested June 8 and charged in La Crosse County Circuit Court with a single felony charge of possession of child pornography. His brother, 16-year-old Kamitri Riles, was arrested June 14 and charged with first-degree intentional homicide of a child whose name has not been released.

According to the criminal complaint filed against Jabari Riles, police pursued six cyber tips that traced the download of child pornography to 910 Winneshiek Road in La Crosse. The complaint says an email linked the activity to Jabari Riles, who allegedly downloaded videos of prepubescent children engaged in graphic sexual activity with adults.

Police contacted the La Crosse Housing Authority, which advised that the only names on the lease are a woman and her three children born in 2015, 2016 and 2018. It didn't include Jabari Riles or Kamitri Riles. The complaint says police determined that Jabari Riles "does have a history of residing at 910 Winneshiek Road."

Police obtained a search warrant and arrested Jabari Riles without incident. He declined to talk with police.

The complaint says Kamitri Riles and a 4-year-old child were inside the home at the time of the arrest. The complaint says the 4-year-old "appeared completely okay watching television."

The complaint says the woman named on the lease wasn't home when police arrested Jabari Riles. She arrived an hour later and said Jabari Riles is her brother. She told police Jabari Riles is homeless and that she allowed him to stay at the residence. An officer told the woman that she would be contacted soon about her three children being interviewed at Stepping Stones as a result of the investigation.

Jabari Riles was released June 12 from the La Crosse County Jail on a \$5,000 signature bond. It includes a no-contact provision with anyone younger than 18 and no access to the internet. The complaint against Kamitri Riles makes no

mention of Jabari Riles being present when police responded to the homicide call.

Jabari Riles' next court date is a July 7 calendar call.

Roommate of councilor arrested for child pornography

By BELLA PELLETIERE Valley Breeze Staff Writer bella@valleybreeze.com
Jun 29, 2023

WOONSOCKET – Last Friday, June 23, City Councilor Scott McGee told *The Breeze* he was awakened by Rhode Island State Police who informed him that they had a search warrant for his roommate's room.

"I was, of course, very cooperative with law enforcement and permitted the State Police to conduct its search," he said.

According to an email from Sharon Knettell, who shares a driveway with McGee, the doorbell rang around 6 or 7 a.m. She told *The Breeze* there were at least eight police officers, a K9, and a battering ram.

McGee said police informed him that they had a warrant to search his roommate's room for suspected child pornography. The search warrant was very limited, and was only conducted in the roommate's room, he said.

"This was all internet related, from what I understand," he said. After the search, his roommate was arrested and ultimately removed from the home.

McGee said that as a member of the City Council, he was compelled to issue a statement, especially on a matter of this nature.

"There's obviously no place in society for child pornography," he said.

"It is an intolerable, unacceptable and offensive crime against children," he added.

He thanked the Rhode Island Police for conducting themselves in a professional manner when executing the search warrant, and said he respects the work they do every day.

A posted news release that has since been removed states that on June 23, the Computer Crimes Unit/Internet Crimes Against Children Task Force arrested **Jalen Latimer**, age 24, of 71 Winter Court for possession of child pornography. Latimer was processed at the Lincoln Barracks and transported to Sixth District Court for arraignment. Judge Isherwood set \$2,500 surety bail with the special bail conditions of restricted internet access and no unsupervised contact with minors.

Latimer is due for a pre-arraignment conference on Sept. 29, according to the state's court database.

Former Pikeville teacher, coach arrested on child porn charges

RALPH DAVIS

Article Updated: April 28, 2023

CUMMING, Ga. — A former Pikeville High School teacher and volleyball coach has been arrested on child porn and sexual exploitation charges in Georgia.

James Andrew “Drew” Cecil, 38, of Cumming, Ga., was arrested April 21, on nine counts of possessing child pornography and one count of sexual exploitation of children. The charges came about after the Forsyth County Sheriff’s Office received a tip from the National Center for Missing and Exploited Children.

Cecil had most recently been a fourth-grade teacher at Poole’s Mill Elementary School since 2021. Five years before that, he was a teacher and volleyball coach at North Forsyth High School.

He taught and coached volleyball at Pikeville High School until 2015. WSB-TV in Atlanta reported that court records in his case note he resigned from Pikeville for “having inappropriate text conversations” with a 14-year-old girl.

There are no records that he ever faced criminal charges in Kentucky.

Mountain Top News received this statement from Pikeville Independent Schools Supt. Stephen Trimble:

“Mr. Cecil left his employment with Pikeville Independent Schools in 2015, which was prior to my arrival. We have not been contacted by anyone conducting the reported investigation, and are not aware of it being related to any events that took place in this district. However, the safety and protection of every child is always the top priority of our team, and we will cooperate as much as possible with any involved law enforcement agency if contacted or needed.”

Suspended UH professor had over 260 images of child porn, prosecutors say

James "Andy" Chang downloaded some of the child pornography images and video while on the University of Houston campus, the HCDAO said.

HOUSTON — A suspended University of Houston professor had more than 260 images of child porn, prosecutors said during his hearing on Thursday.

James 'Andy' Chang, 35, was arrested on Tuesday, Oct. 10 and then charged with five counts of possession of child pornography.

During his second court appearance, prosecutors said Chang had images of naked children as young as 8 years old. He also had videos showing a child performing sex acts, according to prosecutors.

They said Chang downloaded some of the child pornography while on the UH campus.

Investigators subpoenaed information from internet service providers that allegedly connects Chang to accounts that downloaded child pornography.

"I think predators like that, they look for hunting grounds, they look for places where they can prey on innocent people," Assistant District Attorney Nicole DeFee said. "So that's the real concern here, is that people like him who really are predators, finding their way into positions of power, positions where people count on them, where children count on them, where they're around young people. So, he's extremely concerning."

Prosecutors said more charges could be added pending the investigation.

Chang's attorney asked for a lower bond but the judge kept it at \$100,000 for each charge for a total of \$500,000.

The University of Houston said in a statement Chang was suspended following his arrest.

Chang is listed as the assistant director of graduate studies in UH's mathematics department. He's also listed as a lecturer and teaches courses, including college algebra and intro to geometric reasoning.

On Wednesday, we spoke with some of his UH algebra students who said they heard about his arrest from some of his other students.

"They were in that class when he was arrested and they let us know in the group chat that he was arrested and we probably wouldn't have class," one student said.

If Chang posts bond, he is not allowed to have contact with anyone 17 or younger, and he can't have access to the internet.

Agents prepared and served a search warrant at Cohen's residence on Thursday, May 18, 2023, and at the same time conducted an interview with Cohen at his place of employment. Multiple electronic devices were seized from the residence during the search. COLUMBIA COUNTY, Fla. — The Columbia County Sheriff's Office arrested a man Monday for possession of child sexual abuse materials.

James Foerster, 59, was arrested after detectives found images involving children being sexually abused in his possession.

Detectives say they began the investigation in late January after receiving a cyber-tip involving Foerster. Since that time, probable cause for a search warrant of Foerster's residence was developed.

Foerster ultimately provided a confession to detectives, says CCSO.

"People who victimize children are among the worst in our society," Sheriff Mark Hunter said. "We will do everything possible to hold them accountable and ensure they are brought to justice."

Other items were seized during the search and will be forensically examined. Additional charges may be forthcoming pending those results.

Due to the ongoing nature of this investigation, no further information is being released at this time, deputies say.

Foerster was transported and booked into the Columbia County Detention Facility without incident.

Former Salem High choral director arrested on child porn, indecent liberties charges

Mike Gangloff
Oct 27, 2023

A former choral director at Salem High School was arrested this week at his current home in Northern Virginia after being accused of distributing child pornography and exposing himself to a child.

James William Nugent II, 27, now of Alexandria, was arrested Wednesday and is being held without bond in the Fairfax County Adult Detention Center. Nugent faces one charge of taking indecent liberties with a minor under the age of 15, one charge of being an accessory to the distribution of child pornography, and 12 counts of distributing child porn.

His initial court dates in the cases are set for December.

Nugent was the choral director at Salem High School from July 1, 2020, until March 31 of this year, city spokesman Mike Stevens wrote in an email Friday.

A news item on the Fairfax County Police Department blog reads that the charges were prompted by an Oct. 21 report that a child was approached by a man in a Toyota Sienna, who "lured the victim to his van then exposed himself." The afternoon event was described as occurring in the Stratford Landing neighborhood of Fairfax County.

The child ran away and was not injured, the police blog said. After officers were contacted, someone in the neighborhood gave detectives "surveillance" of a van seen in the area. Information from license plate readers in the area identified the vehicle and Nugent as the driver, according to the blog.

On Wednesday, detectives searched Nugent's residence and found "numerous child sexual abuse material."

According to the police blog, Nugent worked as a resource teacher at Groveton Elementary School, though the child who is accused of exposing himself to was not connected to the school or his teaching job.

Police said they thought that in the two weeks before the incident, Nugent also exposed himself to at least four more children near Stratford Elementary School.

Police were trying to learn if there are additional victims and asked that anyone with information about the case contact investigators at (703) 246-7800, option 3. Other routes to send tips were (866) 411-8477), and online via fairfaxcrimesolvers.org.

Randall faces a minimum mandatory sentence of 5 years, up to 30 years, in federal prison and a potential life term of supervised release. Randall has been detained pending a hearing scheduled for February 21, 2023.

This case was investigated by Homeland Security Investigations (HSI). It will be prosecuted by Assistant United States Attorney Ashley Washington.

Massive multi-agency sting nets 23 arrests, including two Anderson locals in child predator crackdown

by Adam Robinson Tue, July 11th 2023, 12:09 AM EDT

During a multi-agency child predator operation throughout Northern California, the Anderson Police Department (APD) says 23 people were arrested, including two local predators.

From June 18 to July 1, the APD said the Sacramento Valley Internet Crimes Against Children Task Force (ICAC) and 29 different federal and local law enforcement agencies in the Northstate conducted what they call a large "CyberTip operation" targeting child predators.

Ultimately, police say the operation ended in 23 arrests across the Northstate. Of those, police say they arrested two people: **James Schwede** and Scott Hemme, both of Anderson.

In March, police say their detectives served a search warrant at Schwede and Hemme's home in Anderson. The warrant was reportedly obtained after ICAC received a CyperTip related to someone uploading child porn. While searching the home, police say detectives seized cell phones and computers.

After examining the electronics, police say they obtained arrest warrants for Scwede and Hemme for charges related to child porn. Then, on Friday, June 30, police say their detectives found and arrested both Schwede and Hemme and brought them into custody.

Last week, the Shasta County Sheriff's Office said the CyberTip operation yielded three other arrests in the county for charges related to possessing and distributing child porn.

Tolono man charged with creating, possessing child pornography

By MARY SCHENK Apr 5, 2023

URBANA — A Tolono man who allegedly possessed and created child pornography has been charged with those offenses in Champaign County Circuit Court.

James E. Shipley, 41, of the 300 block of East Walnut Street, was arrested Tuesday morning following a monthlong investigation by Illinois State Police.

Assistant State's Attorney Joel Fletcher said Shipley is alleged to have created lewd pictures of prepubescent girls in March 2017, and that in June of last year, he possessed child pornography depicting an adult woman committing a sex act with a young girl.

Fletcher said police began investigating Shipley based on a tip from Dropbox to the National Center for Missing and Exploited Children that an account associated with him had uploaded child pornography on June 26, 2022.

A court-authorized search of his Dropbox account turned up 79 files depicting children between 2 and 14 years old engaged in various lewd acts, Fletcher said.

Further, police found that Shipley's email account accessed the Dropbox account around June 25 from an IP address associated with his home.

Police seized his computer Tuesday, and Fletcher said more videos of a pornographic nature were recovered.

Creation of child pornography is a Class X felony carrying a mandatory prison sentence of six to 30 years upon conviction. Mere possession is a Class 2 felony carrying penalties upon conviction ranging from probation to three to seven years in prison.

Judge Chad Beckett set Shipley's bond at \$500,000 when he issued the arrest warrant for him Monday. Shipley remained in the county jail Thursday and was told to be back in court May 24.

Stratford man gets 8 years for child porn

By Daniel Tepfer Updated Feb 1, 2019 4:15 p.m.

BRIDGEPORT — A Stratford man caught downloading child pornography just one month after he finished a prison term for doing the same thing, was sentenced Friday to eight years in prison.

Jaime Diaz, 32, of Franklin Avenue, Stratford, pleaded guilty to two counts of first-degree possession of child pornography and was sentenced by Superior Court Judge Robert Devlin to 20 years, suspended after he serves eight years and followed by 15 years of probation.

The judge also ordered Diaz to register as a sex offender.

“What is especially troubling is that the defendant was on parole in New York for the same type of offense,” the judge added.

Senior Assistant State’s Attorney David Applegate told the judge that police received information from the National Center for Missing and Exploited Children, which monitors the internet for child pornography, that child porn had been downloaded by someone in Stratford.

Applegate said police later determined that the download, a 15-minute video containing numerous clips of adults having sexual relations with children, had gone to a computer in Diaz’s home.

Police said Diaz initially denied downloading the porn, but after police found his computer, they said, he began crying and admitted to viewing child pornography on a daily basis.

Lowcountry Men Arrested on Child Sexual Abuse Material* Charges

(COLUMBIA, S.C.) - South Carolina Attorney General Alan Wilson announced the arrest of Thomas C. Gotshall, 68, of Johns Island, S.C., and **Jamie Talmadage Rivera**, 18, of St. George, S.C., on four total charges connected to the sexual exploitation of minors. Internet Crimes Against Children (ICAC) Task Force investigators with the Charleston County Sheriff's Office and Dorchester County Sheriff's Office made the arrests in these unrelated cases. Investigators with the Attorney General's Office and Homeland Security Investigations, both also members of the state's ICAC Task Force, assisted with these investigations.

Investigators received CyberTipline reports from the National Center for Missing and Exploited Children (NCMEC) which led them to both Gotshall and Rivera. Investigators state Rivera possessed child sexual abuse material and Gotshall distributed files of child sexual abuse material.

Rivera was arrested on November 3, 2023. He is charged with one count of sexual exploitation of a minor, third degree (§16-15-410), a felony offense punishable by up to 10 years imprisonment.

Gotshall was arrested on November 9, 2023. He is charged with three counts of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment on each count.

Gotshall was out on bond from a prior arrest on related charges in 2023.

Both of these cases will be prosecuted by the Attorney General's Office.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Gainesville man arrested on a dozen child pornography charges

Distributed videos through Snapchat

By Gabriel Velasquez Neira
May 19, 2023 | 3:21pm EDT

A Gainesville man was taken into custody May 17 on charges of 11 counts of possession of child pornography and one count of distribution of child pornography.

Jantzen Weaver, 22, was arrested on suspicion of possessing videos of adults performing sex acts on children, including infants and prepubescent kids.

Gainesville Police Department received reports from the National Center for Missing and Exploited Children Jan. 18 about a Snapchat account uploading and distributing child pornography.

Further investigation by detectives found emails tied to the account were registered with phone numbers associated with Weaver, according to a GPD arrest report.

Snapchat provided conversations that Weaver had with another user where he shared a child sexual abuse video. According to the arrest report, Weaver purportedly deleted the footage after sending it.

Officers contacted Weaver at his home May 17. After GPD read him his Miranda rights, Weaver confirmed the account belonged to him in an interview with the police.

Weaver found the video through Twitter and estimated he has viewed between 10 to 20 child sexual abuse videos since January 2023, he said. He also told police he was not a real threat to society because he dislikes being around children as they're "too loud."

In a preliminary search, officers found 44 videos of child sexual abuse material across his electronic devices.

Weaver was arrested at 11 a.m. and taken to Alachua County Jail. His next court date has yet to be scheduled as of May 18.

Central NY man shared photos of stranger's kids and offered the children for sex, deputies say

Updated: Apr. 07, 2023, 5:11 p.m.

By Anne Hayes

Hastings, N.Y. — An Oswego County man has been accused of stealing a stranger's identity and photos of the person's children, offering the kids up for sex in exchange for money, deputies said.

Jared M. August, 30, of Hastings, was arrested and charged Thursday with eight counts of promoting a sexual performance of a child and one count of identity theft, according to a news release Friday from the Oswego County Sheriff's Office.

August stole the photos from the person's social media and posted them online, offering them for sexual encounters, deputies said.

After receiving multiple tips in 2022, the sheriff's office and State Police began an investigation into multiple online accounts, deputies said.

The investigation -- which included tracking IP addresses and other digital evidence -- led to August's home, deputies said. After reviewing devices found in the home, investigators determined that August was using the accounts to send and receive child pornography, they said.

Deputies also found that August stole information from the stranger's social media accounts to set up at least one profile using that person's identity, they said.

The stranger whose identity was stolen lived in the same area as August and had no knowledge their identity or photos of their children was being used, deputies said.

Deputies found there was no evidence that August had any contact with the children in the photos, they said.

Investigators did speak to the victim of the identity theft but were able to rule that person out as a suspect due to the digital trail tied to the online accounts, said Lt. Andrew Bucher, an investigator for the Oswego County Sheriff's Office.

August is currently being held in the Oswego County jail on \$15,000 cash and \$35,000 bond bail.

Deputies are still investigating the incident and working to determine if there are additional victims in this case.

Deputies ask that anyone with information about the case contact the sheriff's office at (315) 349-3411.

by Rayna McGlynn

Wed, March 1st 2023, 5:56 PM EST

WILKES-BARRE, LUZERNE CO, (WOLF) — A Wilkes-Barre man is behind bars in Luzerne County after police allegedly found him in possession of child sex abuse materials.

According to our newsgathering partners at the Times Leader, Detectives with Luzerne County and West Hazleton police executed a search warrant Wednesday arresting 33-year-old **Jared Pieck**.

Pieck admitted to downloading the images for "self-gratification," police say.

Investigators say they received two tips linked to emails registered to Pieck.

Court records indicate that the tips involved uploaded and downloaded images of semi-nude girls.

Detectives say Pieck admitted to them that he had been downloading child sex abuse materials "on and off since puberty."

A police dog trained in finding electronic devices sniffed out a cellphone and laptop that police say had a total of 41 images of child sex abuse materials.

He was taken into custody on counts of possessing child pornography and three counts of criminal use of a communication facility.

Pieck was jailed without bail at the county correctional facility.

Marlborough man faces child porn charges after police made this discovery

Norman Miller MetroWest Daily News
Published Feb.27, 2023

MARLBOROUGH — A local man is facing child pornography charges after police say they found "dozens" of photos of underage children in various states of nudity and sexual conduct on his computer.

Police arrested **Jared F. Idels**, 35, at 9:30 a.m. Thursday at his 13 Tucker Ave., home, police Lt. Matthew Hassapes said Friday.

The investigation began Feb. 1, when the National Center for Missing and Exploited Children provided Marlborough police with information that a city resident may be downloading child pornography from the internet.

"They'll provide us with certain digital information that points us to a direction," said Hassapes. "It's very raw (the information) when it comes to us. It's up to us to further investigate and get search warrants for IP addresses and Gmail accounts."

The investigation led to Idels, the lieutenant said.

Investigators obtained a search warrant and served it on Thursday. During a preliminary search of Idels' computer and other electronic devices, police found numerous images containing obviously underage children. Police seized Idels' computer and phone.

"At the end of the day, we don't know how many images he had," said Hassapes. "Right now, the searching of the digital devices is taking place. Depending on what the forensic analysis finds, it could lead to more."

Idels was released without bail after his arraignment Thursday in Marlborough District Court. He was ordered to not use the internet, not to use social media and have no unsupervised contact with children.

Idel's court-appointed lawyer, Michael Gerry, could not be reached for comment.

Idels is due back in court on April 11 for a pretrial conference.

Jarrold Steven Bennett, 38, of Mt. Nebo entered the plea Thursday in U.S. District Court, according to court records.

Bennett was indicted on Sept. 7 of 11 counts of child pornography-related offenses and attempting to destroy or conceal evidence.

Facebook Tip Leads to Arrest of Margate Man on Child Pornography Charges

By Ryan Yousefi on June 14, 2023

A man faces 14 separate charges of trafficking in child pornography and sending nude photos to a minor after a tip from Facebook revealed his online criminal activity.

In March of 2023, records show the South Florida Internet Crimes Against Children (ICAC) received a cyber tip from the National Center for Missing and Exploited Children (NCMEC) about a Margate resident allegedly sharing child pornography online. As a result of the information, a case was assigned to the Margate Police ICAC unit.

According to the arrest report, Facebook initially generated the tip in February after a user of its Messenger app violated the platform's terms of use by uploading images of child pornography.

In response to the violations, Facebook reported the user, later identified as **Jason Arthur Palermo**, 41, of Margate, to law enforcement and provided investigators with evidence that Palermo had repeatedly uploaded videos depicting child pornography via the Messenger app.

As the Margate ICAC unit investigated the claim further, it was revealed the residence assigned to that specific IP address was located near the 5300 block of Northwest 31st Street, which would later lead to identifying Palermo as the alleged suspect.

With digital evidence of a potentially serious crime in hand, investigators were granted a search warrant for the contents of Palermo's Facebook account, and upon a deeper review, discovered additional files that were sent during a chat in Facebook Messenger with a Facebook user who identified themselves as a 12-year-old male.

The messages were reportedly sexual amongst both users, and the child pornography used as evidence in the case, along with two additional video files, was sent by Palermo to the underaged user and, subsequently, the victim.

On June 9, members of the Margate Police Department and the South Florida ICAC executed a search warrant at Palermo's home. According to the arrest report, Palermo admitted to officers that he had sent the files.

In addition to his admission of trafficking in child pornography, Palmero also admitted to sending photographs of his penis to the underage victim.

Palmero alleged to officers that when he chatted with the victim, he believed the person he was talking to was 13.

During the search of Palmero's devices, records show he was found to be in possession of at least ten images and files that would be considered child pornography, including videos depicting male children between the ages of 8-14 engaged in sexual acts with other children and adults.

Palmero was arrested and transported to the Broward County Main Jail. He was later released after posting a \$90,000 bond.

New Rochelle Man Charged with Multiple Felony Charges for Production and Distribution of Child Pornography

Written By: Robert Cox

EDITOR'S NOTE: Just under a day after this article was published — and after having sent several notification emails immediately after publication seeking comment — we have received an unprecedented request (for us) from law enforcement officials asking that we edit this article by removing details of the alleged crimes contained in the felony complaint. While we are under no obligation to do so, we have chosen to replace certain details with a more generalized description. We do not take such a decision lightly and certainly do not proceed for the benefit of government officials. We do so in the interest of the victim. We do not want to hinder a prosecution in this case nor discourage other victims — and we believe there are more — from coming forward. As a result, this article has been edited to remove details of the crimes charged.

NEW ROCHELLE, NY (February 2, 2023) — The Westchester County District Attorney's Office has filed child pornography charges against a 21-year-old New Rochelle man.

The Westchester County District Attorney's Office's Cyber Crimes Bureau, Child Abuse Bureau, High Technology Crimes Squad and Criminal Investigators with the Special Prosecutions Division conducted the investigation after receiving a referral from the National Center for Missing & Exploited Children. The New Rochelle Police Department assisted with the investigation.

Law enforcement has seized multiple devices, which are being analyzed to identify other possible victims or witnesses.

UPDATE 2/3/23 1:30 PM We asked the City School District of New Rochelle for a statement. "Any inquiries should go to the DA's office".

UPDATE 2/6/23 3:00 PM: We have repeatedly requested a booking photo (aka, "mug shot") of Jason Ricketts from the DA but that request has been denied. The DA has said they are "prohibited from releasing it unless certain exceptions and those exceptions don't apply at this time". The law was changed in 2019. The law is not as clear on this point as the DA might want to claim.

Mugshot 'ban' causes confusion for police, media

...the law allows mugshots to be issued if "the release of such photographs will serve a specific law enforcement purpose," but offers no guidance on what "specific law enforcement purpose" means... Releasing mugshots can serve a law enforcement purpose, particularly when police are searching for a convict on the lam or more victims of a suspect.

We obtained photos from 2014 published on Jason Ricketts' Facebook profile. We continue to seek more current photos of Jason Ricketts; we can be reached at robertcox@talkofthesound.com.

A man has been indicted on multiple child pornography and firearm charges in Clermont County.

The Clermont County Sheriff's Office said **Jason Voss**, 41, is facing 15 counts of pandering obscenity involving a minor and one count of weapons under disability.

Lock Haven, Pa. — Investigating six tips in reference to child pornography, police located 269 pieces of media containing on a man's phone.

Investigators raided the home of **Jason Young**, 48, of Lock Haven in the 10 block of N. Vesper Street on Oct. 12 after receiving six cyber tips relating to child pornography, Trooper James Ballantyne said. After taking Young into custody, investigators discovered the images on his phone, Ballantyne added.

On June 27, state police investigators received a tip from ICAC (Internet Crimes Against Children) in reference to 32 videos of suspected child pornography being uploaded, according to the complaint. Investigators received five more tips from the end of June to the close of August.

Ballantyne linked a cell phone and its number to the account in August of this year. It matched Young, who later admitted it was his number during an interview with police, investigators said.

A search warrant was executed on the property on North Vesper Street on Oct. 12. Young, who was the only person inside the home, was taken into custody by state police.

Investigators matched Young's phone to the one flagged. They also found an Xbox registered with an email matching the one on the flagged Verizon account.

Of the 269 videos, 82 had children that matched victims from previous cases who were identified. All six tips came from a company that manages Verizon Wireless's cloud storage, according to the report.

Young was charged with second-degree and third-degree child pornography. He was also charged with third-degree felony criminal use of a communication facility.

Judge Keith Kibler set bail at \$50,000 monetary earlier this month.

Wilkes-Barre man charged with possessing child sexual abuse materials

October 27, 2023

By Ed Lewis elewis@timesleader.com

WILKES-BARRE — A video two minutes and 10 seconds in length depicting a prepubescent girl engaged in a sex act led to the discovery of 42 other images of child sexual abuse materials on the cellular phone of a man from Wilkes-Barre, according to court records.

Jeffrey Raymond Rivera, 29, of Madison Street, was arrested Thursday on allegations he downloaded and saved the images and videos on his phone, court records say.

Rivera was arraigned by District Judge Thomas Malloy of Wilkes-Barre on 42 counts of possession of child pornography and one count each of dissemination of film or image of child sex acts and criminal use of communication facility. He was released on \$75,000 unsecured bail.

According to the criminal complaint:

Luzerne County detectives as members of the Internet Crimes Against Children Task Force and Pennsylvania State Police Northeast Computer Crime Unit received a Cyber tip from the National Center for Missing and Exploited Children.

The Cyber tip involved the video of a pre-teen girl engaged in a sex act linked to Rivera's cellular phone, the complaint says.

Rivera was confronted by detectives with a search warrant for his cellular phone Thursday.

After Rivera was given his Miranda warnings, he agreed to speak with detectives, the complaint says.

Rivera admitted, the complaint says, he had been viewing child sexual abuse materials for two years and often finds himself viewing child sexual abuse materials when he gets stressed.

Rivera explained he used an online application that referred him to links and paid approximately \$100 to \$200 to access the site, the complaint says.

Detectives in the complaint say Rivera denied he had child sexual abuse materials saved on his cellular phone.

A forensic analysis of Rivera's cellular phone revealed 42 images of child sexual abuse materials including the video that led to the Cyber tip, according to the complaint.

Las Vegas man awaiting new trial on sex charges found with thousands of child pornography files: police

by: David Charns

Updated: May 9, 2023 / 11:13 PM PDT

LAS VEGAS (KLAS) — A Las Vegas man who spent nearly two decades in prison on child sex assault charges, and who was granted a new trial, was found with more than 7,000 files of child pornography, police said.

Jeffrey Rose, 56, faces nine counts of possession of child pornography, records showed.

On April 22, Las Vegas Metro police officers were called to an apartment complex in the southeast valley for a report of a person with “inappropriate pictures of children,” documents said. The address was redacted in court documents the 8 News Now Investigators reviewed.

A group called Predator Poachers claimed a member, posing as someone else, had chatted with Rose, police said.

While speaking with officers, Rose “confessed to possession [of child pornography] on multiple devices inside the residence,” officers wrote in court documents. “He claimed he was collecting the files with the intention of turning them over to law enforcement to help with his other case.”

The other case, police said, was a prior conviction for sexual assault of a minor, police said. Rose told police he served 17 in prison for the charge, documents said. Rose was sentenced on a charge of sexual assault of a child under the age of 16 and began a prison sentence in 2004, Nevada Department of Corrections records said.

In 2002, police received a report that Rose had sexually assaulted two children in his home, documents said. Rose was tried over two trials because the first ended in a mistrial, documents said. In the second trial, a jury found him guilty, and a judge sentenced him to life in prison with the possibility of parole.

Rose's attorney at the time petitioned to federal court, saying the abuse could not have happened because he was in the Navy and out of state at the time, documents said.

In 2020, The U.S. Court of Appeals for the Ninth Circuit granted Rose's request for a new trial and his release from prison. That trial, rescheduled several times since, was due to begin in July, records showed.

Police later obtained a search warrant for 20 electronic storage devices, they said. Police said their examination found more than 7,500 files of child pornography, noting some of the files may be duplicates.

Police arrested Rose on Monday, May 1, records showed. A judge denied setting bail. He was due to return to court on Thursday.

Cedar City man facing 10 counts of sexual exploitation of a minor after police search his phone

Written by Jeff Richards March 5, 2023

CEDAR CITY — A Cedar City man is facing multiple felony charges after investigators allegedly found images of child pornography on his phone.

Jeremiah Ronald Daws, 27, was arrested on Feb. 9 and booked into Iron County Jail on suspicion of 10 counts of sexual exploitation of a minor, a second-degree felony. He has since been released after posting \$5,000 bail.

According to the probable cause statement filed in support of Daws's arrest, Cedar City Police received a referral in January from the state Internet Crimes Against Children Task Force. Following up on the referral, police contacted Daws at his residence in the southwestern part of Cedar City.

"I advised him I needed to take custody of his phone and he provided it to me," the arresting officer wrote in the affidavit. After being read his Miranda rights, Daws provided the officer with the passcode to the phone and agreed to speak without an attorney present. Court records show that he also signed a consent form authorizing the phone to be searched.

"I opened the gallery folder and observed more than 10 pictures of prepubescent children nude and performing sex acts," the officer wrote in the affidavit.

Daws was then placed under arrest and taken to jail, after being medically cleared at the hospital.

Daws' initial appearance in 5th District Court was originally scheduled for Feb. 13, but was rescheduled for two weeks later. At Daws's initial court appearance on Monday, Judge Matthew L. Bell appointed public defender Jeffery Slack to represent the defendant.

Daws's next scheduled appearance is a roll call hearing on April 3.

This report is based on statements from court documents and law enforcement officials and may not contain the full scope of findings. Persons arrested or charged are presumed innocent until found guilty in a court of law or as otherwise decided by a trier-of-fact.

Fairhope man charged with possession of child pornography

By Hal Scheurich

Published: May. 10, 2023

FAIRHOPE, Ala. (WALA) - A Fairhope man is in the Baldwin County Jail, charged with four counts of possession with intent to disseminate child pornography. The arrest came after an extensive investigation initiated by the Internet Crimes Against Children (ICAC) task force.

Cyber tip leads to arrest of **Jeremy Kinsey** who now faces four charges possession with intent to disseminate child pornography(Baldwin County Sheriff's Office)

Fifty-three-year-old Jeremy Kinsey of Fairhope was arrested Tuesday, May 9, 2023 during a traffic stop. Baldwin County deputies launched an investigation into Kinsey's online activities in April after a cyber tip was received by the National Center for Missing and Exploited Children.

"He was indeed viewing these things online over chat groups and whatnot and he had basically copied and recovered these images and possibly videos for further dissemination later on," said Lt. Andrew Ashton with the Baldwin County Sheriff's Office.

Investigators said the victims associated with this case are not local, which is often the case in these types of crimes. Because pictures and video are put online, they can live on in perpetuity which can be especially hard on victims.

"That's correct. I mean, the images that are shared, like you said, a lot of times they could be older images and whatnot but they're actually just becoming known images that are being shared," Ashton said.

Ashton said it's because of the extensive network of law enforcement agencies that now work with ICAC that arrests like this one are possible.

"It's made up of a network of both federal and local agencies and usually, Homeland Security, ALEA with the state will be involved here in Alabama and then, you have your local jurisdictions that have members that are involved with it as well," explained Ashton.

The Baldwin County Sheriff's Office currently has two investigators assigned to look into internet crimes such as this and said cases like this highlight the need

for parents to have those difficult conversations with their kids and be involved with what they're doing online.

Jeremy Kinsey's remains in the Baldwin County Jail with bond set at \$100,000.

Collier County man arrested after offering child for sex on dating app

by Ryan Arbogast 7:20 PM EDT, Wed May 10, 2023

COLLIER COUNTY, Fla. – A Collier County man was arrested on Friday after offering a child for sex over a dating app.

Detectives say 27-year-old **Jeremy Kenneth Mannerberg** sent at least six photos of a three-year-old girl to unknown users on the "MeetMe" app from March 23 to April 10.

An account registered to Mannerberg also shared messages encouraging those recipients to have sex with the toddler.

"These are the toughest case scenarios when we are talking about children who are being exploited under the age of a school-age child," said Linda Oberhaus, the CEO of the Shelter for Abused Women & Children.

A month-long investigation began when the Collier County Sheriff's Office (CCSO) received a cyber tip from the MeetMe app, and later from the National Center for Missing and Exploited Children.

That information led CCSO to discover that the crime was happening at Mannerberg's residence, where a search warrant was carried out on April 21.

"This sort of thing is happening quite a bit. We are just fortunate in this case it was reported to the Center for Missing and Exploited Children," added Oberhaus.

Mannerberg's home matched the interior in the images of the victim that were sent to the MeetMe user –including similar factors such as the same tile floor, kitchen table top and walls, etc., according to CCSO documents.

It is unclear whether the 3-year-old girl was physically harmed during the crime.

"The youngest victims of human trafficking, the most vulnerable ones, they are the saddest cases really. These children are not in a place to protect themselves," said Oberhaus.

Mannerberg denied all charges and told CCSO deputies he did not take or send any photos of the child. He also told deputies he did not engage in any sexual activity with the child.

His wife, Clarissa, told responding law enforcement he was responsible.

He is currently in custody in the Collier County Jail on pornography charges.

Mannerberg is being held at a \$50,000

Internet Crimes Against Children (ICAC) Task Force investigators with the Mount Pleasant Police Department made the arrest. Investigators with the Attorney General's Office, Charleston County Sheriff's Office, Charleston Police Department, and Homeland Security Investigations, all also members of the state's ICAC Task Force, assisted with the investigation.

Investigators received a CyberTipline report from the National Center for Missing and Exploited Children (NCMEC) which led them to Middleton. Investigators state Middleton possessed files of child sexual abuse material.

Middleton was arrested on October 11, 2023. He is charged with four counts of sexual exploitation of a minor third degree (§16-15-410), a felony offense punishable by up to 10 years imprisonment on each count.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

By Chris Coleman Published: February 13, 2023

Authorities in Cape May County say a man from North Cape May is facing a child porn charge after being arrested late last week.

35-year-old **John T. Gillespie, Jr.**, was taken into custody on February 10th and charged with second-degree possession of child pornography, according to Cape May County Prosecutor Jeffrey Sutherland.

This investigation stemmed from a National Center for Missing and Exploited Children (N.C.M.E.C.) CyberTip that revealed an unidentified subject, subsequently identified as John T. Gillespie Jr., possessed various videos and images of Child Sexual Abuse Material (CSAM) and uploaded them to his personal google account.

Last Friday, law enforcement officers executed a search warrant on Gillespie's home on Townbank Road, and, "multiple computers, tablets and an external hard drive were seized from the residence and found to contain over eighteen hundred (1,800) items of suspected Child Sexual Abuse Materials (CSAM)."

After being arrested, Gillespie was transported to Cape Regional Medical Center with the anticipation of being lodged in the Cape May County Correctional Center pending court proceedings.

Sutherland's office says those charged with a second-degree crime are subject to five to ten years in state prison if found guilty.

The public is reminded that charges are accusations and all persons are considered innocent until proven guilty in a court of law.

Part-time Brick police officer arrested on child porn charges, cops say

BRICK - A part-time police officer in Brick Township has been charged after uploading images of child pornography to the internet, Ocean County Prosecutor Bradley D. Billhimer announced Wednesday.

John Kisch, 57, of Brick Township, was charged with possession of child pornography, Billhimer said.

The investigation stemmed from cyber-tips from the National Center for Missing and Exploited Children that an individual was uploading images of child pornography to the internet, Billhimer said. The Ocean County Prosecutor's Office High Tech Crime Unit identified an IP address associated with a Brick Township residence as the location the individual was uploading the images from.

Kisch was ultimately identified as the individual, Billhimer said. He is employed as a part-time Class I Special Police Officer in Brick Township.

On June 13, authorities executed a search warrant on Kisch's home in Brick Township, seizing a desktop computer where more than 100 images of child pornography were found, according to Billhimer.

Kisch was arrested and taken to Ocean County Jail, where he is lodged pending a detention hearing, the prosecutor said.

"We will continue to work with our law enforcement partners to protect the most vulnerable among us. Children are most deserving of our unwavering commitment to investigating and prosecuting these types of offenses," Billhimer said.

Kisch was employed by Brick Township for 22 years and had a \$28,819 salary as of March 31, according to the New Jersey Office of Information Technology.

Brick Township Business Administrator Joanne Bergin said that Kisch's part-time employment with the township was immediately terminated when they were notified of the charges.

"These crimes are among the most reprehensible someone can commit as they affect innocent and vulnerable children," Bergin said.

Brick Township Police Chief David Forrester said in a statement on Facebook that he is angered and saddened by the incident, and is disappointed over the actions Kisch has been accused of.

"They are inexcusable and do not represent the values and standards of the Brick Township Police Department," Forrester said.

As a law enforcement agency, Forrester said they are committed to the investigation and prosecution of those who exploit or harm children.

"I assure you that the men and women of the Brick Township Police Department are dedicated to serving you with integrity, professionalism and respect," he said. "We will continue to do everything we can to honor our oath to protect and serve you."

Published: Jun. 6, 2023

FARGO, N.D. (Valley News Live) - A Fargo man is facing two-dozen charges related to child pornography after a months-long investigation into one of his social media accounts.

A cyber tip came into the National Center for Missing and Exploited Children from Twitter, after they noticed suspicious activity on a user's account. Twitter reported child sexual abuse material was being sent by "AugustmoonA" using the chat feature from December 9 to December 16, 2022.

Investigators were able to determine the Twitter account was being used by **John Thomas Kvamme** of Fargo. He is charged in Cass County Court with 8 counts of promoting or directing an obscene sexual performance by a minor, which is a class A felony. He is also charged with 16 counts of possession of certain materials prohibited, which is a class C felony.

Court documents describe explicit sexual images involving children as young as 18 months old to approximately 15-years-old. Investigators say Kvamme not only possessed child pornography, but also shared and distributed the images with other users.

An additional folder was located with approximately 30 files of child porn, including several videos. The victims in these videos were between the ages of 5 and 16-years-old.

Investigators say Kvamme had conversations on Twitter indicating he has a sexual interest in children. Court documents say he admitted to being the owner of the Twitter account and the email address associated with this investigation.

Kvamme was arrested and booked into the Cass County Jail. He appeared in court on Tuesday, June 6, 2023 where bond was set at \$100,000 cash. MARION COUNTY, Fla. – An undercover Marion County Sheriff's Office sting operation that wrapped up last week is still taking names as two more men have since been arrested, accused of varying attempts to engage in sex acts with minors, according to the sheriff's office's social media.

The five-day sting — known as "Operation M.A.P. Mirage," utilizing an acronym that stands for "minor-attracted persons" — saw 20 arrests of men aged 22-79 years old, officials shared at a news conference May 23. Most of the arrestees had traveled in their attempts to meet a child for sex, unbeknownst to how they were among the over 100 men speaking online with detectives that were posing as children, the sheriff's office said.

The latest arrests are those of Charles Jones, 31, and **John Marchlewski**, 52, officials said.

[TRENDING: Become a News 6 Insider]

Jones is currently in custody at the Marion County Jail, where he faces a charge of transmitting material harmful to a minor, according to the sheriff's office.

Marchlewski was arrested May 23 via a warrant for using a computer to solicit a parent of a child for unlawful sexual conduct and unlawful use of a two-way communication device to facilitate a felony, officials said, adding he was also arrested by the Florida Department of Law Enforcement regarding two counts of possession of child pornography. He is currently in custody at the Lake County Jail.

In a statement, Marion County Sheriff Billy Woods expressed his revulsion at those arrested in the sting.

"I am disgusted and dismayed that there are people in this world who seek to harm innocent children," Woods said. "I will never stop devoting every resource I have at my disposal to bring to justice anyone trying to harm a child in my county. I am grateful for the dedication of each participant in this operation and their work to get these vile individuals into my jail."

Dec 8, 2023 Updated Dec 8, 2023

An investigation by the Harnett County Sheriff's Office has resulted in multiple charges of sexual exploitation of minors.

In a statement released by Sheriff Wayne Coats, it was reported that **John Elvin Mullens Jr.**, 47, of 74 Dove Trail, Sanford, is charged with 10 counts of second-degree sexual exploitation of a minor.

"In October of 2023 Harnett County detectives assigned to the North Carolina Internet Crimes Against Children Task-force initiated an investigation involving child sexual assault material based on information received from the North Carolina National Center for Missing and Exploited Children," said Coats.

Based on the information received, detectives obtained and executed a search warrant at Mullens' home on Nov. 6. In that search, evidence was seized and later examined by a digital forensic examiner.

As a result of the evidence and according to case information on eCourts, investigators obtained warrants for Mullens' arrest on Dec. 6. Online records show that Mullens turned himself in and warrants were served on him at 8:46 a.m. Thursday.

His bond was set at \$100,000 secured by Magistrate Barry Hoyle.

A review of the warrants online revealed graphic details of severe sexual abuse of children described as ranging in age from 1 year old to 11 years of age. Mullens is accused of receiving graphic photos of the abuse and of transmitting them to others.

A first appearance in court was held on Thursday before Judge Resson O. Faircloth III. Mullens' attorney, Ryan Willis, made a motion to reduce Mullens' bond. The court denied the motion.

Mullens posted a \$100,000 bond at 1:38 p.m. on Thursday and he was released from the Harnett County Detention Center.

The next court appearance for Mullens is a probable cause hearing scheduled for Jan. 23.

STERLING, Ill. — A Sterling man has been arrested for possession of child pornography while still moving through the court system for the same charges from a 3-year-old case.

Jonas Gragert, 36, was taken into custody on Tuesday, April 11 on a Whiteside County warrant for possession of child pornography.

The case dates back to December 2022 when police launched an investigation into Gragert after he was identified as the suspect. A search warrant was executed at his home on Feb. 21, where police found several items of child sexual assault material.

Gragert was taken sent to the Whiteside County Jail on a \$500,000 bond that he was unable to pay.

This is Gragert's second time receiving child porn charges, following a previous arrest on Sept. 2, 2020, where he was charged with five counts of possession.

The 2020 case has been stalled in the Whiteside County court system for several years, with no notable developments occurring since June 30, 2021. Gragert is supposed to appear before a jury in June of this year, according to online court records.

Gragert is set to appear in court for a preliminary hearing on the most recent charges on April 24.

Whiteside County has been in the spotlight regarding sex offense cases following accusations that State's Attorney Terry Costello has been letting offenders off easy due to a series of plea bargains that led to six sex offenders receiving no jail time.

Florida man charged with nearly 1,200 counts of child pornography

By Bob D'Angelo, Cox Media Group National Content Desk
January 14, 2023 at 5:01 am PST

SEBRING, Fla. — A Florida man is facing nearly 1,200 counts of child pornography in what deputies are calling the largest collection ever seized in Highlands County, authorities said.

Jonathan Jhovanny Hernandez, 23, of Avon Park, was charged with 1,182 counts of child pornography and four counts of bestiality images, according to Highlands County online court records.

Hernandez was originally arrested on Dec. 29 by special victims unit detectives on several charges of child pornography possession and transmission after a four-month investigation, WFLA-TV reported.

“At that time, we told you the investigation was just getting started and there would likely be more charges,” the Highlands County Sheriff’s Office posted on Facebook. “What we should have said was there would likely be A LOT more charges -- like more than anyone in our county ... ever.”

Hernandez was originally arrested after detectives found child pornography on his Discord account, an instant messaging application, according to the Miami Herald. Deputies searched Hernandez’s home and discovered 15 electronic devices, according to the newspaper.

At the time, Hernandez was charged with two counts of possession of child pornography, two counts of transmitting child pornography, and one count of using a two-way communication device to facilitate a felony, the Herald reported.

The new charges were filed on Tuesday against Hernandez, who was out on bail, court records show. He was arrested the next day, the sheriff’s office said.

“There is no telling how many charges he could face if detectives went through all the devices,” the sheriff’s office wrote on Facebook. “Detectives say Hernandez’s collection of child porn is the largest they have ever seen.”

Hernandez is being in the Highlands County Jail. Bail was set at \$2.4 million, WFTS-TV reported.

Convicted Felon Charged with Dissemination of Child Pornography, Weapons Possession

Mar 15, 2023 Press Release

COOK COUNTY, IL – A convicted felon has been charged with dissemination of child pornography after investigators determined he shared sexually explicit images and videos of children as young as infants via a social media app, Cook County Sheriff Thomas J. Dart announced today.

Sheriff's Police investigators assigned to the Internet Crimes Against Children Unit (ICAC) received a cyber tip from the National Center for Missing and Exploited Children about a social media account containing hundreds of pornographic images and videos of underage children.

ICAC investigators determined the account belonged to **Jonathan Koziol**, 39, of the 800 block of Leahy Circle in Des Plaines and was used to distribute between 15-20 child sexual abuse material to other individuals.

On March 14, investigators executed a search warrant for his residence where they seized his cell phone, additional electronics, and a safe containing a handgun. Koziol was convicted in 2015 of aggravated assault to a police officer while operating a vehicle and did not possess an active Firearms Owners Identification Card or Conceal Carry License.

Koziol was then taken into custody and transported to Sheriff's Police Headquarters in Maywood. After being issued his Miranda Warning, Koziol told investigators he owned the seized cell phone.

He appeared today at the Skokie Courthouse, where he was issued a \$500,000 D Bond on charges of dissemination of child pornography, a Class X felony, and unlawful use and possession of a weapon by a felon, a Class 3 felony.

The public is reminded that the defendant is presumed innocent until proven guilty by the government in a court of law.

First Grade Teacher Charged with Solicitation of Child Sexual Abuse Material

Monday, August 21, 2023

For Immediate Release

U.S. Attorney's Office, Southern District of Illinois

Lauren Barry, Public Affairs Officer

EAST ST. LOUIS, Ill. – A man who taught first grade at New Baden Elementary School and coached girls' sports teams for Wesclin Community Unit School District 3 is facing a federal charge accusing him of soliciting child sexual abuse material (CSAM).

Jonathan C. Villmer, Jr., 25, of New Baden, Illinois, was charged via criminal complaint and is scheduled for arraignment on Wednesday in U.S. District Court in the Southern District of Illinois.

"Adults who prey on children and their vulnerabilities are menaces to society," said U.S. Attorney **Rachelle Aud Crowe**. **"Individuals who work in schools and also exploit minors emulate another level of outwardly dangerous behavior."**

The case was initiated by an otherwise unrelated investigation by the Carmi Police Department regarding the distribution of CSAM. That investigation led to an account soliciting CSAM on Snapchat that law enforcement connected to Villmer.

According to court documents, after obtaining a search warrant for Villmer's Snapchat account, police discovered explicit conversations with a 13-year-old minor. Villmer asked the minor for the "sexiest images," discussed having sex and taking the minor's virginity, and requested photographs of her genitals. Sexually explicit conversations and requests for images with other purported minors were also identified within Villmer's Snapchat account.

Based upon IP address records associated with the Snapchat account, law enforcement connected the account to Villmer. On Aug. 18, 2023, law enforcement executed a search warrant on Villmer's New Baden residence and seized two cell phones and other electronic devices. Villmer was arrested on scene.

An indictment is merely a formal charge against a defendant. Under the law, a defendant is presumed to be innocent of a charge until proved guilty beyond a reasonable doubt to the satisfaction of a jury.

If convicted, Villmer could face up to 20 years' imprisonment. His first court appearance is scheduled for 10:30 a.m. on Aug. 23, 2023, at the federal courthouse in East St. Louis.

The Department of Homeland Security Investigations is conducting the investigation with support from the New Baden and Carmi Police Departments, and the Jefferson County and Clinton County Sheriffs' Departments. Assistant U.S. Attorney Ali Burns is prosecuting the case.

Anyone who believes they have information related to this case may contact Homeland Security Investigations Task Force Officer Bobby Wallace at the Jefferson County Sheriff's Office by calling 618-244-8004.

This case was brought as part of Project Safe Childhood, a nationwide initiative to combat the growing epidemic of child sexual exploitation and abuse, launched in May 2006 by the Department of Justice. Led by U.S. Attorneys' Offices and CEOS, Project Safe Childhood marshals federal, state, and local resources to better locate, apprehend and prosecute individuals who exploit children via the internet, as well as to identify and rescue victims.

'Reprehensible and disgusting': Florida high school janitor allegedly found with child pornography of victims as young as infants

COLIN KALMBACHER Feb 16th, 2023, 1:38 pm

A Florida man and high school janitor was arrested and charged with a massive number of child pornography offenses earlier this week.

Jonathan Dibble, 32, is currently charged with exactly 100 counts of possessing 10 or more child pornography images, Martin County court records reviewed by Law&Crime show. Each of the offenses qualifies as a felony of the second degree in the Sunshine State.

The Jensen Beach High School janitor was arrested on Valentine's Day when the Martin County Sheriff's Office executed a search warrant at his home in Jensen Beach, Florida, according to a press release. The sheriff's office alleged "hundreds of disturbing still and video images of children as young as infants" were found in Dibble's possession.

"They've recovered over 100 child pornographic photos that depict children from the age of infant to 12 years old," Martin County Chief Deputy John Budensiek said in comments reported by Tequesta, Florida-based ABC affiliate WPBF, which serves the West Palm Beach area. Jensen Beach is part of the Port Saint Lucie metropolitan area and is located roughly an hour north of West Palm Beach.

Detectives seized computers and multiple devices from Dibble's home and all of those devices are being investigated, the MCSO said. The sheriff's office also said they are working closely with the school district and commended officials there for taking "immediate and appropriate action" regarding the janitor.

"It's a reprehensible crime," Jennifer DeShazo, public information director for the Martin County School District, told WPBF. "And being in the business of educating and safeguarding children, it's absolutely our worst nightmare."

In a lengthier statement provided to Law&Crime, Jensen Beach High School Principal Lori Vogel sought to calm parents' nerves.

“Tragically and appallingly, Mr. Dibble was found to be in possession of child pornography,” the statement originally issued earlier this week reads.

“Detectives seized multiple devices from his home and are continuing to investigate his crimes. The Sheriff’s Office has worked diligently to keep our school and the Martin County School District informed throughout the day – at this time, detectives do not believe that the images found in Mr. Dibble’s possession are of children associated with our school or the Martin County School District.”

The sheriff’s office echoed that assessment in their press release, saying the children depicted are “not locally affiliated.”

“We’re able to go through every device that he has, which we’ve done,” Budensiek added in comments to WFPB. “So far, there’s nothing that points back to hidden cameras or anything that depicts anyone at any of our Martin County schools.”

Vogel went on to assure parents that the janitor was being held without bond and that he will be prohibited from entering any part of the high school if and when he makes bond on the charges.

“While saying that we are shocked and saddened by this reprehensible and disgusting conduct is an extreme understatement, we urge you to speak to with your child this evening about this arrest,” the principal said. “Please report any suspicious or questionable behavior related to Mr. Dibble to the Martin County Sheriff’s Office.”

According to a first appearance order obtained by Law&Crime, Dibble is being held without bond until his first appearance in court. At that point, bond will be set at \$25,000 per count – which is \$2.5 million total. Dibble is currently being detained in the Martin County Jail.

The defendant was appointed a public defender on Tuesday; the name of his attorney is not currently on the public docket.

Then detectives from the Pike County District Attorney's Office Criminal Investigation Division began to obtain subpoenas and search warrants to investigate the source of where the child pornography is being possessed and disseminated in Pike County. Then comes the final step of bringing a search warrant to the house where the person is to extract information from a variety of electronic devices, from computers to cell phones to other storage drives. Once this is complete an arrest can be made.

Tonkin noted that if the suspect has access to any minor children the children can be interviewed at Dickson House Children's Advocacy Center by trained forensic interviewers to determine if the child has been molested.

Sex offender facing child sex abuse offenses again

May 14, 2023

By Kevin Carroll

A Duryea man on parole for previous child sex abuse offenses was arrested on Friday after investigators discovered child sexual abuse material on his cell phone.

Joseph S. Dowd, 46, of Cremard Boulevard in Duryea, had the material on a phone that he had not reported to his parole officer, according to a criminal complaint filed against Dowd.

According to the complaint:

Investigators from the Luzerne County District Attorney's Office were alerted to a Cybertip received by a detective in Lackawanna County on May 9.

The tip contained an image depicting a minor female and a prepubescent female stored on a mobile phone, to which the detectives were able to access the phone records to identify the phone's owner.

The mobile number attached to the phone was subscribed to Dowd, who was previously known to detectives after they arrested him in 2016 on charges of possession and dissemination of child sexual abuse material.

The detectives learned that Dowd was out on parole, and living in Duryea. He is a lifetime registered sex offender under Megan's Law, and had a mobile phone number registered with the state police Megan's Law Unit that did not match the number that generated the CyberTip.

Dowd's parole officer confirmed that Dowd is on state parole, and that he lived with his parents in Duryea.

On Friday, investigators executed a search warrant on Dowd's home, where they encountered Dowd in the driveway.

Initially, he denied any knowledge of the phone number that generated the Cybertip, telling investigators that he only had the number registered with the state parole board.

While investigators were searching the home to try and find the mobile phone, Dowd told the authorities that he did have the second phone and handed it over to investigators.

According to the complaint, Dowd told police that he estimated there to be "20-25" images on the phone containing child sexual abuse material.

Investigators called the mobile number in question, and Dowd's phone received the call, according to investigators.

Dowd detailed the way in which he would obtain the images, and allegedly told investigators "I messed up, I can not get it out of my head and I need to admit myself to the hospital and get extensive treatment."

He was arraigned in front of Magisterial District Judge Donald L. Whittaker on Friday, and denied bail.

A preliminary hearing is scheduled for May 23 in Luzerne County Central Court.

Yukon man faces life, \$30k in fines in child porn case

By Yukon Progress May 25, 2023

By Conrad Dudderar Staff Writer

EL RENO – A Yukon man faces life in prison and fines totaling \$30,000 for allegedly having a large quantity of child pornography images on several electronic devices.

Joseph Anthony Elmenhorst, 39, was charged April 28 in Canadian County District Court with three counts of aggravated possession of child pornography.

Assistant District Attorney Rebecca Boyer alleges Elmenhorst had in his possession “100 or more separate materials, representations or depictions in any form or medium” of child pornography on each of three devices – an Apple iPhone, computer hard drive and thumb drive.

The obscene material is described as “minor(s) portrayed, depicted or represented as engaging” in sexual activity, according to the charging document.

Each felony count is punishable by not more than life in prison and a maximum \$10,000 fine.

Elmenhorst was booked at 5:21 p.m. April 21 into the Canadian County Jail after his arrest in an undercover investigation by the Canadian County Sheriff’s Office.

Investigators had served a search warrant that morning at Elmenhorst’s home on Kingsgate Road in Yukon.

The defendant provided Sgt. Brian Dawson with passcodes to his cell phone and desktop computer, according to a probable cause affidavit.

“When asked specifically about inappropriate images of children, Elmenhorst stated ‘you’re going to find them anyway’ and that they would be on both his desktop PC and cell phone,” Dawson wrote in his affidavit.

“Well over 100 images of child pornography” were found inside a “hidden” folder in the photos section of the Elmenhorst’s iPhone, the court document indicates.

Sheriff's investigators allegedly located illegal marijuana, methamphetamine and drug paraphernalia during a search of Elmenhorst's room at the house.

A preliminary hearing conference is set May 17 before Canadian County Special Judge David H. Halley.

Detectives interviewed Jones at this residence located at 4284 Everette Ave, where he admitted to using his Discord account, under username "fartqueen#8259" and his email, "buttcheeksprincess@gmail.com" to search for pornography. Jones admitted to downloading 14 files that contained video and images of children engaging in sexual conduct, but says he wasn't initially searching for child porn; instead, Jones claims he is into "Scat Genre," which relates to someone who is aroused by fecal matter.

Most of the videos discovered by detectives contained toddlers as young as 1-year-old being vaginally penetrated by an adult male. Others show an adult male masturbating on toddler aged children. Additional videos were discovered that showed young children masturbating in what appears to be self-produced video with a cellphone.

Jones was arrested and booked into the Hernando County Jail on a \$70,000 bond, which he was able to post on November 14th. Two days later, on November 16th, Jones was arrested again after detectives discovered over a hundred new images which was related to the original case.

During a first appearance hearing on November 17th, Judge Barbera-Joe Bell increased his bond to \$1 million dollars and will require him to wear a GPS device if released. Jones asked Judge Bell if he could get a bond reduction, but she declined.

On the same day, November 16th, 22-year-old Bishop Alexander Begeny was confronted by detectives while working as a server at Bonefish Grill. During an interview, investigators explained that they received tips from NCMEC regarding child pornography that was downloaded using his Snapchat, Twitter, and

Telegram accounts. Begeny admitted that he downloaded numerous files through Telegram chatrooms, where he discovered children from "childbirth to eighteen" engaged in sexual activity.

Begeny says when he tried to send one of the images to a friend, Snapchat deleted his account.

Begeny was taken into custody and charged with Possession of Child Pornography and Sexual Performance by a Child. Jones remains behind bars, held on a \$20,000 bond.

CoCollege Student Charged with Dissemination/Possession of Child Pornography

March 16, 2023

DuPage County State's Attorney Robert Berlin and Lisle Chief of Police Kevin Licko announced today that a student at Benedictine University has been charged with possession and dissemination of child pornography. On March 15, 2023, DuPage County Circuit Court Judge Joshua Dieden issued a \$100,000 with 10% to apply arrest warrant for **Joseph Wilke**, 20 (d.o.b. 5/13/2002) of the 5600 block of College Road, Lisle. Later that day, Wilke turned himself in to authorities, posted the necessary 10%, or \$10,000, and was released from custody. He is charged with four counts of Dissemination of Child Pornography (Class X Felony) and four counts of Possession of Child Pornography (Class 2 Felony).

Through the course of their continuing efforts into child pornography, investigators from the Lisle Police Department received information regarding an IP address possibly engaging in child pornography. Based upon this information and through the course of their investigation, it is alleged that in October 2022, Wilke was in possession of and disseminated videos depicting child pornography.

"As I have said many times in the past, child pornography is not a victimless crime," Berlin said. "Every time one of these images is downloaded or shared on the Internet, child pornography claims another young, innocent victim. To protect these most vulnerable, my office stands ready to vigorously prosecute any allegations of child pornography. I would like to stress that these charges are in no way connected to Benedictine University. Authorities at the University have been extremely cooperative throughout this entire case and for that I thank them. I commend the Lisle Police Department for their efforts not only on this case, but for their ongoing commitment to protecting our children from those who would possess these vile images, as alleged in this case. I also thank Assistant State's Attorney Michael Pingaj for his work in securing these charges against Mr. Wilke."

"The Lisle Police Department will relentlessly pursue anyone engaged in creating, possessing, or distributing child pornography, especially in an educational setting," said Police Chief Kevin Licko. "I want to acknowledge our detectives for doing a great job in piecing this investigation together and thank

DuPage County State's Attorney Bob Berlin's Office for their support of this investigation to hold Mr. Wilke accountable."

Members of the public are reminded that this complaint contains only charges and is not proof of the defendant's guilt. A defendant is presumed innocent and is entitled to a fair trial in which it is the government's burden to prove his or her guilt beyond a reasonable doubt.

Former Fulton High School Coach Arrested on Federal Charges for Receiving, Transporting, and Possessing Child Pornography

Tuesday, May 2, 2023

For Immediate Release

U.S. Attorney's Office, Northern District of New York

SYRACUSE, NEW YORK – **Joshua Demars**, age 37, of Fulton, New York, was arrested today on a federal complaint charging him with receiving, transporting, and possessing child pornography.

The announcement was made by United States Attorney Carla B. Freedman and Matthew Scarpino, Special Agent in Charge of the Buffalo Field Office of Homeland Security Investigations.

The complaint alleges that, on March 19, 2023, the New York State Police ("NYSP") and Homeland Security Investigations ("HSI") executed a search warrant at Demars' residence in Fulton, New York. The search warrant was obtained, in part, because a CyberTipline Report from the National Center for Missing and Exploited Children ("NCMEC") indicated that Demars had uploaded child pornography to Dropbox. At the time of the search warrant execution, Demars worked as a teaching assistant and coach in the Fulton City School District.

As outlined in the criminal complaint, during the search of Demars' residence, law enforcement located several electronic devices that contained hundreds of images and videos depicting child pornography. On those devices, law enforcement found evidence that Demars had indeed transported a video of a 5-7 year old female being sexually abused by an adult male to his Dropbox account, and dozens of recordings of Demars receiving live videos of children who were engaging in sexually explicit conduct. The charges in the complaint are merely accusations. The defendant is presumed innocent unless and until proven guilty.

Demars appeared before United States Magistrate Judge Andrew T. Baxter today and was ordered detained pending a detention hearing scheduled for May 5, 2023. If convicted, Demars faces at least 5 years and up to 20 years in prison, a term of supervised release of up to life, and a fine of up to \$250,000, and will be required to register as a sex offender after his release from prison. A

defendant's sentence is imposed by a judge based on the particular statute the defendant is charged with violating, the U.S. Sentencing Guidelines, and other factors.

HSI and NYSP are investigating the case, and it is being prosecuted by Assistant U.S. Attorneys Paul Tuck and Jessica Carbone as part of Project Safe Childhood. Launched in May 2006 by the Department of Justice, Project Safe Childhood is led by United States Attorney's Offices and the Criminal Division's Child Exploitation and Obscenity Section (CEOS). Project Safe Childhood marshals federal, state and local resources to better locate, apprehend and prosecute individuals who exploit children via the Internet, as well as to identify and rescue victims. MAN ARRESTED FOR MULTIPLE SEX CRIMES

10/30/2023

On Thursday, October 26, 2023, Investigators with the Canadian County Sheriff's Office arrested **Joshua Paul Wayne Mackey**, 46 of Mustang, on multiple charges, including Aggravated Possession of Child Pornography. Investigators received a Cyber-Tip from the National Center for Missing and Exploited Children (NCMEC) and Oklahoma State Bureau of Investigation regarding a residence in Mustang distributing child pornography over social media. A court order for the suspect's IP address revealed the residence belonging to Mackey.

Investigators applied for and obtained a search warrant for Mackey's residence to locate the child sexual abuse material (CSAM) that was reported by NCMEC. During the execution of the search warrant multiple electronic devices were located and examined on scene. A flash drive belonging to Mackey was examined and found to have over 450 media files of CSAM. The media examined possessed files with minor children approximately 5 to 14 years of age engaging in sexual acts with other children, adults, and of children posing nude.

A forensic examination was conducted at the scene, and investigators determined Mackey had attempted to erase and clean up the devices that he used to download CSAM. Investigators believed Mackey did this when the social media site terminated his account for violating "terms of use." However, it is common for predators to save the CSAM to other locations because of their addiction to CSAM. A thumb drive was discovered in Mackey's bedroom possessing what is believed to be the files and downloads he had deleted and cleared from his computer.

The investigation also determined Mackey tried to deploy various countermeasures to prevent detection. The steps Mackey used to avoid detection included secure folders with separate passwords, virtual private networks to mask his IP address, and resetting devices to remove data. Investigators were able to recover evidence from the devices that included an email address Mackey used to register with the social media site to download CSAM and various CSAM media files.

"I'm extremely thankful for the work of the National Center for Missing and Exploited Children and the work they do in providing law enforcement with cyber-tips. In this case, we were able to use their information and make Mackey's arrest," said Chris West, Canadian County Sheriff.

Mackey was taken into custody at his residence for Aggravated Possession of Child Pornography and he was transported to the Canadian County Detention Center. Since Mackey's arrest, investigators have determined two other devices belonging to Macky contain CSAM. Additional charges, including an additional count of Aggravated Possession of Child Pornography and Possession of Child Pornography, will be presented to the Canadian County District Attorney's Office. Mackey remains in custody with a bond of two hundred thousand dollars.

U of I police arrest man through Google tip

by Marlena Lang Sat, March 25th, 2023, 12:08 AM EDT

CHAMPAIGN, Ill. (WCCU) — University of Illinois (U of I) police arrested a man in Champaign who is accused of possessing child porn.

Juntian Tong, 32, was arrested on Thursday.

Officers say they received a tip back in January that Tong had explicit videos of children stored in a cloud account. Investigators said they found over 50 videos on the account.

The tip that Tong had explicit videos of children came from Google, which prompted the U of I police investigation.

According to University police, Google alerted the National Center for Missing and Exploited Children that they detected two videos that were being stored on a cloud account with digital signatures that matched known child sexual assault material. The information was then passed down to law enforcement through the Internet Crimes Against Children (ICAC) task force, which has branches in most U.S. states.

Two U of I detectives are a part of the task force who investigated the digital evidence and received a search warrant for Tong's online accounts. U of I police say, unfortunately, these crimes are common across the country, but they are appreciative of Big Tech companies' help.

"But it's good that you know the Big Tech companies like Google, a lot of social media companies also do the same thing, where they will detect this sort of material when it comes across their servers and let law enforcement know, and that's really what we want them to be doing," said Patrick Wade, senior director of strategic communications for U of I police.

The U of I police say they have a few cases like this per year due to the partnership with ICAC, including a case involving the social media app Snapchat a few months ago.

The Free Press Brian Arola Jun 8, 2023

LE CENTER — An investigation by an internet crimes unit reportedly traced child pornography to a Montgomery man in April, leading to a felony charge against him this month.

CAPE GIRARDEAU – United States District Judge Rodney W. Sippel sentenced **Justin A. Williams** to 270 months in prison today. The 29-year-old Cape Girardeau resident pleaded guilty, in December, to one count of receiving child pornography.

PHOENIX - Court documents show a Buckeye man who works as a teacher at a charter school was arrested for alleged sexual exploitation of minors.

According to the documents, 65-year-old **Keith Armstrong** was arrested at his home on May 25, following an investigation.

The investigation, according to court documents, began in October 2022, when Buckeye Police started to review multiple tips from the National Center for Missing and Exploited Children.

The tips, according to investigators, "contain 58 image files (total) that were flagged as apparent child pornography." Court documents also provided graphic details on the image's content.

Armstrong, court documents state, was eventually identified by investigators, and a search warrant was served on his home on May 25. While officials were executing the search warrant, investigators state a hard drive was found inside the home, and the drive contained 10 to 25 child pornography images.

Investigators said Armstrong, during an interview that took place after he was read his *Miranda* rights, disclosed that he began to look into pornographic material after battling COVID-19.

"During the interview, the defendant also advised he was a music teacher at a local traditional school," read a portion of the documents.

The Maricopa County Attorney's Office, according to court documents, originally requested a bond of \$100,000 be set for Armstrong. A judge, however, opted to set a bond of \$200,000 instead. Should Armstrong make bail, he will be required to undergo electronic monitoring, and will also be barred from, among other things, having contact with any minors, under any circumstances, and will not be allowed to access the internet except for work.

Suspect chose to molest 5-year-old with autism because child is non-verbal, officials say

Kelvin Alexander Dias, 23, was arrested and faces five felony charges. Prosecutors said Dias chose the victim because the child was non-verbal.

HOUSTON — A suspect was charged with five felonies for sexually assaulting a child, according to Harris County officials.

Kelvin Alexander Dias, 23, was arrested Wednesday and charged with super aggravated sexual assault of a child under the age of 6, two counts of sexual performance of a child under the age of 14, and two cases of possession with intent to promote child pornography, officials said.

"The consequences are 25 to life minimum, no parole," Assistant District Attorney Luke Baty said.

Dias identifies as she/her, according to a response in probable cause court. Dias is accused of molesting a 5-year-old child with autism who was a family friend, according to Baty. Authorities said Dias chose to abuse the child because the child is non-verbal and couldn't report the assault.

Harris County officials said Dias was caught after posting child porn to Twitter.

"The National Center for Missing and Exploited Children learned that there was child pornography flowing through his Twitter account. Two other users informed HPD and flagged that content," Baty said.

Dias wasn't concerned while being taken into custody and told arresting officers about plans to leave the country, according to officials. Dias was paid for some of the crimes, officials said.

In probable cause court, a judge said Dias isn't a United States citizen and has been in Houston for four years. Dias has worked as a housekeeper for two years, making about \$800 a month, the judge said. Dias has no prior convictions, according to authorities.

According to investigators, after being arrested, Dias mentioned another victim but refused to identify the child.

Dias was due back in court on Friday.

A probable cause judge set Dias' total bond at more than \$1 million: \$500,000 for the super aggravated sexual assault charge, \$250,000 for each of the sexual performance of a child charges, and \$100,000 for each of the child pornography charges. There is also a long list of bond conditions Dias must follow if it's posted.

Investigators think there might be more victims and urge parents of children who may have been in contact with Dias to come forward and call the Houston Police Department at 713-830-0583.

FOX 5 Atlanta

COWETA COUNTY, Ga. - A Coweta County man is facing additional charges after deputies say they continue to find sexual images of children on electronic devices they seized from his home back in March.

FOX 5 News learned this week of the additional charges against 53-year-old **Kendall Aaron Fisher**.

On May, an investigator with the Coweta County Internet Crimes Against Children Unit arrested Fisher for one count of possession of child pornography.

The sheriff's office says the investigation actually began back in March with a tip from the National Center for Missing and Exploited Children.

"Our investigator in the Crime Suppression unit followed that tip and was able to locate a residence in Coweta County and was able to confirm that there was child sexual abuse material on electronics inside residence and that's when went in and arrested the male offender," said Sgt. Toby Nix of the Coweta County Sheriff's Office.

Deputies seized multiple electronic devices from Fisher's home. Since then, the sheriff's office says it has been conducting a forensic analysis of all of the devices and has found additional images of children. They say they have charged Fisher with four more counts of possession of child sexual abuse material.

Deputies say the 53-year-old works as an engineer at a Coweta County manufacturing plant.

Deputies say Fisher has been released from the Coweta County Jail on bond.

They say they will continue to dig deeper into Fisher's electronic devices and say more charges are possible in this investigation.

Ocala man found with huge cache of child porn, more victims possible, deputies say

Kenneth Sarsony, 35, faces 20 counts of possessing child pornography.

MARION COUNTY, Fla. – An Ocala man was arrested on Thursday after detectives found over 1,000 videos of child pornography in his possession, according to the Marion County Sheriff's Office.

Detectives said they received tips from the National Center for Missing and Exploited Children that someone had uploaded files of child pornography to several social media platforms.

Upon investigation, a detective was able to confirm that Kenneth Sarsony, 35, was the man identified in the NCMEC tips, prompting a search of Sarsony's home in Ocala.

According to a news release, Sarsony was interviewed during the search, though he initially denied knowing what child pornography was and ever viewing it.

However, he admitted during the conversation that he was "obsessed with little girls," deputies added.

The release shows that Sarsony also told investigators he had always "wanted to touch a child," explaining he used several fake social media accounts to acquire child pornography and that he had amassed a collection on his electronic devices.

Investigators said over 1,000 videos of child pornography were found on three of his devices.

Sarsony was taken into custody and faces 20 counts of possessing child pornography. He is held on bond of \$40,000.

Due to his comments, detectives believe that he may have personally victimized a child. If you or someone you know was victimized by Sarsony, you are urged to contact detectives at 352-368-3586.

Sarsony has a previous criminal record. In 2011, Sarsony was arrested for defecating outside of Fort King Middle School after school officials found feces at the entrance of classrooms at least five times. He was later found guilty on charges of trespassing.

BSO: National Guardsman arrested after report he livestreamed himself sexually abusing girl

POMPANO BEACH, Fla. – Broward County deputies arrested a soldier in the U.S. Army National Guard Wednesday following an investigation they say stemmed from a report that he livestreamed himself sexually abusing a girl.

According to the report, the livestreamed abuse appears to have taken place on a military base out-of-state. A Broward Sheriff's Office arrest report doesn't specify the age of the alleged victim.

Authorities said video chat app Bam Bam tipped off the South Florida Internet Crimes Against Children Task Force to the livestream on Oct. 17, leading investigators to **Ketric Freeman**.

In the arrest report, detectives said they discovered child sexual abuse material on Freeman's electronic devices after they served a search warrant at his Pompano Beach home Wednesday.

A BSO detective wrote that the 27-year-old had "dozens" of files on his iPhone largely depicting young girls, some of whom were as young as 5, being raped or otherwise sexually abused.

The report states that Freeman told detectives that he was on active duty and stationed at Fort Carson, Colorado during the time of the alleged livestream.

Deputies arrested him on 11 child pornography charges in connection with the files they said they found on his phone.

According to BSO, a federal investigation remained ongoing as of Wednesday, but detectives expect that Freeman will face additional charges.

Freeman was being held in the BSO Main Jail on a \$110,000 bond, according to jail records.

Man charged with criminal sexual assault, child pornography in Romeoville

Suspect's bond set at \$3 million

By Felix Sarver

February 03, 2023 at 5:05 pm CST

A man has been charged with criminal sexual assault of a minor and possession of child pornography in Romeoville.

The charges were filed Tuesday against **Kevan Gibbs**, 33, after an investigation by Romeoville Police Department following contact from a police department in Florida, according to a statement from Romeoville Deputy Police Chief Brant Hromadka.

Gibbs, who has addresses listed in Romeoville and Wilmington, was booked into the Will County jail after his arrest Jan. 27. He faces charges of criminal sexual assault, aggravated criminal sexual abuse and possession of child pornography.

Judge John Anderson set Gibbs' bond at \$3 million after finding a reasonable basis for his warrantless arrest, court records show.

Tallahassee, Florida, police advised that Gibbs was residing at a Romeoville hotel with several family members, Hromadka said.

A teen juvenile was residing in the same room, and Tallahassee police had information that Gibbs allegedly sexually abused the minor and was producing child pornography, Hromadka said.

Romeoville police followed up on this information and obtained a search warrant for the hotel room, he said.

About 1:45 a.m. Jan. 27, officers executed a search warrant at Gibbs' hotel room, Hromadka said. Gibbs was taken into custody, he said.

Four minor children were in the hotel room. They later were taken into protective custody by the Illinois Department of Children and Family Services, Hromadka said.

“The combined efforts of the Romeoville and Tallahassee police departments resulted in the arrest of Gibbs and enabled these juveniles to be removed from a dangerous and abusive household,” Hromadka said.

A criminal complaint filed in court alleged that Gibbs sexually assault and abused a female minor. Gibbs also was charged in the criminal complaint with possessing digital video depicting child pornography.

MABANK, Texas (KLTV) - A Mabank high school student has been accused of uploading hundreds of child porn videos to an online file sharing service.

Kevin Cruz, 17, was arrested on Wednesday and has been charged with 10 counts of possessing child pornography.

An officer with the Henderson County Sheriff's Office Crimes Against Children Task Force began investigating Cruz on Sept. 21 after a Cyber Tip was generated by the National Center for Missing and Exploited Children. According to an affidavit, Dropbox flagged a user for uploading two videos of child pornography and notified the national center. Once given the report, the Henderson County officer traced the IP address for the account to a residence in Mabank.

On Nov. 7, the affidavit says, the officer obtained a search warrant for the home, and two investigators interviewed Cruz during this search. Cruz allegedly confessed to looking at child porn and owning the account where the video files were stored, including an additional account on a file sharing service.

Investigators found 734 more porn videos in the file sharing account, according to the affidavit.

An officer spoke with Cruz at Mabank High School on Nov. 14, the affidavit says, where he admitted to having between 200-300 videos of victims between the ages of 5 and 10. Cruz said he downloaded these videos from social media and re-uploaded them to his account, the affidavit states.

Cruz was booked into the Henderson County Jail on Nov. 15 with bond set at \$1,000,000.

Cary Man Accused of Making Threats to Children Now Faces Federal Charges

Thursday, November 2, 2023

For Immediate Release

U.S. Attorney's Office, Eastern District of North Carolina

RALEIGH, N.C. – U.S. Attorney Michael Easley announced the filing of a criminal complaint against **Kevin Edral Douglas**, 46, alleging that he made threats to shoot or injure children. Douglas was originally arrested on Wednesday by the Cary Police Department and was rearrested on Thursday morning. He remains in custody at this time.

"The swift action by the Cary Police Department to mitigate this threat helped to keep the community safe," said U.S. Attorney Michael Easley. "We are proud to partner with Chief Terry Sult and FBI's Joint Terrorism Task Force to prioritize the investigation and prosecution of threats of violence before action is taken."

"The safety and well-being of the public are our utmost priority, and we are committed to taking all necessary actions in coordination with all our public safety partners on the local, State, and Federal level to ensure their protection. We also want to extend our gratitude to the National Center for Missing and Exploited Children for their vigilance and quick reporting of this threat, which undoubtedly played a crucial role in resolving this situation before anyone was hurt," said Cary Police Chief Terry Sult.

"The FBI has a strong partnership with the Cary Police Department. Special agents and task force officers work alongside one another every day. The swift action in this case is proof of exactly how important our joint mission is to the safety of our community," said Robert M. DeWitt, the Special Agent in Charge of the FBI in North Carolina.

According to an affidavit filed with the complaint, the National Center for Missing and Exploited Children (NCMEC) received a series of threatening communications via a cybertip reporting service on NCMEC's public website. The communications that were reported included references to killing children. An investigation into the cybertips led law enforcement to believe that the threats were being made by Douglas, who was residing at the Extended Stay America Motel on Weston Parkway in Cary.

Douglas has a 2016 federal conviction for communicating interstate threats to the British Embassy in Washington, D.C., and an extensive history of threatening behavior beginning around 2002 and spanning at least eight states.

The complaint charges Douglas with knowingly and willfully transmitting in interstate and foreign commerce from North Carolina to Virginia, communications to NCMEC via the cybertip reporting service, and the communications contained a threat to kidnap and injure children.

Fick indicted on federal child porn charges

January 4, 2023

RICH FOUNTAIN — **Kevin A. Fick**, 44, of Rich Fountain, was indicted on Dec. 13, 2022, on two federal charges — receipt of child pornography and possession of child pornography.

At his initial appearance on Dec. 19 before Magistrate Judge Willie J. Epps, Jr., Fick pleaded not guilty after charges and range of punishment were summarized for the defendant. Court-appointed Public Defender Troy Stabenow represents Fick.

The court has sealed the details of Fick's case.

He was taken into custody on Dec. 13 by Osage County deputies, who worked in conjunction with the Franklin County Cyber Crimes Unit.

"I appreciate the hard work our detectives did that was necessary to file these charges," said Sheriff Mike Bonham. "Working to keep our children safe is the most important thing we do."

Osage County has been part of the Franklin County cyber crime task force for few years.

Judge Epps confirmed the United States' obligation to disclose to the defendant all exculpatory evidence — that is, evidence that favors the defendant or casts doubt on the United States' case — as required by *Brady v. Maryland* and its progeny and orders the United States to do so. Failure to disclose exculpatory evidence in a timely manner may result in consequences, including the exclusion of evidence, adverse jury instructions, dismissal of charges, contempt proceedings, disciplinary action, or sanctions by the court.

The court denied the government's motion to detain Fick, and released him on special conditions that were not made public.

Fick's case was formally set for trial on Feb. 13, but upon agreement and consent by the parties, the court granted his motion to continue this matter to May 1.

Waukesha sex offender caught with child porn, 300K images: complaint

By Christina Van Zelst and FOX6 News Digital Team Published March 1, 2023 Updated 10:14PM Crime and Public Safety FOX6 News Milwaukee

WAUKESHA, Wis. - **Kevin Peeples**, 47, a convicted sex offender released in Waukesha in December 2020, faces 15 counts of possession of child pornography after prosecutors say more than 300,000 images were found on his electronic devices.

According to a criminal complaint, four tips came in in December 2022 to the National Center for Missing/Exploited Children from Microsoft Online Operations/BingImage. The IP address was provided, and an investigation revealed that IP address was registered to Peeples on West Sunset Drive in Waukesha.

A search warrant was executed at Peeples' home on Feb. 23.

Prosecutors say police found child porn on his computer and on a hard drive and tablet found in a safe in his bedroom. The safe also contained "a pouch containing several adult porn magazines."

In all, the complaint says police found more than 124,000 child porn images on the tablet, over 3,000 images on the computer and around 220,000 images on the hard drive.

"Anytime there's behavior that's linked to a thought like that, it's very dangerous to society because if they do it once, it's going to happen again," said Waukesha Police Lt. Jerry Habanek.

Peeples was previously arrested in August 2013, charged with 10 counts of possession of child porn for "organizing and categorizing" hundreds of thousands of child pornography images on his computer. He was convicted of two counts and sentenced to four years in prison.

The complaint notes that Peeples was sent to prison in that case in July 2014 and released in August 2017. His probation was revoked in 2018, and in August 2018, he was sent back to prison. He was released to live on Sunset Drive in Waukesha in December 2020. In July 2022, he finished his probation.

Now, he's in trouble again.

Lt. Jerry Habanek said cases like this weigh on his team.

"They're not normal things that people read, and they're not right," said Habanek.

He said it's thanks to investments in the department's "Computer Forensics Unit" that they're able to crack the cases.

"Once we recover the devices, the hard drives, whatever medium that they're saving these images on, they're very good at extracting them and saving them for court," said Habanek.

Peeples made his initial appearance in court Tuesday, Feb. 28. Cash bond was set at \$350,000.

A state grand jury has returned a 12-count indictment against a then Montclair State University student that accuses him of multiple crimes involving child pornography.

Keyon Luff, 21, of Edgewater Park faces manufacturing child sexual exploitation/abuse material, possessing such material, photographing or filming a child in a prohibited sexual/simulation of an act, impairing or debauching the morals of a child, sexual assault and impersonation, the New Jersey Attorney General's Office announced.

Authorities arrested Luff in his Montclair dormitory room in May of this year while searching it with a warrant and confiscated several electronic devices.

The indictments allege Luff posed as a woman online and engaged children in sexually explicit conversations that led to them recording sexual videos and sending them to Luff, who then uploaded them to a "popular" social media app. Luff used an computer IP (internet protocol) address associated with the college.

Specifically, Luff obtained such videos from three children, ages 14 to 16, between January and July 2021, the indictments allege.

Luff remains jailed in Essex County, records show. His lawyer, Dorion Morgan, declined comment Monday.

New Jersey authorities were tipped to Luff's alleged activities online by the National Center for Missing and Exploited Children, a private nonprofit that investigates child sexual exploitation and abuse.

On May 8 of this year - five days after Luff's arrest - authorities arrested another Montclair student in his campus dorm room on similar allegations.

Sean Lynch, 21, of Summit is charged with one count of distributing child pornography.

He is accused of distributing 72 videos that show child sex abuse via an instant messaging mobile app between Nov. 9, 2022, and Nov. 14, 2022. Lynch also allegedly used a university IP address, to access the app, authorities have said.

The U.S. Secret Service investigated Lynch and the case against him is pending in federal court in New Jersey, court records show.

Enterprise woman arrested on child porn charges

By Bill Bradshaw Wallowa County Chieftain May 3, 2023 Updated Jul 5, 2023

ENTERPRISE — An Enterprise woman was charged Saturday, April 29, with 10 counts of encouraging child sexual abuse in the first degree and taken to the Umatilla County Jail in Pendleton where she is being held on a bond of \$100,000.

Kindra Dawn Peterson, 37, is accused of either duplicating or disseminating electronic images of child pornography, according to Rebecca Frolander, Wallowa County district attorney. Frolander could not be more specific because the charges were determined before a grand jury.

"This started as a tip that came through (Oregon's) Internet Crimes Against Children unit," she said.

That state agency gets tips from National Center for Missing and Exploited Children, she said.

The grand jury indictment handed down April 25 in Wallowa County Circuit Court will be prosecuted by Elijah Michalowski, a senior assistant attorney general and special deputy district attorney for Wallowa County.

Frolander said she was asked if she wanted to prosecute the case or if she would prefer that Michalowski do it and she turned it over to Michalowski.

Peterson's next appearance will be a plea hearing scheduled for 1:05 p.m. Wednesday, May 24 in Wallowa County Circuit Court. Frolander said that schedule could change.

Frolander said the maximum penalty for Class B felonies is 10 years in prison each, though it is unlikely Peterson will be sentenced to 10 years for each felony. It is likely, Frolander said, that Peterson will be required to report as a sex offender upon release.

Hanover man faces charges related to possession of child pornography

The Wright County Sheriff's Office says that a software program allowed them to flag over 100 images of child pornography.

By Abdualla Gaafarekhalifa July 18, 2023

BUFFALO — A Hanover, Minnesota, man is facing charges related to child pornography.

Larry Dale Johnson, 68, faces 10 felony counts of child pornography possession, according to a Wright County criminal complaint.

In March 2023, the National Center for Missing and Exploited Children sent a cyber tip to the Minnesota Bureau of Criminal Apprehension regarding an image containing sexually explicit conduct involving an infant. The tip indicated the image was uploaded to the search tool for Microsoft Bing from an IP address tied to Comcast and issued to Johnson, according to the criminal complaint.

Later in June, Johnson's electronic devices were seized by the Wright County Sheriff's Office after a search warrant was issued. A software program allowed the sheriff's office to flag over 100 images of child pornography, according to the criminal complaint. An analysis also revealed an internet search history including searches for similar pornographic content.

On Thursday, June 29, a detective for the Wright County Sheriff's Office tried to speak to Johnson, who invoked his right to an attorney. According to the complaint, Johnson said "he was a good guy who just did something stupid, and that it was a stupid mistake."

A warrant was issued against Johnson on Friday, July 14, and it was cleared on Sunday, July 16.

Johnson's next court date is on Monday, Aug. 21.

Weston man indicted for alleged rape

Staff Reports February 6, 2023

Two men from Wood County and one from Lucas County have been indicted for sexual-related offenses.

A Wood County grand jury on Wednesday indicted Daniel P. Stump, 42, Weston, for four counts of rape, all first-degree felonies.

All four incidents allegedly occurred Sept. 12, against the same person.

Court paperwork outlines that Stump knew the alleged victim's ability to resist or consent was substantially impaired because of mental or physical condition or because of advanced age.

The grand jury indicted **Lawrence M. Nusbaum**, 50, Perrysburg, for illegal use of a minor or impaired person in nudity-oriented material or performance, a felony of the fifth degree.

On June 16, he allegedly possessed or viewed material that showed a minor who was not his child in a state of nudity.

The grand jury also indicted William Ocasia Torres, 41, Holland, for importuning and disseminating matter harmful to juveniles, both fifth-degree felonies; and attempted unlawful sexual conduct with a minor, a fourth-degree felony.

On Dec. 16, while chatting online with an undercover officer posing as a 15-year-old girl, Torres allegedly attempted to obtain nude images. He allegedly gave instructions to the officer posing as a girl on what part of the body to take a picture of, where to do it, and how to silence her phone so she would not get caught.

He also allegedly solicited the officer to engage in sex and help her "explore her sexual fantasies."

On Dec. 30, he allegedly continued to push for more naked pictures while sending to the officer two pictures of himself in a state of nudity. He also allegedly tried to set up a meeting.

An indictment is only a charge and is not evidence of guilt.

by FOX56 NEWSROOM Thu, June 15th, 2023, 1:25 PM EDT

PIKE COUNTY, Pa. (WOLF) — A partnership between The Pike County District Attorney's Office and the Internet Crimes Against Children Task Force takes four individuals offline in child pornography arrests.

Four men have been charged with sexual abuse of children, which is the official crime defining child pornography offenses in Pennsylvania:

- **Logan Kelly**, age 18, of Shohola has been charged with one count of sexual abuse of children-possession of child pornography; a felony of the 2nd degree.
- Joseph P. Casella, Age 72, of Hawley has been charged with one count-sexual abuse of children-dissemination- photo/video of child sex acts; a felony of the second degree, twenty-nine counts-sexual abuse of children-possession of child pornography, and one count criminal use of communication facility; a felony of the third.

- Joseph Coletto, age 78, of Greentown one count-sexual abuse of children-dissemination- photo/video of child sex acts, one count-sexual abuse of children-possession of child pornography, and one count-criminal use of communication facility.

Each investigation began with a cybertip from the National Center for Missing and Exploited Children to the Internet Crimes Against Children task force that a person had been interacting with apparent child sexual abuse material online. From there, the tip is provided to the local partner, the Pike County District Attorney's Office. Then detectives from the Pike County District Attorney's Office Criminal Investigation Division began to obtain subpoenas and search warrants to investigate the source of where the child pornography is being possessed and disseminated in Pike County.

Then comes the final step of bringing a search warrant to the house where the person is to extract information from a variety of electronic devices, from computers to cell phones to other storage drives. Once this is complete an arrest can be made.

Tonkin noted that if the suspect has access to any minor children the children can be interviewed at Dickson House Children's Advocacy Center by trained forensic interviewers to determine if the child has been molested.

In a statement, Tonkin remarked:

"The partnership with the ICAC Task Force and the National Center for Missing and Exploited Children has been a real plus in Pike County to ferret out sexual predators online that exploit children."

Tonkin also thanked the Pennsylvania State Police Computer Crime Unit and the Blooming Grove Barracks, the Pike County Sheriff, the Delaware Valley School Police and the Wayne County District Attorney's Office for their assistance in these investigations.

An Austin couple has made their first appearance in Mower County District Court to face numerous charges of child pornography and drugs. **Jose Luis Rodriguez**, 27, of Austin, has been charged with 19 felonies, 17 of which range from dissemination of child pornography to possession of pornographic work that includes minors under 13. Meanwhile, Anna Victoria Gravina, 33, of Austin, has been charged with a total of nine felonies, eight of which are also for dissemination of child pornography and possession.

Both were also charged with felony storing meth paraphernalia in the presence of a child and Rodriguez was charged with a single felony count of fifth degree drug possession. They are currently being held in Mower County Jail with Rodriguez being held on \$250,000 bail, no conditions and Gravina being held on \$150,000 bail, no conditions. According to the court complaint, on March 1, 2022, an Austin Police Department detective received 19 Internet Crimes Against Children Task Force tips from the National Center for Missing and Exploited Children (NCMEC).

The tips indicated that Google had reported a user had uploaded 3,284 files including suspected child sexual abuse to a Google Drive and Photos account beginning in May of 2020. The Minnesota Bureau of Criminal Apprehension (BCA) issued subpoenas to Google, Sprint, AT&T and Charter for information associated with the uploads, which was allegedly Jose Rodriguez. Files discovered from the various accounts requested that were related to Rodriguez showed several images of child sexual abuse including data allegedly related to an email account of Rodriguez that included six videos and 699 images.

On Dec. 5, the detective secured a search warrant for data related to an email account belonging to Gravina. Several photos were discovered with Rodriguez, but none of them were sexual in nature. However, several files were also discovered from the account included files depicting child sexual abuse. A search of Gravina's Facebook account discovered a message thread with Rodriguez on April 27, 2022, where the two were having a conversation about their relationship. According to the complaint, Gravina said during the conversation "I know now it's a sort of excuse." Later that day Gravina allegedly

sent approximately 45 files including both video and images, many of them featuring illicit files of children. On April 18 of this year, law enforcement conducted a search warrant for a residence located in the 1100 block of Oakland Avenue West in Austin where Rodriguez and Gravina were arrested. Gravina initially denied knowing about the material, but admitted that an old email, one that the detective had searched, had allegedly been hacked and that, "they took stuff through Facebook" and accessed the "dark web." She then allegedly stated that in August of 2022, she gave out her personal information on Facebook and granted access to her account to someone referred to only as "them," in the court complaint followed by her saying that "they" erased her email account and kicked her out of her Facebook account.

She allegedly told the detective that she told Facebook and Google about the hacking, but never got access back. After supposedly getting access to her Google account she said that she found pictures depicting child pornography. However, according to the complaint, Gravina repeatedly changed her story and when asked by the detective if she shared any of the material on her phone, she replied, "I'm not sure, because all my, see all my stuff was still inked into my things." When asked about Rodriguez, Gravina stated that she believed that someone allegedly sent pictures from her Facebook account to Rodriguez's account. Gravina allegedly stated that she and Rodriguez got into a fight about the material and that Rodriguez denied sending the material and that he told her that it was not his fault that her account got hacked. At the jail, though, Gravina requested to speak to the detective again and this time allegedly said that there were times she suspected Rodriguez was accessing the material and that he had said some "concerning" things to her. However, the complaint also says that Gravina did not want to disclose what the defendant said. During a search of the residence, numerous electronic devices including phones and computers were sent to the BCA for forensic examination.

The search also turned up miscellaneous drug paraphernalia in the living room and a bedroom, where two children also lived. Both will be back in court on May 4 for an initial appearance.

Docs: Bloomington man arrested after downloading child pornography

by: David Gay

Updated: Nov 16, 2023 / 12:15 PM EST

MONROE COUNTY, Ind. — A Bloomington man has been arrested after police found that he was reportedly downloading dozens of child pornography files to a Google account.

According to court documents, filed on Wednesday in Monroe County, 28-year-old **Mark Lashay** was charged with one count of possession of child pornography, a Level 5 felony.

In early August, detectives with the Indianapolis Metropolitan Police Department, as well as the state's Internet Crimes Against Children Task Force, received five cyber tips from Google reporting the uploading of multiple suspected child pornography files to a Google account linked to Lashay in June.

After a search warrant for the files was granted, court documents stated that the files were confirmed by police as child pornography. Files included videos of a nude adult male performing sexual acts on a prepubescent female child.

After police discovered Lashay had an active arrest warrant for a felony intimidation charge in Monroe County, they tracked him to an apartment in Clayton through an IP address, according to court documents.

On Tuesday, IMPD detectives conducted a search of the apartment where they found Lashay. The documents said Lashay was detained without incident. The leaseholder of the apartment said that Lashay was a friend and had been staying with them for two months. During a search of the apartment, police seized two cell phones linked to Lashay.

In an interview with police, Lashay reportedly acknowledged he received child pornography through a weblink and downloaded it to his phone. He claimed the downloads occurred when he was high on methamphetamine.

According to court records, an initial hearing for Lashay in relation to this case was scheduled for Thursday afternoon.

Jail for teacher who sexually abused teenage pupil

25 September 2023

A science and technology teacher from North Yorkshire who sexually assaulted one of his pupils has been sentenced to more than nine years.

The National Crime Agency launched an investigation in November 2021, when Google sent a report of a user storing child abuse material on their platform via the National Center of Missing and Exploited Children in the US.

After NCA investigators identified the user as **Mark Langford**, 55, they immediately moved in to arrest him at his then address in Beccles, Suffolk.

Further enquiries established that he had groomed and sexually abused a 15-year-old pupil he taught at a school in Lowestoft between 2004 and 2006.

NCA officers recovered a letter Langford wrote to the victim in April last year, instructing her on what to say if the investigating officer questioned her regarding his offending.

He said: "Before you talk to him, please remember that it is his job to convict me – please do not give him any accidental ammunition against me. You can tell him you know I'm a porn addict, and that I was arrested for having indecent images of children. Don't forget the "arrested for" bit – don't say I did it, or that I confessed to you, because that might drag you into court as a witness. I don't know if it will, but that's not a question I dare ask him."

Before being arrested Langford told officers: "It's all in there, I know what you're looking for, I've made a mistake and ruined everything".

Five of his devices were forensically examined and found to contain a total of 2,718 indecent images of children in categories A-C (A being the most severe). A further 199 prohibited images and 109 extreme images were also found.

Langford had exchanged images on various peer to peer sites and accessed a cloud-based storage platform used by paedophiles to trade child sexual abuse material.

Officers also recovered a number of online chat logs in which he spoke with other like-minded individuals about sexual abuse.

These included conversations about child rape, encouraging others to sexually abuse their children and the levels of pain and humiliation that needed to be inflicted on

women and children to satisfy his sexual demands. He also gave tips to others on where to find child sexual abuse material online.

Langford taught at Suffolk and Norfolk secondary schools from 1996 until just after his arrest, at which point he was employed by a free schools trust which runs schools in Beccles, Bury St Edmunds and Saxmundham.

He appeared at Ipswich Crown Court on 10 July this year where he pleaded guilty to a number of charges including indecent assault, indecency with a child, perverting the cause of justice, indecent images of children offences (making, possession and distribution) and possession of extreme pornographic images.

Langford was sentenced to nine years and two months imprisonment and given an indefinite sexual harm prevention order at the same court today (25 September).

In an impact statement read before the court, the victim said: "His manipulation, deceit and devious nature unnerves me as he is not the man he presented himself as for many years.

"What Mark needs to grasp is that I am thoroughly appalled and disgusted by his actions and haunted by the abuse I suffered at his hands...He disgusts me to the core and I am haunted by nightmares of the confessions he told me.

"I still feel I am carrying around his filthy secret that he expected me to keep for him. This repulses me that he thought I would prevent the course of justice ...

"I am appalled, insulted and disgusted by everything he has told me and these confessions will stay with me for a long time. He has not only abused my body but my mind too."

NCA Operations Manager Holly Triggs said: "Mark Langford was a cowardly and scheming offender.

"Not only did he abuse his position of trust, he asked his victim to stay quiet about his offending and the horrific conversations he had with other paedophiles online.

"The NCA works relentlessly to protect children from sexual abuse and ensure that those who abuse them face justice."

Langford was dismissed by his employer in January last year.

Collier County Sheriff's deputies have arrested 24-year-old Naples man on more than a dozen child pornography charges

Martin Salinas is facing several charges including transmitting child pornography and soliciting two children for sex over social media, the sheriff's office reports.

The investigation found that Salinas was transmitting child pornography using Snapchat and Instagram at his home.

Salinas solicited sex from one of the victims over Instagram. He took control of her Instagram account and used her identity to transmit pornographic images of her to the other child victim, whom he also solicited for sex.

The investigation is ongoing and additional charges are expected following a search warrant of Salinas' residence Tuesday, officials said.

A preliminary forensic review of one of Salinas' cell phones found numerous files of child pornography, including one of his victims.

Writer: Carolina Guzman

Published: October 25, 2023 Updated: October 25, 2023

An Immokalee man is behind bars on child pornography and molestation charges after an eight-month investigation by the Southwest Florida INTERCEPT Task Force.

Mateo Castaneida Deigo-Francisco, 20, is in the Collier County jail charged with eight counts of possession of child pornography, three counts of transmission of child pornography, and one count of lewd and lascivious molestation on a victim younger than 12.

The task force started its investigation in January after receiving a cyber tip from Google regarding the suspected transmission of child pornography.

On Tuesday, the Collier County Sheriff's Office executed a search warrant at Deigo-Francisco's residence.

During the search, detectives found videos with sexually explicit images of children on his cell phone and hundreds of bestiality images on a computer tablet.

Detectives interviewed Deigo-Francisco at his residence and discovered he had molested a young child.

Smithfield Man Indicted On Charges Of Child Sexual Exploitation

Prosecutors say 35-year-old Mathew Hoard was charged in a five-count indictment and ordered detained.

Annie Sandoli, Patch Staff Posted Thu, May 20, 2021 at 12:06 pm ET

SMITHFIELD, RI — A registered sex offender living in Smithfield was indicted by a federal grand jury Tuesday on multiple child sexual exploitation charges, said U.S. Attorney Richard B. Myrus in a news release.

Prosecutors say **Mathew Hoard**, 35, was charged in a five-count indictment with Attempted Enticement of A Minor to Engage in Criminal Sexual Activity, Attempted Transfer of Obscene Material to a Minor, Distribution and Possession of Child Pornography, and Committing Offenses While Required to Register as a Sex Offender.

According to court documents, Hoard was convicted of child pornography in Rhode Island Superior Court in 2010. He was sentenced to five years of probation and required to register as a sex offender.

Information received by the National Center for Missing and Exploited Children and investigated by the State Police Internet Crimes Against Children Task Force (ICAC) revealed that Hoard uploaded child pornography to social media in February 2020. Another ICAC investigation caught Hoard communicating online with an individual he believed to be a 14-year-old girl.

During that communication, investigators say Hoard sent obscene images to the 14-year-old, requested nude images, said he wanted to marry her, and repeatedly asked her to meet for sex. Court-authorized searches also discovered child pornography and other evidence on electronic devices owned by Hoard.

Police say Hoard was arrested Tuesday and ordered detained following his initial court appearance. If convicted as charges, he faces a mandatory minimum sentence of 15 years in federal prison.

CRIME & LAW

By Nancy Bowman

July 19, 2023

TROY - A Fletcher man convicted of pandering obscenity involving juveniles was sentenced to community control and six months in the county jail.

Matthew Blevins, 33, was sentenced on four felony charges of pandering obscenity involving juveniles in Miami County Common Pleas Court.

Blevins was accused of recording, reproducing or publishing material featuring a minor in sexual activity in January. The material did not involve identifiable juveniles, county prosecutors said.

Judge Stacy Wall said the illegal activity on computer was found by federal investigators, who notified local law enforcement. The federal investigators reported the activity took place over three years. The materials viewed involved girls as young as five, Wall said. Asked why he started watching the pornography, Blevins replied it was because of "curiosity."

Wall sentenced him to five years of community control, treatment, a mental health assessment and to have no internet access and no unsupervised visits with minors. Blevins also was ordered to serve six months in the county jail.

He was classified as a Tier II sex offender. The designation will require him to register his address with the sheriff in the county where he lives every 180 days for 25 years.

Internet Crimes Against Children (ICAC) Task Force investigators with the Mount Pleasant Police Department and Dorchester County Sheriff's Office made the arrests in these unrelated cases. Investigators with the Attorney General's Office, also a member of the state's ICAC Task Force, assisted with these investigations.

Investigators received CyberTipline reports from the National Center for Missing and Exploited Children (NCMEC) which led them to both Hartung and Myers. Investigators state Hartung possessed child sexual abuse material and Myers distributed files of child sexual abuse material.

Hartung was arrested on October 30, 2023. He is charged with five counts of sexual exploitation of a minor, third degree (§16-15-410), a felony offense punishable by up to 10 years imprisonment on each count.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Deputies: Suspect faces 88 child porn charges

March 09, 2023

By Drew C. Wilson

A Wilson County man has been charged with more than seven dozen counts of sexual exploitation of a minor.

Michael Darrell Bush Jr., 33, of the 7000 block of Town Creek Road east of Elm City, was jailed on a \$1 million bond after his arrest at his rural home.

Chief of Staff Wanda Samuel of the Wilson County Sheriff's Office said the case was investigated as part of the office's participation on the Internet Crimes Against Children Task Force. In July, the Wilson County Sheriff's Office received information from the National Center for Missing and Exploited Children about "suspicious activity" taking place in Wilson County, Samuel said.

She said detectives working the case were able to identify Bush as the offender.

Bush was located at his Town Creek Road home on Monday.

Samuel said Bush was taken into custody by the Wilson County Sheriff's Office Special Operations Intelligence Unit and the Sheriff's Traffic Accident Reduction Unit without incident.

Bush was charged with 88 counts of second-degree sexual exploitation of a minor and was booked into the Wilson County Detention Center.

Under N.C. General Statute 14-190.17, second-degree sexual exploitation of a minor includes recording or copying visual depictions of minors engaged in sexual activity as well as distributing or receiving such content. Many ICAC task force cases involve sending or receiving child pornography online.

Samuel said the N.C. State Bureau of Investigation Computer Crimes and Violent Criminal Apprehension Team assisted the Wilson County Sheriff's Office with this case.

Staff Report Jun 22, 2023

A Proctor man was charged Thursday with several counts of possession of child pornography.

Michael Dubois, 35, pleaded not guilty in Rutland Superior Court Criminal Division to seven counts of possession of child sexual abuse material and was released under conditions that he keep in contact with the court, notify it of any changes to his address, not access the internet outside of work purposes, and not have contact with minors except his own — and then only under the supervision of a certain adult.

According to an affidavit by Detective Sarah Superneau, of the Vermont Internet Crimes Against Children Task Force, the task force received information reported to the National Center for Missing and Exploited Children by Google LLC which indicated that child sex abuse materials had been stored on a Google account associated with Dubois.

On Monday, police were granted a search warrant for Dubois, his vehicle and his residence in Proctor. Police went to his home on Wednesday and found him there. He was shown three of the image files police suspected him of having downloaded. Dubois said he'd never seen them before, but agreed the child in them appeared to be a minor. He claimed to have seen inappropriate files before while looking for legal pornography on Tumblr, but said he'd never downloaded them.

Police searched several electronic devices they say belong to Dubois. Superneau wrote that Dubois was arrested following the search and cited to appear in court, while the investigation continues.

The Vermont Attorney General's Office, Manchester Police Department, Vermont State Police, and Homeland Security Investigations assisted in the investigation and worked together on the case, according to a statement from the attorney general. https://www.rutlandherald.com/news/local/proctor-man-charged-with-possession-of-child-sex-abuse-materials/article_29d22224-cd7e-5bd7-a736-daac0158d675.html

Finance exec, 54, accused of drugging and raping young teen at hotels across NYC — even taking her on trips as his daughter: DA

By Kyle Schnitzer and Allie Griffin
Published June 15, 2023

A 54-year-old finance executive was indicted Thursday for allegedly raping a 14-year-old girl — whom he met online — inside hotel rooms across New York City and feeding her drugs until she overdosed, prosecutors announced.

Michael Olson was hit with a 17-count indictment for the alleged months-long abuse that was uncovered May 26 when paramedics responded to a Manhattan hotel to find him and the girl, who had ingested a cocktail of ketamine, cocaine and Xanax, according to the Manhattan District Attorney's Office.

The girl was rushed to a hospital and survived, and Olson, of Manhattan, was arrested.

He was released after posting a \$1 million bond.

While out on bail, Olson continued to try to contact underage girls — despite the slew of charges against him and the fact that he was being electronically monitored, according to prosecutors.

The young teen he was found with was not Olson's only victim. She was just one of many vulnerable young teens — specifically teenage Asian girls — the accused serial abuser allegedly preyed on, prosecutors said.

Olson first targeted the 14-year-old in December 2022, when he found her Instagram page and replied to a post she had made about clothing costing too much money, according to the DA's Office.

He then allegedly sent her a gift card and began to pay her to spend time with him

Paramedics found Olson in a Manhattan hotel room on May 26 with a girl who had ingested a cocktail of ketamine, cocaine and Xanax, according to reports.

Over the next six months, he allegedly raped the young girl on several occasions — paying her \$700 a week in exchange for sex at hotels in Queens and Manhattan, the office said.

Olson also traveled with the child on trips to Las Vegas, Los Angeles and Miami and pretended that she was his daughter by purchasing her boarding passes using her first name with his last name.

He was charged with one count of criminal sale of a controlled substance to a child, five counts of rape in the second degree, seven counts of aggravated patronizing of a minor for prostitution in the second degree, two counts of criminal sexual act in the second degree, one count of facilitating a sex offense with a controlled substance and one count of endangering the welfare of a child.

The executive, who worked for Dwight Mortgage Trust but is no longer listed as an employee, is expected to be slapped with more charges as investigators discovered Olson had contacted numerous other young teens in addition to the 14-year-old victim.

Olson's iPad, which was recovered from the Manhattan hotel room, revealed more victims, prosecutors said at his arraignment in New York State Supreme Court on Thursday.

"A search of an iPad that the defendant had with him that day revealed numerous other victims," prosecutor John Fuller said at the hearing, according to the New York Times. "There were hundreds of screenshots of various Instagram accounts of young, Asian teenage girls that the defendant messaged."

Fuller alleged that Olson targeted girls who posted images of self-harm or complained of money troubles on the social media platform.

Many of the girls listed their middle or high schools in their Instagram bios, making their age obvious to Olson, the prosecutor added, according to the publication.

Olson would allegedly message the teens with dollar amounts of how much he would pay them to have sex with him, while also asking about their schools and taking vacations together, the Times reported.

He is believed to have also supplied drugs to other minors he targeted.

He allegedly kept detailed spreadsheets of what drugs he fed to what girls and how much money he paid to each.

Additionally, he had screenshots of the New York City public school calendar and Uber receipts showing pickups from elementary and middle schools on his phone, prosecutors said.

The accused pedophile also kept a collection of nude photos of minors and underage girls performing sex acts on the iPad seized by investigators and is expected to face additional pornography charges, Fuller said.

Olson was remanded without bail at an arraignment in New York Supreme Court on Thursday.

Manhattan District Attorney Alvin Bragg encouraged other victims to come forward.

Explicit online posts lead to arrests

From Staff Reports Pauls Valley Democrat Mar 29, 2023

Drugs and online exchanges on the questionable side came together with one couple living in the Wynnewood area.

First it was a cyber-tip that led federal, state and Garvin County authorities to the doorstep of **Michael Todd Smeltzer**, 58.

The tip hit the radar of officials as Smeltzer is accused of using social media to post a number of lewd proposals to a teenage girl in early March.

One was a request for the girl to post partially naked photos of herself on Facebook, while others were sexually explicit in nature. Smeltzer is also accused of posting a couple of graphic photos of himself.

County sheriff's deputies were also there to take Smeltzer into custody for failing to appear in court or pay fines and costs in a drug possession case dating back to 2016.

The twist came when a search of his residence resulted in officials finding about 1 1/2 grams of fentanyl and a loaded rifle.

As it turns out Smeltzer's girlfriend, Rebecca Jean Billings, 52, was also arrested and later charged when it was learned the drugs were in her purse.

Billings claimed Smeltzer had given her the drugs when officers rolled up to the residence.

"When ya'll came to the door (Smeltzer) handed me the baggies and I put them in my purse," Billings said to deputies, according to a court document.

In the end Smeltzer is now facing five felony counts, including three charges of lewd or indecent proposals to child under 16, drug trafficking and firearm possession.

He was handed an \$80,000 bond as his next court appearance is set for next month.

Billings was given three felony charges, including drug trafficking and drug possession. She was released after a \$10,000 bond was posted.

Kane's Child Exploitation Unit helped nab former pastor charged with child pornography

Special investigative unit's work led to the charges

By Shaw Local News Network June 30, 2023 at 5:24 pm CDT

ST. CHARLES TOWNSHIP – A Campton Hills man was charged with felony possession of child pornography following an investigation by the Child Exploitation Unit, a collaboration between the Kane County State's Attorney's Office and the Sheriff's Office, officials announced in a news release.

Michael C. Willis, 43, of the 39W800 block of Prunetree Lane, Campton Hills, was charged with two counts of reproducing and disseminating child pornography, three counts of possessing moving depictions of child pornography and two counts of possessing computer photographs, according to the release.

Willis was a pastor of a Geneva-area church until March. Rejoice Lutheran Church hired the Rev. Michael C. Willis to lead its youth ministry in 2016, according to the church's Facebook page.

Willis was ordained as a pastor in 2022, according to records on the website of the Metropolitan Chicago Synod of the Evangelical Lutheran Church in America, to which Rejoice belongs.

On Wednesday, a synod official said Willis was put on leave in April when the synod learned of the investigation, and that Willis resigned from Rejoice in early June.

State's Attorney Jamie Mosser alleged that prior to April 10, 2023, Willis reproduced and possessed multiple child pornography videos and images, according to the release.

The Child Exploitation Unit, which conducted the investigation, is made up of investigators from both offices, along with assistant state's attorneys with specialized knowledge in the investigation and prosecution of child pornography cases, according to the release.

The Illinois Attorney General's Office and the Internet Crimes Against Children's Task Force also assisted, according to the release.

Kane County Associate Judge Salvatore LoPiccolo issued a warrant for Willis' arrest and set bond at \$50,000, with 10% or \$5,000 to apply for bond.

Willis surrendered to the Sheriff's Office, posted bond and was released.

The terms of his release require that Willis is to have no unsupervised contact with anyone younger than 18, and he is not to possess any electronic devices that can record or review recordings or pictures.

His next court appearance is scheduled for Aug. 16.

Willis's attorney, Sam Amirante, said his client is presumed innocent.

"He's charged like any other criminal defendant in this wonderful country that we're going to celebrate this coming week for the Fourth of July – and presumed innocent," Amirante said.

"He certainly has that right under the Constitution like any other criminal defendant. And my job is to protect that right to be presumed innocent," Amirante said. "From what I have seen so far, he will remain an innocent person as he is."

The most serious charges that Willis faces are the the two counts of reproducing and disseminating child pornography, Class 1 felonies punishable by four to 15 years in prison and fines up to \$25,000 or up to 48 months of probation, if convicted.

Daily Herald reporter Susan Sarkauskas contributed to this report.

Bay Area nanny Nicole Hidalgo, 28, is charged with molesting young girl she was hired to care for so she could send photos of abuse to man she met online, cops say

Michelle Hidalgo is facing new charges of molesting a baby girl
She was initially arrested last month on child pornography charges
The nanny was charged with further offenses after new evidence emerged

By WILL POTTER FOR DAILYMAIL.COM

A California nanny has been charged with molesting a baby girl she was hired to care for, weeks after facing charges of producing and sending pornographic images of the infant.

Michelle Nicole Hidalgo, 28, was charged with three further offenses after prosecutors said they found more disturbing evidence.

She was initially arrested last month after cops in Contra Costa County received a tip from an unnamed social media platform about child abuse images allegedly shared by Hidalgo on their platform.

When they probed her online activity, police allegedly found conversations between her and a man requesting 'worse and worse' images of the girl.

The nanny was still employed by the victim's family at the time of her arrest. She is currently being held on a \$2.7 million bond, and faces up to 60 years to life in prison if found guilty.

On top of the four felony counts of child pornography she previously faced, Hidalgo has now been charged with a further three counts of child molestation of a victim under 10, and of using a minor for sex acts.

When Hidalgo was confronted about the images by a District Attorney senior inspector, she allegedly admitted to sharing the images, calling them a 'stupid' one-time mistake.

But cops suspect that she had also molested the infant at the direction of the man she sent the images to.

According to court records, the sickening directions saw the man ask Hidalgo to do 'worse and worse' things to the girl while documenting it.

After receiving the initial tip, a search warrant was carried out on her home by the Contra Costa County Internet Crimes Against Children Task Force, where they seized 'equipment used in the production and distribution' of the child abuse footage.

District Attorney Diana Becton previously said authorities have not ruled out the possibility that there are other victims.

Although she allegedly admitted to the images, Hidalgo pleaded not guilty to charges in her first court appearance last month.

Her bail originally stood at \$700,000, and before it was raised to \$2.7 million on Friday the District Attorney's office said at her first hearing that it would argue to keep her behind bars should her defense ask for the bail to be lowered.

'Why? Because she is a danger,' Deputy District Attorney Paul Graves said at the time.

According to Hidalgo's Facebook profile, she is originally from Pacifica, California, and graduated from at Terra Nova High School.

Hidalgo's arrest is the latest in a string of recent instances of daycare workers and nannies being charged with similarly disturbing offenses.

Last month, a Bay Area daycare worker was sentenced to 25 years in prison for possessing and distributing child pornography.

Jace Wong, 26, was arrested in San Francisco in 2021 after an undercover officer linked him to a pornographic video of a girl between four and six years old.

Meanwhile, in Massachusetts, a daycare worker has been accused of sending photos of naked children to a trans former politician.

Lindsay Groves, 38, faces accusations that she took nude images of children aged three to five at the Creative Minds Early Learning Center in Tyngsboro, about 35 miles northwest of Boston.

Prosecutors say the New Hampshire resident took the photos in a private bathroom during breaks before nap time and texted them to someone 'with whom she was previously in an intimate relationship' and shared 2,500 texts with.

The investigation into Groves also led to the arrest of Stacie Laughton, 39, who is believed to be the first transgender person elected to a state Legislature in the nation. She is charged with distributing child pornography.

Utah sex offender accused of dating woman with children while at halfway house

By Pat Reavy, KSL.com | Posted - April 20, 2023 at 4:03 p.m.

SALT LAKE CITY — A registered sex offender is in trouble again after investigators say he was caught downloading child pornography and accessing it on a computer issued by the halfway house he resided, and was secretly seeing a woman with young children.

Miles Brent Blakeley, 33, was charged Thursday in 3rd District Court with sexual exploitation of a minor, a second-degree felony.

In November, while Blakeley was a resident at the Bonneville Community Correctional Center, 1141 S. 2475 West, investigators received a tip that a video file attached to Blakeley's Google account contained child pornography, according to charging documents. Investigators say he accessed his Gmail account using a computer at the correctional center.

Two phone numbers were associated with the account, neither of which Blakeley had reported as required as part of his parole, the charges state.

Investigators decided to keep surveillance on Blakeley "and it was found that he was meeting a person ... around the corner from (Bonneville Community Correctional Center) and she was driving him to various locations, including to her home," according to the charges.

Police said they learned that Blakeley was in a relationship with the woman, who had several children living with her. Not having contact with children is another requirement of Blakeley's parole.

Investigators also tracked one of the phone numbers that was listed with Blakeley's email account and learned that he was turning it off while at the corrections facility, but "was using it selectively when at work and other locations," the charges state.

Blakeley was arrested in January and his phone was seized for analysis. On the phone, investigators found "multiple pictures of himself and children on his phone and in his Google account. These pictures included Blakeley in bed with a child and many photos of bathing children and children in diapers," the charges allege.

Blakeley said he had become close to the woman's children, particularly her young daughter who viewed him as father figure, the charges say.

Blakeley, who is on the Utah Sex Offender and Kidnap Registry, has been convicted of multiple counts of sexual exploitation of a minor in 2014 and 2016 and voyeurism in 2016.

Arrest of Fort Morgan man closes 'years of investigation'

Police, SWAT unit executed warrant which led to arrest on sexual child exploitation charge

A lengthy investigation culminated Wednesday in the arrest of a suspect on felony sexual child exploitation charges.

Nathan Reeder, 31, of Fort Morgan was arrested following a search warrant earlier in the day which led to a Code Red alert in the area surrounding the 500 block of Gateway Avenue and the lockdown of Pioneer Elementary School.

"This has been an on-going investigation with original tips dating back several years," Police Chief Loren Sharp said. "Recently, Fort Morgan detectives were able to gather enough evidence to support a search warrant at the residence of the suspect."

That search warrant was executed at about 9:40 a.m. Wednesday in a coordinated effort with the Regional SWAT unit and with school officials at Pioneer Elementary School, where a lockdown was issued out of an abundance of caution, Sharp said.

Fort Morgan police utilized the Regional SWAT unit because of intelligence indicating multiple people were living in the home, at least one of which was known to be a violent offender, Sharp said.

During execution of the search warrant, "numerous occupants" were removed from the home for safety, Sharp said. The execution of the search warrant was followed by further investigation.

As a result, an arrest warrant was sought and granted Wednesday afternoon for Reeder. He was arrested on the warrant and is being held without bond on Class 3 felony charges of sexual child exploitation in the Morgan County jail.

"I am proud of the investigators that have worked diligently on this case to obtain enough evidence to bring a warrant to the judge," Sharp said. "While due process is important and must play out in court, today was the first step in bringing justice to any and all victims in this case."

Sexual Battery Arrests and Child Pornography Investigation
September 19, 2023
Case Number: 2023-014337

The Manatee County Sheriff's Office Internet Crimes Against Children Unit received several cyber tips on 6/5/23 from the National Center for Missing and Exploited Children about Child Sexual Abuse Materials transmitted over Facebook, which they later learned was between **Nicholas Bassler Jr.**, 24, and Sierra Campany, 24.

The images were verified as child exploitation material and the investigation led detectives to believe the transmission of the material came from an address in the 5000 block of 23rd Street West, Bradenton.

Detectives continued to investigate, and on 9/13/23, they made contact with Campany and Bassler, building probable cause for a search warrant for the residence. The warrant was served, and several electronics were seized, including the tablet listed in the cybertip. Forensics on their electronic devices found numerous exploitation images and videos showing both Bassler and Campany performing sex acts on children. Detectives know of three victims ranging in age from 10 months to 10 years old. Both Bassler and Campany have confessed to the crimes.

On 9/14/23 Sierra Campany was arrested for Capital Sexual Battery and Nicholas Bassler Jr. was arrested on the same charge the next day. (9/15/23). They each face additional charges for Possession, Transmission, and Production of Child Pornography.

Detectives believe there could be more victims. Anyone who suspects a child has had contact with Nicholas Bassler, Jr. or Sierra Campany is urged to contact Manatee County Sheriff's Office Crimes Against Children detectives at (941) 747-3011 Ext. 2522.

Google Cyber Tip Leads to Arrest of Margate Man on Child Pornography Charges

By Ryan Yousefi on October 21, 2023

A Google cyber tip led to the arrest of a Margate man now charged with 11 felony charges of possessing child pornography.

On July 20, Google reported to the National Center for Missing and Exploited Children (NCMEC) that an individual, later identified as **Nicholas Vincenzo Elias**, 21, of Margate, had violated their terms of use by uploading explicit images, including a large amount of child pornography.

The information provided to NCMEC contained details about the contents of Elias's account and his location, specifically, an address near the 6400 block of Northwest 21st Court.

According to records, NCMEC referred the case to the South Florida Internet Crimes Against Children (ICAC) Task Force, which began an investigation into Elias, who triggered the cyber tip by allegedly uploading five files containing apparent explicit content featuring children.

In response to the Cybertip, law enforcement authorities obtained a search warrant to access the contents of Elias's Google Drive, and eventually, during the investigation, additional personal information, including Google Pay details, was uncovered, linking Elias to the Google account.

The Google Drive contained 178 unique files, with approximately 60 considered child pornography content under Florida State Statutes. Additionally, about 27 files were categorized as Age Difficult, Erotica, or indicative of child sexual exploitation.

On August 30, the Margate Police Department's Special Response Team and Criminal Investigations Division executed the search warrant. During the search of Elias's residence, he agreed to speak to law enforcement and was shown still images from the contents of the Google Drive warrant.

According to the arrest report, one of the images depicted a white male masturbating on a bed. Elis positively identified himself as the individual in the image. They confirmed that the location was his bedroom within the residence, further linking the contents of the Google Drive to him.

Elias subsequently admitted to viewing several explicit materials and recognized certain photos. He explained that these materials were once located on a personal laptop within his residence.

A thorough examination of all of Elias's devices revealed many images, including non-pertinent images, comparison images, child-exploitative images, age-difficult material, and explicit material.

On October 18, law enforcement took Elias into custody near the 5500 West Sample Road and transferred him to the Broward County Main Jail.

Sex offender twice convicted faces new child porn charge

by: John Hogan

KALAMAZOO, Mich. (WOOD) — He's had child pornography and sexual assault convictions dating back almost 20 years, and now Nicholas S. Kissinger is facing a new federal charge that could keep him locked up for more than a decade.

Felony information filed this week accuses the registered sex offender of possession of child pornography in Kalamazoo County. Kissinger has a court appearance scheduled next week.

According to court records, a federal probation officer in September conducted a home visit, which led to the discovery of an unauthorized cellphone that contained "hundreds and possibly thousands of images and videos that can be classified as child pornography."

Kissinger, 45, has convictions in state and federal courts.

In 2004, Kissinger was convicted in Kalamazoo County of sexually assaulting a 15-year-old boy he met at church, court records show. Kissinger "groomed the boy by showing him gay pornography," and eventually had sex with the teen multiple times over the span of five months, court records show. The conviction put Kissinger on probation for several years.

After he was discharged from state supervision, Kissinger began to trade and collect child pornography, leading to his arrest in April of 2013, court records show.

"The pattern he has exhibited indicates that the defendant has both an addiction to child pornography and a corresponding interest in hands-on sexual activity with minor boys," an assistant U.S. attorney wrote in a 2013 sentencing memorandum.

A federal judge sentenced Kissinger to 11 years in prison, followed by supervised release. Kissinger was on supervised release and working in Battle Creek when the latest charge surfaced.

He's facing between 10 and 20 years in prison on an enhanced charge of possession of child pornography. Kissinger has a federal court appearance scheduled for Dec. 1 in Grand Rapids.

SVPD: arrests made for child exploitation in three separate cases

By: Reyna Preciado

Posted at 5:49 PM, Jun 13, 2023 and last updated 8:49 PM, Jun 13, 2023

TUCSON, Ariz. (KGUN) — Last week, Local Arizona Internet Crimes Against Children (AZ ICAC) arrested three individuals in Sierra Vista in separate cases involving child-sex exploitation.

Homeland Security Investigation (HSI) Agents arrested 59-year-old Tucson resident David Charron after a month long investigation. Charron was caught in a plan to meet who he believed to be a 14-year-old in Sierra Vista.

The investigation started when Charron contacted the individual in May 2023. On June 6, he planned to go to a hotel with the "14-year-old" and have sexual intercourse. He was arrested at the meeting location and evidence was found in relation to the crime in his vehicle.

Charron is now in custody at the Federal Correctional Facilities in Florence on the federal charge of sexual exploitation of children.

On Thursday June 8, HSI Special Agents and Sierra Vista Police Department (SVPD) Detectives arrested 51-year-old Norbert Felix (pictured on the right) after completion of a search warrant.

In early April 2023, SVPD received a National Center for Missing and Exploited Children Cybertip from the AZ ICAC regarding a Sierra Vista resident who had transferred material of child sexual abuse onto a cloud storage platform.

Several search warrants eventually led to the residence of **Norbert Felix**, where he was arrested on June 8 without incident. He is now in Cochise County Jail on a bond of \$75,000. He is facing charges of four counts of sexual exploitation of minors.

The most recent of the three arrests was made on Saturday June 10. Jonathan Shiffler (pictured on the left), 23 years old, was arrested by HSI Special Agents and SVPD Detectives without incident.

In early April of last year, a Sierra Vista resident made a complaint that a 15-year-old Sierra Vista resident was being solicited to send illicit images of themselves to different individuals through an online gaming application.

After a year long investigation, detectives secured evidence of a two-year long relationship between Shiffler and the juvenile. The relationship involved purchases of child sexual abuse material.

Shiffler, a Georgia man, traveled to Sierra Vista to engage in sexual intercourse with the juvenile at a local hotel. Authorities conducted a search warrant at the hotel to find evidence of the planned encounter.

Shiffler is currently in Cochise County Jail facing charges of sexual exploitation of a minor, aggravated luring of a minor, luring of a minor, and involving a minor in a drug offense.

In March Homeland Security Investigations (HSI) received information from Internet Crime Against Children (ICAC) and the National Center for Missing and Exploited Children (NCMEC) regarding materials defined in federal law as child pornography. The tip stated that child sexual abuse material was uploaded via a Discord1 account around Dec. 2022. Investigators learned that five videos were uploaded to the account.

According to the criminal complaint, four CyberTips were received from the National Center for Missing and Exploited Children regarding possible possession of child pornography. South St. Paul Schools IT director resigns after child porn charge

By NICK FERRARO | nferraro@pioneerpress.com | Pioneer Press
PUBLISHED: March 20, 2023 at 6:46 p.m

The director of technology for South St. Paul schools resigned last week after he was charged with possessing child pornography at his Hudson home.

Investigators searched **Paul Michael Brashear's** home on March 6 and found a computer flash drive with hundreds of images of child pornography, according to a criminal complaint filed against the 63-year-old on March 13 in St. Croix County Circuit Court.

The school district said in letters it sent to families last week that Brashear was put on administrative leave after his March 6 arrest and that the district is cooperating with law enforcement and other law enforcement agencies. He resigned March 14.

The school district said law enforcement "has indicated the allegations against [Brashear] did not appear to occur on district property or any of its district devices." Brashear's job was a district office-based position "responsible for the oversight of technology operations and infrastructure and does not have direct or daily contact with students," the district said.

Brashear has been charged with one count of possession of child pornography. He made an initial court appearance March 13 and was released from jail the same day after posting a \$5,000 cash bond. A defense attorney is not listed in court records.

According to the criminal complaint, the St. Croix County sheriff's office began an investigation March 6 after receiving a cyber tip from the National Center for Missing and Exploited Children, which reported that Microsoft flagged an image on Oct. 30 as "apparent child pornography."

Investigators traced the image, which showed a nude prepubescent girl on a bed, to an IP address connected to Brashear's home.

Investigators executed a search warrant of the home on March 6, and brought Brashear outside. Although he was not under arrest at the time, he agreed to talk to a sheriff's office investigator.

In the conversation, which was recorded by the investigator's body-worn camera, Brashear admitted to saving and storing child pornography on a flash drive that could be found in his desk drawer in the basement, the complaint says.

Brashear said no child pornography was on his work computer and he "denied any allegations of inappropriate issues with children at his current place of employment," the complaint states.

Brashear said he has been addicted to pornography for several decades and that "he could not recall where the line was for him when he started to venture into child pornography, but said it has been at least a couple years," the complaint states. He said the last time he viewed child pornography could have been within the past week, but he was unsure.

Brashear told investigators he started work in IT after leaving teaching, the complaint says.

A digital forensic examiner seized electronics and the flash drive, which contained child pornography. Brashear was arrested and booked into the St. Croix County jail.

Investigators used software to extract files found on the SanDisk flash drive. An image folder contained hundreds of images of suspected child pornography that ranged from toddler to pubescent victims, according to the complaint.

"The majority observed while scrolling was prepubescent females engaged in various sexual acts," an investigator wrote in his report.

On Wednesday, the school district responded to a data practices request made Monday by the Pioneer Press. Brashear's personnel file does not include prior discipline or complaints, the district said. He'd been the district's IT director since March 1, 2015, and was making just over \$142,000 a year.

The district said it would not provide comment beyond what it shared in the letters to families.

Brashear is due back in court Wednesday.

'What gets children victimized': Man arrested in alleged child porn case out on own recognizance

By Michaela Harris Jul 13, 2023

Officials with the Sutter County Sheriff's Office announced the recent arrest of a Sutter resident for allegedly possessing and distributing child pornography.

According to officials, in June, the Sutter County Sheriff's Investigations Unit received a cyber tip from the National Center For Missing and Exploited Children regarding someone uploading child pornography to an electronic service provider.

The Center for Missing and and Exploited Children is an online reporting mechanism for cases of child sexual exploitation including child pornography, online enticement of children for sexual acts and other crimes related to child abuse.

Officials said this tip led investigators to a residence in Sutter for alleged child pornography activity. Detectives executed a search warrant and arrested 58-year-old **Paul Wheeler**.

The search allegedly resulted in investigators discovering numerous electronic devices and material related to child sexual abuse. A forensic extraction of the devices found thousands of child porn images and videos, officials said.

Wheeler was arrested and booked into the Sutter County Jail under charges of possession and distribution of child pornography.

According to Wheeler's custody status, he was booked into the Sutter County Jail on June 21. However, as of July 8, Wheeler is out of custody on his own recognizance.

Sutter County District Attorney Jennifer Dupré confirmed with the Appeal that Wheeler was released over the DA office's objection.

According to Dupré, the factors that contribute to the court making this decision are whether a defendant will return to court and if they are a threat to public safety. Dupré also said that Wheeler's father was present during his hearing and that Wheeler is his father's primary caretaker, a factor which was considered in the court's decision.

While the courts believe that Wheeler met the conditions to be released on his own recognizance, Dupré believes that the nature of his alleged crimes pose a danger to the public.

“Even though he wasn’t personally taking photos, the demand that sharing these photos creates is what gets children victimized,” Dupré said.

Wheeler is scheduled to appear in court for a preliminary hearing on July 19.

Nov 2, 2023

TRAVELERS REST — A registered sex offender from Travelers Rest was arrested for having over 350 files of child sexual abuse material on his computer.

Randall Marion Bailey, 65, was charged with five counts of third degree sexual exploitation of a minor, according to South Carolina Attorney General's office arrest warrants.

Bailey was released Nov. 1 on a \$7,500 cash bond, according to state court records.

Investigators with the Internet Crimes Against Children Task Force, Greenville County Sheriff's Office and Attorney General's office made the arrest, according to an Attorney General news release.

The investigation began after a CyberTipline report from the National Center for Missing and Exploited Children led investigators to Bailey. A search of Bailey's computer in his home found several child sexual-abuse material files, arrest warrants show.

Bailey has been registered on the state's Public Sex Offender registry since 1998, when he was convicted on one count of committing or attempting a lewd act on a child under the age of 16, according to the registry.

Nanticoke man sentenced for sharing child sexual abuse materials

Ed Lewis, The Times Leader, Wilkes-Barre, Pa.
July 11, 2022

Jul. 11—WILKES-BARRE — Immediately after Luzerne County President Judge Michael T. Vough denied a request to withdraw his guilty plea, **Randall Scott Fisher** was sentenced to state prison sharing child sexual abuse materials.

Fisher, 51, of East Green Street, Nanticoke, wanted to renege a plea agreement with prosecutors in November when he pled guilty to 11 counts of dissemination of photo or film involving children involved in sex acts.

Fisher argued his former attorney, Brian Corcoran, "guaranteed" house arrest, court records say.

Fisher's replacement attorney, Public Defender Charles Ross, filed a motion to withdraw the plea agreement, which was denied by Vough on Monday.

Vough sentenced Fisher to two-to-four years in state prison followed by three-years probation on the 11 counts of dissemination. Fisher was given credit for one day time served in jail.

Assistant District Attorney Carly Hislop said Fisher is mandated to register his address for 25 years under the state's Sexual Offender and Notification Act when he is released from prison.

Fisher, who was free on bail, was shackled inside the courtroom by sheriff deputies and transported to the county correctional facility.

County detectives and West Hazleton police, members of the Internet Crimes Against Children Task Force, alleged Fisher created two Facebook Messenger accounts and received inappropriate images of children from an unknown person. Fisher then sent the images to other people, court records say.

When Fisher was arrested Sept. 2, 2020, he pledged not to possess or share child sexual abuse materials anymore.

Ex-Broker Whose Schwab-to-Morgan Stanley Jump Sparked \$13M Award Arrested on Child Porn Charges

by AdvisorHub Staff April 20, 2023

A former high-net worth Charles Schwab Corp. broker—whose move to Morgan Stanley was the focal point of a \$13 million arbitration award issued last month—has been arrested in Florida on unrelated charges.

Randall B. Kiefner, 61, pleaded not guilty on April 5 to 21 counts of possession and/or distribution of child pornography, according to the Seminole County sheriff's office. County detectives went to Kiefner's house after a tip from Yahoo Inc. about "presumed child pornography" that had been detected on his email, according to court filings. Kiefner admitted to seeking and sharing child pornography with an online group and said that his "addiction" began four years ago after he lost his job at Morgan Stanley, according to the report.

Kiefner's criminal defense lawyer, Carlos E. Payas in Orlando, did not return a request for comment on the arrest or how it might affect pending civil litigation tied to the 2019 career move. Kiefner is scheduled to appear in court on May 9.

Kiefner, who worked in Winter Park, Florida and started his career in 1990, has not been registered as a broker since Morgan Stanley fired him in 2019 one month after he had joined from Schwab.

A three-person arbitration panel in February ordered Morgan Stanley, Kiefner and his former partner to pay more than \$3.03 million in compensatory damages to Schwab and also cover \$1.2 million in attorney fees and costs. Morgan Stanley alone was ordered to pay Schwab another \$3.03 million in punitive damages based on claims of unfair competition and that it encouraged the brokers to break employment contracts when they moved.

Morgan Stanley also was ordered to pay Kiefner and his partner \$4.7 million based on separate claims of defamation, breach of contract and wrongful interference in their business relationships and cover \$700,000 in attorney fees.

The decision would result in a net payment of \$1.89 million to the brokers if the joint portions of the award to Schwab are split three ways. The panel also

granted the brokers permission to clear the “defamatory” U5 filings from Morgan Stanley from their public records.

Morgan Stanley last month sued Kiefner and his former partner as part of an attempt to force them to pay their portion of the \$13 million award. The wirehouse said that the brokers owed at least \$2.8 million of the \$4.32 million portion of the award for which arbitrators had held them “jointly” liable, but refused to pay, according to filings in New Jersey federal court. The court on April 12 ordered Morgan Stanley to place the \$2.8 million in escrow and that the firm’s parallel arbitration against the brokers could proceed to a hearing on an expedited basis within 15 days.

Michael J. Forrester, a lawyer with Perrotta Fraser & Forrester who is representing Kiefner and his former partner in the Morgan Stanley litigation, did not immediately return a request for comment.

Kiefner and his former partner, who had managed a \$750 million book of business at Schwab, also continue to press a malpractice case against former outside counsel who represented them in the move. They claim that they were given bad advice about taking customer information.

ROGERS COUNTY MAN ARRESTED, SUSPECTED OF SHARING CHILD PORN

Rogers County deputies say a cyber tip from the National Center for Missing and Exploited Children led them to an RV in Claremore. Investigators say their suspect s admitted to watching and sending videos of children having sex.

By: News On 6, Reagan Ledbetter

ROGERS COUNTY, Okla. -

Rogers County deputies arrest a Claremore man accused of downloading and sending child sex abuse images and videos.

News On 6 rode along with investigators for the arrest.

Investigators say a cyber tip from the National Center for Missing and Exploited Children led them to an RV in Claremore. Investigators say their suspect **Randall Nichols** admitted to watching and sending videos of children having sex. Authorities arrested Nichols and then searched his RV after and say they found evidence inside the RV that Nichols had been downloading and sending child pornography.

"This is becoming an increasing problem, if you look at the statistics, every year the number of URLs that are hosting child sexual abuse material is going up. I think they went up 60-something percent from 2020 to 2021," said Sergeant Chris Buck with the Rogers County Sheriff's Office.

Investigators say the problem is so big, they could have a whole team of people investigating nothing but this crime and they'd still have more work than they could handle. They say people think they can hide behind the internet.

"It's often the next-door neighbor, people you don't expect to do it. We've found people doing this of all occupations, genders, and all walks of life," said Buck.

Buck says they want to make it clear, watching or sending child pornography isn't a victimless crime.

"There's still a victim. Even though he is just downloading and sending, he may have never met this victim in person, there is still a child out there who is victimized and it's our job to find justice for that child," said Buck.

Every time the picture or video is shared, the victim is re-victimized.

"We love catching bad guys, but these are the worst of the worst, and anybody that is willing to victimize a child, we want to put them in jail," said Buck.

Nichols was arrested for having child pornography and having guns in his RV while committing a felony. He's been booked into the Rogers County Jail.

BATESVILLE, Ark. (KAIT) - Arkansas State Police arrested a Batesville man after they reported finding him in possession of thousands of sexually explicit images involving children as young as infants.

On Friday, Sept. 8, an Independence County Circuit Court judge found probable cause to charge 57-year-old **Randall Earl Riley** with 35 counts of distributing, possessing, or viewing matter depicting sexually explicit conduct involving a child.

Special Agent Sean Riegler reported ASP received a complaint on June 24, 2022, via the Cyber Tipline of someone sharing images of "naked prepubescent minor females posing in a sexual manner."

Information gathered during the investigation led officers to Riley's home on East College Street, the affidavit stated.

After confirming Riley was the only resident, officers executed a search warrant on Nov. 4, 2022, and seized five cellular devices and a laptop.

"The electronic devices were later analyzed by a digital evidence examiner," Riegler stated. "Approximately 1,157 CSAM images were located on two of Riley's cellular phone devices."

The affidavit said the images were of children ranging in age from infants to 5 or 6 years old.

According to the court documents, Riley admitted during a Mirandized interview that he downloaded and viewed images of child pornography.

"Riley admitted that images of child pornography sexually arouse him," the affidavit stated.

Riley is being held on a \$50,000 bond in the Independence County Detention Center awaiting his next court appearance.

SALEM — A 24-year-old Salem man is facing nine counts of child pornography following an investigation by the Internet Crimes Against Children (ICAC) Task Force and the Jefferson County Sheriff's Office.

Rayshawn I. Reams, of West McMackin Street in Salem, was arrested by Salem police on Monday, Nov. 6 as a result of the ICAC Task Force investigation, which was led by Detective Bobby Wallace of the Jefferson County Sheriff's Office.

According to Wallace, the sheriff's office, through its affiliation with the ICAC Task Force, originally received a cyber tip report on September 7 from the National Center for Missing and Exploited Children regarding child pornography activity in the local area.

The search warrants led to the seizure of electronic devices from the home. After those devices were processed by investigators, a number of pieces of evidence were allegedly found on the devices and Reams was arrested on the child pornography charges.

Following his arrest on Monday, Nov. 6 by Salem police, Reams was transported to the Marion County Jail, where he remains in custody, as of Wednesday afternoon, Nov. 8.

PCSO Computer Crimes Unit charges eight for possession of child pornography during "OPERATION MAY'S MONSTERS"

JUN 1, 2023

Detectives from the Polk County Sheriff's Office Computer Crimes Unit (CCU) charged eight suspects during "Operation May's Monsters" for possession of child pornography after receiving tips from the National Center for Missing and Endangered Children (NCMEC) that the suspects were likely transmitting or downloading the child abuse images and videos. Detectives served search warrants at the eight suspects' houses and seized all of their digital devices for further analysis. A total of 1,280 felonies were filed against the suspects, who face additional charges if more illegal content is found.

"These videos and photographs are some of the most horrific my detectives have ever seen - images of children being forced to expose their genitalia and raped. Each time one of these monsters uploads and shares child pornography, they are feeding the child exploitation pipeline and they are victimizing children over and over again. Parents, this is another stark reminder of why it is important to get all in your child's business when it comes to their gaming stations, cell phones, and other electronic devices." – Grady Judd, Sheriff

In order of arrest:

49-year-old William Cuevas of Auburndale was arrested and charged with 66 counts of *enhanced possession of child pornography (F2) and one count of possession of child pornography (F3) after an on-scene preview of his devices, during which detectives found images and videos of children as young as 4 years-old being sexually battered. Cuevas is being held in the Polk County Jail on \$155,000 bond (\$5,000 per charge).

52-year-old Jay Homuth of Lakeland was arrested and charged with 999 counts of *enhanced possession of child pornography (F2) after an on-scene preview of his devices and forensic examination of his devices that were seized. Detectives found images and videos of children as young as 5 years-old being sexually battered. Homuth told detectives that he is addicted to child pornography and was uncertain how many illegal files would be located on his devices. He is being held in the Polk County Jail on a \$4,995,000 bond (\$5,000 per charge).

66-year-old David Sparks of Lakeland was arrested and charged with 999 counts of *enhanced possession of child pornography (F2) after an on-scene preview of his devices and forensic examination of his devices that were seized. Detectives found images of children as young as 3 months-old being sexually battered. He told detectives that he has been viewing child pornography off and on for about 30 years. Sparks is being held in the Polk County Jail on \$4,995,000 bond (\$5,000 per charge).

33-year-old Shayne Osborne of Polk City was arrested and charged with 201 counts of *enhanced possession of child pornography (F2) after an on-scene preview of his devices, during which detectives found images and videos of children as young as 12 months-old being sexually battered. Osborne told detectives that he had come across child pornography when searching for bestiality pornography. He also claimed to delete it after he downloaded it. Osborne is being held in the Polk County Jail on a \$1,005,000 bond (\$5,000 per charge).

39-year-old Ryan Thomas of Haines City was arrested and charged with 999 counts of *enhanced possession of child pornography (F2) after an on-scene preview of his devices, during which detectives found images and videos of children as young as 5 years-old being sexually battered. He is being held in the Polk County Jail.

40-year-old Paul Viel of Davenport was arrested and charged with 999 counts of *enhanced possession of child pornography (F2) after an on-scene preview of his devices and forensic examination of his devices that were seized. Detectives found images and videos of children as young as newborns being sexually battered. Viel works for Walt Disney World at the Cosmic Rays Restaurant. He is being held in the Polk County Jail on a \$4,995,000 bond (\$5,000 per charge).

24-year-old **Reid Donaldson** of Davenport was arrested and charged with eleven counts of *enhanced possession of child pornography (F2) after an on-scene preview of his devices, during which detectives found images and videos of children as young as 3 years-old being sexually battered. Donaldson is being held in the Polk County Jail on an \$110,000 bond (\$10,000 per charge).

Additionally, on April 24, 2023, the Polk County Sheriff's Office Emergency Communications Center received a tip that 58-year-old Stefan Young of Lakeland, a self-employed boudoir photographer, had posted an ad on Craig's List for a mother with two young daughters to contact him. When the tipster contacted him, Young disclosed that he had conducted boudoir shoots with

children as young as 13-years-old. Additionally, Young told the tipster that he'd taught underage girls various sex acts in the past.

Based on information obtained during the investigation, an undercover detective responded to Young's boudoir photoshoot advertisement. Young also told the undercover detective that he would conduct a boudoir-style photoshoot with an underage girl. Young then began an online conversation with a different undercover detective who was posing as a 13 year-old girl and asked if he could take nude photos of her. Additionally, Young requested the "13 year-old girl" to "sneak" a picture of herself and send it to him.

On May 25, 2023, detectives executed a search warrant at Young's residence and during an on-scene preview of his devices, detectives found three lewd images of a 9 year-old child.

Young was arrested and charged with three counts of possession of child pornography (F3) and is being held in the Polk County Jail on a \$30,000 bond (\$10,000 per charge).

The images did not appear to depict local Polk County children, but the investigation is ongoing to identify them.

*The felony child pornography charges are upgraded (enhanced) if the suspect possesses 10 or more images of child pornography and at least one image contains any of the following criteria:

- Image depicts a child younger than the age of 5
- Image depicts sadomasochistic abuse of a child
- Image depicts sexual battery of a child
- Image depicts sexual bestiality involving a child
- Any sexually explicit movie involving a child

Levittown Man Charged With Having Child Pornography

Richard John Anderson, 37, of Levittown, downloaded images of underage girls from a website, Falls Township Police said.

FALLS TOWNSHIP, PA —A Levittown man has been charged with possession of child pornography after telling Falls Township Police that he downloaded images off a website.

Richard John Anderson, 37, of Levittown, was charged with possession of child pornography and the sexual abuse of children through the dissemination of pictures and videos, the Falls Township Police Department said.

Anderson was preliminarily arraigned by District Judge Terry Hughes Wednesday afternoon with bail set at \$100,000.00 unsecured.

The judge also placed conditions on Anderson, including no contact with any minors, and that contact with his children must be under supervision. Anderson must also follow Children and Youth's safety plan, stay at his mother's address, and have no internet use.

On Thursday, Falls Township Police Detective Ronald MacPherson and other police officers executed search warrants on Richard Anderson and H&R block.

The warrants were executed at 153 Levittown Parkway in Levittown, where MacPherson found a blue Apple iPhone 14 in a black silicone case in Anderson's left pocket.

MacPherson later searched the phone's contents and found numerous saved images which depict child pornography and prohibited sexual acts.

Police noted three of those images:

A prepubescent female, about 12 years old, with brown hair laying naked on a bed exposing her breasts and vagina.

A pre-pubescent female, about 11-13 years old, wearing blue jeans and no shirt exposing her breasts.

Two pubescent females, about 13-16 years old, naked in the bathtub. One female is performing oral sex on the other female.

Anderson admitted to police that he went on a sex website which he said, "definitely some stuff" was questionable at best, such as kids.

The age ranges were usually teenagers from what Anderson reported viewing. Most of the time they are clothed, sometimes they are not. Sometimes, they are performing sexual acts, according to the affidavit.

MacPherson asked how he would get a video and Anderson said it was probably sent through the website. From the website, he would communicate with other people in the chat room.

MacPherson asked whether Anderson would exchange pornography or trade with people and Anderson said, "A little bit yeah."

MacPherson asked if any were teenagers and Anderson replied, "No." MacPherson asked if they were the people in question at least and he responded, "Maybe."

Anderson told police that he would upload the files stored on his phone onto the website.

During the interview, MacPherson went through photos on Anderson's phone. There were numerous photographs of what appeared to be prepubescent females (in their early teenage years). Anderson told police that he is sexually attracted to underage females.

Forensic analysis of the phone and other storage media and electronic devices seized during the search warrant is ongoing, police said.

'It's because of the porn:' Cambria Co. man viewed dozens of images of child porn, AG says

by WJAC staff Sat, May 13th 2023, 10:13 AM EDT

CAMBRIA COUNTY, Pa. — Authorities with the Pennsylvania Office of the Attorney General say a Cambria County man is behind bars following a months-long child porn investigation.

Officials say in February, agents received a CyberTip that multiple images of suspected child pornography had reportedly been viewed at a Johnstown area address.

Investigators say the IP address was linked to a residence along the 100 block of Boulder Drive, where 79-year-old **Richard Hirsch** reportedly resided.

Authorities say some of the images depicted girls, some as young as 4 to 6 years old, performing various sexual acts or in various sexually explicit poses.

Investigators say last week, a search warrant was executed at Hirsch's home and his devices were seized.

Authorities noted that when agents arrived at his home, Hirsch allegedly "ignored commands" and ran into one of the rooms to unplug his computer.

"I know why you're here, it's because of the porn," Hirsch allegedly told authorities. "I was on YouTube and I saw the porn," he added.

According to the affidavit, authorities say Hirsch explained that he began viewing child pornography approximately 10 years ago out of "curiosity."

Investigators say he claimed that he would visit YouTube and "just click links" that led him to the child porn.

Online court records show that Hirsch was arraigned over the weekend on two dozen counts of felony child pornography, as well as one count of criminal use of a communication device.

He was arraigned to the Cambria County Prison on \$100,000 bail and has since posted bond.

Enfield Man Charged With Possessing Child Pornography

About 60 videos depicting suspected child pornography were found on a cell phone belonging to an Enfield resident, according to police.

Posted Tue, Feb 21, 2023 at 4:18 pm ET

ENFIELD, CT — A child pornography complaint received by police late last year from the National Center for Missing and Exploited Children (NCMEC) resulted in a lengthy investigation which culminated with the arrest of an Enfield resident Monday.

Richard Klotzer, 41, was charged on a warrant with first-degree possession of child pornography. Bond was set at \$25,000, according to police records.

A heavily-redacted affidavit supporting Klotzer's arrest indicates a tip was received from the NCMEC CyberTipline Report, stating a complaint was received from a social media application company that a user had posted an image of suspected child pornography. A detective wrote, "the file contained an image of real persons that appeared to be between four and seven years old engaged in sexually explicit conduct."

Investigation into a computer IP address led police to execute a search-and-seizure warrant at Klotzer's Church Street home. Upon being informed of the nature of the investigation, Klotzer "immediately stated that it was him and he had downloaded an image accidentally." He then said he had downloaded about five images, then changed his story to say he had actually downloaded about 30, according to the affidavit.

A cell phone which had been taken from Klotzer by police contained 60 videos and one image, depicting "real persons that appeared to be ... of various ages between one and thirteen years old, engaged in sexually explicit conduct," according to the affidavit.

Bivens was arraigned on two felony counts and three misdemeanor counts of possession of child sexual abuse material.

Sollace was arraigned on four felony counts of possession of child sexual abuse material.

The charges brought against the two men were part of a criminal investigation, including the execution of search warrants into the shared residence of Bivens and Sollace, as well as online data accounts.

The Vermont Internet Crimes Against Children Task Force led the investigation. In this case, it included personnel from the Attorney General's Office, Montpelier Police Department, Randolph Police Department, Burlington Police Department, and Homeland Security Investigations.

ELON, N.C. (WGHP) — A man accused of uploading child sex abuse materials has been charged.

Dubuque Sex Offender Sentenced to Twenty-Five Years in Federal Prison

Tuesday, February 14, 2023

For Immediate Release

U.S. Attorney's Office, Northern District of Iowa

While on Sex Offender Registry Used Aliases on Social Media to Receive Child Sexual Abuse Material

A man who posed as multiple teenagers to engage in sexually explicit communication with minors online and receive child sexual abuse material, was sentenced on February 13, 2023, to 25 years in federal prison.

Robert "Bobby" Lippstock, age 33, from Dubuque, Iowa received the prison term after a September 27, 2022 guilty plea to receipt and possession of child pornography.

At the guilty plea, Lippstock admitted he received and possessed depictions of child pornography from 2019 to 2020. At a prior hearing, evidence established that Lippstock was previously convicted of attempting to meet with a minor at a local park. In this case, Lippstock again fooled minors into thinking he was their friend in order to facilitate sexually explicit communication with them. After gaining their trust, he successfully received and re-distributed child sexual abuse material online through at least eight separate social media aliases. In addition, Lippstock possessed child sexual abuse material on multiple electronic devices in his residence. At sentencing, the Judge stated Lippstock poses a real and present danger to the community, particularly to children.

Lippstock was sentenced in Cedar Rapids by United States District Court Judge C.J. Williams. Lippstock was sentenced to 300 months' imprisonment. He must also serve a ten-year term of supervised release after the prison term. There is no parole in the federal system.

This case was brought as part of Project Safe Childhood, a nationwide initiative launched in May 2006 by the Department of Justice to combat the growing epidemic of child sexual exploitation and abuse. Led by the United States Attorneys' Offices and the Criminal Division's Child Exploitation and Obscenity Section, Project Safe Childhood marshals federal, state, and local resources to locate, apprehend, and prosecute individuals who sexually exploit children, and

to identify and rescue victims. For more information about Project Safe Childhood, please visit www.usdoj.gov/psc. For more information about internet safety education, please visit www.usdoj.gov/psc and click on the tab "resources."

Lippstock is being held in the United States Marshal's custody until he can be transported to a federal prison.

The case was prosecuted by Assistant United States Attorneys Liz Dupuich and Jason Norwood and investigated by the Dubuque County Sherriff's Department.

Wilkes-Barre man, 71, arrested for downloading child sexual abuse materials

July 21, 2023

By Ed Lewis

WILKES-BARRE — Days after law enforcement authorities announced statistics in Operation Safe Screen targeting individuals sexually preying upon minors, a Wilkes-Barre man was arrested on allegations he downloaded images of child sexual abuse materials.

Robert Moore, 71, of Park Avenue, admitted he had been searching for child pornography using key search words for years, according to court records.

A forensic analysis of Moore's computer uncovered digital files of nude children or children engaged in sexual acts with the youngest child estimated to be 2 to 3 years old, court records say.

Moore was arrested by agents with the Pennsylvania General's Office's Child Predator Section, members of the Internet Crimes Against Children Task Force.

When agents served a search warrant at his apartment, Moore admitted "all kinds of pornography" would be found on his computer including "hundreds of images of child pornography," court records say.

Moore allegedly claimed he last viewed child sexual abuse materials on Wednesday, a day before agents greeted him at his apartment door with the search warrant.

Moore was arraigned by District Judge Thomas Malloy in Wilkes-Barre on 25 counts of child pornography and a single count of criminal use of communication facility. He was jailed at the Luzerne County Correctional Facility for lack of \$25,000 bail.

State agents were led to Moore after investigating CyberTips from the National Center for Missing & Exploited Children.

On Tuesday, State Police Area III Commander Michael Carroll announced "Operation Safe Screen," a multi-agency law enforcement initiative targeting child predators, had resulted in the arrest of 26 people from April to June,

including the shut down of 15 websites for displaying child sexual abuse materials.

Man facing multiple counts of possession of child pornography

Jonathan Richie Mar 9, 2023

Aman is facing numerous counts of possession of child pornography in Sauk County after law enforcement received tips from a national exploited children organization.

Robert A. Scace, 50, Poynette, allegedly told police he downloaded the images to see if they had been edited, according to court documents. Scace is facing five counts of possession of child pornography. If convicted, Scace faces up to 15 years in prison followed by up to 10 years of extended supervision for each count.

Online records show Scace remains in custody at the Sauk County Jail. His cash bond was set at \$2,500 at his initial appearance is on March 8.

According to the criminal complaint:

The Baraboo Police Department received the case from the Wisconsin Department of Justice on Feb. 14. A pair of cyber tips of apparent child pornography from the National Center for Missing and Exploited Children were received in December. The two images showed nude prepubescent children, and one included an adult male in the photo.

Baraboo police learned the image was downloaded by an IP address on Moore Street in Baraboo. Authorities obtained a search warrant of the home on Feb. 27 and surveilled the home where Scace lived with Paul Anderson.

The search warrant was served on March 3 by Baraboo Police and a multi-jurisdictional Sauk County task force including the Sauk County Emergency Response Team and the State Division of Criminal Investigation. Scace and Anderson were detained without incident.

Scace agreed to talk to police, who initially believed Anderson was downloading the images. Scace said Anderson was his roommate and was not savvy with technology and allegedly admitting it was he who downloaded the photos.

The complaint details all 15 of the images the DCI recovered from Scace's computer. Most of the images described in the complaint show pre-pubescent

and early pubescent children, some allegedly performing sex acts with adult men.

Anderson was charged with possession of a firearm by a felon following the search warrant of the Moore Street residence. Court records show he was convicted in 2016 of felony stalking in Sauk County.

Scace is set to be back in Sauk County Courthouse for a pre-trial conference in April and a preliminary hearing scheduled for May.

Former Sidney man sentenced to 7 months for child porn

October 30, 2014

Robert L. Stagge, who now lives in Maryland, pleaded guilty to possessing sexually explicit materials depicting children under age 12.

AUGUSTA — A former Sidney man will spend the next seven months in jail for possessing hundreds of images of child pornography.

Robert L. Stagge, 58, now of Sparks, Maryland, was sentenced Thursday in Kennebec County Superior Court to three years in jail, with all but seven months suspended and two years of probation.

He had pleaded guilty on Oct. 6 in the same court to two counts of possession of sexually explicit materials depicting children under age 12. Stagge requested a delay of his sentence at the time so he could wind up business in Maryland. Justice Michaela Murphy refused and set the sentencing hearing for Thursday.

On Oct. 6, Assistant District Attorney Frayla Schoenfeld said Maine State Police executed a search warrant at Stagge's home on May 7, 2013, and found 830 images of children, mostly girls, ages 5-12 engaged in sexual activity.

At that time, according to court filings by Assistant Attorney General Kate M. Lawrence, "Stagge admitted to downloading child pornography and said that he 'had a problem with it since he was 14 years old.' "

Schoenfeld said the pornography was contained on thumb drives and hard drives.

Stagge's attorney, Darrick Banda, said none of the child pornography was found on Stagge's work computers. Stagge had worked for the state of Maine for more than 25 years until July 19, 2013. When he left, he was an information systems support specialist.

Stagge said nothing in court except to enter the pleas and to indicate they were made voluntarily.

Conditions of probation prohibit Stagge from contact with children under 16 and require him to undergo sex offender treatment and counseling. Stagge was

also ordered to register as a 10-year registrant under the state's Sex Offender Registration and Notification Act.

He is also prohibited from use or possession of devices with Internet access, except to work on computers supplied by an employer and subject to search.

In exchange for the two pleas of guilty, a third charge of possession of sexually explicit material and a charge of dissemination of sexually explicit material were dismissed.

Schoenfeld and Banda acknowledged to the judge that the dismissals also reflected the fact that the Internet Protocol address was obtained by a grand jury subpoena rather than other ways specified by courts.

Banda said Stagge had no prior criminal record.

A Flowery Branch teenager was charged with sharing a video of child pornography on Snapchat, according to authorities.

Rocco John Doder, 17, faces 14 counts of sexual exploitation of children. He was booked Tuesday, March 28, in to the Hall County Jail, where he remains with no bond.

The National Center for Missing and Exploited Children tipped off Hall County investigators about a Snapchat video linked to a Hall County address.

The Sheriff's Office and the Georgia Bureau of Investigation's Child Exploitation and Computer Crimes unit searched Doder's home Tuesday. Investigators seized Doder's cellphone, and the GBI unit found additional child sexual abuse material on the phone.

Williams did not have information on the additional material found on Doder's phone other than it was not related to Snapchat.

Internet Crimes Against Children Tips Lead to Four Arrested On Suspicion of Child Pornography

Jessica Cejnar Andrews / Tuesday, March 14 @ 2:02 p.m. / Crime

Internet Crimes Against Children Tips Lead to Four Arrested On Suspicion of Child Pornography

Four people face child pornography charges in connection with three separate cases, including one that allegedly involves a local victim, Crescent City Police Chief Richard Griffin told the *Wild Rivers Outpost*.

These arrests are the products of search warrants CCPD served on March 8 and March 13 that began as tips the department received from the Internet Crimes Against Children Task Force, or ICAC, Griffin said Tuesday.

The first search warrant, served on the 1000 block of U.S. 101 in Crescent City on March 8, resulted in the arrest of 22-year-old Ta-Teh Kennedy on suspicion of downloading child pornography.

According to Griffin, a search of Kennedy's devices uncovered videos Kennedy and his girlfriend, Elijah Price, 18, had allegedly produced involving a local 6-year-old child. By then, Price had fled the area, Griffin said.

After CCPD contacted Humboldt County law enforcement, Price turned herself in and was booked into the Humboldt County jail on March 12, according to Griffin.

Griffin said the alleged videos Kennedy and Price had been producing might have been made over the course of about a year, though CCPD is still working on a complete forensic download of the digital devices officers seized.

Griffin said he expected more charges to be filed against the suspects.

"We are in contact with the child's parent and they're fully cooperating. They had no idea this was going on," Griffin told the *Outpost*, adding that they're also investigating the possibility that the child's sibling may also be a victim.

Griffin said he expects the forensic downloads to be finished next week.

Kennedy faces charges of oral copulation with a minor, possessing obscene matter involving a child under 14 and for possessing obscene matter for commercial purposes.

CCPD served a second search warrant at a home on the 600 block of Washington Boulevard, also on March 8. Acting on a tip from ICAC that someone downloaded child pornography through social media, CCPD arrested 68-year-old Howard Coates.

“We did seize several devices and we also got a good interview with (Coates) where he did admit to downloading child pornography,” Griffin said.

Coates faces a charge of possessing obscene matter involving a child under 14.

Griffin said officers also interviewed Coates’ roommate, who, while not associated with the original investigation, also allegedly admitted to downloading child pornography. However, due to experiencing a medical episode while officers served the search warrant, the roommate was taken to Sutter Coast Hospital, Griffin said.

Griffin said he will be forwarding the results of that investigation to the Del Norte County District Attorney for review and for potentially filing charges against the roommate.

Griffin’s officers served the third search warrant in connection with tips and information his department received from ICAC on Monday at the 1900 block of Northcrest Drive. There they contacted and arrested 28-year-old **Rod Mustard Jr.** and seized multiple digital devices, Griffin said.

According to the police chief, Mustard also allegedly admitted to downloading child pornography. He’s charged with sexual exploitation of a minor and possessing obscene matter involving a child under 14.

Griffin said his department is working with the District Attorney’s office and feels CCPD has solid cases for the DA to move forward with prosecution.

“These types of cases aren’t the easiest to work because of what the officers have to see and the evidence we have to review,” he said. “Everything was done the right way. We believe we have solid cases to forward to the District Attorney’s office and we’ve been in constant contact with them also.”

Long Beach-based priest charged with possessing more than 600 images of child pornography

By Sid Garcia

Friday, September 15, 2023

LONG BEACH, Calif. (KABC) -- A Long Beach-based priest on Thursday was charged in Ventura County with possession of child pornography, prosecutors said.

Rodolfo Martinez-Guevara, 38, was arrested Wednesday in Long Beach, according to the Ventura County district attorney's office. He is accused of possessing "over 600 images of child sexual abuse material, including images and videos of prepubescent minors under the age of 12."

"As a priest, the defendant is in a position of tremendous power, authority and trust. The alleged crimes deeply violate that trust and involve a disturbing number of sexual images of young boys," District Attorney Erik Nasarenko said in a statement. "These are not simply images and videos. Rather, if found true, they constitute horrific exploitation of our most vulnerable, and the actions of the defendant must be met by the full force of the law."

Prosecutors said Martinez-Guevara was living at the Missionaries of the Holy Spirit in Long Beach, adjacent to St. Maria Goretti Church and St. Maria Goretti Catholic School. Through the Missionaries, he was said to have ties to a number of churches, including Our Lady of Guadalupe in Oxnard.

In a statement, the Archdiocese of Los Angeles said Martinez-Guevara is not a priest with the archdiocese but is affiliated with the Missionaries of the Holy Spirit Religious Order.

"He was at Our Lady of Guadalupe Church in Oxnard from July 1, 2021, to September 30, 2022, as a transitional deacon and newly ordained priest," according to the archdiocese. "Since then, he has been in residence with the Missionaries of the Holy Spirit in Long Beach with faculties to minister in the archdiocese. He has been removed from ministry by the archdiocese and his order.

"The archdiocese stands against any sexual misconduct and is resolute in our support for victim-survivors of any misconduct. We reaffirm our unwavering commitment to ensuring that parishes, schools and ministries are safe places for everyone in our community."

According to prosecutors, an investigation into Martinez-Guevara began after "several reports" were made to the National Center for Missing and Exploited Children. Investigators determined that he was believed to be in possession of large numbers of photos and videos of child sexual abuse material, most involving boys, the district attorney's office said.

He was arrested by members of the Ventura County Child Exploitation & Human Trafficking Task Force, which includes the Ventura and San Bernardino County sheriff's departments, Ventura County district attorney's office, Ventura and Oxnard police departments, the FBI and U.S. Attorney's Office.

Martinez-Guevara's bail was set at \$750,000. He is scheduled to be arraigned Friday in Ventura County Superior Court.

Mary Schenk, The News-Gazette, Champaign-Urbana, Ill.
October 4, 2023

Oct. 4—URBANA — A University of Illinois student who allegedly disseminated child pornography through a student computer account is being held in the Champaign County Jail.

Judge Brett Olmstead will decide Thursday if **Rogelio Renteria**, 21, should continue to be held, as requested by the state, before he's tried on two counts of child pornography filed against him Wednesday.

Laying out a brief set of facts for the judge Wednesday, Assistant State's Attorney Chris McCallum said UI police received a tip in March from the Center for Missing and Exploited Children about six pornographic videos depicting children in sex acts that were being shared through an IP address linked to a student.

UI police detectives trained in combing the internet for such illegal activity learned Renteria, who listed an address in the 500 block of South First Street, allegedly sent pornographic videos late Feb. 19 using a Snapchat account. He was arrested Tuesday by UI police.

If convicted of the more serious of the two charges, Renteria faces a mandatory prison term of between six and 30 years and up to lifetime supervision by parole authorities.

Redlands man accused of possessing thousands of images of child pornography

by: Travis Schlepp

Posted: Oct 9, 2023 / 03:22 PM PDT

A 23-year-old man from Redlands has been arrested for allegedly possessing thousands of images of child pornography.

Rylan Meier was arrested last Friday at his home on the 100 block of South Center Street, after law enforcement investigators were tipped off that he had been communicating with an underage girl on social media.

The Redlands Police Department began investigating Meier in September after receiving a tip from the National Center for Missing and Exploited Children, in which a person came forward to claim the Meier was contacting the minor for sex.

Investigators eventually obtained a warrant to search his home, which led to the discovery of more than 5,000 images "depicting child sexual abuse" which were allegedly stored on his personal online accounts.

Meier was arrested and booked into jail, but has since been released after posting bail, according to jail records. A date has not yet been set for him to appear in court.

The investigation is ongoing and anyone with information related to the case or other instances of child sexual abuse should contact Redlands Police Investigator Dale Peters by email or by calling 909-798-7681.

Racine man convicted of child sex assault facing 15 charges of having child porn

Samuel Hawkins was previously convicted of felony first-degree child sex assault and possession of child pornography in September 2015. He was released in 2019.

RACINE, Wis. — A 36-year-old Racine man recently out of prison for sexually assaulting a child is now facing 15 felony charges of possession of child pornography.

Samuel Hawkins was charged Friday after a Mount Pleasant Police Department investigator executed a search warrant at his home Wednesday following a tip made over the internet concerning child pornography.

According to a criminal complaint, during an interview with an investigator, Hawkins "appeared extremely nervous and panicked, and his breathing was erratic." The complaint says he stated, "I'm going to [explicit] lose everything now."

Hawkins said he "downloaded a coming of age foreign film" and that is where he thought the tip came from. The complaint says he said there was no nudity or sexual content in the movie, but stated, "Don't get me wrong, there is going to be stuff." The interview ended when he requested an attorney.

The search warrant revealed multiple images and videos of child pornography from Hawkins' cell phone. Investigators also found two firearms in the home. Due to his prior felony conviction, he is prohibited from possessing any firearms.

Hawkins was previously convicted of felony first-degree child sex assault and possession of child pornography in September 2015. He was sentenced to eight years but was released in 2019, according to online court records. He was 26 at the time.

A \$75,000 cash bond was set for Hawkins on Friday. He will return to court for a preliminary hearing on Aug. 2.

A Monroe man is facing 20 felony charges for allegedly possessing child pornography, according to the Butler County Prosecutor's Office and court records.

Shannon Travis Lacey, 48, was indicted by a grand jury this week on nine counts of illegal use of a minor in nudity-oriented material or performance, a fifth-degree felony and 11 counts of pandering sexually-oriented matter involving a minor, a fourth-degree felony, according to the indictment.

VIRGINIA BEACH, Va. — A Virginia Beach man is in jail facing 10 felony charges of child pornography, and neighbors said the man used to be a children's baseball coach.

Police arrested 50-year-old **Shannon Robbins** after they received a search warrant to go through his home on Creekwood Court. According to court documents, detectives found several files of child porn inside the house.

Neighbors said they woke up baffled to find a SWAT team searching the quiet Virginia Beach neighborhood.

"My wife saw somebody getting frisked, I think she lived in the cul-de-sac over there," said one neighbor. "There were police officers all over the street."

Neighbors said detectives remained in the neighborhood gathering evidence for hours.

According to court documents, witness statements about the alleged pornography led police detectives to file for the search warrant.

The age and gender of the victims are not known at this time, and Virginia Beach police could not confirm or deny Robbins' past position and said the investigation is ongoing.

13News Now reached out to Robbins' attorney but did not hear back.

Robbins is in Virginia Beach City Jail without bond. He is expected to appear before a judge on October 31.

Police say the investigation is ongoing and that anyone with information about the case is encouraged to leave an anonymous tip at 1-888-8477 or P3tips.com.

24 year old Shippensburg man arrested for child porn possession

27 April 2023- A young Shippensburg man is looking at charges from the Pennsylvania Attorney General's office after cyber tips allegedly show him sending nearly 100 files of child porn over the internet. **Shawn Ryan Alleman** is charged with 25 counts of felony child pornography possession and one count of felony criminal use of a communications facility. Alleman is free on an unsecured bail of \$20,000.

On August 11th of 2022, members of the Attorney General's Office received cyber tips from National Center for Missing and Exploited Children about an individual uploading 98 files to the messaging platform Kik. The Upload IP addresses were found later to be in Pennsylvania and the files were determined to be child pornography. The account used was later deleted but Agent Nye of the Attorney General's Office later received more cyber tips about additional users that were uploading child pornography. This continued across multiple usernames. The usernames had similar emails but not the same attached to them, most notably starting with "salleman".

On October 7th of 2022, Special Agent Nye carried out a subpoena on Comcast subscriber information for one of the IP addresses involved in the child porn uploading. That subpoena turned up an address on Partridge Trail in Shippensburg associated with Shawn Ryan Alleman. On January 23rd of 2023, a search warrant was granted for that home on Partridge Trail.

The next day, January 24th, agents from the Pennsylvania Office of the Attorney General executed a search warrant on the property associated with Shawn Alleman and his parents. Alleman was found to be the only person home and was subsequently video interviewed in the dining room.

During the interview, police confirmed ISP's used by Alleman, phone numbers, social media used by Alleman, and other relevant information. Alleman allegedly told investigators that he had had Kik accounts previously but had actively deleted them soon after creating them because "he no longer needed the accounts". After asking why they were deleted, Alleman allegedly said his accounts get blocked and that this was most likely because of child pornography. When asked about whether investigators would find child

pornography in the home, Alleman allegedly said “no” because he “deletes the child pornography after he is done with it”.

Asking when and how he gets the child porn, Alleman allegedly told investigators that he follows links through Kik and that he had allegedly first seen it after he graduated high school. Alleman also allegedly told investigators that he had seen child porn within the last two weeks but doesn't have a Kik currently because he would make a new account, search for child porn, masturbate to it, then delete it after about three or four days because he knew it was wrong.

After examining Alleman's files on his devices, it was determined that he had at least 25 files of apparent child pornography on his iPhone. According to investigators though, “It should be noted that the twenty five files of child pornography is a small sampling of the total number of child pornography files located on Alleman's Apple iPhone”.

Shawn Alleman is free on an unsecured bail of \$20,000. His preliminary hearing is set for May 3rd.

A West Columbia man is accused of possessing child sexual abuse material.

The state Attorney General's Office announced the Feb. 13 arrest of **Simon Manuel Gates**, 29, after an investigation by the office's Internet Crimes Against Children Task Force, which included investigators from the Lexington County Sheriff's Department.

The arrest came after investigators received a CyberTipline report from the National Center for Missing and Exploited Children, and the Attorney General's Office reports in a release that Gates possessed multiple files of child sexual abuse material.

Gates is charged with four counts of third-degree sexual exploitation of a minor, a felony that is punishable by up to 10 years in prison on each count.

The Attorney General's Office will prosecute the case.

*Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes," the release states. "'Pornography' can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason."

Green Bay man accused of trying to entice 13-year-old runaway from Hawaii

The “runaway” was an undercover officer posing as a child online

By WBAY news staff

Published: Sep. 21, 2023 at 11:15 AM EDT

GREEN BAY, Wis. (WBAY) - A 44-year-old man from Green Bay faces 25 years in prison if he’s convicted of trying to entice a 13-year-old girl from Hawaii.

The girl was actually an undercover officer investigating the trafficking and exploitation of children at a military installation in Hawaii.

According to the complaint against **Steven Baye**, the special agent posted an ad on Reddit saying she wanted to run away. A Reddit user replied to the ad and offered to house the girl with the intention of having sex with her.

He went on to say that he was sexually active with his two daughters, 13 and 15 years old, and previously had sex with a juvenile runaway. Investigators say he sent a number of explicit photos of himself and a young girl.

Detectives tracked down the Reddit account to Baye, and they confirmed he doesn’t have any children. A U.S. Marshals Office task force took him into custody Monday.

When investigators interviewed him, they say Baye admitted to some of the accusations but said he didn’t know the “girl” he was chatting with was supposed to be 13 and said he thought “this was like a role playing thing.”

He admitted having other conversations with girls under 18 and said investigators would find pictures of girls on his phone, clothed and not nude.

Baye is charged in Brown County court with one count of child enticement for sexual contact. He signed a \$10,000 signature bond with stipulations he can’t use Reddit and he can’t use social media to contact anyone under the age of 18.

NEWTON TWP., Ohio (WKBN) — A man was arrested on sex charges Thursday after a search warrant was served at a home in the 2300 block of Grant Avenue.

Steven Billock, 39, faces two counts of pandering obscenity involving a minor, a second-degree felony and one count of gross sexual imposition, a third-degree felony.

The charges were filed Friday in municipal court, a news release from the Trumbull County Sheriff's Office said.

The release said the warrant was served at the home after the sheriff's office received a tip from the Ohio Internet Crimes Against Children agency, part of the state attorney general's office.

An 8-year-old victim is in the care of Trumbull County Children Services Board.

Evidence collected in the search included images and video.

"It was pretty severe. We knew that we had to act on it as soon as we received the information, and we started working on obtaining a search warrant," said Major Tony Villanueva

Assisting the sheriff's office were the Mahoning Valley Crisis Response Team, the Department of Homeland Security, Cuyahoga County Internet Crimes Against Children Task Force, Howland and Liberty police departments and Trumbull County Children Services Board.

Villanueva wanted to emphasize the outstanding cooperation between all those agencies. He said everyone had to act quickly when they got the tip, and they were not sure exactly what they were getting into when they raided the residence.

EDWARDSVILLE, Ill. (KMOV) - The Madison County State's Attorney Tom Haine and Attorney General Kwame Raoul announced Friday that they are filing charges against a Metro East man in relation to distributing child porn on social media.

Steven Garrison, 44, of Alton, Ill, is being charged with five Class X felony counts of child pornography. These counts allege that between February 1 to February 4, Garrison used the messaging platform Discord to post videos containing child pornography.

The investigation into Garrison started when the National Center for Missing & Exploited Children received cyber tips. The case was investigated by the Illinois Attorney General's Office Internet Crimes Against Children Task Force, with assistance from the Alton Police Department.

"Child pornography is a horrific crime that can leave life-long scars on innocent children and their families," said Raoul. "As a result of the law enforcement collaboration through my office's Internet Crimes Against Children Task Force, this alleged predator can be held accountable."

During the investigation, it was found that Garrison had 15-100 grams of methamphetamine. This resulted in another Class X felony charge of unlawful possession of methamphetamine with intent to deliver.

A Class X felony is punishable by up to 30 years in prison.

Garrison's bail is set at \$500,000. He remained in custody as of Friday afternoon.

The judge also granted a prosecution request that Garrison be prohibited from having contact with anyone younger than 18 in the event that he is released on bond.

"Child pornography is appalling, and these types of cases are very concerning," said Haine. "As prosecutors, we must always go above and beyond to protect our vulnerable children from sexual exploitation. We're thankful that this matter was brought to the attention of the proper authorities, and I commend the investigators and agencies for their tremendous work on the case."

The Charges were filed in the Circuit Court in Madison County.

Internet Crimes Against Children Tips Lead to Four Arrested On Suspicion of Child Pornography

JESSICA CEJNAR ANDREWS / TUESDAY, MARCH 14, 2023 @ 2:02 P.M. / CRIME

Four people face child pornography charges in connection with three separate cases, including one that allegedly involves a local victim, Crescent City Police Chief Richard Griffin told the *Wild Rivers Outpost*.

These arrests are the products of search warrants CCPD served on March 8 and March 13 that began as tips the department received from the Internet Crimes Against Children Task Force, or ICAC, Griffin said Tuesday.

The first search warrant, served on the 1000 block of U.S. 101 in Crescent City on March 8, resulted in the arrest of 22-year-old **Ta-Teh Kennedy** on suspicion of downloading child pornography.

According to Griffin, a search of Kennedy's devices uncovered videos Kennedy and his girlfriend, Elijah Price, 18, had allegedly produced involving a local 6-year-old child. By then, Price had fled the area, Griffin said.

After CCPD contacted Humboldt County law enforcement, Price turned herself in and was booked into the Humboldt County jail on March 12, according to Griffin.

Griffin said the alleged videos Kennedy and Price had been producing might have been made over the course of about a year, though CCPD is still working on a complete forensic download of the digital devices officers seized.

Griffin said he expected more charges to be filed against the suspects.

"We are in contact with the child's parent and they're fully cooperating. They had no idea this was going on," Griffin told the *Outpost*, adding that they're also investigating the possibility that the child's sibling may also be a victim.

Griffin said he expects the forensic downloads to be finished next week.

Kennedy faces charges of oral copulation with a minor, possessing obscene matter involving a child under 14 and for possessing obscene matter for commercial purposes.

CCPD served a second search warrant at a home on the 600 block of Washington Boulevard, also on March 8. Acting on a tip from ICAC that someone downloaded child pornography through social media, CCPD arrested 68-year-old Howard Coates.

“We did seize several devices and we also got a good interview with (Coates) where he did admit to downloading child pornography,” Griffin said.

Coates faces a charge of possessing obscene matter involving a child under 14.

Griffin said officers also interviewed Coates’ roommate, who, while not associated with the original investigation, also allegedly admitted to downloading child pornography. However, due to experiencing a medical episode while officers served the search warrant, the roommate was taken to Sutter Coast Hospital, Griffin said.

Griffin said he will be forwarding the results of that investigation to the Del Norte County District Attorney for review and for potentially filing charges against the roommate.

Griffin’s officers served the third search warrant in connection with tips and information his department received from ICAC on Monday at the 1900 block of Northcrest Drive. There they contacted and arrested 28-year-old Rod Mustard Jr. and seized multiple digital devices, Griffin said.

According to the police chief, Mustard also allegedly admitted to downloading child pornography. He’s charged with sexual exploitation of a minor and possessing obscene matter involving a child under 14.

Griffin said his department is working with the District Attorney’s office and feels CCPD has solid cases for the DA to move forward with prosecution.

“These types of cases aren’t the easiest to work because of what the officers have to see and the evidence we have to review,” he said. “Everything was done the right way. We believe we have solid cases to forward to the District Attorney’s office and we’ve been in constant contact with them also.”

Convicted sex offender faces child pornography charge

By WILLIAM F. WEST Staff Writer May 12, 2023

A Rocky Mount man already on the statewide online registry of convicted sex offenders was charged in Edgecombe County with felony third-degree sexual exploitation of a minor, records at the courthouse in Tarboro said.

Taqwan Cox, 28, was accused of possession of material containing a visual representation of an unknown approximately 5-year-old to 8-year-old girl, the records said.

The visual representation of the girl shows her stripping herself to the point of nudity, showing her genitalia and touching herself, the records said.

State law specifies third-degree sexual exploitation of a minor as one knowing the character or content of the material in possessing material containing a visual representation of a minor engaging in sexual activity.

The Edgecombe County Sheriff's Office on May 5 obtained a warrant for the arrest of Cox and the warrant specified the offense occurred on Aug. 22, 2022, the judicial system records said.

Cox on Wednesday appeared before the Edgecombe County District Court, which appointed attorney Tia Taylor to represent him and ordered him to return to court on May 24, the records said.

Cox continued to remain in custody under a \$500,000 secured bond in the county detention center, the records said.

Additionally, the records said Cox is charged with having violated probation.

Cox had listed an address in the 400 block of Northeast Main Street, the records said.

State sex offender registry records said Cox was convicted in May 2022 in Washington County for second-degree sexual exploitation of a minor and was placed on probation for five years.

State law specifies second-degree sexual exploitation of a minor as one knowing the character or content of the material in recording, photographing, filming,

developing or duplicating material containing a visual representation of a minor engaged in sexual activity.

State law, in the alternative, also specifies second-degree sexual exploitation of a minor as one knowing the character or content of the material in distributing, transporting, exhibiting, receiving, selling, purchasing, exchanging or soliciting material containing a visual representation of a minor engaged in sexual activity.

Word of the arrest of Cox by the Edgecombe County Sheriff's Office began circulating via the Fighting Crime News and Who's Wanted Facebook page and the county sheriff's office's online link showing the identities of those booked into the county detention center.

CAPE GIRARDEAU – U.S. District Judge Stephen N. Limbaugh Jr. on Tuesday sentenced an Iron County, Missouri man to 88 months in prison for the possession of over 900 images containing child pornography.

Judge Limbaugh also ordered **Timon Odell Mouser**, 54, to be placed on supervised release for life after his release from prison.

In July of 2022, the FBI was assisting the Phelps County Sheriff's Department with a cyber tip received from the National Center for Missing and Exploited Children about an IP address used to trade child sexual abuse material. They traced it to Mouser's home, and a search of his computer found over 900 images containing child pornography, including images of infants and toddlers and other prepubescent minor children.

Mouser pleaded guilty in U.S. District Court in Cape Girardeau in August to one count of possession of child pornography.

The FBI and the Phelps County Sheriff's Department investigated the case. Assistant U.S. Attorney Julie Hunter prosecuted the case.

This case was brought as part of Project Safe Childhood, a nationwide initiative to combat the growing epidemic of child sexual exploitation and abuse launched in May 2006 by the Department of Justice. Led by U.S. Attorneys' Offices and the Department of Justice Criminal Division's Child Exploitation and Obscenity Section, Project Safe Childhood marshals federal, state and local resources to better locate, apprehend and prosecute individuals who exploit children via the Internet, as well as to identify and rescue victims. James Island man arrested on 3 child exploitation charges

By Pilar Briggs Updated: May. 17, 2023 at 6:40 PM EDT

CHARLESTON COUNTY, S.C. (WCSC) - Charleston County detectives say on Wednesday a James Island man was arrested on charges after possessing multiple pieces of child sexual abuse material.

Timothy Joseph Brinson, 43, is charged with one count of second-degree sexual exploitation of a minor and two counts of third-degree sexual exploitation of a minor.

An affidavit states deputies started their investigation on Jan. 27 after receiving a tip from the South Carolina Internet Crimes Against Children Task Force about sexual exploitation of a minor.

On Jan. 6, a Microsoft user had distributed a picture that depicted a female child who was approximately four to six-years-old where she appeared to be performing a sex act on an adult male, an affidavit states.

Detectives say while conducting a search warrant at Brinson's home, detectives found a cell phone where it had the same picture that was referred to in the received tip.

On the phone there were also pictures of Brinson that were linked to his social media accounts and pictures of his driver's license, an affidavit states.

On May 8, detectives downloaded cell phones that were taken from Brinson's home during a search warrant, detectives say.

The download of the cell phone showed multiple files of "visual representations" of a minor engaging in sexual activity or appearing in state of sexually explicit nudity, an affidavit states.

Detectives say the file had a picture of a female child between ten to twelve-years-old with her bare chest exposed.

Detectives also found another file that had a picture of a female child, between ages six to eight-years-old, where she is with two adult males, and performing a

sex act on one and the other appearing to be sleeping next to the adult male, an affidavit states.

Brinson was being at Al Cannon Detention Center. His bond was set for \$150,000.

Lewiston man admits to child porn charge

Timothy Doyon faces up to 50 years in prison for sexual exploitation of a child and possessing child pornography.

Posted October 24, 2023

PORTLAND — A Lewiston man admitted Tuesday to having child pornography and exploiting a child sexually, both federal felonies.

Timothy Doyon, 28, appeared in U.S. District Court in handcuffs where he pleaded guilty to sexual exploitation of a child, a crime punishable by 25 to 50 years in prison.

He also pleaded guilty to possession of child pornography, which carries a minimum sentence of 10 years in prison and a maximum sentence of 20 years.

The penalties were enhanced because Doyon has a prior conviction for possessing child pornography.

On each count, he faces a fine of up to \$250,000 and supervised release after prison for five years to life. Doyon waived his right Tuesday to have the charges presented to a federal grand jury for indictment.

Investigators said in court papers that, on or about Jan. 11, Doyon used and employed a minor to engage in sexually explicit conduct for the purpose of producing a visual depiction of that conduct.

On or about May 5, Doyon had a memory card that included images of child pornography, according to court papers.

“At least one image of child pornography involved in the offense involved a prepubescent minor or a minor who had not attained 12 years of age,” according to a charging document in court files.

On about July 21, 2016, Doyon was convicted of possession of sexually explicit material of a minor under 12 in Androscoggin County Superior Court, according to court records.

Doyon, who was arrested in August, is in federal custody, having waived his right to a hearing on his detention.

He may not withdraw his convictions, but may appeal if he is sentenced to more than 25 years in prison.

No sentencing date has been set.

Child Pornography Cybertip Leads to Welch Man's Arrest

by John Tyson, The Welch News Editor on January 6, 2023

WELCH, W.Va. – A Welch man has been arrested for alleged possession of child pornography after a local State Police investigation.

According to a criminal complaint filed with the McDowell County Magistrate Court, a cyber tip was reported by Google concerning two images, one being an anime (Japanese animation) image of what appeared to be a young girl and the other featured a prepubescent girl engaged in sexually explicit conduct.

WV State Trooper R.L. Jones was assigned to the cyber tip on December 19th and traced the Google Account back to a local Internet Provider address said to be located in the City of Welch Water Company.

In the criminal complaint, Trooper Jones identified Welch resident **Timothy Morgan** as the suspect and on Tuesday, December 27th, Trooper Jones and Trooper K. M. Saddler executed a search warrant for Morgan's residence and seized several electronic devices before taking Morgan to the Welch Detachment for an interview.

During the interview, Trooper Jones said Morgan admitted to creating the account and that his reasoning was to 'keep his wife from finding out about his porn addiction.'

The criminal complaint concluded by saying Morgan has a four year old daughter around the age of the juvenile in the photo reported as child pornography but that it is still unconfirmed at this time if the juvenile is his daughter.

Trooper Jones said the image had not been flagged by the National Center for Missing and Exploited Children (NCMEC) but after interviewing Morgan, the photographs will be submitted to NCMEC as child pornography.

Lexington Men Arrested on Child Sexual Abuse Material* Charges

Lexington Men Arrested on Child Sexual Abuse Material* Charges

(COLUMBIA, S.C.) - South Carolina Attorney General Alan Wilson announced the arrest of **Timothy Jacob Sullivan**, 42, of Lexington, S.C., and Billy Bruce Price, 88, of Lexington, S.C., on four total charges connected to the sexual exploitation of minors. Internet Crimes Against Children (ICAC) Task Force investigators with the Lexington County Sheriff's Department made the arrests in these unrelated cases. Investigators with the Attorney General's Office, also a member of the state's ICAC Task Force, assisted with these investigations.

Investigators received a CyberTipline report from the National Center for Missing and Exploited Children (NCMEC) which led them to both Sullivan and Price. Investigators state Sullivan and Price distributed files of child sexual abuse material.

Sullivan was arrested on February 6, 2023. He is charged with two counts of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment on each count.

Price was arrested on February 9, 2023. He is charged with two counts of sexual exploitation of a minor, second degree (§16-15-405), a felony offense punishable by up to 10 years imprisonment on each count.

Both of these cases will be prosecuted by the Attorney General's Office.

Attorney General Wilson stressed all defendants are presumed innocent unless and until they are proven guilty in a court of law.

* Child sexual abuse material, or CSAM, is a more accurate reflection of the material involved in these heinous and abusive crimes. "Pornography" can imply the child was a consenting participant. Globally, the term child pornography is being replaced by CSAM for this reason.

Columbus Woman Sentenced to Ten Years in Prison for Possessing Child Sexual Abuse Material

Tuesday, September 5, 2023

For Immediate Release

U.S. Attorney's Office, Middle District of Georgia

COLUMBUS, Ga. –A Columbus, Georgia, resident who admitted to possessing photos and videos of children being sexual abused was sentenced to serve ten years in federal prison for her crime.

Townes Ward Borum, 38, of Columbus, Georgia, was sentenced to serve 120 months in prison to be followed by ten years of supervised release by U.S. District Judge Clay Land today after she previously pleaded guilty to one count of possession of child pornography. Borum will also have to register as a sex offender for life upon her release from prison. Borum is not eligible for parole.

“This case serves as a harsh reminder of the length child predators will go to meet their needs at the cost of innocent and trusting lives,” said U.S. Attorney Peter D. Leary. “In collaboration with our law enforcement and community partners, we will seek justice on behalf of sexually exploited children and do everything within our power to hold predators accountable.”

“People like Borum, who sexually exploit children for monetary gain, do serious lasting harm and facilitate in the continued manufacturing and trading of child sexual abuse material,” said Rich Bilson, Supervisory Senior Resident Agent of FBI Atlanta’s Columbus office. “The FBI is committed to working with our partners to find such predators and lock them up so they can do no further harm.”

“This case shows how low predators will go to profit from innocent lives. Working with our law enforcement and prosecutorial partners, the GBI’s Child Exploitation and Computer Crimes Unit remains committed to diligently investigating individuals who exploit our children,” said GBI Director Chris Hosey.

According to facts presented at court, GBI was contacted by law enforcement in New Jersey on May 20, 2022, with information that an adult female in the Middle District of Georgia was distributing nude photos of a young child to a man in their jurisdiction. The initial Cybertip leading to the New Jersey man

came from the National Center for Missing and Exploited Children (NCMEC), and a subsequent investigation found digital files of child sexual abuse material (CSAM) on the man's cell phone. The man told authorities that Borum was providing him with the CSAM material, and that they had been communicating on the Whisper app and by text message. The man said he paid Borum's rent and other expenses in exchange for sexually explicit photos and videos of young children.

A search warrant was executed by GBI at Borum's Columbus home on May 21, 2022. Borum's cell phone was seized; it contained hundreds of images and videos of CSAM, including images of CSAM depicting prepubescent minors. Her phone also contained numerous messages between Borum and others discussing the exchange of child sexual abuse material for money. Agents also found online advertisements she created and posted to sell child sexual abuse material. Borum admitted to the facts in court.

The plea agreement in this case is sealed at the request of the Government for protection of minor victims.

This case was brought as part of Project Safe Childhood, a nationwide initiative to combat the growing epidemic of child sexual exploitation and abuse, launched in May 2006 by the Department of Justice. The case was investigated by GBI, FBI-Atlanta, FBI-Dallas and FBI-Los Angeles, with special assistance from the Bergen County, New Jersey, District Attorney's Office and the National Center for Missing and Exploited Children.

Assistant U.S. Attorney Crawford Seals is prosecuting the case for the Government.

According to a probable cause affidavit filed by the Elk City Police Department, a detective received a cybertip report on January 6 from the Internet Crimes Against Children Task Force regarding a social media account held by 26-year-old **Trevor Anthony Schortemeier**.

The affidavit stated that upon reviewing the report, 14 files were discovered to be uploaded from the social media site between December 2 and December 3.

Four arrested for inappropriate contact with children: why the FBI was in Parkersburg

By Laura Bowen

Published: Feb. 9, 2022 at 10:05 PM EST

PARKERSBURG, [W.Va.](#) (WTAP) - You've probably heard rumors of the FBI being in the area last week. Well local law enforcement addressed the situation publicly Wednesday.

A disclaimer that all charges are alleged and suspects are innocent until proven guilty.

It was revealed at a press conference that four people were arrested for inappropriate contact with who they believed were minors. Those minors were actually undercover agents pretending to be kids.

Now all four suspects are being charged with soliciting a minor via a computer.

It was an FBI operation multiple local agencies helped with.

Within days, all four suspects were arrested at the spots where they were going to meet up with the minor.

Lieutenant Mike Stalnaker, a leader of Parkersburg Police's investigative unit, said, "You had a weekend where it was pouring snow down, it was cold, the roads were horrible, and we still got four people who traveled....,"

One suspect - Jeffrey Ward Junior - traveled hours.

"He engaged in conversations of sexual nature also sending photographs of his genitalia to a person he believed to be a 14 year old," Stalnaker said.

Ward is also already a convicted sex offender. And he wasn't the only one who sent footage of his genitalia to who he thought was a minor.

So did Jamie Todd Holbert.

"He sent a video of his genitalia to the 15 year old along with a picture of his face," Stalnaker said.

Elijah Gage Compton and **Tristan Cumberledge** were the other two arrested.

Stalnaker said, "Cumberledge further went onto make statements to the 14 year old as to wanting to have oral sex with the 14 year old and that he had basically been wanting to do this or meet up with an underage girl for quite some time."

The arrests of these four men isn't the end of this story. Officials say there will probably be more charges as well as warrants carried out.

Trooper J. Demeyer of West Virginia State Police's Internet Crimes Against Children Unit said, "Through the United States this is very common. This is two nights - three nights. Unfortunately that's the world we live in and kids need to be very careful on the internet. It's not safe. Parents need to be aware of what their children are doing."

Three of the suspects posted bond and one is being held at North Central Regional Jail.

Preliminary hearings will be next.

Office of Public Affairs & Media Relations

A Volusia County man has been arrested on more than 2 dozen child pornography charges after a search warrant revealed graphic files on his phone and USB device.

Troy L. Sautbine, 50 (DOB 1/12/1973), of Camp South Moon Road in Astor, was arrested Friday on 25 counts of possession of a sexual performance by a child and remains in custody today on \$625,000 bond.

His arrest followed a tip from the National Center for Missing and Exploited Children, which alerted detectives to a file uploaded to a social media account later determined to be Sautbine's. After obtaining a search warrant for the account, detectives discovered multiple photos of women, teenage girls and young children. Also discovered were multiple comments from Sautbine's social media account describing his attraction to children and desire to sexually abuse them.

In executing a search warrant, detectives discovered 25 video files depicting sexual abuse of girls estimated to range from the age of a baby or toddler to 10 years old. Detectives also recovered Word documents stored on Sautbine's phone containing short stories describing sexual abuse of children, cannibalism and other acts of violence.

Sautbine was asked about the graphic written content and indicated he was participating in a role-playing fantasy.

At this point in the investigation, the VSO Child Exploitation Unit has not identified any victims of abuse. It appears the files in Sautbine's possession were downloaded, not produced locally. Anyone with information about this or any other case involving sexual abuse of children is asked to contact the Child Exploitation Unit at 386-323-3574.

Duryea man faces child pornography charges

October 29, 2023

PITTSTON – A Duryea man who admitted to using a VPN to access the dark web to view images of child sex abuse materials was arrested Friday by Luzerne County Detectives on more than 100 counts of sexual abuse of children, according to court records.

Tyler Rosko, 31, of Meyers Street, was arraigned in front of Magisterial District Judge Brain Tupper on 100 counts of child pornography, one count of disseminating images and video of children engaged in sex act, and one count of criminal use of a communication device.

Rosko was released after posting \$50,000 bail.

According to the criminal complaint:

Detectives received a CyberTip from the National Center for Missing and Exploited Children on Oct. 10 that a suspected image of child sex abuse material was uploaded to Verizon's cloud service by a cellular phone number assigned to Rosko.

The image depicted a pre-pubescent white female completely naked in what appears to be a wooded area. In the top left-hand corner of the image was the web address for a former Ukrainian modeling studio producing soft core child pornography.

Investigators served Rosko at his residence with a search warrant for his mobile phone on Oct. 27., when Rosko admitted to using the "dark web" and a VPN to download images and videos depicting child sex abuse materials and that he keeps them in a hidden folder on his mobile phone.

After detectives examined Rosko's phone, they located the image contained in the CyberTip, as well as 100s of other images and videos of child sex abuse materials in Rosko's hidden folder, which was labeled "Dark."

Rosko said he's been viewing these images for three years and that he was part of a chat group that would send links to child pornography to view and download.

Rosko told investigators that he knows what he does is wrong, stating, "I do not want to do it, but I do it."

A preliminary hearing is set for Nov. 7 at 9:15 a.m. in Luzerne County Central Court.

October 18, 2023 - Ventura County Sheriff's Office officials report that acting on information from a CyberTip from the National Center for Missing and Exploited Children (NECMEC) and prior information related to a sexual assault investigation, detectives identified **Vicente Jasso Jr.** as a suspect in a child pornography case. Jasso is a resident of the unincorporated area of Oxnard, known as El Rio.

LITIGATION RELEASES

William J. Burke

The Commission announced today that on October 30, 2003, a Massachusetts federal judge sentenced **William J. Burke**, the former chief financial officer of Interspeed, Inc., to three years probation and a \$10,000 fine in connection with criminal charges filed against him by the U.S. Attorney for the District of Massachusetts arising from a fraudulent reporting scheme. Burke pleaded guilty on June 25, 2003 to one count of falsification of Interspeed's books and records. During his plea hearing, he admitted concealing information from the company's auditors and structuring a product payment in a way that falsely described the payment's origin. The Honorable George A. O'Toole, Jr., United States District Judge for the District of Massachusetts, ordered that Burke serve the first six months of his probation in community confinement.

The Commission previously filed a related civil injunctive action against Burke and two other former officers of Interspeed, Inc., alleging that they caused Interspeed to engage in a nine million dollar fraud that inflated reported sales between 25% and 93% from January to September 2000. The Commission's litigation is ongoing. In that action, the Commission seeks, among other things, an order permanently barring Burke from acting as officer or director of any public company.

PRESS RELEASE

Havelock Man Sentenced to 7 ½ Years in Prison for Receiving Child Pornography

Friday, January 27, 2023

For Immediate Release

U.S. Attorney's Office, Eastern District of North Carolina

WILMINGTON, N.C. – **William McCoy** was sentenced today to 90 months in prison for receipt of child pornography. McCoy, 26, pled guilty to the charge on July 27, 2022.

According to court documents and other information presented in court, on February 24, 2021, Investigators at Marine Corps Air Station Cherry Point received a CyberTip from the National Center for Missing and Exploited Children (NCMEC) regarding activity on Facebook Messenger. The user had been identified as William McCoy, who was then a lance corporal stationed at Cherry Point.

The CyberTip showed that in chats dated January 31, 2021, McCoy and 16-year-old female Victim-1 had discussed previously having sexual intercourse. McCoy referred to a video recording of the encounter and had instructed Victim-1 to watch a video.

On March 2, 2021, an NCIS agent obtained command authorization to search McCoy and his living space, including digital devices. Agents met McCoy at his commanding officer's office and seized from McCoy's person a Samsung Galaxy Note phone.

McCoy waived his rights and agreed to a video recorded interview. He stated he had dated Victim-1, who he claimed was 22 years old. He stated that they had been dating for six months and were sexually active. McCoy gave permission for his phone to be searched, and agents saw multiple sexually explicit photos of Victim-1, as well as a video in which McCoy and Victim-1 are masturbating together over the video chat application Google Duo. Agents found a phone number for Victim-1, who they contacted and confirmed was currently 17 years old. McCoy admitted that he lied about Victim-1's age, that he found out her true age in November 2020, and that they had sexual intercourse in December 2020.

A digital forensic examiner reviewed McCoy's Samsung Galaxy Note cellphone and found over 50 image files and 150 video files that appeared to depict Victim-1 in child exploitative poses. Of these, 11 images and 47 videos were confirmed to be child pornography based on content through which the subject could be identified as Victim-1 and therefore a minor. It is believed that all photos were of Victim-1; no other minors were identified within the photos.

Subsequent investigation determined that McCoy had solicited, and in some cases received, sexual photos from at least three other minor females who were connected to Victim-1. At the same time, McCoy sent photos and videos depicting his penis to minor females, and some were able to describe his military quarters to investigators.

Michael Easley, U.S. Attorney for the Eastern District of North Carolina made the announcement after sentencing by Chief U.S. District Judge Richard E. Myers II. Naval Criminal Investigative Service (NCIS) investigated the case, which Assistant U.S. Attorney Jake D. Pugh prosecuted.

This case was brought as part of Project Safe Childhood, a nationwide initiative to combat the epidemic of child sexual exploitation and abuse launched in May 2006 by the Department of Justice. Led by U.S. Attorneys' Offices and the Child Exploitation and Obscenity Section, Project Safe Childhood marshals federal, state, and local resources to better locate, apprehend, and prosecute individuals who exploit children via the internet, as well as to identify and rescue victims. Convicted sex offender arrested again on child porn charges, Coweta County deputies say

By [Doug Evans](#) Published November 15, 2023 [Coweta County](#) [FOX 5 Atlanta](#)

COWETA COUNTY, Ga. - A convicted child molester in Coweta County is back behind bars after authorities were tipped off to photographs he allegedly had been sharing on social media.

Zachary Bormann, 28, was arrested on Monday at a Coweta County business where he was employed.

The GBI got a tip from the National Center for Missing and Exploited Children that Bormann had allegedly shared and possessed child sexual abuse material on social media, according to the Coweta County Sheriff's Office.

The GBI handed that over to the sheriff's office investigative unit.

Bormann is no stranger to law enforcement or the court system. He is a registered sex offender who was charged in 2015 with aggravated sexual battery against a child under 16 years old, child molestation, and enticing a child for indecent purposes. He would later be convicted. In 2017, his name would first appear on the Georgia Sex Offender Register as part of his sentence.

According to court records, Bormann is currently on parole and could be ordered back to prison to serve what deputies say was the eight years remaining on his sentence.

Deputies searched his Moreland home and seized his electronic devices. Digital forensic investigators will search those devices for evidence in the case.

Jail records indicate he is charged with child sexual exploitation, a felony, and the aforementioned parole violation. Deputies say more charges are possible.

Bormann was booked into the Coweta County Jail without bond.

The case remains under investigation.

Florida man possessed more than 700 images of child pornography, at least 3 of bestiality: Deputies

ALBERTO LUPERON May 9th, 2023, 2:37 pm

A Florida man who possessed hundreds of images depicting sexual abuse of children and at least three images of bestiality was flagged to authorities when a messaging app reported his account after he uploaded one of the abusive images online, deputies said.

Deputies from the Okaloosa County Sheriff's Office announced the arrest of **Zachary Richard Heath Ward, 29**, on Monday.

"Between the Defendant's Kik and Dropbox accounts, your Affiant observed over seven hundred (700) files of child pornography, and three (3) files containing acts of bestiality," said the probable cause affidavit for Ward's arrest.

According to the sheriff's office, the Kik Messenger app sent the National Center for Missing and Exploited Children a tip on July 21 after someone uploaded child sexual abuse material (CSAM) to the app's platform.

A search warrant turned up seven more files containing the abusive material, authorities said. The defendant's account allegedly transmitted two of them to other Kik accounts between April 27 and April 28, 2021.

"Your Affiant served a lawfully obtained subpoena for the IP address [redacted]," deputies wrote. "The subpoena return revealed this IP Address was a Natting IP Address, which means multiple users are capable of using the IP at the same time. Your Affiant located the phone number [starting with] 706- utilizing the above IP address, which was later determined to be the defendant's phone number."

Investigators said they executed a search warrant at Ward's home in December 2022. Post-Miranda, he declined to answer questions without a lawyer, they said.

More evidence on his iPhone allegedly included messages from his Yahoo email address. A folder, titled "Girls," was in his account and contained subfolders titled with girls' names and ages, which ranged from 12 to 18, deputies said.

Ward faces 30 counts of possession of child pornography, two counts of transmission of child pornography, three counts of bestiality, and one count of use of a two-way communication device to facilitate a felony.

He was booked into the Okaloosa County Jail on Friday, where he remains locked up on a \$345,000 bond. He has no attorney of record.
