WHO WE ARE

United Nations Academic Impact (UNAI) is an initiative that unites institutions of higher education around the shared goal of using scientific inquiry, academic research and education to further the realization of United Nations goals and mandates. The initiative was launched in 2010 by then Secretary-General Ban Ki-moon and brings together over 1500 institutions in more than 145 countries to promote higher education's contribution to human progress.

Members of UNAI are required to complete a minimum of one activity per year in support of at least one of the UNAI principles. In return for their active participation, UNAI provides a platform for connecting institutions with similar goals, serves as a resource for information on UN initiatives and activities of interest to the academic community, promotes the best practices and research of UNAI members, connects member institutions to UN entities who could benefit from their research and expertise and invites UNAI members to in-person and virtual events.

Universities are at the forefront of the global response to the COVID-19 pandemic. Institutions of higher education, as shown by the United Nations Academic Impact with its network of more than 1,400 institutions in over 140 countries, have helped millions of people in myriad ways.”

António Guterres, ninth Secretary-General of the
United Nations
