Reddit logo

The Snoo head logo is used on all above the line marketing materials and on our products.

The logo is a stylized smiling alien head, a.k.a. Snoo, Reddit's mascot. Snoo represents Reddit's friendly, conversational community aspect.

The logo background is Orangered (FF4500, PMS 172 C), Reddit's primary brand color, chosen for its vibrancy & distinctiveness. The Snoo head is always blank, like a canvas.

Reddit wordmark

Whenever possible, Reddit's icon and wordmark should appear together.

Reddit's wordmark is a refined variation on its classic logo. The rounded letters and shorter "i" reflect the brand's friendly, whimsical nature. The dot on the "i" is Orangered (FF4500, PMS 172 C) and oversized, recalling Snoo's eyes.

The wordmark should be aligned with the Snoo in the horizontal lockup, and the safe area determines relative placement in both configurations.

Clear space

Make sure to leave enough space around the icon and the wordmark, so that they are distinct from other elements on the page.

Safe space around the icon and lockups should be at least 140% of the icon size.

Treatments

Whenever possible, use a Snoo head icon lockup with the wordmark.

The Snoo icon can only be used alone on our platform or as a share icon. Otherwise it should always be accompanied by the wordmark or alongside a headline or other copy mentioning Reddit explicitly.

The Snoo head should always appear blank or neutral with darker eyes and mouth. Never invert the Snoo icon.

When our brand appears on a field of OrangeRed, it is differentiated with a white stroke around the icon.

Snoo

Snoo, the Reddit mascot, is a genderless alien who represents discovery and understanding across communities. Snoo embodies the people who use our services.

Snoo can can time travel. It runs. It hugs. It dresses up. It plays ice hockey. Snoo does not speak. It communicates non-verbally using its antenna, which may have wi-fi capabilities.

Illustrations of Snoo should not be used in place of the official Reddit Snoo head logo.

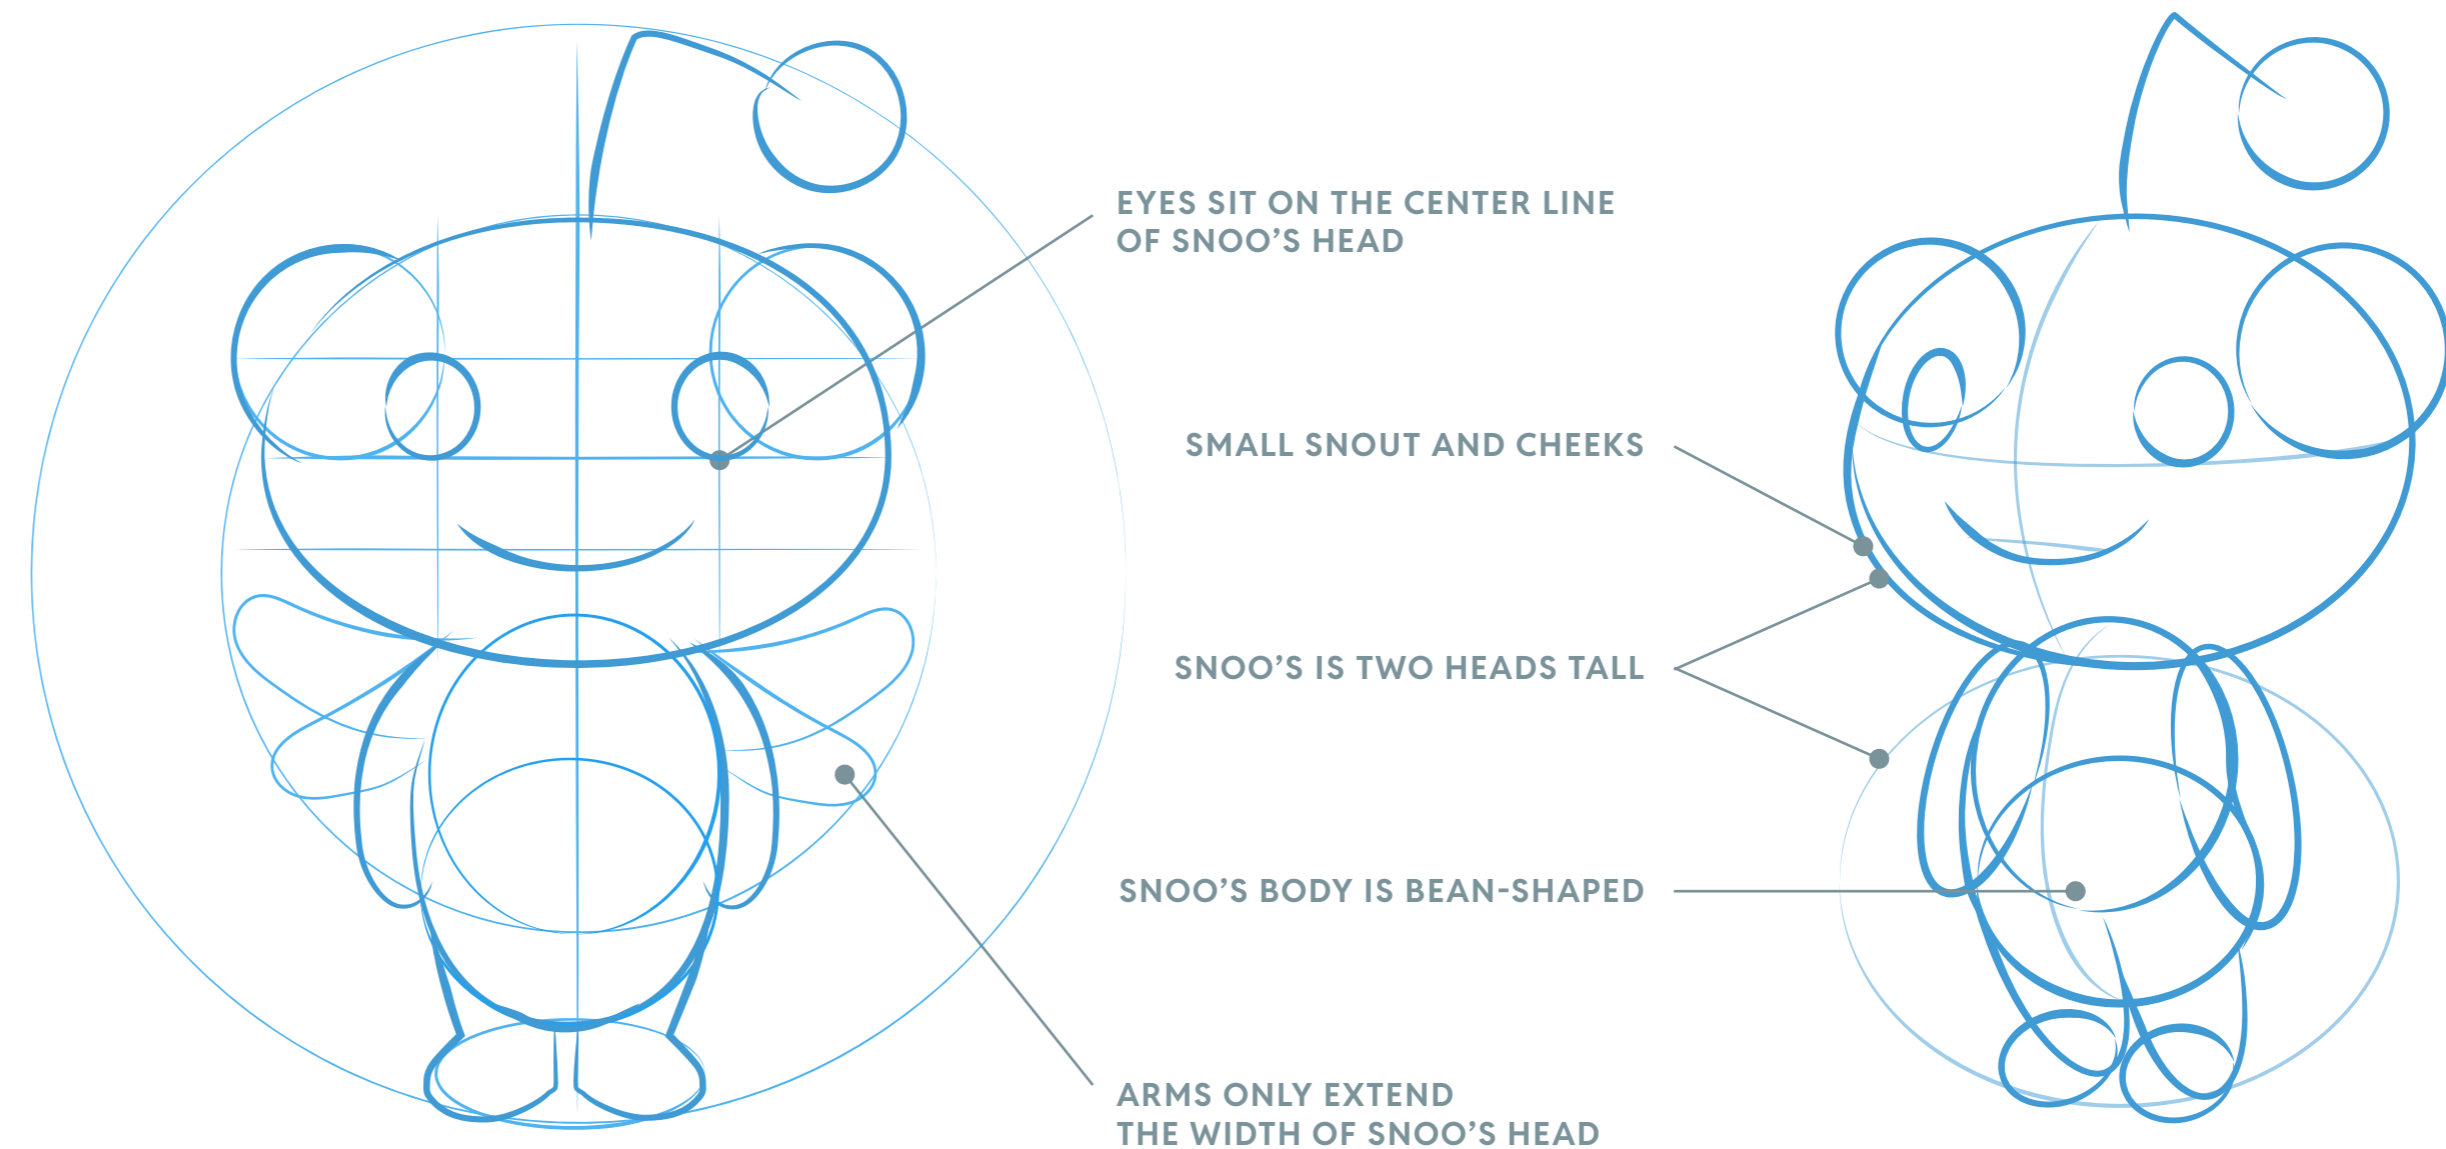

Proportions

Keep these specifications in mind whenever creating artwork of Snoo.

Snoo can have a variety of facial expressions, and the curve and bend of the antenna helps to show emotion.

For certain expressions such as a grin, Snoo may gain teeth or a tongue. But when not expressing emotion, Snoo may have no mouth at all.

Similarly, Snoo's hands normally have no digits and resemble mittens. However, when needed a hint of thumb or index finger may appear for certain hand positions, such as pointing.

Custom Snoos

Custom Snoos represent the people who use Reddit and their communities. They showcase the diversity of our audience and their character, backgrounds, and passions.

Custom Snoos can be customized with accessories, hairstyles, eye and skin colors, and costumes to reflect the people and interests they represent.

Custom Snoos cannot be customized with anything that would break Reddit's content policy, that the average person may find highly offensive or upsetting, that defames or insults Reddit, or is determined to be inappropriate, at Reddit's sole discretion. Custom Snoos are subject to review by Reddit. Reddit users can customize their own Snoo using the Avatar builder in their profile.

Brand Snoos

We occasionally work with brands to create custom Snoos to represent them on Reddit. Brand Snoos requires a [license](#) and are intended to represent fans of a brand on Reddit.

Brand Snoos can wear costumes but does not associate with anything that would break Reddit's content policy, that the average person may find highly offensive or upsetting, or that defames or insults Reddit.

Brand Snoos can be used in on-platform [advertising](#) and may be used off-platform to promote a brand's fan community on Reddit. Custom brand Snoos are subject to review by Reddit.

Brand colors

Our palette is at the core of our identity and is essential for recognition of our brand.

Our primary brand color is OrangeRed, which originated as Snoo's eye color. When used with our range of neutrals, OrangeRed creates a striking focal point for any layout.

We recommend using OrangeRed sparingly, representing approximately 10% of the color surface in a design layout or document.

The brand color palette consists of seven colors arranged in a row. On the left is a large orange-red circle. To its right are six vertical rounded rectangles of varying shades, from lightest to darkest. Each color is labeled with its name, hex code, and PMS code.

Terminology

Our language preferences are the result of research and are designed to help people understand Reddit better. Most of these recommend a primary term that is more universally understood and should be used initially in communications, before introducing synonyms.

Reddit

This is the name for our platform and for the company. Do not refer to it as a 'site' or 'website,' instead call it a platform or app.

Always capitalize Reddit.

Reddit users

A person who uses Reddit is a Reddit user. Names on Reddit are preceded by 'u/' which is an abbreviation of 'username.' For example, "u/spez."

A username may also be referred to as a "Reddit profile" or "Reddit account."

Communities

The various discussion spaces on Reddit should be referred to as 'Reddit communities', or simply 'communities'.

Reddit community names are preceded by 'r/' which is an abbreviation for Reddit. For example, "the r/skincareaddiction community."

Voting

Reddit users can 'upvote' or 'downvote' content the community contributes. The more upvotes a piece of content receives, the higher it will appear.

Front page

The ‘front page’ is our Popular feed where top content is aggregated from across thousands of active communities on Reddit.

“Making the front page” means that a piece of content has become popular enough to be featured in this feed.

Posts

A Reddit ‘post’ is the broad term for any content shared on Reddit, whether it is a story, link, image, poll or video.

Home feed

Every Reddit user’s personalized feed of content is their ‘Home’ feed. Trending content from communities they are subscribed to and Reddit users they follow appear here.

Avoid referring to this as the ‘front page’ to reduce confusion.

Comments

The ‘comments’ sit below posts and are where Reddit users have public discussions.

Profile

Content Reddit users have shared and discussions they have had on Reddit appear on their ‘profile’.

For example, “u/spez’s profile”.

Karma

Reddit users accrue ‘karma’ when they participate on Reddit. Karma is a score that increases as a Reddit user’s posts and comments get upvoted.

Join, follow

Reddit users ‘join’ a community to see posts from that community in their Home feed.

Reddit users ‘follow’ other users to see their posts.

Snoo

Snoo is Reddit’s smiling alien mascot. Snoo’s name is a play on “what’s new”.

When referring to our mascot, ‘Snoo’ should be capitalized. Snoo can also generally refer to its alien race, who are collectively known as ‘Snoos’.
